Association News

From The Board of Directors

Our MISSION as the SCOV Board is to lead in maintaining and enhancing the quality of life in Sun City Oro Valley as an active adult community.

All Board minutes, agendas and reports are available online and in the SCOV Library. Board meetings are open to residents.

The Marketing Dimension at SCOV...

by Steve Knapp

... is alive, active and contributing significantly to our community through the professionals on our Marketing Committee with support from dedicated Association staffers.

The Marketing Committee Charter is to "continue to evolve SCOV as an active adult community by designing marketing strategies that target the next generation of SCOV home buyers and by marketing SCOV as a community rich in the amenities desired by active adults seeking a healthy, dynamic lifestyle, including a championship golf course. Promote our community to the Tucson area and beyond, for the express purpose of attracting new residents, new annual golf pass holders and enhancing property values."

In addition, the Committee was assigned two initiatives from the retired Image Committee: 1) Update and improve gateways and signage; 2) Update place names to create a more current, youthful image. It was also assigned responsibility for implementing the new brand name (name change to Sun City Oro Valley) and developing an Identity Manual for uniform graphic standards for consistent use in all SCOV communications.

Accomplishments during the last year includes: announcing the name change to the Tucson community and beyond, interviewing and selecting external resources to build and install new community signage now being placed, defining the process for helping shape community positioning and the committee's planning, naming of all buildings and rooms, and development of an Identity Manual to assure consistent look and appearance (in process). In addition, committee members have supported customer relations training and contributed to the marketing research effort that residents completed at the end of June.

Committee members represent a wealth of management and specific marketing and communications experience, the Ambassador program, plus those with golf, restaurant and real estate expertise. Follow their work through their monthly meeting minutes (see Committees

section of SCOV website). Or attend a meeting (see time and location in Calendar section). Guests are always welcome, as are prospective regular members or project advisors with special skills, e.g. marketing research, training, personal selling, graphics, advertising, media, public relations, publishing and others.

Identity Theft

Recently it seems there are been more than the normal number of scams occurring. Although there hasn't been much talk of identity theft in the community, I thought it might be helpful to pass on steps you should take in case you find yourself with a missing wallet or indications that your identity may be at risk.

The Federal Trade Commission suggests you:

- File a report with police immediately. This provides needed proof of the crime for your bank, credit card company and insurance company.
- Cancel each credit card. Ask for new cards and new account numbers. Then, call the major credit reporting agencies to report missing cards and place a fraud alert on your accounts. Equifax: 800-525-6285, Experian: 888-397-3742, TransUnion: 800-680-7289. Ask for credit reports, too, to search for any discrepancies.
- Call your utility companies. Inform them someone may try to receive new service with your identification.
- Contact the Social Security Administration at 800-772-1213.
- Report the loss to your bank. Cancel checking and savings accounts. Open new ones, and stop payments on outstanding checks. Ask for a new ATM card, account number and PIN or password.
- Call the motor vehicle department. Report your missing driver's license. Get a new number that's not your social security number.
- Change the locks. If keys to your car or home were taken, you don't want to give an identity thief access to more personal property and information.
- Contact your insurance companies. Prevent an identity thief from adding himself or herself to your policies.

Once you take these steps, pay close attention to your accounts. Be your own fraud investigator by taking notes of everyone you speak to, the date and time of the call and what you talked about.

It's always important to be wary of thieves. Try not to stuff your purse or wallet with all your things: from your checkbook, pay stubs and credit cards to ATM cards, driver's license and health insurance cards. It can take years to recover from identity theft because thieves can hold onto your information and trade it with others. Order your free credit report annually to watch for suspicious charges or accounts.

"One should eat to live, not live to eat." Benjamin Franklin.

A balanced food plan that emphasizes fresh vegetables, fruits, legumes, whole grains, low-fat dairy, nuts and seeds, and a minimal amount of healthy oils provides high nutrient density and no empty calories. This is referred to as the *modified Mediterranean diet*. Enjoying lots of fresh veggies, fruits, lean meats, fresh fish (when in season) and whole grains will help you feel your best and live life to its fullest. Vary your diet to keep it interesting, fun and good tasting. Prepare vegetarian meals or experiment with different spices for your food. Use different cooking methods, e.g. roasted or grilled vegetables, kabobs or poaching your fish. Get a smoothie mixer, e.g. the Blendtec or Vitamix to make delicious blends of fresh fruits and vegetables to start your day.

Second and Fourth Tuesdays, 1 PM, Welcome Center/Conference

As our committee makes its various inspection visits to residences, we see an item that is not often mentioned or

is paid much attention. That item is the front porch/garage light fixture. Some have been replaced, but many times we still see the original "brass and glass" fixture installed by Del Webb. Almost always these are badly tarnished, dirty and often crooked. Please inspect your lights and clean and or replace if needed. Home Depot, Lowes, Ace and other stores sell many different styles and colors that integrate well with our colors and architecture at very reasonable prices.

Aluminum Can Donations: Put those aluminum cans to work for SCOV. Deposit empty, rinsed aluminum cans in the box outside the Activity Center kitchen. For safety reasons, do not deposit unrinsed cans which attract bees and may become a hazard. Profits fund the equipment for the Loan Room. Please help us by recycling your aluminum cans, but place your trash in your own trash containers.

In the last trip to the scrap yard for the 2012-2013 fiscal year: we delivered 380 pounds of cans and received \$239.40. This brings our final fiscal year totals to 5,020 pounds collected. That is 2½ tons of aluminum cans, and a total of \$3,100.80 received for the benefit of the CAC.

The Loan Room is a useful addition to other services available in SCOV. It remains open throughout the year every Tuesday and Thursday morning from 8-9 AM and is located at the end of the Cart Barn. Items available for loan are medical, table and chairs, rollaway beds, and children's items. Please come visit us to reserve or pick up items you need. We look forward to helping you.

Did you know that everything for sale in the Gift Shop is made by a resident of SCOV? From the craft corridors, fine arts classes and home studios comes a variety of unique and wonderful things to enjoy and provide as gifts to those we love. Stop by the center window to enjoy the works of September's featured artist of the month, Barbara Gioioso. Barbara has been silversmithing for seven years, using lost wax casting, lapidary and other techniques to make her lovely earrings and necklaces. She also assists with teaching introductory classes in the Silversmith studio, where you can find her for a chat on cooler mornings. The Gift Shop welcomes new consignors and appreciates volunteers who simply want to be surrounded by lovely things, helping others find that special gift.

The Rains Did Come

The monsoon rains did arrive, and with that, so did new growth of foliage, including many weeds. Keep an eye out for Desert Broom and Spurge, and catch them early. Look at the cracks in your sidewalk, driveway, and where the cement meets the asphalt, as that is where Spurge is many times found. Please make every effort to stay ahead of the weed situation in your yard.

With the summer rains, new growth on trees and shrubs also occurred. Trees must be kept trimmed more than seven feet above sidewalks, may not overhang any street by more than two feet, and should not block stop signs. Shrubs should not extend out over pedestrian walkways. Most bean pods are down now and should be removed from the ground in your yards.

Thank you for continuing to take pride in your home and our community.

Here's is a list of things SCOV residents can do to help maintain the safety of this community:

- Join the Posse and regularly participate in patrols.
- Keep newspapers, phone books, advertisements, etc., from accumulating on your and your absent neighbor's driveway and entryway.
- Keep garage doors closed, day and night.
- Make sure all doors and windows are locked when you are away and before retiring for the night.
- Close windows and lock the doors on vehicles left outside, and place valuables and garage door openers out of sight.
- Don't let strangers talk their way into your home. Ensure solicitors can present the proper credentials issued by the Town of Oro Valley.
- If you use a computer, learn how to protect yourself from computer viruses and other malicious activities.
- If you see something that doesn't seem right, don't hesitate to call 911 no matter how trivial you think it may be.

Randy Trenary, Controller

Assistant Manager - Robin Coulter 2013 SCOV Survey Update

In December 2012 Director Knapp made the motion and the Board approved to, "develop a membership survey to be mailed with the annual dues statement in May 2013. The purpose of the survey is to inform near and long range planning and to improve communications and understanding of current owners' varied interests."

A special task force of the Strategic Projects Committee was assigned this responsibility, headed by Jim Williams with input from other SCOV residents with expertise in developing surveys, and to develop the questions for this survey. The task force met with various committee chairs and club presidents to determine present and future wants and needs. They also reviewed past SCOV community surveys. The privacy of the use of data was and is important to those involved with the survey.

The last major survey of SCOV was in 2008. The 2008 survey resulted in 1903 responses from the owners. It served as the basis for the important 2009 Long Range Plan which resulted in 31+ initiatives, most of which were adopted and have been implemented. Some initiatives, like the new signage, are being completed this summer. This cycle has taken six years to complete.

The survey of 2013 was a longer, in-depth survey intended to take the pulse of our community. There were 1998 surveys returned, 95 more than the 2008 survey. There were 19 questions asked. In those 19 questions there were a total of 268 options from which to select. Question 16 alone had 43 options (this was the question with the list about use and satisfaction of activities in SCOV).

It was the responsibility of the Association to tabulate these responses. A team of residents took on the job. Dave Smoler developed the spreadsheet. Ann Fall, Diane Smith, Norma Meyers and Kat Peabody organized and numbered the surveys. Nancy Njaa, Kay Sheetz, Janice Strassburg and Mary Ayers tackled the daunting task of entering the responses to all 37,962 questions into the spreadsheet. At first there was a sense of being overwhelmed, but as these individuals began to work their way through the surveys they became more confident and proficient at the task. I am very appreciative of their outstanding, thorough work. If you have the opportunity, please thank them as well.

The survey results have been sent to a professional in the field of survey analysis from the University of Arizona Office of Institutional Research and Planning Support to develop frequency tables and identify significant differences in types of respondents from various groups and any tests of statistical significance that she observes. The results of her report will be received before September 15 and will be made available to residents.

It is anticipated that this survey will be the launching point for a new Long Range Plan and hopefully the development of a standard survey to be conducted on an ongoing, regular basis (every two-three years or so) so that we will be able to observe trends. Additional surveys may be taken to amplify topics or gain information

on a specific topic. These surveys have been and will continue to be a useful tool in maintaining and enhancing our community.

Programs/Facilities Director - Pam Sarpalis AFC Pool and Mini Gym

Thank you to everyone who has called, emailed or just stopped by to say how great the mini gym is. Some even say it has made them really look forward to the new gym area. The new gym will have new views and equipment. For those of you who use our gym on a regular basis, you know what I mean when I say it will bring a wonderful change to your workout.

The AFC pool, as of this writing, has been able to cool off residents for most of the summer. There has been no monitor on duty, but the emergency phone is installed and the address of the pool is next to the phone. Management has always tried to work around projects to maintain some use for residents. We all made it through the Café and Artisan Center remodels, and I'm sure we will make it through this project. Thanks to all who have been cooperating during our construction.

Community Services - Jim Cundiff

Office open 10 AM-Noon, Monday-Friday, Welcome Center
917-8058 jcundiff@suncityorovalley.com

New lighting fixtures may be approved by the Community Services Coordinator if all applicable criteria are met. Approval must be granted in advance of installation.

3. Flood or spot lamps shall be installed within a housing and aimed no higher than 45 degrees to the horizontal (halfway between straight down and straight to the side) and shall be calculated at 100 lumens when the light is visible from an adjacent property. 4. Seasonal holiday lighting is permitted from Thanksgiving to January 15. For other holidays and days of celebration, lights may be displayed from 15 days before and shall be removed within 7 days after the celebratory day. All holiday lighting must be turned off between 11 PM and sunrise.

Utility Box Painting Continues

If necessary, please trim shrubs around utility boxes to make it easier to continue the Association painting of the utility boxes in private yards this summer.

Café News

It's monsoon season. Come into the Café to relax and enjoy a cup of our homemade soup with half a sandwich. There are many fantastic changes being made at the Café right now. Last month, Shamrock Foods conducted server training. We hope this will result in a more efficient and enjoyable atmosphere.

There will be new creative menu items out this month and we would love for you to come try them out. For example, we will be having a traditional style Huevos Rancheros served with a creamy Ranchero sauce with refried beans, and Fettucini Alfredo with steamed broccoli. Please give us your input. The Café will be offering calorie counts for menu items in the future.

The Café is offering you a chance to receive a free breakfast or lunch if you turn in a comment card. Monthly comment cards are randomly drawn for the free meal. The July winners: Sonya Utseth, Martin Kodlick, Wayne Miller and Fred Krohn. Congratulations and bon appétit.

Recreation and Fitness - Lonnie Davis

Exercise for Your Independence

You know staying physically active can help keep your body young even though the calendar says you're getting older. A new study from the University of Pittsburgh suggests that the more you move, the longer you'll be able to live independently. The study found that those who were sedentary over the study period were 1½ times more likely to have a hard time with daily activities. Think of your workouts as a way of ensuring your independence.

Golf

Head Golf Professional - Kim Griggs

September is the start of our overseeding on the golf course. The course will be closed from Saturday, September 21–Thursday, October 10. The course will reopen on Friday, October 11, and will be cart path only through Friday, October 25. During overseeding, the Pro Shop will have limited hours of operation. During the week we will be closed, and on Friday-Sunday, we will be open from 9 AM–2 PM. This would be an excellent time to get your shoes resoled, buy shaft labels to put on your clubs or get your clubs regripped.

Walkers may still use the cart paths for their morning or evening exercise, however please do not walk on the golf course. When we re-open on Friday, October 11, tee times will begin at 7:30 AM and shotgun starts at 8 AM. All walkers and riders must be off the course by 7 AM please. Thank you for your cooperation.

We will once again support the Patriot Golf Day. This is a very worthy cause as the monies collected go to The Folds of Honor. This Foundation provides post-secondary educational scholarships for children and spouses of military service men and women killed or disabled while serving our great nation. We ask anyone wishing to donate, to come to the Pro Shop and drop some money in our canister.

Superintendent - Michael Kropf

September marks the end of the summer in regards to golf course maintenance in Southern Arizona. Starting in the spring, all the attention focused on growing and establishing Bermuda grass while eliminating winter rye grass. That thought process changes in the month of September. The Bermuda grass is slowed down and slowly prepared for overseeding for a return of the winter rye grass.

The Bermuda grass growth is slowed down with growth regulators, a reduction of fertilization, and cultural practices like verticutting. This process slowly reduces the thickness of the Bermuda canopy to allow for better infiltration of rye grass seed. All the work performed during the summer not only provides a great playing surface, but also provides a good seed bed during overseeding. When the canopy is too thick the rye seeds get stuck too high from the soil surface and can't get roots established. This results in a thin canopy that doesn't look good when the Bermuda turns brown in the winter. Areas in the fairways that didn't recover during the summer are also difficult to establish rye grass seed because the seed will dry out quickly and die from being exposed.

This year the front nine is going to have some areas around the green edges overseeded. Hopefully, this will provide better playing surfaces during January and February when the dormant Bermuda is trampled down. The negative to overseeding these areas is that they will be thin next summer so they will need to be fixed just like the fairways are every June.

From one of the most unique, remote and beautiful parts of Afghanistan, Fawzi describes the oppression of women, the refusal to educate girls and a myriad of other abuses.

Great Books

Pres. Barbara Gates 825-7645

VP Sharyn Rafieyan 825-6762

October-May, First and Third Wednesdays, 2 PM, Catalina Vista/Mt. Lemmon

Next month we'll resume our twice-monthly meetings by discussing the first two selections in *Great Conversations 6*, available from The Great Books Foundation, 800-222-5870 or www.greatbooks.org.

October 2 we'll probe *On Tranquility of Mind* by Roman philosopher Lucius Annaeus Seneca. Though banished for alleged adulterous behavior, Seneca is famous for expounding on Stoicism which stressed the importance of moral virtues. Perhaps he recanted his earlier ways or was wrongly accused for he was later recalled and became tutor to Nero who apparently failed to adhere to his teacher's teachings. Nevertheless, we can certainly learn from his lessons on how to achieve mental serenity.

October 16 we'll turn to aphorisms from Francis Bacon's *The New Organon* in which he attempts to establish a new approach to examining the natural world by means of direct observation, carefully constructed experiments and the use of instruments.

Different Drummers Women's Circle

Leader, Diana Magness, magnessdd@gmail.com

Co-Leader Zona Boss 638-6644

Wednesdays, 1:30-3 PM, Catalina Vista/Pusch Ridge

The purpose of this new club is to provide a community drum circle for any woman wanting to connect with others through hand drumming, using African Djembe drums, hand-held Native American frame drums and other small percussion instruments.

For thousands of years, people worldwide have used group drumming to energize minds and bodies, strengthen community bonds, release stress and to celebrate life. Recent clinical studies have also conclusively documented some of the many physical, mental and emotional benefits of purpose-driven drumming.

All women are welcome regardless of experience. Drums and instruments are provided for those without or they can just listen to the rhythms.

Looking forward to seeing everyone Sunday, October 6, our first meeting this Fall. At that meeting we will be making final arrangements for Peter Phippen's Concert and Flute Workshop in SCOV, Friday, November 8.

"Playing a flute is like writing a book. You're telling what's in your heart...It's easier to play if it's right from your heart. You get the tone, and the fingers will follow." Eddie Cahill.

welcome at our monthly meetings. We welcome new members, both historians and model builders. We have continued our monthly meetings during the summer. Join us to see what we are about and enjoy a cup of coffee and a sweet roll. What members bring in for Show and Tell serves as a conduit for our discussions. A member's scale model may be an example of something another member may have had some first-hand experience either in designing, building the prototype or operating the prototype.

Pilates

Mary Ayers 638-7916 mary.pilates@gmx.com
Mondays, 3 PM, Thursdays, 1:30 PM, Dance Studio

Everyone is always asking "Is Pilates good exercise for seniors?" The answer is definitely yes, and group classes with our certified Pilates instructors are the best way for us to practice the exercises. We always start out our classes with warm-up exercises and deep breathing. The more strenuous exercises are modified for those of us with limitations. All in all, the benefits of Pilates can't be beat. They include increased core strength (abdomen and back muscles), balance, flexibility, muscle tone, stamina and well being. The founder of Pilates, Joseph Pilates, practiced his methods well into his eighties. Please come and give our classes a try, or for your first time, just come by and watch. If you participate, the cost is only \$8/class and annual club dues are \$20 pp. Please feel free to call Mary at 638-7916 if you would like more details.

Poets Corner

Elise Asch 818-1345
Mondays, 9:30-11:30 AM, Desert Oasis/Saguaro

Many of us can empathize with feelings of loneliness but poets manage to find unique and very personal means of expressing such emotions. Stuart Dischel's "Proclamation" adds a new perspective to this universal theme by showing us how others might view the problem as a possible solution. "The governor will give/Homless people sleeping bags,/Let them stay the night/On windswept porticos/Outside his buildings/Instead of your doorstep./I am talking to myself/With empty rooms/I cannot bear to live in." This poem uses plain language to express vivid images, deep feeling and a concern for others as well as the self. As poets, we often manage to open locked doors and reveal the contents of our own forbidden rooms. Sharing our poems, we share ourselves, finding not only release, but relief. This is a group that offers hugs along with critiques. Join us.

Many of us in the club feel that the time we spend together on Tuesday mornings is the most fun we have all week, and there are always new things to learn. It seems the ukulele is much more versatile and complex than most people would assume at first glance, and the popularity of the "mighty uke," as it's been called, is at an all-time high world-wide. Little wonder that it's so popular since it is indeed a "little wonder."

We will be performing Saturday, September 7, 6:30 PM at Catalina State Park. Come out and enjoy the music. We always appreciate your support.

We won't be signing up new members until later in the fall, but you can come to one of our Tuesday meetings and see what we do. We have loaner ukuleles to get you started right away.

Leslie's Movie Review: "Red 2 "

Went and saw Red 2 at the movies last night. Will admit I was not really in the mood and was not particularly excited about the movie choices I had. Was either Wolverine, Red 2 or Elysium (a sci-fi film). The time was best for Red 2. So glad I went. It was funny. Over the top violence but no gore, relationship advice given between gun battles, Helen Mirren looking gorgeous and running in 4 inch heels while shooting the bad guys, Anthony Hopkins playing a truly mad scientist. Car chase scenes that were more hilarious than scary. All in all, all the "good" guys got together to fight the bad guys. Even though they were trying to kill each other from time to time, they all came together for the greater good and saved the world. Cast of Bruce Willis, John Malkovich, Catherine Zeta Jones, Mary Louise Parker, Helen Mirren and Anthony Hopkins - how could it be bad? I had never seen the first Red movie and will now check it out on Netflix but Red 2 stood fine on its own.

The Original Re-Paint Specialists

Serving Sun City Oro Valley Since 1998.

We can't thank you enough for the great job you and the O'Brien team did in marketing our house here in Sun City. We don't know if it was due to your incredible prominence on the web, the vast resources of the Long Realty organization, or your own personal charm, but there was never a shortage of potential buyers wanting to see our house. We suspect the key to your remarkable success is not only your wealth of experience in the real estate business, but also your unfailing warmth and graciousness and the day-to-day contact you provide. Just a hunch, but we have a feeling these are probably the reasons your office seems to run so smoothly and effortlessly. Dick & Kay Jacobs
