Activity Center Renovation

by Chris Ludwig

Following approval by the community to renovate the Activity Center, these are the major steps to accomplish the renovation:

- Three teams have been established and responsibilities defined.
Lead Team will be responsible for directing the overall project.
Inspection Team will conduct weekly inspections of progress.
Finishing Team will make recommendations for interior designs.
- Three architectural firms submitted proposals, Highton Company, LLC, was selected and the contract has been signed. They were involved in the conceptual design phase of the project after soliciting input from SCOV staff, clubs and users of the Activity Center. Highton has met with the Town of Oro Valley to understand their requirements and processes.
- Four general contractors received a Request for Proposal (RFP) from the Lead Team with bids being submitted by May 17. By the time the June *Tipster* is available, the Lead Team will have completed a detailed review. A contractor will be selected in June.
- Tentative timetables for SCOV teams, residents and staff are as follows:
July 1 – Activity Center closes.
July 1-30 – Clubs will remove their equipment, supplies and empty storage areas.
End of July – Lead Team, architect and selected contractor will prepare permit applications.
August 1 – Staff will remove all SCOV equipment and supplies.
September – Contractor will begin non-permitted work.
October – Town of Oro Valley will issue permits and renovation begins.

Staff has contacted clubs who use the Activity Center to find alternative places to meet during construction. It appears

that there is space available within SCOV facilities, although some club dates and times may need to change.

How can we all help during this major construction process? Be informed. Read the updates provided in "This Week in SCOV." Go to our website on the SCOV homepage to view more detailed updates, questions and answers on the Activity Center Renovation tab. Most of all, stay positive and flexible as we undertake this project together.

Greens Project a Success

Now that we are well past completion of the golf course greens project, you may have wondered, "Was the greens project a success?" Let me help answer that question for you.

One of the goals was to increase the root zone for the turf. Prior to the project, the root zone was a shallow two inches or less. Although the turf has been dormant through the winter, the root zone is now deeper than eight inches. This is a huge improvement.

Another goal was to improve the permeability of the soil and be able to flush the excess salts through the soil profile. Another success, this is working so well we do not have a buildup of salts in the soil.

Do we have concerns? Yes we do. The greens are nine months old and they are showing a lot of traffic wear due to the number of rounds being played, according to our golf course superintendent, Michael Kropf. These new greens are just now transitioning out of dormancy and they require a completely different regimen than the previous greens. So far over 125 tons of top dress sand has been added since sprigging (planting). Fertilizer has been added weekly and will continue for several weeks in an attempt to combat the wear in thin areas.

Coyotes tore up several areas on several greens in the fall. Many of those areas are still recovering.

So in answer to the question? The goals for the project have been met successfully. Now comes the development of a new greens maintenance program. To develop such a program could take a few years. Over the next few years you will see the greens mature and work toward perfection.

Insider's Guide to Summer Survival in Southern Arizona

by Marsha Dean

If this is your first summer in Oro Valley, take heart. Surviving the heat is doable, it just takes some planning. The warm sunny weather that we enjoy three seasons of the year can become oppressive during the summer months. Native Arizonans and those who have lived here a few years know that a good home air-conditioner and staying indoors during the hot daytime hours make the hot months bearable. Stave off cabin fever by indulging in some of these fun summer activities.

Visit Mt. Lemmon. About an hour's drive from SCOV and 6,000 feet higher in elevation, this Catalina Mountain getaway is part of the Coronado National Forest and always about 30 degrees cooler than Tucson's desert floor. You can hike, ride the chairlift at the ski area, picnic among the pines or enjoy a slice of the famous pie at the Sawmill Run Restaurant. Access via Catalina Highway, a winding mountain road (www.fs.usda.gov/attmain/coronado/specialplaces).

Tucson's world-famous **Arizona-Sonora Desert Museum** is open on Saturday nights in June. Avoid the heat of the day and learn about the Sonoran Desert from docent presentations underneath a starry sky. Advance reservations required (www.desertmuseum.org).

South of Benson, AZ, you can cool off inside **Kartchner Caverns State Park**. Tour the underground Rotunda/Throne Room living cave (Big Room is closed during the summer). The cave is 70 degrees year-round with 99% humidity, but still cooler than outside summer temperatures. Kartchner, formed over tens of thousands of years, was discovered in 1974. The land owners, cavers and State worked hard to create the park to preserve and protect the cave. Advance reservations are required for the tour (www.azstateparks.com).

Colossal Cave, near Vail, is a bit closer to Oro Valley. A dry cave, it is a bit cooler inside, so provides some respite from the daytime heat. Take a tour and stop at the cafe for a cool lunch. Advance reservations for tours are required (www.colossalcave.com).

Venture a little further to **Ramsey Canyon Preserve** near Sierra Vista. A full day trip, or consider an overnight stay. Enjoy a hike, birding and wildlife with average temperatures 10-15 degrees cooler than Tucson (www.bit.ly/33J4UJ5).

Museums are always a good way to beat the heat and

are seldom crowded in the summer. **Tucson Museum of Art** is located in downtown Tucson with convenient free parking. Rotating exhibits with permanent Southwest and Western art collections are on display. Café a la C'art is worth a visit for breakfast or lunch (www.tucsonmuseumofart.org). Also downtown is the **Museum of Contemporary Art**. Find parking at meters or paid surface lots (www.moca-tucson.org). Walk to nearby El Minuto for a delicious Mexican meal.

Arizona History Museum (www.arizonahistoricalso-ciety.org) and the **University of Arizona State Museum** (www.statemuseum.arizona.edu) are both on or near the

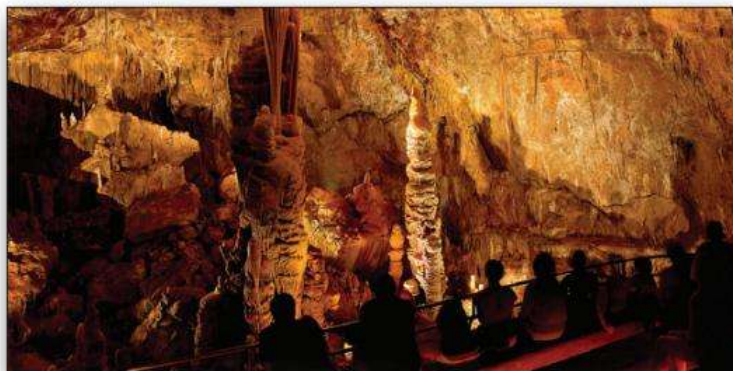

University of Arizona and both provide insight into Tucson's past. The State Museum on the university campus is known for its vast collection of Native American pottery.

If you have family or children visiting, the **Reid Park Zoo** has Summer Safari Nights until mid-August. Enjoy live music, food and drink specials, games and activities while avoiding the heat of the day (www.reidparkzoo.org).

Mini golf is always popular and **Funtasticks Family Fun Park** near Tucson Mall has golf, bumper cars, laser tag and more (www.funtasticks.com). **Golf n' Stuff** is a farther drive, but the bumper boats are sure to help everyone cool off (www.golfnstuff.com/tucson/info.html).

Show you're a true Tucsonan with a refreshing fruit slush from **eegee's** (www.eegees.com). They're good year-round, but especially refreshing in the summer. Dash down Oracle Road, just past Magee for a tasty lemon, or try their flavor of the month. Journey a little farther to Ina for a cold refreshing gelato at **Frost**. Locally made and a huge variety of flavors for you to enjoy (www.frostgelato.com).

You've got this. Only go out in the early mornings and evenings, avoid mid-day heat. Carry water with you always. Don't wait until you're thirsty to drink. If you do go out during the day, sunscreen, a hat and water are musts. Learn from our area wildlife who come out in the evenings to enjoy the pleasant breezes, mosquito-free. Summer in Southern Arizona is bearable, even fun, but let it be our secret.

Kartchner Caverns State Park offers tours of the beautiful cave interior

eegee's fruit slush is a unique Tucson frozen treat

Every Day Brings Changes

At the time of this writing, Covid rules seem to be changing daily. Each day brings a new challenge in keeping the residents of SCOV safe. I want to take the time to thank the residents who have been following the rules set forth by the Association and praise the monitor team for enforcing those rules when they were sometimes met with resistance. As we move forward to the renovation of the Activity Center, all clubs need to have removed everything that belongs to their club, as we must have everything out of the building by July 30. Thank you.

Happily, things are almost back to normal in the Library. We are operating at our pre-pandemic weekday hours and open the first Saturday morning of each month. Quarantine requirements have been lifted, which means items can be returned inside, including puzzles. Perhaps the best indicator of near normality in the Library is that the Tootsie Rolls are back!

One positive outcome of restrictions of the past year is that residents are much more proficient at using the online library database from home. Usage is up dramatically. While some residents already knew how to access our collection from home, many of you learned how to use the system by watching the two "How-to" videos, created by resident Garry Buck, on our website. From the videos you can learn how to sign into your account, see what's new, place items on hold and much more. I recommend clicking on "BROWSE NEW ITEMS," as you will see all the books, videos and audios added in the last two weeks. Or search for items new in the last 30 or 90 days. So far this year, we have added over 100 new items each month. This includes not only newly purchased items, but recently released titles that have been donated by residents. Did you know that waiting times for popular titles are always shorter here, than at the Oro Valley Public Library, as extra copies of hot titles are purchased when the waiting list gets to about nine people? Thank you for supporting the SCOV Library with donations, Friends of the Library memberships and your patronage.

The Dangers of Outside Summertime Workouts

Many prefer exercising outdoors, soaking in the sunshine and nature, but that may not be the healthiest choice during the summer months. Exercising outdoors in the heat and sun puts you at higher risk for sunburn, dehydration and heat stroke. As it starts to warm up, you need to give yourself time to acclimate to rising temperatures. While it takes a good 14 days for your body to adjust to the heat, hydration quickly becomes the biggest concern. Heat exhaustion cramps are a common side effect from dehydration when your body is unable to handle the heat and intense loss of fluids.

How hot is too hot to work out outside? While there is no simple formula to answer this, it is typically wise to shorten the duration of your workout if it is hot outside. If you are unsure about your body's tolerance to exercising in the heat, cut the workout earlier than you think you need to. It is also important to remember to drink more water than you normally would before you start to feel dehydrated. As temperatures rise, so do the risks that accompany exercising outdoors. This summer, as you lay out your workout program, remember it might be safer to skip out on the sunshine and keep your workout indoors.

It's that time of year again when our trees, bushes and hedges are growing quickly and probably in need of trimming. Maximum height of hedges is three feet, six inches (3'6") in your front yard and six feet (6') in your side or rear yard. Take a look around to see if you are obstructing your neighbors' line of sight. Is your shrubbery or hedge at the end of your driveway taller than 42 inches? It could become a sightline hazard when exiting. How about your trees that border the sidewalk? Are they trimmed up at least seven feet? Can you see the stop sign or has it been overtaken with new growth? If your home is on a corner lot that is controlled by a stop sign, the next time you go for a drive, see if any vegetation is impeding the sightline for someone turning onto a busy street. Checking out your yard and landscaping is what makes SCOV a beautiful place to live and keeps peace with neighbors.

Checking out our SCOV Development Standards Landscaping Section 2.18 makes for enjoyable reading, and you may find a fact or two that you didn't know or had forgotten. Read online www.suncityorovalley.com, choose Members > Documents > Development Standards.

Is your deceased partner still listed? A lot of people like to keep their loved one's name in the directory, for safety or for sentiment, so deceased spouses are removed only when the surviving spouse requests it. If you've decided it's time to update your listing, just let me know.

To update your listing in the directory, the preferred method is to complete the online form "To change your directory

listing...." Otherwise, you can fill out an orange card at the Welcome Center.

Food and Beverage

Chair Wendy Hughes

First Mon., 2-3 PM via Zoom

Remember those days when we used to sit in our lawn chairs on the grassy knoll at The Views Restaurant and listen to live music? Well, happy days are here again! The Views is once again welcoming all those music lovers who have been holed up in their homes due to Covid, back to the grassy knoll with no cover charge (exceptions may apply). There are some limitations, of course. The grassy knoll is located within the confines of The Views' liquor license and therefore, BYOB is not available to us music lovers. So, if you go, you CANNOT bring your own alcoholic beverage nor can you bring your own food. For the time being, there will be no staff service available to the grassy knoll area. However, we recommend you order food and drinks from the takeout menu, and the staff will call you when it's ready to be picked up. A donation jar will also be available to help defer the cost of the entertainment. It's so nice to finally see at least some things coming back to normal.

SCOVID has been enjoying some nice weather for hikes,

pool time, hobbies, biking, etc. However, as the temperature rises, we may have to pass on outside activities. Check the Library for new books, puzzles, films and more. You can enjoy these new resources in cooler temperatures.

The Friends of the Library will host another "Great Views" program hosted by Garry Buck on Wednesday, July 14, 10 AM, Catalina Vista/Mt. Kimball and Pusch Ridge Rooms. Please note that this is a change in date and venue due to the Activity Center renovation. This film preview event is for Friends of the Library members only. Attendance is limited and online reservations are required. You can make your reservation by going to the Library website beginning Wednesday, June 30. If you are not a Friends of the Library member and want to join, please contact the Library.

The Library has much to offer throughout the year. Your support is greatly appreciated.

Gift Shop 520-917-8051

Shop Hours: Mon.-Sat., 10 AM-1 PM www.suncityorovalley.com/gift-shop

As we get ready for heat and monsoon season, the Gift Shop is a welcome respite, so stop by and see what's new. Featured artists are Jan Bohe and Joan Caine.

Jan Bohe and Joan Caine

Jan makes canvas bags that store plastic bags from the grocery store, etc. They are totally handmade, as Jan buys the canvas by the yard, measures, cuts, appliques, paints and sews them. Sometimes, she makes them to specific design orders. She also makes aprons for adults and children as well as other sewing items.

Joan moved from Seattle to SCOVID four years ago and discovered her passion for glass. She started in stained glass, then migrated to fused glass projects. Some of her pieces may have the same basic theme, such as her Ugly Christmas Sweaters, but most of her work is one-of-a-kind. All of her fused glass is food-safe, but the majority of her work is for decorative display.

The Loan Room is located at the end of the Cart Barn and is open to all SCOVID residents Tuesdays and Thursdays, 8-9 AM. Reservations may be made up to two months in advance of need, either at the Loan Room or on the website, but walk-ins are also welcome. When using the website, please remember that you are only making a request for

items; it becomes a reservation when the process is completed by staff, usually twice a week. You will then receive a confirming email about your requested items. We have available most medical items, but some of the toys are one-of-a-kind, so might not be available at the time of your request. During holiday times or seasonal parties, tables and chairs might be in short supply. We are open throughout the summer on regularly scheduled dates unless otherwise notified. We greatly appreciate your continued support of our aluminum can recycling program.

Neighborhood Pride

Third Tue., 2 PM, WC3

Summertime – Time to Remember

- Trees must be trimmed up at least seven feet above the sidewalk and back to no more than three feet out over the street.
- Cactus and/or bushes should not extend over the sidewalk where they may be a danger to walkers.
- Exposed soil on your property needs to be covered by rock.
- Weeds in cracks of driveways, sidewalks and where the cement meets the asphalt of the street are the responsibility of the homeowner to remove.
- Artifacts, including empty pots, are not allowed in front yards. Pots should be planted with live plants, as artificial ones are not allowed.
- For safety reasons, trim any vegetation that blocks address numbers on your home and stop signs at corners.
- Shrubs near the entrance to your driveway need to be cut down to a height of less than 42 inches so as not to block visibility of a vehicle exiting the driveway.

Thank you for remembering the above reminders from Neighborhood Pride. Have a wonderful summer.

Posse

Chair Linda Simón 520-789-7169 posse@5LP.com
First Tue., 3 PM, Desert Oasis (no meetings until further notice)
www.scovaz.com/committees/posse/ (must be logged in first)

I recently met with Police Chief Kara Riley. We discussed the SCOV Posse, community policing and the Town of Oro Valley's new Unsung Heroes series on YouTube. Chief Riley indicated that our Posse acts as additional eyes and ears for the police. Criminals are aware of areas that work closely with police and tend to go elsewhere. Police can then concentrate their efforts on areas with a higher criminal activity. Business owners and organizations like our Posse are part of the community policing efforts of Oro Valley Police Department (OVPD).

Officer Alex Carillo was the first officer showcased in the Unsung Heroes series. He's been an OVPD officer for two years and has already saved two lives. One was a one-year-old girl he revived after she fell in a pool, and the second was a 42-year-old father of three who had a cardiac arrest. Our community is lucky to have our own Unsung Heroes as well. Thank you to all.

Properties

Chair Rich Oaks richoaks114@gmail.com
Third Thu., 9 AM, via Zoom

Summer is here and residents find it advantageous to park in the shade provided by the solar panels in the parking lots at the Mountain Vista complex. When parking under the panels, you might notice the electrical boxes on some of the vertical poles that support the panels. Those boxes contain the inverters that convert the DC power generated by the solar panels into AC power that is used in Association buildings, thereby saving the HOA money and reducing the community's carbon footprint. The "humming" noise at the boxes indicates the equipment is operating normally. The Properties Committee works on a variety of tasks like this during the year; we are currently meeting via Zoom. Please see the calendar on the SCOV website for scheduled meeting dates and times.

Superintendent - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

The summer months are a very slow time for many of the activities around the community. Most of the seasonal residents have left for cooler climates, and the golf clubs scale back their events. However, summer starts the busy season for golf course maintenance.

During the winter months there aren't many opportunities to aerify greens, dethatch fairways or do major projects without interrupting tournaments or impacting play during the peak golfing season.

The heat of the summer isn't fun for golfing, but the Bermuda grass loves the high heat. The heat provides the best time to aerify greens, tees and fairways because they are able to recover quickly without disturbing as many rounds of golf. Aerification is necessary to provide oxygen, water, and nutrients to the roots, remove thatch and relieve compaction developed over a season of heavy golf. This process provides a healthier and more playable turf in the long run.

This summer there isn't a major renovation planned on the golf course. The priority will be to further establish the new greens, repair thin areas of turf, install drainage in chronically wet spots and clear trees around tee boxes.

On top of these projects this summer, the aerification and topdressing are going to be repeated on greens, tees and fairways. The goal is to catch up on maintenance that has been neglected in previous years due to all the renovation and construction projects. Doing this maintenance will greatly improve the overall health of the golf course going into next overseed.

Convenient community restaurant, lounge and terrace offering an enjoyable experience in food, drinks and entertainment.

Food & Beverage Director - Aalt Brouwer

abrouwer@suncityorovalley.com 520-917-8074

We are happy to slowly get back to normal at The Views Restaurant. I would like to take this opportunity clarify a few recent questions.

Why can we not bring our own drinks onto the grassy area outside the terrace?

According to Arizona Liquor Law A.R.S. 4-244(40), it is unlawful "For a retailer to knowingly allow a customer to bring spirituous liquor onto the licensed premises." Our liquor license covers the restaurant, including the grassy area, golf course and part of the Activity Center. Violations for not abiding by this would result in black marks on our liquor license and possible revocation of the license, making it impossible for us to sell alcohol in the community.

Can we sit on the grassy area and listen to the live entertainment?

Yes, you just cannot bring outside food or beverages. Please phone in an order from your lawn chair and the hostess will call you when it is ready. Do not congregate at the entrance to the lounge, as the serving staff needs to be able to pick up the drinks for their tables there. Masks are now optional for vaccinated persons.

Fourth Thu., 1 PM, Desert Oasis www.foundationscov.org

The Foundation recently made a grant to the SCOV Library to purchase new large print books. With the pandemic causing cancellation of the Home Tour and decreased membership in the Friends of the Library, the decline limited the regular purchase of books. Readership of large print books increased significantly during the pandemic, so the grant was most timely. This was the fourth grant made to the Library in the Foundation's history. Thank you.

Early on a Tuesday morning, as a neighbor was setting out his trash containers, he looked across the street and saw that his neighbor's containers had been knocked over, spilling the contents everywhere. Without hesitation, this neighbor set the containers upright and picked up their trash. Thank you for going the extra mile to help your neighbor along with keeping the trash from blowing throughout the community.

Our seasonal members are now away, and while it may be hot outside, it's way cool in the Clay and Glaze Studio. Our new members have had fun with orientation. They bring positive energy and creative ideas.

Awesome opportunities now exist for more experienced potters to teach new techniques, tips and tools to our beginning members.

Though some hand-building and wheel work can be complicated, there are many projects, especially in hand-building, that can be accomplished with great success. Skill levels progress with each project, causing satisfaction levels to rise.

Our regular club meetings will be suspended until September, at which time we hope they will return to normal.

People interested in joining the Clay Club should stop in the studio and add their name to the sign-up sheet. We will contact you as soon as there are openings for orientation classes.

Aleda Haug is pictured here with her almost completed sculpture of Lincoln. The detail in this sculpture is truly amazing. When she finishes the Lincoln sculpture, he will be sent out to be bronzed. Of course, this sculpture is much different than the sculptures completed in our club.

However, there are similarities. Aleda's armature, the foundation of the sculpture, started with a metal support rod and Styrofoam. The sculptures in our club are generally made with wire and aluminum foil as the filling.

Wooden toy making, various times, Artisan Center/Wood Shop

Business meetings at Catalina Vista, First Thu., 8-9 AM; no meetings May-Sep.

Summer is here, and the temps are sizzling again. Many of our members are off to their other homes. The summer birds are holding down the fort and preparing for what lies ahead. Please look into signing up for the August 19 ILR Sampler that will feature Seniors for Kids (SFK). It is new this summer to help us educate the community about SCOV happenings.

SFK will continue to meet in the Sewing Room weekly and create the many needed items that will be distributed at Christmas. The woodworkers will be working on their creations also. We are hoping for puzzles and new items along with the trucks, trains, cars, boxes and cradles.

Seniors for Kids could use yarn and cloth donations (if you are clearing out your stashes) for the work we do. Also, we need hands and minds to help us create. Looking forward to seeing your smiles again.

The Sewing Room has been busy and in full operation for most of this year. We have new members joining the various sewing clubs and new projects being done. Not all of the sewing clubs actually do sewing. If you'd like to hang out with other wonderful people, look at the various club articles under the Thimblelenas umbrella. You can join any of our clubs and not sew. The Tapestry Club changed its name this year to show they are more inclusive of other fiber arts, not just tapestry. We have display windows outside the Sewing Room that are changed monthly. Take a look to see what the clubs have been up to. To join or learn more about our clubs, stop in the Sewing Room during any listed club time when a monitor is available. See you there.

Mon. and Thu., 9 AM-Noon, Artisan Center/Sewing

Things are beginning to slow down in the Sewing Room with many members traveling to their other homes or just going on vacations. However, there are a few of us who will still be here to carry on. We will continue to sew items for children at risk and plan for winter clothing projects. Safe travels everyone and stay healthy.

Cheer Bears

Pat Norton 480-993-8762 panpan9803@yahoo.com

Wed., 1-3 PM, Artisan Center/Sewing

Thanks to all of you who have been supporting our group working at home and in the Sewing Room. We are still embroidering faces, sewing bodies, stuffing them with love and filling the shelves for the next set to march out to new families. Nothing has really stopped us this year. Life is good and spirits are up. We are looking forward to joy with caution and

excitement.

Summer is here. Good to see familiar faces back in the Sewing Room, though we are fewer because our winter members have gone to their other homes.

We are still meeting bi-weekly beginning June 9 through August 18 to put all our love in the little bears we create and children love. Sign in and join us to complete our task. Smiles to everyone.

There are two rug hooking techniques being used by our members. The picture on the right shows the two different tools that are used. The first hook is referred to as a rug hook. As illustrated in the picture on the left, the rug hook is inserted into the front of

the material where the design is drawn with the wool strips being hooked underneath and the loop brought to the top of the material. The tool on the right is a punch needle. The punch needle is used by starting on the back of the material where the design is drawn. The needle is pushed and pulled through the back of the material leaving a loop on the top.

Mix and Match Earrings by Mary Page Jones

The featured artist this month is Mary Page Jones. She created these versatile mix and match earrings using lapis stone studs which hold one or all pieces together. The metals were repurposed from other jewelry. To get the texture on each layer, Mary Page slightly reticulated (fired) the silver piece, the brass layer was hit with a ball hammer, and the copper with a ping hammer. Our

window display also holds a wide variety of jewelry created by our members.

We are beginning to offer small classes for beginners.

To join the club, you must first take a beginning fused or stained glass class and a safety class before using the studio on your own. You may sign up in the studio or email Jo Anne Bowman, scovglassclub@gmail.com. If you need a quick refresher of Fused Glass Part I or Beginning Stained Glass, there will be a signup sheet in the studio. No projects will be completed. You will watch a demo, and then you should feel comfortable enough to use the studio on your own.

If you have signed up previously, please sign up on the new lists in the studio.

Part II and the Refresher classes are \$5 each. No supplies are needed to attend the classes.

If you need to purchase supplies, you can contact studio manager, Ellen Jordano. Sign up for studio time with SignUp-Genius. Our website contains a new section with supplies and equipment for sale.

In addition to posting each month's meeting date and time in the *Tipster*, the complete

tentative schedule will be posted on our new website. Please adjust your browser link to the new Astronomy Club website: www.scovastronomy.weebly.com.

The Poets Corner has been pleased to welcome newcomer Joan Partridge who readily exhibited a talent for Seussian humor, an appreciation for her natural surroundings and a special sensitivity when expressing feelings of grief and loss, as evidenced in the brief but beautifully rendered "My Tears Have Dried."

"My teacup is empty now. / Outside my window a warm wind bends your daffodils. / Showers of plum blossoms / swirl around your shirts / drying for Goodwill.

"I set my cup beside your urn / wishing the wind would blow your ashes away / and you could return each Spring. / Like daffodils. / Like the plum."

We expect to continue Zoom meetings over the summer and look forward to possibly meeting in person in the fall. New members are always welcome.

 Membership Brian Alexander 520-818-2429
www.scovcomputer.com

The club board is spending the summer researching options to make your SCOV Technology Club more relevant for new and long time residents. We recognize new folks bring a different skill set and needs. Some options include continued monthly general meetings on Zoom with short topic presentations and socially distanced on-site meetings for more member interaction. We know that some members still need hands-on assistance and want our lab available to meet that need. More club volunteers are needed to manage classes and find instruction sources. We are also asking SCOV club presidents for interest in utilizing the computer lab for Specialized Interest Group use and research projects. Any and all ideas are on the table. President Paul Sherwood wants to know your thoughts.

For help this summer: call 520-329-7661 or scovtech@gmail.com. Facebook access is also available, allowing members to consult with each other.

New small dog addition

Fido's Friends Dog Club and SCOV are excited to announce the expansion of the K-9 Korral Dog Park. The park now has a separate small dog area for dogs under 25 lbs. and the large dog area has increased another 1,100 sq. ft. We will continue to add benches, shade, solar lights and a water spigot to make it a more park-like setting. The golf cart parking area has been relocated and expanded to allow more vehicles.

Fido's Friends Dog Club is also happy to announce a new website that is available to the public. The website goal is to promote SCOV and Fido's Friends Dog Club while providing a list of resources, pictures and information about the club. Please visit frequently to view upcoming events and news.

Harlow Gardens recommends water, water for June. It is the toughest month of the year with its scorching heat and lack of humidity. Some plants seem to just want to dry up

and blow away. So, this is a month to carefully monitor your

plants. Check them in the morning and again in the evening.

For the best summer color, year in and year out, customers purchase more periwinkle (vinca) than any other flower. Why? Because it takes the heat, keeps its shiny green leaves and blooms non-stop. Some people are bored using the same flower every year, but each year there are new colors and varieties of this top seller. The popular, trailing periwinkle acts like a ground cover.

A great time was had by all who were able to attend our outdoor Cinco de Mayo dance in the courtyard. Music was provided by SCOV DJs, Gus and Gina. We enjoyed fiesta food from The Views Restaurant.

While summer months slow to a more leisurely pace, dance practices will continue in the cool Auditorium through July, Wednesdays, 4-5:30 PM. Watch your email for continuing dance lesson offerings that may be available throughout the summer. Advance sign-ups are only necessary for dance classes, so be sure to sign up right away when classes are posted.

Dance schedule and rehearsals resume in the fall. In the meantime, use some good advice from actress Helen Hayes: "If you rest, you rust!" Look at the wonderful YouTube instructions for all sorts of dance workouts and routines, including belly dancing, beginning tap, jazz and Zumba.

With all good thoughts for things to head in the direction of normal activity, I'm putting together a list of gals who wish to be on a syncopated dance team for performance purposes in SCOV. "Sun City Sugar" will launch when it's safe to do so, for the purpose of augmenting the fun and frolic of the Variety Theatre Club. More information coming soon.

Meantime, stay in shape and check the Dance page under Hula, Jazz and Razzmatazz. To join the dance team, email dancingextra@gmail.com and become a Sugar dancer.

Join us Wednesday, June 2, 2 PM, via Zoom for our monthly board meeting. Watch your email for the Zoom invitation.

During June, Thursday and Saturday practices will continue in the Auditorium as previously scheduled, but there will be no Wednesday Transition to Intermediate practices. All practices continue to be led by our volunteers, who have rearranged their schedules to accommodate vacancies due to vacations. Sign up for all levels of practices through the club's website. Also, Friday, June 4, 6:30-8:30 PM, we host our Fun Friday gathering. Sign up on the club website.

Important note: Beginning July 1, all practices will be held in AFC 1 & 2, as the Auditorium will be closed for renovation. Gym shoes, or dance shoes with suede bottoms, are required. Gym shoes need to be inspected for rocks that might get caught in the treads. No hard-soled shoes are allowed. SCOV ID card or fob is needed to get into the AFC.

Welcome back to all members who are returning to the dance floor. Enjoy.

scovrandrclub@gmail.com

There will not be a June dance as this is an off month. At this time we have decided that it will probably be too hot to hold our July dance outdoors. We are looking into the possibility of holding it indoors at an offsite location if one can be found. Watch for an email in early July. If we don't hold a July dance, we wish everyone a safe summer, and we will see you in September.

Just a reminder, our website is up and running. If you have not yet done so, you need to log in (using the password emailed to you) so that we can make sure everything is working properly. Membership renewal will begin in June on the website.

Exercise

Marcia Polley 520-818-9073
 Irmel Wheeler 520-334-0957 (cell) irmel5596@gmail.com
 Tue., Thu., Sat., 8 AM, AFC/Pool

Aqua Tone is a toning water workout that incorporates a variety of rhythmic body movements performed in the water. This aquatic exercise class enhances cardiovascular fitness and muscular endurance.

We meet Tuesday, Thursday and Saturday, 9 AM in the winter, 8 AM in the summer, at the AFC pool. There is no fee to join the club or the class. The teachers are club mem-

ber volunteers. Being able to do a basic swim stroke is very helpful. Items used in the class are buoys, boards, noodles, balls and a fitness band (you'll need to bring your own). A band can be purchased from Marcia for \$5. We assign an experienced member to a newcomer to help with learning the various movements. You will get a good workout in a fun class.

Arthritis Water

Pres. Sherry Olivier sherryolivier55@gmail.com
 Sec. Melanie Livingston meljean178@yahoo.com
 Mon., Wed., Fri., 1 PM, Oct.-Apr.; 10 AM, May-Sep., AFC/Pool

Have Covid restrictions decreased your movement and mobility? Our club is back in the swing of things. We perform 55-minute gentle water exercises based on those designed by the Arthritis Foundation to help with balance and range of motion, which are great for those of us with arthritis, fibromyalgia, replaced joints, etc. Each exercise can be modified for personal limitations. You may wear your hat, sunglasses and shirt for protection from the sun. Water shoes may also be brought in. Come give it a try.

Please note: The outside air temperature must be 77 degrees or higher for the class to be held.

Energetic Exercise

Donna Clark 970-946-1048
 Mon., Wed., Fri., 8-9 AM, Auditorium

Stay fit in air-conditioned comfort. Get out of the house and join your friends for fun and fitness at Energetic Exercise. You'll enjoy a vigorous and beneficial aerobic and cardio workout plus stretch, strength and balance moves. Sally Martinez, our professional instructor, keeps things lively and interesting with a variety of sessions that meet your body's fitness needs. It will thank you.

We are now using SignUpGenius for class registration. Each month members will receive an email with a link to sign up for classes. No late arrivals. We start promptly at 8 AM.

Bring exercise equipment for the day and a bottle of water in a small bag please. Unfortunately, we can have no new members or guests at this time. Unused tickets may be used. New 12-punch cards will be for sale after each class for \$30 paid by check or cash (exact amount).

Note: The Activity Center renovation begins in July. We will have classes in the AFC Studio Room in July. Watch for new information via emails and the July *Tipster*.

Fitness Swim

Contact: Dave Goodman goodman@sfu.ca
 Tue., Thu., Sat., 6:45-8 AM, AFC pool (suspended until further notice)

The Fitness Swim Club provides a vehicle for swimmers to participate in a group swim workout. We generally go 2,400 to 3,000 yards per workout, mostly freestyle. Some do more, a few do less.

Workouts are suitable for master swimmers, triathletes and those who would just like to participate in swim workouts. Please ensure you have medical clearance to participate in vigorous physical activity prior to joining. We welcome new members.

Mary Ayers 520-638-7916 scov.pilates@gmail.com
Mon., 3 PM, Thu., 1:30 PM, AFC/Studio

Summer is here and both the Monday and Thursday classes are smaller and more personal, making it a great time to try out Pilates. First, we do stretching exercises to warm up and then the Pilates mat routine is performed with modified moves for those of us with limitations. People ask, "Can the benefits of Pilates, which come from strengthening and stretching exercises, really develop the body's core (your abdomen and back muscles), make you stronger overall, increase spine mobility and build flexibility?" The answer is a firm yes. Additional benefits include improved balance, muscle tone, stamina and a feeling of well-being. The cost is \$8/class and annual club dues are \$20 pp. Please join us or just stop by and watch. Call Mary 520-638-7916.

Birders Group

Peggy Smith 520-344-0991 pdsaz@aol.com
www.scovbirding.wix.com/birdersgroup

The western screech-owl is just one of several owls resident in SCOV. The largest and most common is the great horned owl with a wingspan of 44", but the much smaller screech, with a wingspan of 20", is more reclusive and is more likely to be heard than seen. Its song consists of accelerating staccato toots and its range includes the western states and hugs the Canadian Pacific coast all the way to the Alaskan border. Another owl seen here is the fairly large barn owl that, while nocturnal, has been seen here several times during the day and prowls the area at night looking for rodents.

The Birding Group has now entered the summer hiatus with only informal ad hoc trips during the hot summer months, when even the birds take a break. We will resume our scheduled activities in September. Come join us.

On April 16 and 17, the Pickleball Club had a poker pickleball tournament. The object of the game was to obtain the best hand and win a prize. If you won the game, the winners received two cards; nonwinners received one card. A player could receive up to ten cards and make the best hand from the cards received. There were two different tournaments, one for casual and one for competitive players. Everyone had a great time and we look forward to having another tournament next year. After play was completed, we had a special treat, ice cream bars. Mmm good.

We would like to thank our committee, Karen Burnham, Dorothy Leonard, Laura Lewis and the other volunteers for a fantastic job in conducting the tournament.

Winners of both tournaments with photos are listed below.

Competitive winners (l-r): first, Nelson Brown; third, Mike Brash; second, Phil Rose

Mixed doubles next event Oct. 24, Susan Hernandez 310-433-7474

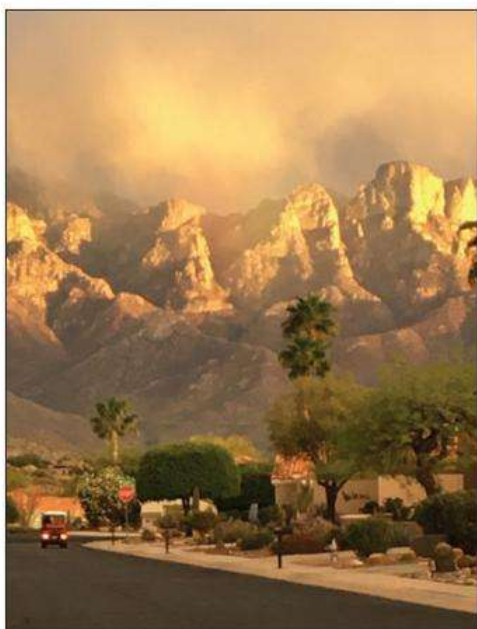

With the change of seasons, the Tennis Club is experiencing two changes: a) many seasonal residents have headed north and b) tennis players are beginning play earlier to escape the mid-day heat. At the time this article was submitted, major restoration work on the Mountain Vista courts was scheduled to occur from June 1 through June 17. No use can be made of those six courts during construction. The two courts at Desert Oasis remain available.

Club members were excited to conduct the first mixed doubles social event in 1½ years on April 25. There were so many participants, that all six courts were used, and people had to wait for an opportunity to play.

Members enjoying mixed doubles social on April 25

All SCOV residents are welcome to use our wonderful tennis courts. If you have questions or would like to join our club, send an email to Ron Martin.

Take part in the fun and join old friends or make new ones with a sport that can improve your health and provide tons of entertainment. So come to the AFC and watch a game that both women and men can enjoy. Play safe and play smart. Please check out our website.

Don serving it up

After months of scheduling and having to limit the number of players it seems strange to have so many people just show up to play again. No lines, masks or distancing. All club members are more than happy to have that all behind us. Many have left for the summer, but a good number play year round. For new residents, experiencing our summers for the first time, it is a good time for you to come and give water volleyball a try. The water is refreshing and what better way to be active while cooling

off for two hours, twice a week. Sunday and Thursday casual style play is fun for everyone. If you want to try a more competitive play you best come and watch a few Monday

games first. You'll probably hear us long before you see us, as we are not a quiet group, and we do laugh and cheer a lot.

Sharing a Youth On Their Own (YOTO) student story: In high school and on her own, Rashel frequently found herself without the resources she needed to succeed. She dreamed of going to college, but struggled daily to get by. One day, a teacher told her about YOTO. Rashel could receive free food, toiletries and more, as well as a monthly stipend. Moreover, YOTO staff were able to help her not only graduate from high school, but apply for post-secondary financial aid. Today Rashel is a junior at UArizona; she hopes to someday become the CEO of YOTO!
