From The Board of Directors

Our mission as the SCOV Board is to lead in maintaining and enhancing the quality of life in Sun City Oro Valley as an active adult community.

All Board minutes, agendas and reports are available online and in the SCOV Library. Board meetings are open to residents.

My Views and My Property Rights

by Don Coleman

Our community has just celebrated its 30th birthday and thanks to your efforts, looks as fresh as 30 years ago. Some home improvements such as construction of ramadas and room additions, however, are raising serious questions.

Along with the growth of plants and trees, home improvements certainly beautify and enhance our community. They also reduce the open space and the views in our community, creating opportunities for an increasing number of conflicts.

By the time this *Tipster* is published, your Board will probably have chartered an Ad-Hoc Committee to gather and assess resident inputs. The following are excerpts from the Charter of this committee. Mike Moyer is both the author of this Charter and the volunteer chair to this committee.

"SCOV is blessed with many great views of natural scenery. From time to time, conflicts arise as growing trees and shrubs and new construction block a neighbor's view for which the neighbor may or may not have paid a premium at time of purchase. Original Governing Documents cover these situations involving views of the golf course but make no mention of other obstructed view situations between neighbors. Before taking any action, the Board would like to have an objective assessment of SCOV residents' view of the breadth, and depth and urgency of this issue."

By now you should have received and completed a short survey. The committee is also planning focus groups and a general "town meeting" to share and confirm what they've learned before reporting to the Board. Please check our website and your emails for information on these events. Make sure they hear from you.

Don't Forget to Vote

Voting closes at Noon, Thursday, March 23. Be sure to vote online before that date. Mailed ballots must arrive in South Carolina prior to March 23.

Democracy in the Community

As a homeowner in this community, you have a right to participate in deciding what will be done about community issues that affect all residents. By casting your ballot, you can help make important choices like limiting the number of rental properties in the community or requiring a vote of the community in order for the Board to start a new business venture. Most especially, you have the right to participate in electing new Association Board members.

The Association provides all homeowners with 30 days' notice of the election where voting on important matters takes place. Ballots may be cast electronically or with a paper ballot. With the ability to cast your vote electronically comes the opportunity to cast your ballot from anywhere you have access to the Internet. Robin Coulter will be sending an email with specific instructions on how to complete the ballot. If you have not shared your email with administration and would like to vote online, please contact Lisa Orach at 917-8065 or stop by the Welcome Center.

It's More Than Living... It's A Lifestyle!

When the Greasepaint Gets in Your Wrinkles...

by Paul Mercer

We all have been going to shows put on by our grade school, high school and perhaps college a good part of our lives. Then more of the same with our children and grandchildren. Most of us seldom think of actually performing up there on that bright stage. "Naw, that's for those already up there, for sure not for me," you say. And that's if you even think thoughts like that...most people don't.

The Sun City Variety Theatre is made up of people like you and me who did think about getting up there and having some fun. And that's what they do, have fun. They make new friends, develop unexplored talents in comedy skits, sing, dance and enjoy their self-confidence as it blooms and grows. The biggest benefits of all are the friendships that develop, bonds forged under the hot lights and endless hours of rehearsals, the tensions that build towards the opening show, then finally the ongoing performances. None of those are ever the same, something unexpected always happens, like forgotten or flubbed lines.

In 1991 and 1992 Francis Staley, Jinnie Wilson and Dick Morley and others put a group together and presented a variety show. They say it happened a lot like that Judy Garland and Mickey Rooney movie and sounded a lot like this: "Hey everybody, I've got an idea. Let's put on a show!" And so they did for two years. There was no club, just very enthusiastic cast members. One member described the beginning as a groundswell movement. "It just sort of happened when some residents were sitting around a punch bowl at Christmas time singing songs and eating cookies."

This modest beginning was followed by "Cabaret" in 1993 by Beryl Shantic, and then Stephanie Consalvo put on three variety shows in 1994-95-96. As if to prove the quality of the talent living here, a show called "Reflections" was done in 1998, 2000 and 2006 with music written by SCOV residents Dave Danielson, Keith Jensen and Don Scoller. The musical director for these shows was Don Borenstein, who also played drums. They were directed by Joan Allen. Let's just say it is very unusual to have the music and the

script written locally. The show was well received by the residents, as life in Sun City was revealed as reflections of our lives here.

There are many club peripherals to know about, such as the costume room that has grown with the club since 1999. Seamstresses became another "must have," as costumes are continually altered and repaired. By the way, there is plenty of room for those of you interested in the theater but don't want to be on stage. Technicians for sound, lighting, video production, costume designers, musicians, prop builders, set design and painting, promotion, back stage managers, ticket sales and ushers are integral parts of every performance. Members always make a major commitment in time and energy as these shows rehearse for as long as two months with the full cast. A show actually starts a year and often more than that from conception to opening curtain.

One wonderful thing happens during all of

this. The camaraderie of the troupe grows with each rehearsal and then more with each performance. Cast members always talk very emotion-

"Birds of Paradise" skit from "Come to the Cabaret," 2016. The costumes were designed and made by Barb Satterly.

SCOV's own T-Birds in Grease, 2015.

ally about how rewarding their work is because of the relationships that develop during the run. Every member depends on another and a bond develops. Is it unique to show biz? Maybe, maybe not, but you may have seen it on the faces of the cast during the curtain call at the last show you attended.

If you think you might be interested in becoming part of this club, by all means join and, who knows, the greasepaint might get in your wrinkles too. Beware, it can be hard to get out! Finally, a new small show is debuting April 2 at the Views Restaurant, followed by a new, larger show opening in 2018. Come on out and enjoy your neighbors' talents.

Where We Have Been:

A Recent History of Sun City Oro Valley – Part Two

by Jim Williams

The first residents moved to Sun City Oro Valley (SCOV) in 1987. The original residents were happy with what was here at the start, and physical facilities were still new. By the early 2000s, however, some parts of the physical plant were showing signs of age. At the same time, new residents came in and advocated changes. The SCOV community was split over proposals for policy changes and building improvements. The conflict peaked with a voter referendum rejecting an expanded Aquatic and Fitness Center (AFC) in 2012. After that vote, the Board agreed to proceed with a second AFC plan.

2013-2016: Consensus Returns

In January 2013, the SCOV Board unanimously approved a budget of \$1.99 million for the second proposed AFC expansion. The price was later reduced to \$1.75 million. They also planned for a community vote on a \$385 special assessment for the project. For the past several years, home sales had been depressed due to a nationwide recession. The economy improved, and an increase in home sales and resulting added funds from Capital Contribution fees made a smaller assessment possible for the second AFC. The Board adopted a new policy to allow groups in opposition to Board decisions to use community facilities for meetings and make written materials available to the entire community. The Board also approved a questionnaire developed by the Strategic Planning Committee to survey resident opinion starting in June of that year.

The Fitness Center Committee completed its work in February 2013 and a new Fitness Center Construction Taskforce was created by the Board. The community voted on the AFC project in February 2013, with 1,472 in favor and 598 opposed. The special assessment passed by a similar margin. Following the vote, the Fitness Center Construction Taskforce made plans to start work in the same year. Construction began in May, and the old gym closed shortly thereafter. The Board established a temporary exercise area in the Hopi Room of the Activity Center for the period of construction.

The community made other significant changes in 2013. Plans were made to install a member-only card access system at the new AFC, Desert Oasis and Catalina Vista. The Marketing Committee recommended new exterior signs, a new logo, and new facility names (the Social Hall became the Activity Center, the Vistoso Center became the Welcome Center). Also, the names of some of the rooms in community buildings were changed. The Board approved these changes by a 5-2 vote. A consulting firm was hired to evaluate the operations at the Café. Shortly

after this, Shamrock Foods was selected as the purveyor of food at the Café. The menu was updated and the Café ended the fiscal year in June with a small profit.

The previously-mentioned community survey was sent to all homeowners in June 2013, and 1,900 residents responded. The survey found that 96 percent of the homes in our community were owner occupied. Asked if respondents would recommend buying a home in SCOV to a friend, 98 percent said "yes." Some 79 percent of residents surveyed were either "extremely" or "very" satisfied with the information they received from the Association. More than 60 percent of those surveyed participated in two or more community activities per week. The most popular activities were the Fitness Center, pool, library and clubs. Obviously, some of the tensions and ill feelings of previous years were subsiding.

The AFC opened in early 2014, and the community was pleased with the results. The project had been completed on time and within budget. Residents were happy with the spacious, modern facility and the variety of new equipment. Compared to use of the prior facility, attendance quickly increased at the new AFC.

The Board and the SCOV community continued to make significant changes following the AFC expansion. The Board established a Governing Documents Review Committee to examine the community's legal documents. Many had been in place since the founding of SCOV. They were in need of updating due to changes within our community and new laws passed governing homeowner associations. The Café instituted many new practices to entice more people to dine there. Happy Hours were expanded and became very successful. New menu items and vegan dishes were added to the fare. The SCOV Board approved an expenditure of \$273,000 to correct erosion in Chalk Creek for golf holes 5, 7 and 10. New phases of the Rancho Vistoso Boulevard median landscaping began,

and the Board approved \$290,000 for three new pickleball courts near the Café and the relocation of bocce to the common area near the Auditorium.

In June 2014, the Board created an ad hoc task force to plan changes in the Golf Shop and Café and the addition of a lounge. The Long Range Planning Committee was charged with the task of planning a café remodel/expansion and building a new pro shop nearby. These changes would double the seating capacity of the Café. The Board approved the Long Range Planning Committee's concept for a new pro shop and expanded café in January 2015. They formed a task team to plan construction and later directed the team to add a lounge at a cost of no more than \$310,000. The Board eventually adopted a final budget of \$697,000 for the Café and Lounge renovation and addi-

tions. In the fall of 2015, the new restaurant and lounge opened and was renamed the "Views Restaurant" to reflect the addition of a lounge and the increased hours and menu items.

In 2014 the Board advised clubs to limit nonresident membership to 20 percent of the total club membership. The same year the Properties Committee developed a proposal to place solar panels in the parking lots to generate electric power for our community buildings. The Board approved the concept of placing solar panels in the parking lots near the Activity Center and Welcome Center and submitted the solar panels proposal to a community vote. This ballot measure

The Cafe and Lounge renovation concluded with a beautiful outdoor patio area (above) and expanded interior dining area that capitalizes on the spectacular Catalina Mountain views.

was approved in March 2015 by a 76 percent majority. The Properties Committee also researched possible new exterior paint colors for homes in SCOV. The 18 proposed colors were displayed in the Activity Center for community comment and approved shortly thereafter.

In June 2015 the Board approved a new Long Range Plan Committee and an ad hoc committee to plan upgrades for the Activity Center. In 2016, solar panel installation began in May and was completed by October. The Views Restaurant reported a 15 percent growth in sales over previous years. Changes to the governing documents to bring them into compliance with state regulations were approved in a community vote that year.

Summary

How has the SCOV community changed over the past ten years? Platt noted that the "the outlook of our residents was becoming more open to new ideas, more conscious that we compete with other active adult communities." Coleman commented that "the membership has become generally more progressive, understanding that in order for SCOV to be a desirable community it must be in demand by buyers. SCOV must continually update facilities and operations." Tustison stated there has been a "change in the attitude toward upgrading our facilities and people were gradually convinced that funds need to be set aside to do things." Evert believed that better budgeting and improved communication have decreased opposition to change.

The community is in much better financial shape than it was ten years ago. Evert noted that "we are now building things out of the bank account," not through special assessments. Platt commented that SCOV is "fiscally sound and debt free." The contributions from resident annual dues to the Asset Reserve Fund have grown from \$350,000 in 2003-2004 to \$1,075,000 in 2016-2017. Today, homeowners contribute 27 percent of annual dues to

long-term asset reserves for future physical projects. The revenues from The Views Restaurant have expanded from \$200,000 in 2003-2004 to \$750,000 projected for 2016-2017. SCOV golf produces about the same revenue today as it did in 2003-2004.

Trull said the community is "one thousand percent improved" over ten years ago. Three long-range plans have helped the community to evolve. With strategic planning, he noted, "you know where you're going." Evert commented that "we now get in front of issues" with long-range planning.

Excellent staff and involved residents have contributed to SCOV's continued success. Platt stated that "our members are involved and collaborative; committee membership reflects high levels of commitment and expertise." Coleman believed that resident participation in governance "is vital if

the current level of excellence is to be maintained." Trull noted that "volunteers spend hours on end to improve our community," and that we have an excellent, hard-working staff that keeps initiatives moving.

Sun City Oro Valley has witnessed controversy and substantive change in the past ten years. Buildings have been refurbished, additions have been made and new structures built. Policies have been updated to fit new circumstances and the needs of an ever-changing population. SCOV is fiscally sound and works to plan for its future. We can look forward to continued improvements in the coming years!

Secret Ballot Vote Results

The Election Committee would like to report the following results of the special February 2017 vote. In January the Board voted to send to the membership a Bylaw amendment that would allow SCOV to conduct elections without having to sign the ballot. The vote closed at noon on February 21, 2017 and here are the results. The amendment overwhelmingly passed. There were 1,337 votes cast with 1,261 for (94%) and 75 against (6%).

Additionally, this was the community's first offering of the electronic option to vote. There were 1,211 (91%) votes cast electronically and 126 (9%) votes cast by paper ballot. The electronic voters were provided a place to provide comments and those will be included in the Election Committee's report to the Board on the Secret Ballot vote in March. The majority of the comments were favorable of the new electronic option.

There is another vote in process which ends March 23, 2017. This is for our Board of Directors and three initiatives. One initiative will change two documents (Bylaws and Articles of Incorporation). This initiative is to require a community vote before the Association begins a business venture. The second initiative is to limit the number of rentals in the community to 10% and that no lot may be rented for less than 30 days. The third section will be the vote for the Board of Directors. Please vote, the community needs input from all of its members.

Five Seasons

March is here and we are all looking forward to the desert starting to really bloom. I recently learned that the Sonoran Desert has five seasons: winter, spring, dry summer, wet summer and fall. The wet summer comes during monsoon season.

I hope that our winter visitors and renters enjoyed all that SCOV had to offer and will return next year. There are so many things to do in SCOV and the community of Oro Valley. If you have children visiting over spring break, be sure to take them to the Oro Valley Aquatic Center. There are splash pads and waterslides that are fun for young kids and teenagers.

Is New Landscaping in Your Future?

If you are removing a tree or bush from your yard, it is not necessary to seek HOA approval. However, if you are planting new bushes or trees, it is important to consult the Development Standards Appendix B Approved and Prohibited Plant List. All plants on a resident's property shall be from the approved plant list, unless otherwise approved in writing by the ARC.

Wildflowers are approved in yards and they are showing their faces earlier this year. Please remember they must be removed once they have died. They will come back next year.

Minor landscaping needs to have an In-House Submittal approved by the Community Services Coordinator. Major

landscaping plans must be submitted with an ARC Submittal Form.

If you already have a planting that is on the Prohibited Plant List, you do not need to remove it until it dies or you just wish a change, but any new plantings must adhere to the list. If a planting is not on either list, you must get approval from the ARC to plant it.

Copies of the newest revision of the Development Standards are available on our website under Members/Documents. When visiting nurseries this spring, it might be best to take a copy of Appendix B along for reference.

I would like to thank the hardworking Friends of the Library Board members for fundraising efforts which make it possible for us to put bestselling books and blockbuster movies on our shelves for your enjoyment. In January, \$1,532 was spent on new items, much of which was paid for with money raised by the Friends of the Library. I'd also like to thank residents for supporting our Home Tour and Book & Author fundraisers this year.

Thanks to this generosity of time, talent and money, this month you will find new on our shelves in fiction, *Racing the Devil* by Charles Todd and *A Piece of the World* by Christina Baker Kline (author of *Orphan Train*); in large print, *Echoes in Death* by J.D. Robb and *Right Behind You* by Lisa Gardner; in audiobook, *Night School* by Lee Child and *The Whole Town's Talking* by Fannie Flagg; in video, *Arrival* (Amy Adams) and the long-awaited *Manchester by the Sea* (Casey Affleck).

Recreation and Fitness - Lonnie Davis

Exercise Keeps Your Metabolism High

Metabolism naturally slows as you age, so it's harder to avoid pounds creeping up as the years pass. Luckily, scheduling regular workout sessions helps you increase the total number of calories you burn, helping you maintain a steady, healthy weight. You'll torch more calories if you add in resistance training to your routine at least a few times a week, since working out with free weights or doing bodyweight exercises helps build muscle mass. The more muscle you have, the higher your calorie burn is and it stays higher all day long, even after you've stopped exercising. Remember that we have an indoor walking class 1-2 PM Mondays and Fridays. Walk at your own pace, make new friends and it's free.

Special Note From the AFC:

Orientation on how to use the gym equipment will be held every Thursday at 1 PM, so stop in and sign up. Contact Lonnie Davis, AFC Coordinator, to discuss questions or problems with the AFC.

AFC and Desert Oasis: See Hours of Operation on page 2.

Tuesday, March 14, the AFC pool and spa will be closed for cleaning and shock treatment. It will reopen the following morning at the regular time.

Wednesday, March 15, the Desert Oasis pool will be closed for cleaning and shock treatment and reopen the following morning at the regular time.

On Friday, March 17, 1 PM in the Auditorium, the Active Health Committee is hosting "Stressed is Not Desserts Spelled Backwards" presented by Dr. Joe Utash, DC. He is a family chiropractor, health advocate, speaker and radio host. Dr. Utash will focus on how unmanaged stress leads to cardiovascular disease, increased inflammation, and a weakened immune system. He will share five steps to increase your happy chemicals and reduce stress naturally.

The AHC continues to sponsor balance classes Mondays and Wednesdays. A new session begins Monday, March 6, but participants can join at any time. For more information, see the flyer in this *Tipster* or on the SCOV bulletin boards, or contact Judy Greenberg 631-974-4375 or gfm5@yahoo.com.

In a recent article in "The Gray Iron Fitness Newsletter," (senior-exercise-central.com), we are made aware that as we age (or are dealing with illness or injury) the content, intensity and duration of what we can do in our workout diminishes. Never stop the exercise habit, but making adjustments is inevitable. Maybe it is time to change your daily workout in the gym and try one of the many fitness classes offered at SCOV. A list of AFC-sponsored classes is in the *Tipster*. The flyer included with the *Tipster* lists all fitness classes, not just those sponsored by the AFC. There are classes for all levels of fitness on all days of the week and at many different times. With some simple changes your workout can be just as effective, more varied and your recovery time will be shorter. Always, keep up the good work.

Architectural Review

Janice Strassburg, 520-338-2568, janicestrassburg@gmail.com
Second and Fourth Tue., 2 PM, WC3

Reminders continue to be posted regarding the height of shrubs beside driveways. This is a safety issue for exiting into the street. The required height is 42 inches or less depending on visibility. This issue should be addressed before May 1, 2017.

All the construction you see is evidence of the number of items that are being submitted to ARC for approval. Before you plan to have work or landscaping done to your property, please familiarize yourself with the Development Standards. The plant list has been amended to contain the height of trees that may be planted. We all want to protect our mountain views. The city of Oro Valley has a 25-foot height restriction on trees except for some indigenous desert varieties. An HOA can be more restrictive than city rules.

Aluminum Can Collection Update

In February, 540 pounds of aluminum cans were delivered to the recycler, netting \$216.00. Fiscal Y-T-D, we have delivered 2,600 pounds of aluminum cans, and received \$1,040.00 for the benefit of the CAC, primarily the Loan Room.

Thank you to all of those who help with the collection of cans and transporting them to the recycler. Your help is most appreciated, without which, we would not have an ongoing cash flow of dollars into the CAC.

Be sure to save your aluminum cans, rinse them, and place them in the container outside the Activity Center kitchen.

When you go to Happy Hour on Friday nights, you are greeted by a member of the Food and Beverage Advisory Sub-Committee. Mona Connoy, Co-Chair of the Food and Beverage Committee, with the help of Patt Provencia has recruited, trained and scheduled 22 SCOV residents to be greeters. They cover Friday night Happy Hour, all day Sunday, Tuesday at Noon, Thursday nights and all holidays and special dinners. They greet you, seat you, pour coffee and water and attend to guests' needs while in the dining room and lounge areas. When this volunteer program began, they were working about 40 hours per month. With the increased restaurant volume they are now working up to 120 hours per month.

Next time you are at The Views and encounter these volunteers, please shake their hand and tell them "thank you." We appreciate all they are doing.

Friends of the Library

Thanks to everyone who attended the Home Tour in February and helped support our Library. Most of you know that the Association doesn't pay for the books and audio visual materials in the Library. All those things are purchased with money from Friends of the Library memberships and your support of fundraisers like the Home Tour.

Many, many thanks to the gracious and generous home owners who opened their doors to the community as well as the volunteer docents who helped make the tour a success.

Don't forget the Books and Authors Luncheon Friday, March 10.

Rose Young (left) and Annette Geistfeld (right).

Rose works with copper, brass and German silver as her starting point. "I make earrings, bracelets and necklaces incorporating metal, glass, found treasures, rustic beads, gems, stones and disassembled vintage pieces. Metal finishes may be etched or weathered before being riveted, hammered and soldered into statement jewelry that is tribal, western, dressy, fun and funky."

Annette enjoys the process of making artist's books because of the versatility in structure, materials and mediums. "Much of my inspiration comes from living in the Sonoran Desert of the Southwest. Combining my interest in experimenting with book structures, designing greeting cards and my love of paper has been the driving force in my creative life."

A natural law of human behavior states, "Whatever we can't have becomes very important to us." Living in Arizona, we pay attention to water supply and conservation through efficient use. So far so good, but there is more we can do and might need to do should Lake Mead levels continue to drop. Our next program is "Rainwater Harvesting." Elijah Wood will explain this growing practice and how to reduce your home water bill and have all the irrigation water you need and what resources are available to help. Please join us Monday, March 27, 1 PM Auditorium, for this informative practical session.

Melissa Martin, Senator Jeff Flake's assistant will meet with any SCOV resident Tuesday, March 14, Activity Center/Kachina Lounge, if there are issues or questions for which you'd like help from your Senator in Washington. Just drop in between 10:30 and 11:30 AM.

Spring Arrives

As spring arrives, the following are reminders concerning our personal yards:

- Make sure your house number is visible from the street and that all lights in the fixture are lit, so it can be seen at night.
- Trees must be trimmed up at least seven feet over sidewalks.
- Plants should not extend out over sidewalks, and frost damaged parts of shrubs and trees should be cut off and removed.
- Cracks in driveways, sidewalks and where the cement meets the asphalt in the street are the responsibility of homeowners to keep weed-free.
- Hedges, anywhere in the yard, are not to be over six feet tall.
- Shrubs near the entrance of a driveway should be cut to less than 42" in height so as not to block visibility of vehicles and walkers.
- Outside light bulbs are not to exceed 250 lumens per Oro Valley regulations.

Thank you for heeding the above and for continuing to take pride in your property.

March is a busy month. The 18-Hole Ladies will be hosting their Member/Guest Tuesday, March 28, with an 8:30 AM shotgun start. The 9-Hole Ladies will be hosting their Invitational Thursday, March 23. Our 18-Hole Men's Club Championship will be held Wednesday, March 8, Saturday, March 11 and Wednesday, March 15. The 9-Hole Men and Women will begin their Club Championship on Thursday, March 16. March is also preparation month for the upcoming Men's Member/Guest event. The warmer weather brings out even more walkers and riders. Note that we will move the times back one-half hour starting in March; you will need to be off the golf course one-half hour earlier.

If you are a renter or a new home owner in SCOV, stop by and play our magnificent 18-hole championship golf course. Check out our fully-stocked Pro Shop and visit with our staff about potential annual pass opportunities for golf or just try out our driving range to get you started. Remember, we do not allow denim, t-shirts, athletic shorts or halter tops on the

golf course or our driving range. A small basket of balls costs \$5 and a large basket is \$7. Lessons are \$45 for 30 minutes and \$55 for 45 minutes. Call me or Tim Lochner to improve your game.

GolfNow.com is not only available to outside guests; it is also available to residents of SCOV. It is internet-based and allows you to book a tee time online. There are limited times available, but you may find a time that is suitable for you.

Superintendent - Michael Kropf

scvgolf@suncityorovalley.com 917-8063

March is the beginning of the busy season for golf course maintenance. The weather starts to warm up into the 80s, and the chances of rain go down. These changes in weather lead to many new problems, including a surge in growth of grasses, increased wet and dry areas and Poa Annua seed production.

The warmer weather causes the soil temperatures to rise which releases more nutrients to the grass. The problem is the grass begins to grow faster than it can be mowed. This leads to higher fuel and labor costs for the increased mowing and more grass clippings to clean off the fairways and approaches. The warmer weather also starts the Poa Annua bloom on the fairways, approaches and greens. One of the ways to slow the grass growth and reduce Poa Annua flowering is by spraying a growth regulator. This chemical offsets the price of continued mowing and provides a higher quality turf.

The biggest issue in the spring is the increase of dry and wet areas in the fairways. These problem areas occur due to large amounts of play during the winter causing compaction combined with warmer temperatures. Fairways have already been deep-time aerified in January and February and will be done again in March. This process penetrates the soil about seven to nine inches allowing water and air to the roots. The wet areas are alleviated by allowing the water to enter the soil, and the dry spots are less severe with the water reaching the roots.

High season at The Views is almost over. The folks who have come to SCOV and Tucson for the Gem Show, Rodeo and other events will soon be departing. Tee times will be easier to get, and the course will not be as crowded. The Views continues to increasingly attract seasonal visitors.

This period of peak utilization has once again demonstrated what a terrific job Mike Kropf and his crew do for us as they maintain the course to high standards. Thank you, Mike and the crew.

We can help the crew by always leaving the course in better condition than we found it. Fix two divots, fix two ball marks on the greens, and rake the traps, including your foot prints. We can appreciate the work of those in front of us, and those behind us will appreciate what we have done.

The Views Restaurant

Food & Beverage Director - Aalt Brouwer

abrouwer@suncityorovalley.com 917-8074

Greetings from The Views Restaurant. March is a favorite month of mine, maybe because of St. Patrick's Day, or maybe because my daughter turns three this month. Either way, I'm excited for March, and the restaurant has some fun things planned. On St. Patrick's Day, we will have some Irish-inspired specials from 11 AM, including corned beef and cabbage, lamb stew, shepherd's pie and whiskey-glazed salmon. This will be one day only, no reservations. We hope you will come and celebrate our Irish-American culture.

I would like to thank everyone who attended our Valentine's Day dinner. It was a huge success. As things progress in the Restaurant, we look forward to doing more events such as this, including dinners featuring wine and beer. These events give our restaurant a fun, creative spirit while supplying our wonderful residents with an evening of entertainment, great food, and good company. Stay tuned for more information.

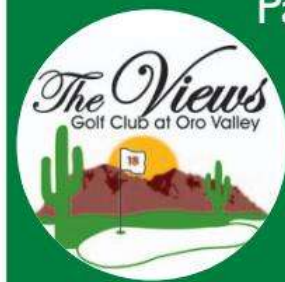

I would also like to thank everyone for the feedback on our service and food selections through our comments cards. All comments are carefully considered, and we will be adjusting menus on a monthly basis to improve our offerings to the community. I would like to explain the change from The Views Breakfast to the Mildred's Breakfast. This was a simple change I made as an attempt to increase the efficiency of the kitchen. With a kitchen, the less the cooks must read, the faster the food comes out. So many options on The Views special created a paragraph for the kitchen to read for each order. It being our most popular breakfast made for a delay in the food getting out to the table. That being said, we are always open to suggestions for improvement. We will continue to work on creating the value per entrée for the community that we all agree is the most important aspect of this restaurant

Land records are boring and tedious. Not so. Let's find out why land records can be one of the best resources for genealogical research. Could it be because they are among the oldest written evidence available or that they apply to more people than any other type of written record or because they are abundant? Yes. Suzanne Brayer, our speaker, will add excitement to this genealogy hunt.

Are you just a name and date collector for your families? Education is your best bet for accurate research. Our library in genealogy room has so many helpful books to give you answers about the areas, the laws and the customs that make each unique. It's time to read them here or check out a few to study at home. New books are added frequently.

The March 15 program will be to watch the PBS DVD "Brain Fitness – Sight & Sound," which was recommended by Dr. Stephen Liu, our January speaker. In the DVD, internationally-respected neuroscientists, psychologists and neurobiologists explore how our brains may hold the key to our independence. What happens as we get older, when signals received from our ears and eyes becomes less reliable? The documentary presents ways the brain could be capable of changing and adapting even later in life.

Join us for a plant-based potluck dinner, Wednesday March 1, 5:30 PM, Catalina Vista/Mount Kimball and Pusch Ridge Rooms. Please RSVP or send questions to David at davidsattinger@gmail.com or Heather at thumpozmag@mac.com.

Poets Corner

Mon., 9:30-11:30 AM, WC/1

In "The Heronry," poet Mark Jarman finds a place that gives him "greater peace than prayer" and contemplates "the end" using ordinary language laced with eloquence.

"After a year of too much face time/I came where I could choose, instead of people/birds and their slant gaze, water, trees and clouds/the gossip and confidences of cat's-paw breezes/across the face of a lagoon...I was glad to be there...I almost think I could write about it forever/adding word to word like coral in a reef/an excess of language like the genetic code, an extravagance like all the stars/too much ever to be needed except/by the need for there always to be more/that need which, when the end comes, looks past it/for woods and hills and ocean/for fields and streets and houses and horizon/repelled by blankness, expecting beyond sleep/the dream country and its population."

Folk dancing is more fun than a treadmill and excellent exercise for brain, balance, muscle and mood. For most dances we hold hands in a circle performing non-

gymnastic steps to the fascinating musical strains and rhythms of diverse cultures, including the USA. No partner or prior experience needed. A typical session consists of 13 folk dances with instructions given for all but the easiest ones. Weekly mailings contain YouTube links to all dances in the upcoming club meeting. Videos of us may be seen via a Google search on "Folk Dance SCOV YouTube."

We hope you'll join us.

Joseph Pilates once wrote that, "physical fitness is the first requisite of happiness." To enjoy and get the full benefits of Pilates, one has to understand the application of the basic principles which takes time and patience. Pilates is different from other forms of exercise and is always enjoyable, interesting, challenging and even addictive. Proper balance, breathing, focusing on your core (abdomen and back muscles) and controlling your movements are taught in our classes. There is also constant movement from one exercise into the next and, as a result, strength and stamina are developed. Your posture is improved, your spine is lengthened and flexibility and mobility of the joints is improved. We have two experienced instructors who teach the Joseph Pilates system to seniors. The cost is only \$8/class and the annual club dues are \$20 pp. Please feel free to stop by and watch one of our classes. Call Mary with questions.

Our topic this month is "Relaxation Therapy." The guest speaker is Philip R. Johnson, Ph.D., CRC, a researcher and rehabilitation counselor at the U of A. He has spent the last 20 years working with anxiety and stress-related problems and just recently found a correlation between relaxation training and movement disorder. However, his protocol is unique in that he uses cue controlled relaxation training procedures. He has just recently started working with several

patients who have Parkinson's and is finding interesting results applied to their dyskinesia/movement disorders.
