From the Board of Directors

Our mission as the SCOV Board is to lead in maintaining and enhancing the quality of life in Sun City Oro Valley as an active adult community.

All Board minutes, agendas and reports are available online. Board meetings are open to residents.

Board of Directors-Jane Fairchild President
jfairchildscov@yahoo.com

Finding Common Ground

As your elected Board President, I'm reminded daily of the passion and care our residents have for this community. That passion is a strength—it shows how deeply we all value life here in Sun City Oro Valley. However, in recent months, it's clear that strong opinions have, at times, led to division. It's understandable. We care deeply, and caring can bring out emotion. But it's also important to remember that we're all neighbors, and we all share the same overarching goal: to keep SCOV a thriving, welcoming place to live.

The Board of Directors has a duty to serve all residents. Not just those with the loudest voice or the most followers, but every member of this community. That includes listening to differing opinions, considering the long-term impact of our decisions, and staying focused on what is best for SCOV as a whole. It's a responsibility we take seriously, and one that comes with both challenges and rewards.

What we ask in return is trust in the process. Debate and discussion are healthy—and necessary—but must be grounded in respect, civility, and truth. Unfounded claims and personal attacks do not build a stronger community. Collaboration does.

We are a diverse community with a wide range of interests, backgrounds, and priorities. That diversity should be our strength, not a source of conflict. Whether your passion is pickleball, painting, hiking, or simply enjoying the view, we all contribute to what makes SCOV special.

Let's work to come together—not as factions, but as neighbors. The Board is committed to transparency, fairness, and inclusivity. We invite you to stay engaged, stay curious, and continue to participate in shaping the future of SCOV in a positive and respectful way.

General Manager - Sandy Seddon

sseddon@suncityorovalley.com 520-917-8080

As we approach the summer season, I want to wish our seasonal residents a safe and enjoyable summer wherever your travels may take you. We encourage you to stay connected with the SCOV community while you are away.

Board meetings are available via Zoom and are also posted on our website for a couple of weeks afterward. In addition, Board/GM chats are recorded and uploaded to the website so you can stay informed at your convenience.

As we move into warmer months, is a good time to update the community on several key projects we are working on:

AFC Pool & Spa Upgrades:

A major focus will be the pool and spa at the Activity and Fitness Center (AFC). Planned improvements include replacing the aging pool heaters, upgrading the chemical feeding system, and replastering both the pool and spa. We are preparing a Request for Proposal (RFP) to send to qualified contractors and will move forward with securing bids for the work.

Asphalt Assessment:

We recently conducted a professional evaluation of the community's asphalt condition. The final report is expected by late May or early June. Once we receive it, the findings will guide how we plan and prioritize maintenance and repairs, ensuring long-term cost efficiency and safety. This data will also be used to update the asphalt section in the Asset Reserve.

Sustainability Initiatives:

We now meet 50% of our electrical needs through solar power—a significant achievement that reflects our commitment to environmental responsibility. In addition, the Board recently approved a new solar project that will add more covered parking while further reducing our energy costs. This project is now underway.

Bunker Project:

The long-planned bunker renovation project at the golf course began on May 19. This effort will improve playability and aesthetics while reducing long-term maintenance needs.

Throughout all of this, we continue to emphasize respectful and constructive communication in all forums—whether during meetings, casual conversations or online interactions. Maintaining civility is essential to preserving the positive, welcoming environment that defines SCOV. Everyone deserves to feel heard. The monthly Board meetings and GM/Board chats are great opportunities to stay engaged, and we welcome your input.

Thank you for your continued support as we move forward with these important improvements.

It's More Than Living... It's A Lifestyle!

Keeping Your Plants Alive During the Summer

Summers in Southern Arizona brings extreme heat, intense sun, and very little rainfall —conditions that can be brutal for even the hardiest plants. But with the right strategies, you can maintain a thriving garden despite the desert climate. Here are some key tips for keeping your plants alive during the sizzling summer months.

Choose the Right Plants

Success starts with selecting plants that are naturally suited to the desert environment. Native and drought-tolerant plants such as agave, lantana, desert marigold, and salvia thrive in the heat and require less water. Succulents and cacti are also excellent choices. If you're growing vegetables, opt for heat-tolerant varieties like okra, eggplant, sweet potatoes, and chiltepin peppers.

Water Wisely

Water is a precious resource in Southern Arizona, and using it efficiently is crucial. Water deeply but infrequently to encourage deep root growth. Early morning—before 6 a.m.—is the best time to water, as it reduces evaporation and allows plants to absorb moisture before the heat of the day. Drip irrigation systems or soaker hoses are ideal, delivering water directly to the roots with minimal waste.

Mulch Matters

Applying mulch around your plants helps retain soil moisture, regulate temperature, and reduce weed growth. Organic mulches like wood chips, straw, or compost are particularly beneficial. Aim for a layer of 2–3 inches, but keep mulch a few inches away from the base of stems to prevent rot.

Provide Shade

During peak summer heat, even desert-adapted plants can benefit from some relief. Use shade cloths, garden umbrellas, or strategically placed structures to provide partial shade during the hottest part of the day, especially for tender plants or vegetables. Temporary solutions like lightweight fabric or old bedsheets can also work in a pinch.

Monitor and Maintain

Keep an eye on your plants for signs of heat stress, such as wilted leaves, scorched edges, or stunted growth. Regularly check soil moisture by feeling a few inches below the surface. Prune dead or damaged foliage to reduce stress and encourage healthy growth. And don't forget to fertilize sparingly, as too much can exacerbate heat stress.

By choosing the right plants and using smart care techniques, you can keep your garden alive—and even flourishing—through the summer heat of Southern Arizona. With a little extra attention, your landscape can be a cool oasis in the desert sun.

June is "The Great Outdoors Month." It is a month-long celebration of outdoor recreation in the nation's natural spaces, parks and wildlife. It's an opportunity to enjoy the outdoors and the benefits it provides for physical and mental well-being. Arizona state parks encourage exploration and adventure even during summer heat, with options like visiting air-conditioned state park museums or visiting parks in higher elevations.

Did you know that we have a broad selection of books with information on the local area? Celebrate the Great Outdoors Month by learning about the area you live in and the many things available to see and do.

Don't know where to explore? Grab a copy of one of Roger Naylor's many books. From his book *Awesome Arizona*, to his latest book, *Arizona National Parks and Monuments*, he has blazed a trail sharing some of the most fascinating places to visit in Arizona. Some of his earlier books are *Arizona's Scenic Roads and Hikes*, *Arizona State Parks*, *Arizona Kicks on Route 66* and *Arizona: Off the Beaten Path* and they are all here in the SCOV library for you to research and plan your next outdoor adventure.

Hydrate For Summer

It's no secret that dehydration is a big issue. When you're dehydrated, not only does the heat feel even more extreme, but you also run an increased risk of heat exhaustion and heat stroke. Learn about how much water you should be drinking and then stay hydrated with cold water and other cool liquids like smoothies. Keep in mind though, that there is a risk of over-hydration (especially for athletes in the heat) and drinking too much water can be deadly. Refuel. Just as it's important to stay hydrated, it's crucial to add electrolytes, which are primarily responsible for maintaining a balance of fluid in your body. Those spending a lot of time outside (like hikers) are at risk for drinking too much water, which then throws off sodium levels, so be sure to maintain a good balance with electrolytes.

Orientation on how to use the gym equipment is held Thursday, 1 pm So stop in and sign up; classes are limited. Contact Lonnie Davis, AFC Coordinator, to discuss questions or problems with the AFC.

Tue., June 10, the AFC pool and spa will be closed for cleaning and shock treatment. It will reopen the following morning at the regular time

Tue., June 24, AFC Spa closed for cleaning and will reopen at 1 pm.

Wed., June 11, the Desert Oasis pool will be closed for cleaning and shock treatment and reopen the following morning at the regular time.

Each month we feature two of our talented consignors. Each brings something unique to our Gift Shop.

Pam Dage (left) makes functional art using acrylic pour painting techniques. Each object is a unique creation of abstract art. In addition to her popular vibrant colored coasters, recycled CDs and LPs are painted with unusual designs and topped with resin to make clocks to hang on the wall or set on a desk. Bookmarks, necklaces and trivets can also be found using the same technique.

Lori (right) has worked with clay for over 20 years. Wine/utensil holders, vases, luminarias, small planters, wall hangings, small serving trays and spoon rests are a few of Lori's creations. In addition, Lori produces 5x7 and 8x10 prints and greeting cards that are copies of her original watercolors, which she has been painting for 12 years. You will find our desert flora and fauna in most of Lori's southwest designs.

The Long-Range Planning Committee (LRPC) advises the SCOV board by developing and recommending a rolling 10-year plan that enhances and sustains the quality of life in our community. Currently, we are conducting a "Benchmark" study to compare our assets, amenities, and services with those of similar active-adult communities in Arizona. As I step into the role of LRPC Chair, I acknowledge the outstanding contributions of outgoing Chair Joy Huxtable. Through her leadership—both as SCOV board chair and LRPC chair—Joy has guided our community forward with her thoughtful, consensus-building approach. I look forward to honoring her legacy as we continue our work. Our meetings welcome all residents to visit and contribute their insights. We are on recess until October see you then.

Bring your SCOV card to pick up items.

Medical equipment may be borrowed for up to two months, while other items are available for up to two weeks. We have many items for children, including strollers and toys. We ask that all borrowed items be cleaned before returning them.

Our SCOV Community Recycling Program supports our inventory through proceeds from recycled cans. Feel free to contribute either through recycling or by donating on-site. We look forward to serving you.

Neighborhood Pride

Teresa Deuel Covenants Coordinator 520-917-8087 tdeuel@suncityorovalley.com
First Wed., Noon, WC

Now that summer is here, keep in mind a few important responsibilities. Homeowners are tasked with removing weeds from driveways, sidewalks, and the edges where cement meets asphalt. Ensure that any cacti or bushes in your yard do not encroach upon the sidewalk, as this can pose a hazard to pedestrians. Trees should be trimmed to a height of at least seven feet above the sidewalk to prevent injuries and maintain visibility of stop signs. Additionally, any exposed soil should be covered with rock, and front yards must be free of artifacts like empty pots; instead, pots should be filled with live plants, as artificial ones are prohibited.

For safety, make sure that house numbers are unobstructed and well-lit for visibility at all times, and keep shrubs near your driveway trimmed to under 42 inches to ensure clear sightlines for exiting vehicles. The Neighborhood Pride team appreciates your attention to these reminders and wishes you a fantastic summer.

The *Tipster* editors strive to publish a high quality, professional publication each month. While we do not have an objection to a certain degree of folksy, informal writing, we have recently seen an increase in the number of submissions without the last names of people mentioned in articles. This requires editors to take extra time to contact the submitter to fill in the missing last names.

We ask all submitters to use both first and last names in their submissions and also in any identifying photo captions. While club members may know who the folks are, many non-members and prospective residents read these club articles as well.

It has been a great honor for me to be on the Posse Board for over 10 years and to serve as the Chair for over 7 1/2 years. It is time for me to step down and spend more time with my aging parents. I want to thank all the wonderful Posse Volunteers for their many hours devoted to keeping our community safe. I also know I could not have been able to do the job without Board members, David Ilse, Tom Garlinghouse, Barb McNeill, Charlotte Herbert, Lorie Puffett and Dan Stasi. The support of SCOV management and staff has been great. My last day as Posse chair is June 30, 2025. However, I believe in the Posse and will continue as a volunteer going out on patrols. Thank you for all the support.

Director of Golf Maintenance - Michael Kropf

mkropf@suncityorovalley.com 520-917-8063

June is a very slow time for many community activities. However, the summer months start the busy season for golf course maintenance. During the winter months, there aren't many opportunities to aerify greens, aerify and verticut fairways, or do any major projects without interrupting tournaments or impacting play during the peak golfing season.

The heat of the summer can bother people, but the bermudagrass thrives with higher temperatures. The heat increases soil temperatures which then provides the best time to aerify greens, tees, and fairways because they are able to recover quickly without disturbing as much golf. Aerification is necessary to provide oxygen, water, and nutrients to the roots, remove thatch, and relieve compaction developed over a season of heavy golf and cart traffic. This process provides a healthier and more playable turf in the long run.

This summer is going to be very busy with the green-side bunker renovation combined with transitioning the golf course back to bermudagrass. The goal is to complete both the project and the bermudagrass recovery before the monsoon season starts around August 1. In June and July, the golf course conditions will be less than ideal, but all the work will lead to good conditions for the rest of the summer.

During the construction phase of the bunker project, the Pro Shop will be notified daily of where the construction will be conducted. The greens will just be cups in the approaches to protect all the workers.

If you are new to SCOV and want to play, come join us. The cost to join the league is \$35, but I always encourage members to also pay the \$10 hole-in-one insurance. You just never know when that little ball may slip into the hole off the tee. We now have two hole-in-one winners so far

this year. We will pay out the pot at our first meeting in November.

I forgot to mention and congratulate the 2025 Club Champions in last month's article: Ken Schroeder, Lee Jacobson, and Tod Milton. Half the time, Twice the fun.

We played every Thursday at 8:30 am and will play through the summer at 7 am on Thursdays. Once a month this summer, we'll get together for an ice cream social and conversation. If you're interested in joining, contact our membership chair, Carol Johnson. We welcome new members. Registration for the 2025-26 season will begin in October.

As the season comes to a close, we find ourselves saying goodbye, for now, to many of our friends and neighbors who are heading home for the summer months. Whether you're traveling near or far, we wish you safe journeys and look forward to welcoming you back in the fall with open arms, familiar faces and

plenty of new memories to be made.

Reflecting on the past few months, we're filled with gratitude for all the moments we've shared. This spring was truly special—Mother's Day brought warmth and togetherness to our tables, while Cinco de Mayo lit up the community with color, flavor, and festive fun. Your participation, energy and spirit helped make each event unforgettable.

We also want to take a moment to thank you for your patience and kindness as we navigate a bit of light construction on the property. "Pardon our dust," as they say—your understanding and support during this time have meant the world to us, and we're grateful to have such a wonderful community that meets change with grace.

For those of you spending the summer with us, we're thrilled to share this next season with you. We've just launched our new weekly specials along with a fresh, fun Summer Happy Hour Menu—perfect for sipping, snacking, and soaking up the sunshine. The flavors are bright, the vibes are easy, and there's plenty to look forward to in the coming months.

We're already gearing up to celebrate Father's Day with something special to honor all the amazing dads in our lives. Soon after, we'll be ringing in the Fourth of July—always a favorite here—with patriotic cheer and festive fun. And July will also bring a creative twist with our upcoming Sip & Paint event, a relaxed and colorful evening filled with good wine, great conversation and your artistic flair.

To those heading out: thank you for being part of such a vibrant and joyful season. You've helped make this community feel full of life, and we'll miss you while you're away. And to everyone staying on with us for the summer—we're so glad you're here. Let's make this a season to remember.

The Sun City Community Foundation awarded the Wheels for Kids program funding to be a part of their annual expenditure of \$33,000 to refurbish or purchase over 600 bicycles for children in the Tucson area who otherwise would not be able to afford their bike. Many of the bicycles that are donated come in a wide range of conditions. In addition to a "new" bike, each child receives a lock and a helmet. Funding for the program comes from individual donations and grants. Wheels for Kids has been operating since 2008 and has distributed over 5,700 bicycles.

Currently 40 Sun City residents volunteer year-round to work on the project and deliver them to 13 charity organizations in the area who arrange for the distribution to families. If you can remember those "learner days" on your first bike, then you can understand the joy that the children in our area experience when they receive a "new" bike.

Our Clay Club windows consistently impress. Talented members display their favorite pieces and ongoing skills classes are featured. Recently one of our members, Angela Pfaffenberger, created a range of glaze combinations on white clay that serves as a valuable reference for both new and experienced potters.

While members can be reluctant to show their work, our window team continues to encourage them so that people walking through the artisan courtyard can see samples of what we do. Members are proud of their work, and we encourage newbies to try different techniques. Most of our potters are happy to answer any questions.

As the season ended, we had a gathering. We said goodbye to our seasonal members as they headed off to their travels. We wish them a safe and pleasant summer and look forward to their return.

When you are a new quilter, the members of Casa Amigas are there to help. Laurie Jendre excitedly shares the process for the quilt shown to the left. Sherrie showed me her potato chip quilt, and I

was hooked. Donna suggested I add a border, and that was a great idea. Next, Kim cut and sewed my squares evenly. Lesley took the quilt home and surprised me by working seven hours to top stitch it. The quilt will be donated to More Than a Bed, an organization that provides essential items to adoptive and foster families.

"I am thrilled to be able to contribute," said Laurie.

The Tapestry Hooking and Fiber Arts group meet on Tuesday mornings in the Sewing Room. If you are interested in our group, stop by the Sewing Room on Tuesday mornings between 9-11 am. We provide materials and instruction for those interested in learning to hook.

The picture is of Eric and Carrie Wiley holding a recently completed rug hooking project that Carrie completed. The rug is a primitive style of hooking which means that Carrie used a wider strip of wool to hook this project. Also, another interesting aspect of this project is that Carrie often dyes her own wool for her projects so that she can obtain the exact colors that she desires for her work. Carrie really enjoys the creativity of dying her own wool. She plans to hang this work of art once it is steamed and bound.

It gives me a good feeling when my van is full of pet beds that we made here to distribute to the Humane Society of Southern Arizona. The workers at the Humane Society are always glad to help unload them into the facility and grateful for the beds for their adopted dogs and cats. If you haven't seen how nice the beds are and how cheerful everybody is that makes them, I invite you to come to the Sewing Room any Tuesday afternoon. See you there.

Is it getting too hot? Cool off in our air conditioned studio to learn how easy it is to create fused glass or stained glass pieces. We're still offering classes in the summer. Visit our club website for details. Stained Glass art is the term given to art created by cutting out pieces from stained glass sheets, and soldering them together using either lead came or copper foil. Stained glass art can be many sizes and designs, from the smallest suncatchers to large windows. Fused Glass art refers to pieces of glass that are melted, or fused together in a glass kiln. Glass fusing can create jewelry, dishes and bowls, vases and glass paintings. Visit our studio in the Artisan Center or the Activity Center to view some of the wonderful stained and fused glass creations made by our talented members.

Artistically designed cutting boards

The Woodworking Club wishes our departing snowbirds a wonderful summer. We would also like to remind our year-round monitors to sign up for as many shifts as you can so we can keep the shop open all summer long. For June, we will highlight the artistic approach in woodworking. This month's offering is from one of our long-term members, Larry Brophy. Larry loves to combine function with art to create practical items for everyday use. The items shown are two examples of cutting boards made from many different wood species joined together, pattern cut and rejoined to create unique color and shape combinations. Larry's creations go well beyond "simple" cutting boards. Many of Larry's creations are featured and sold in our SCOV gift shop. Please visit the gift shop to see more of Larry's talent and many other wonderful items.

June is here and our club is on a summer break, but we can keep watching the night skies. June's full moon is early June 11, peaking at 12:45 am. It is named "Strawberry Moon" by the Algonquin, Ojibwe, Dakota, Lakota, Chippewa, Oneida, and Sioux tribes, because the wild strawberry reaches peak ripeness and is ready for harvesting in June. This berry is widespread throughout the lower 48 states, Canada, and Alaska, and is a popular and important spring food staple and one of the earliest ripening berries.

Other nicknames are "Honey Moon" and "Mead Moon" paying homage to the time when honey is ready for harvest; and "Rose Moon," either relating to June's birth flower, or (NASA's theory) it having a warmer reddish glow by being positioned lower in the sky, closer to the horizon (Northern Hemisphere's view),

Under the covered veranda/At Pancho's Design Center
 Dozens of reclaimed doors/Grand in scale
 Heavy with history/Wait for the discerning
 Builder of a territorial palace.

What of the original houses/These portals graced,
 Their owners and children and cats/Their gardens and chickens
 The shade of the ironwood in the courtyard
 The precious splash of the fountain.

The doors carry/their histories proudly
 Every nick and gash/Every shred of paint
 Too stalwart to sand away.

At night, when humans are asleep
 The old doors, scuffed and splintered
 Share whispered stories/rebuild for a moment
 The homes they loved/And a world long gone.

Conscious Aging

SCOVConsciousAging@gmail.com
 Wed., 9-10:30 am, AC/Navajo

Join us for our new book study beginning in June

Conscious aging is about the inner work of reorienting ourselves as we turn from our roles we assumed while managing careers and tending families, to turning inward and cultivating a deeper awareness of who we are now. Our goal is to discover how to face the known and unknown challenges of aging. With the help of our community, we are pondering the questions: Who am I? What are my values? What do I believe? What matters most to me? This inner work is supported by mindful movement such as qigong, guided meditation and book study that draws from psychology, sociology, metaphysics, philosophy and meditation. Conscious aging is about accepting who we are now. Our meetings consist of a short period of easy mindful movement, followed by guided meditation and discussion. Please contact Phyllis for information or email the club.

It's summer and our meeting time is 10 am. Come join us Mondays, Wednesdays and Fridays. The Arthritis Foundation recommends meeting when the air temperature is 77 degrees or warmer.

Our club performs gentle exercises which target all muscles. They are used by several health organizations to increase strength and balance, mobility and flexibility. Exercise is helpful in managing arthritis, fibromyalgia, replaced joints, etc. Some new members have expressed surprise at how quickly the first sessions had already increased their abilities to move. Others comment on improved stamina.

New members are always welcome. Our members are fun, accepting and welcoming. We frequently hear "I came for the exercises and love all the friends I have made." Your first class is free. Yearly dues are \$5. There is no fee per class. Hope to see you there.

Summer is here and both Monday and Thursday classes are smaller and more personal, making it a great time to try out Pilates. We do stretching exercises first to warm up and then perform the Pilates mat routine, modifying some of the moves for those with limitations. People ask "Can the benefits of Pilates, which come from strengthening and stretching exercises, really develop the body's core (your abdomen and back muscles), make you stronger overall, increase spine mobility and build flexibility?" The answer is a firm yes. Additional benefits include improved balance, muscle tone, stamina and a feeling of well-being. The cost is \$8/class and annual club dues are \$20pp. Please join us or just stop by and watch. Call Mary 638-7916.

Cathy Morrow 360-739-0376
Thu., 1-4 pm, Desert Oasis

Raindrops are falling on my head. Monsoon season is only a week or two away. Come in out of the rain and join our Thursday Maj game. We've been using the new 2025 card for a couple of months. It's been challenging but it gets easier each week. We play all summer long so join us for a hot game and stay cool and dry. New players are always welcome.

Last month a rules question came up during one of our games. A player called for a tile. The player to her right called the same tile for Mah Jongg. Two of the runs were exposed when the player (oops, it was me) realized she did not have Maj. The first caller got the tile but we were not sure what to do with the second hand. I called the National MJ League for clarification. The rule is iff all or part of a hand is exposed for Maj Jongg in error, the hand is dead.

Birders

Peggy Smith 520-344-0991 pdsaz@aol.com
www.scovbirding.wixsite.com/birdersgroup

Lesser Nighthawks are quite common in SCOV during the warmer weather. You will see them darting around the golf course as well as street lights throughout Oro Valley. Well camouflaged, they are seldom seen in daylight. Rather, they show up at dusk and appear to be just a highly maneuverable

dark form catching moths and insects for their evening meal. In the dim light, you may note the white bands near the wingtips. While Common Nighthawks inhabit most of the country, the Lesser Nighthawk stays along the Mexican

border. As a group, they are referred to as Nightjars and are among five species that can be found in Arizona.

The Birders Group is an informal club of 140+ members mainly focused on field trips through the cooler months. At this point, we are in our summer hiatus but will resume our trips in the fall. For more information, contact Peggy above.

Summer officially comes to Oro Valley in June. Temperatures climb, so most of our hikes begin early in the day. A variety of hikes is offered to accommodate all skill levels, and groups are usually small and personal. All hikes are led by an experienced guide who knows the area. To hike with us, sign up for an orientation hike, officially join the club (\$10 annual dues), and you're all set. Orientation hikes may be suspended during the rest of the summer season, so if you are thinking about joining the club, now is the time. Orientation hike dates and sign ups are located at www.scovhiking.org. Also listed are the hikes for the current and the following month.

Hike descriptions covering the distance, elevation gain/loss, difficulty rating, date and starting times are also available.

We are often asked how does Table Tennis differ from Ping-Pong? The short answer is that there is almost no difference although Table Tennis has more formal rules and the scoring is a bit different. So, if you played as a youth or are shy, come and renew your skills at Catalina Vista. Days and hours are listed in the *Tipster*. While there are many benefits to being a member (\$5 a year), it is not necessary to join if you have someone to play with. Just come over after the first hour and a half of the times listed and be sure to wear proper footwear (tennis shoes are best). If you have any questions or wish to receive a refresher, just contact either John or Peggy above.

"Brenda was a breath of fresh air! She was very professional and handled so many tasks with ease. I would hire her again in a heartbeat! Such a great person to work with and have your interests at her heart. I can't say enough about her! She's great! She took control as soon as I said let's do it! What an asset to this real estate company."
