From The Board of Directors

Our mission as the SCOV Board is to lead in maintaining and enhancing the quality of life in Sun City Oro Valley as an active adult community.

All Board minutes, agendas and reports are available online and in the SCOV Library. Board meetings are open to residents.

Views Versus Property Rights

by Lou Gard

In the near future you are going to have the opportunity to vote for a significant change in the SCOV governing documents. The vote may occur at the coming election for new Board members, or it may come later this year. Any change must be approved by two-thirds of residents voting.

As you know there are many homes in our community that have wonderful views of the Santa Catalina and Tortolita Mountains while there are many more that have marginal views. Residents bought these homes with the expectation that since SCOV was built out, and there would be no more construction, the view they had when they bought will always be there. This has not proven to be the case in some instances. Some seasonal residents are coming back, after several months away, to find that their neighbor has put an addition on their property that restricts to some degree or another the view they had. It is reasonable to assume that any impact on neighbor's views was not considered.

The resident putting on the addition did not do anything to violate the governing documents if they went through the Architectural Review Committee (ARC), as required. They had to present the plans for changes they wanted to make to their existing home. These plans will have required the homeowner to stay within the prescribed setbacks of their property and keep the height under 24 feet. As it stands now the ARC must allow the addition to be built unless it does not fit into the "harmony" (1st Amended Master Declaration, March 28, 2017, Article 5 Section .5.1) of existing surroundings and structures.

Herein lies the rub. How do we as an Association try to protect one homeowner's view and still allow other homeowners to make additions to their property? As you can see it is a huge dilemma. Your Board has approved a Task Force to Preserve and Enhance Lifestyle and Property Values. This ad hoc committee will attempt to sort out how to give views a place at the table with other valuable and legitimate property rights. As homeowners, you will be given the opportunity to voice your opinions as to any changes by attending committee meetings.

Your Thoughts and Opinions Matter

The use of comment cards in our community is an effective way for our residents to communicate with management and committees.

In The Views Restaurant alone we received 2,925 comment cards. Many of the changes you've seen over the past year have been the direct result of your comments. Let me share some of the statistics garnered from your comment cards ratings. For the past year the average rating for quality of service was 4.74 out of a possible 5. Average for quality of food was 4.36, and the overall experience average was 4.53. We certainly appreciate you sharing your thoughts and ideas about The Views Restaurant.

The Board of Directors and committees use forums and surveys to receive input on various aspects of our community from remodeling facilities to developing policies and amending the governing documents.

Thank you so much for sharing your opinions and expertise through all these forms of communication. It is with your input that we can make the community what you want it to be. The staff enjoy and appreciate working here at SCOV. We want to help you make this the home you've always hoped for, and we can only do it with your constructive input. Please continue to help us help you by sharing your insights through any format that is convenient for you.

How to Create Your Dream Home

Aesthetics Plus Functionality

By Carolyn Corwin

Have you thought about remodeling or updating your home, but don't know where to start? This February we have two great opportunities for remodeling ideas. With two major events scheduled, the Friends of the Library Home Tour on Saturday, February 17, and the SCOV Remodeling Fair on Saturday, February 24, there will be no shortage of inspiration for those dreaming of home improvements.

Taylor's new dream kitchen. Carolyn Corwin photo.

Brad and Michelin Taylor fell in love with SCOV and began their house hunt. With much of the available housing stock at the time in original or near original condition, they realized they would be remodeling. They bought their SCOV home in 2014, and their search for a general contractor led them to an individual with

experience building for Del Webb in SCOV. He knew all of the tricks and techniques used in the initial build and was able to advise them on ways to improve the functionality and overall quality of their property, along with giving the entire interior a whole new look. For example, the Taylors wanted to vault the ceiling in the family room addition to match the vault in the adjacent dining room. The contractor knew this was not feasible without all new trusses and roof, a cost-prohibitive venture. Their project included a new kitchen, with cabinetry expanded to the ceiling and extending farther along the wall, creating a more functional space. The remodel also included new bathrooms, remodeled closets, new doors and much more. The Taylors' large corner lot allowed for expanding the former den into a spacious family room with fireplace and a wall of built-in cabinetry.

Brad and Michelin join many others of us in SCOV who are enjoying and happily living in our remodeled and

updated homes. Many of us carefully weigh the financial cost vs. return on prospective improvements. According to the National Association of Realtors 2017 Remodeling Impact Report, a kitchen renovation with a \$60,000 price tag will recover an estimated \$40,000, or 62%, if resold. The report points out another non-measurable benefit to an upgrade, happiness. The report states "81% of remodeling consumers surveyed said they had a greater desire to be at home since completing their kitchen upgrade project, and 81% felt a major sense of accomplishment after the renovation." So, if you are on the fence, take into consideration the potential enjoyment of your project in addition to the dollars and cents. The Taylors also have some great advice. "Use an experienced reputable licensed insured contractor who has references. Give a lot of thought to the design and scope of what you are trying to achieve. Don't skimp on quality of products."

Words of wisdom: The Taylors will share what they have learned from their remodeling experience with us at the Remodeling Fair on February 24.

If you want to learn from homeowners who have completed a remodeling project or get advice from the experts in construction, kitchen and bath updates and landscaping improvements, plan to attend the Remodeling Forum Saturday, February 24, 9-11 AM, Auditorium and Vendor Exhibits, 8:30 AM-12:30 PM, Activity Center Dance Studio.

\$2 Forum tickets for sale 9 AM-Noon, Thu. and Fri., Feb. 1 and 2, Activity Center. Remaining tickets can be purchased at the Welcome Center.

All Those New Faces

Have you had the feeling when you look around SCOV that there are lots of new faces? If you have, you would be right. Since 2012, SCOV's population has changed by almost 50%. Yes, that is correct. Over half of you are new to SCOV in the past six years. For those of you in the new group, welcome... we're glad you're here. For those of you in the seasoned group, enjoy meeting new friends and neighbors. This is an exciting time to be living here, so much to do, so many great people to meet.

If you're interested in the statistics here goes: ownership changed in 2012 by 7.15%, 2013 by 8.64%, 2014 by 8.52%, 2015 by 7.8%, 2016 by 9.45% and 2017 by 8.32%. Cumulatively these add up to a 49.88% change. Special thanks to David Johnson for compiling these stats.

Time Flies

I feel like I just told everyone, "Happy holidays," and now it's February. I am happy to say that the kids' activity packs I made were handed out to 100 kids. I got great feedback for all the things that the kids had to do. There were puzzles, pages to color (crayons were included), crafts to make and more. We also handed out a packet of information of places to take kids while visiting SCOV. I still have some packets left, so if you are having young visitors in town, stop by and pick up this useful information.

I hope you are enjoying all the new entertainment and new things to do in SCOV. I am always happy to get feedback from you.

Front Yards and Artifacts

Given the choice between reviewing the governing documents or enjoying our great weather, surroundings and facilities, it is easy to see why we tend to put off familiarizing ourselves with this mundane task. Consequently, residents are often caught unaware when they receive a Courtesy Notice or Violation Notice.

One of the most commonly misunderstood items on these notices concerns the display of artifacts in the front yards, street-facing side yards or within courtyards if visible above the wall. An artifact is an ornamental object, showing human workmanship or modification. No statues, depictions, artificial flowers made of any material, decorative yard ornaments or other man-made decorations are allowed in these areas.

There are exceptions. You may place an artifact on top of a front or street-facing side courtyard wall. The total length of the courtyard wall determines the number of artifacts allowed on top of that wall (one per four linear feet of wall). Placement of these artifacts on the courtyard wall is at the discretion of the homeowner.

Allowable artifacts include pots, but they must contain well-maintained live plants unless they are on top of that courtyard wall. A pot with a live plant may also be displayed in the front or street-facing side yard if it is within a plant

stand or holder as long as it is not taller than 6' in overall height.

Randy Trenary, Controller

The Key to Weight Control: Energy Balance

Think of energy balance as weight management. A calorie is a unit of energy. When we eat, we consume calories that provide our bodies with energy to do everything, from breathing to walking. So, the more we move, the more we burn. Controlling weight is balancing energy. If the numbers of calories in and out are the same, you will maintain your weight. If you burn more calories than you eat, you'll lose weight. Everyone knows what happens when we eat too much and move too little. Physical activity also fires up your metabolism, so you automatically burn calories while sitting, watching TV or sleeping (not a bad deal, right?). Weight management through energy balance may also lower your blood pressure and cholesterol levels, help control blood sugars and increase energy levels. If you're not getting enough physical activity each day, it's extremely difficult to maintain or lose weight or to keep it off.

Special Note From the Aquatic and Fitness Center (AFC)

Orientation on how to use the gym equipment is held every Thursday, 1 PM, so stop in and sign up. Contact Lonnie Davis, AFC Coordinator, to discuss questions or problems with the AFC.

Board Candidates Answer Questions

See Election Committee article on page 9 for voting information. Information about Candidate Forums on February 12 and 13 can be found in Coming Events on page 13.

Lou Gard

Why do you want to serve as a Board member, and what do you feel you will specifically contribute to the Board if elected?

Living in SCOV for over 22 years, I have volunteered and served on the Architectural Review Committee for seven years, the Marketing Committee for eight years and have headed the Ambassadors for the last six years and have had the honor of serving on your Board twice to complete the terms of Directors who resigned. I want to serve on our Board because

of my experience in SCOV and my desire to give back to the community.

We have seen many improvements, such as the AFC, Pro Shop, The Views Restaurant and most recently the Desert Oasis Recreation Center update. There are a number of projects being considered such as updating the Activity Center. The Long Range Planning Committee may consider additional projects based on resident input from a coming survey. I want to be on your Board to help ensure fiscal responsibility and see that projects are managed properly, on

schedule and on budget, and that you get the most bang for your buck.

What goals would you like to help the Board achieve during your term?

I will support future capital projects based on demonstrated need or members' consensus, and the availability of capital funds as indicated by projected Capital Contribution Fee revenue. As your Board member, I will commit to doing everything in my power to avoid special assessments for future capital projects.

With information from the Asset Reserve study being done, my goal will be to ensure that it is adequately funded to cover future expenditures.

What do you perceive as the most important issue in SCOV, and what is your opinion on the matter?

We have several issues facing SCOV in the near future. One that is getting a lot of buzz at present is a homeowner's desire to protect existing views versus another homeowner's desire to expand existing structures. Another factor in this discussion is the preservation of enhancement of property values. What solution supports this outcome? There is no easy answer. Current law and SCOV regulations support the rights of homeowners to improve their property, so long as the improvement conforms to ARC and Oro Valley requirements, and is in "harmony" with existing surroundings and structures.

Carol Gloriosa

Why do you want to serve as a Board member, and what do you feel you will specifically contribute to the Board if elected?

I lived in the Tucson area for over 22 years and decided to move to SCOV because of its attractive houses, yards and facilities. The main reason I moved here is the residents and their sense of community. I want to serve as a Board member in order to help preserve the quality of life here and to maintain the legacy of previous leadership.

For SCOV to continue to be a viable and outstanding active adult community requires that a director have experience in making informed and responsible decisions. They must also be open to maintaining two-way communication with their constituency and being responsive to multiple points of view. My career and educational background involved management, finance, law and budget planning in the fields of banking, law and education. I am member of two card groups, started a block party involving 124 residences, joined the Bocce Club and captained one of the SCOV teams in the 2017 Senior Olympics. I am a member of the Architectural Review Committee and have studied and applied the rules in our Master Declaration and the Development Standards. These documents, plus the Bylaws, Board Policy and charters for standing, service and ad hoc committees, taught me how SCOV resources are utilized, budgeted and maintained.

What goals would you like to help the Board achieve during your term?

Most of the Board goals approved last June remain important especially regarding maintenance of the contingency fund and current and planned capital expenditures versus budget. A system of asset allocation based on the profitability of key income and expense centers could be established.

What do you perceive as the most important issue in SCOV, and what is your opinion on that matter?

Most important is keeping the Association financially

strong. Without that strength we cannot maintain the quality of life, amenities and home values we enjoy. In addition, we should not lose sight of the fact that potential home buyers come here to see the attractive setting and facilities. This requires keeping our buildings and lands in up-to-date and attractive condition while continuing to hold a strong financial position. That is not an easy task, but I look forward to hearing all points of view and helping the Board reach a consensus on issues for the present and future.

Joy Huxtable

Why do you want to serve as a Board member, and what do you feel you will specifically contribute to the Board if elected?

Serving as a Board member is another way to continue to support the community I love. I am passionate about our community and will bring enthusiasm, a direct communication style, common sense, strong organizational skills and integrity to my work on the Board. My prior career and life experience, SCOV volunteer experience and my strong work ethic will support the Board's mission to establish policy and to maintain and enhance the assets and facilities of the Association. To paraphrase a famous phrase, I asked myself what more can I do for my community, rather than asking what my community can do for me?

What goals would you like to help the Board achieve during your term?

We need to continue to maintain and update our facilities and amenities. There will always be projects that compete for Association funding, e.g., renovation of the Activity Center, potential reconstruction of the golf course greens and upgrades to The Views Restaurant kitchen. These competing demands will require thoughtful analysis, discussion, creativity, negotiation and compromise. My goal would be manage our various funds, so there is no need for a special assessment and so our dues remain competitive.

What do you perceive as the most important issue in SCOV, and what is your opinion on the matter?

SCOV currently functions well with the support of an experienced management team and staff and many committed volunteers. We are financially stable and have wonderful amenities that are well-maintained. However, we need to always be looking toward the future. The work done by the Future Housing Task Force and the Long Range Planning Committee is very important to our community's success in the future. We must continue to focus on the future, determining what future homeowners will want and position SCOV to meet those needs. Continuing to be proactive, rather than reactive will help ensure SCOV remains a leader among active adult communities in southern Arizona.

Donald Teiser

Why do you want to serve as a Board member?

My wife and I plan on living here in SCOV for a very long time. We love the beauty, friendliness, activities and amenities of SCOV. I'd like to help protect and enhance what we have here.

What do you feel you will specifically contribute to the Board if elected?

Broad organizational and project management experience, an aptitude for getting things done, a recognition

of how much we need each other's help and how much there is to learn.

What goals would you like to help the Board achieve during your term?

I'd like us to

- find additional sources of income for SCOV without increasing the financial burden on our members;
- continue to refine the process by which we plan, estimate, approve and manage major construction projects;
- add more nature and access to nature in our community in a way that will not cause a financial burden for the members.

What do you perceive as the most important issue in SCOV, and what is your opinion on that matter?

Major new real estate developments adjacent to or near SCOV, including the Arroyo Grande Projects.

My opinion is that SCOV (not just some of our residents) should: 1. ensure that we are all kept up-to-date on such plans and their status, and 2. aggressively lobby the Town, County and State in order to keep as much undeveloped land as possible adjacent to our community.

Association Committees

Help Needed

This Help Needed section seeks volunteer help for various Association Committees. You must be an owner/resident to serve.

Are you interested in keeping our community beautiful, and do you take pride in living here? If so, the **Neighborhood Pride Committee (NPC)** could use you as a member. It takes three to four hours a month to serve on the committee. Owning a golf cart is not necessary, but it would be helpful. If you are interested and would like to join us, or if you have any questions, call Tempe Johnson 520-825-6994 or Katy Mosier, Staff Liaison, 520-917-8058.

Active Health

In her presentation, she will share her thoughts and research on 1. discovering the keys to optimal aging from a neuroscientist's perspective; 2. learning how normal aging affects mental ability, thinking pattern, and well-being; 3. exploring how these changes manifest in the brain; and 4. uncovering the many health and cognitive benefits of exercise and meditation.

Aquatic Fitness Center Advisory

Chair Stan Shopa

First Wed., 11:30 AM, WC1

afc@suncityorovalley.com

We live in an active adult community where we have numerous opportunities that enable us to make life style changes to eat better, exercise or meditate. Research shows that it is better to not go it alone. Forty-nine percent of active seniors said they were more motivated to continue exercising because they did it with a friend. Joining an exercise

class or working out in the gym with a friend can also help beat conditions like loneliness and isolation as well as keep our bodies in shape. Momentum is best maintained when we have someone to encourage us to stay the course. Grab a friend, ask a neighbor to join you. Experience has taught us that social engagement leads to sustainable change in our lives and bodies.

Architectural Review

Janice Strassburg 520-338-2568 janicestrassburg@gmail.com

Second and Fourth Tue., 2 PM, WC3

Architectural Review Committee (ARC) is perhaps one of the busiest committees in SCOV. We meet twice a month (exception was December due to the holiday) and we process between 20 and 30 requests a month. That does not include roofing, painting of a whole house or flatwork such as concrete and pavers which can be approved in-house by the Community Services Coordinator. It requires meeting with the homeowner to review the work that is to be done. That isn't all bad since we review very interesting projects.

Our great hope is that the new ad hoc committee to propose structure to our documents will protect our beloved mountain views. I'm sure there are not many residents who will not want that amenity preserved. ARC has limited rulings in the Development Standards in regard to house additions and plantings. Our community continues to grow with the times; life is never static.

Consumer Referral - Vendor List

Susanna Moran vendor@suncityorovalley.com

Here are directions for looking up the Vendor List on the website: Go to scovaz.com > Members > Member Services > Consumer Referral Vendor List > Read More. The Vendor List was formerly the Consumer Referral List.

The Vendor List may be viewed at the monitor desk in the Activity Center during business hours.

Vendors should email Susanna Moran to inquire about applying to be on our Vendor List.

Election

Ballots, Initiatives and Forums

On Tuesday, February 20, a ballot will be either emailed or USPS mailed to all homeowners. For emailed ballots, make sure you create a contact for Vote-Now using the email address (elections@vote-now.com) so that when the online ballot is sent, your email provider will recognize the sender and you will receive the email. If you do not receive the email by February 22, call the Administration Office 520-917-8082 for assistance. If you lose your email or want a paper ballot, the Administration Office can help with that as well.

You will be voting to fill two three-year positions on the Board of Directors. At the time this article was submitted, there were three initiatives on which you will also be voting.

Live forums will be Monday, February 12, 6 PM, Auditorium and Tuesday, February 13, 9 AM, Auditorium.

SCOV has historically had great participation in elections. Our participation in forums hasn't been as strong. For this reason there will be three video opportunities to learn about the candidates. There will be a "Get to Know the Candidate" video and the live forums will be videotaped. These videos will post and you will receive an email with links to the interviews and forums. We hope that the availability and convenience of the videos will increase the level of participation in the election process.

Finance-Budget

Chair Sharon Miller muggins48@comcast.net

Third Mon., 1 PM, WC3

The 2018-2019 SCOV Association budgeting process began in January. The process started with department supervisors developing forecasts for operations and capital expenditures. This work is reviewed by the General Manager and Controller to develop a draft budget. The first draft budget is presented at the Finance-Budget Committee's meeting Monday, February 26, 1 PM. Additions/changes recommended during this meeting are used to develop a second draft, which will be presented and discussed at the committee's special meeting Monday, March 5, 1 PM. If a third draft is needed, it will be presented and reviewed at the committee's regularly scheduled March 19 meeting. The budget approved and recommended by the committee will be presented to the Board of Directors at the Thursday, April 12 Study Session. The budget, with any Board changes, will be placed on the Board's agenda for approval during its April 24 meeting.

Committee agendas, minutes and financial reports are posted on the SCOV members-only website. Please contact Sharon Miller for more information.

Food and Beverage Advisory

Chair Barb McNeill bjmac68@gmail.com

Oct.-May, First Fri., 2-3 PM, The Views Terrace

Chef Paul thanks you for the generous gifts you provided to the kitchen staff during the holidays. These folks expressed gratitude for being recognized in their role of providing you with food service.

Kitchen update: We now have two new ovens and a 12-burner stovetop so that consistently hot and faster service can be provided to you. More behind-the-scenes remodeling will continue (four new fryers), and next summer an increase in refrigeration space with the long-term goal of serving more local, seasonal and homemade products.

We hope you like the new wood-covered menu hand-crafted by Aalt Brouwer, assisted by the SCOV Woodshop. It features items with new names, but some old favorites with more order options. Occasional revisions will allow for rotational offerings, so check out the new ones and let us know what you like.

Thanks for using the new trash can outside the lobby. The cigarette receptacle should not be used for paper due to the risk of fire.

Friends of the Library

Hearts abound in February, and Friends of the Library (FOL) send hugs and hearts to all the residents who support the SCOV Library. February is an exciting month for FOL with the Home Tour on February 17, 9 AM-Noon and 1-4 PM. By the time you read this *Tipster*, I hope that you have a plan to get your tickets. This year, FOL members will have early access to tickets. Friends of the Library celebrates a 20-year anniversary in 2018, and members can enjoy a celebration with an author presentation in March. Also, members will have an opportunity to go by bus to the Tucson Book Festival in March with a discounted price and first opportunity to purchase tickets. Watch for more notices on these exciting benefits of being a member. Happy Valentine's Day.

February is the month for sweethearts. Remember yours with a special gift made by our very own resident artists. This month's featured artists are Bill and Pat Norton and Jo Wickberg.

Bill enjoys wood turning, free-form carving and working with the wood until he is satisfied he has brought out the beauty of the piece. His goal is to never make the same thing twice.

Pat offers loom knitted baby cocoons, hats, booty sets and ruffle scarves. Selling her items is new for her, because she has always been a donator. For every cocoon set she sells, she donates a set to Seniors for Kids.

After taking classes in various media, Jo returned to making cards for sale with her added skills. Currently concentrating on pop-ups, she creates cards with cakes, flowers or words that jump out upon opening. She also offers coordinated packets of smaller cards.

The Marketing Committee's focus in February will be supporting homeowners in both remodeling their homes to meet their current needs and ensuring updated homes attract future home buyers. We are collaborating with SCOV's Friends of the Library to help residents visualize and create their dream home. As a follow-up to the Library's annual fundraising Tour of Remodeled Homes on February 17, the Marketing Committee is sponsoring a Home Remodeling Fair on Saturday, February 24, 8:30 AM-12:30 PM, Activity Center. Once you have toured some newly remodeled homes, come to the Remodeling Fair and learn how to do it. Get advice from people who have survived a home remodel, learn about tips and trends from the local real estate industry and talk to local vendors about your goals.

Tickets, \$2 pp, on sale Thu. and Fri., Feb. 1 and 2, 9 AM-Noon, Activity Center/Lobby. Any remaining tickets can be purchased at the Welcome Center after February 2.

Take Time To Look

Next time you are out at your mailbox, take time to look at the box. Could it use a fresh coat of paint? Now that the weather is cooler, perhaps it's time to paint the pole, box and flag. Check with the Consumer Referral Vendor List for names of people who will do it for you at a nominal cost, if you don't wish to do the actual painting yourself.

Please remember, trash receptacles are not to be put out until the morning of scheduled pickup. Cans need to be put away and not be visible from the street or neighbor's property as soon as possible after being emptied.

Another item that needs mentioning, as it is the responsibility of the homeowner, is raised sidewalks. If the cement is raised ½-inch or more and could cause a walker to trip and fall, it needs to be repaired. More often than not, the raising is caused by a large root from a tree in the yard. Take time to look. Is yours OK?

Director of Golf - Rick Price

rprice@theviewsgolfclub.com 520-917-8086

Let's talk about community and how to build a stronger sense of it. The word community means different things to many people. It's typically associated with a neighborhood or local area, however, the kind of community I'm talking about is much more in-depth than that. It's about the importance or sense of belonging that we all are so attracted to. It's the need to be connected to one another, the desire to belong and be a part of something meaningful, fun and entertaining. It is the reason people do volunteer work and join groups and clubs.

As we busy ourselves with our individual lives and pursuing our goals we all desire to experience community. The need for being connected is built into all of us. A genuine community is a group of people who belong to one another. Real community is a group of people who are committed to one another in every way possible. They share the same vision and values in life. They care for one another deeply. If you would like to experience what that feels like, I would encourage you to join one of the men's or women's golf clubs and become connected to our golfing community.

Thank you, everyone, for coming out last month and participating in our Annual Golf Club Fair. We look forward to seeing you on the golf course.

Last fall, a new committee started meeting to discuss the possibility of replacing the greens. The Board of Directors approved the formation of the committee with the task of determining whether the greens need to be rebuilt, the logistics of replacing the greens, the costs associated with such a large project and the advantages and disadvantages of new greens.

The members of the committee are made up of representatives of each golf club, an at-large representative from the community, a board liaison and staff representatives from the Pro Shop, administration and maintenance. Most members of the committee do not have a background in agronomy or much knowledge about the science involved in growing golf course greens. Independent experts are being brought in to give presentations to educate and explain what goes into greens construction and reasons that old greens need to be replaced.

Information has been gathered about other golf courses in Southern Arizona and what they have done with their greens over the years. Soil and water tests over the last ten years at The Views have been compiled to show the change in conditions of the greens since reclaimed water was introduced in 2005. In January, extensive soil tests were performed to get an accurate analysis of the condition of the greens.

The committee meets every second Monday of the month, 2 PM, Welcome Center. It is an open meeting, so please attend and learn why the greens need to be replaced.

Golf Advisory

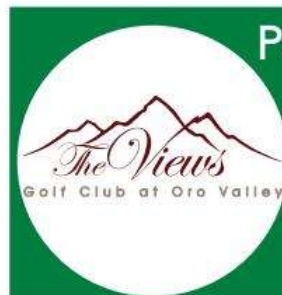

Chair Yvette Schulz 520-825-0797

Sep.-May, First Wed., 2 PM, WC3

Our women's and men's golf clubs continue to grow. The clubs offer weekly events and tournaments that help build market share in a competitive golf market. Recent statistics show an increase in the number of rounds played by our residents and public play.

A big thank you goes out to Mike Kropf and his crew. They work wonders to keep our golf course in excellent condition. Another big thank you to our Pro Shop staff and players' assistants. They work hard to keep our golf hassle free. Our Director of Golf, Rick Price, continues to schedule new events and tournaments for both the golfer and non-golfer residents of SCOV. He is also organizing events for nonresidents, which is increasing our public play.

If you have any questions or concerns regarding the golf course or golf operations, please contact your league representative or Yvette Schulz.

Play Wed.

Congratulations to the two-man team winners of the Governor's Cup held January 24, 27 and 31.

Our next tournament will be the Club Championship held March 7, 10 and 14. The Club Champion will be the low gross winner of the championship flight. All flights will be gross and net, so there is something for everyone.

Playing in tournaments and the weekly events gives you points toward playing in The Views Cup Final that will be held March 28. You can keep tabs on your progress by checking the postings on the bulletin board.

The weekly events for February start with Heartless Scramble on February 7. A recent change in the game requires players with a handicap of 26 or higher to have two tee shots and two second shots during the round as opposed to three of each. On February 14, the game is a 2 Man Better Ball followed by a general membership meeting and lunch at the Activity Center, commonly referred to as a BASH. Bring your street shoes, as no golf shoes are allowed in the Activity Center. A Step Aside Scramble will be played on February 21 and on February 28, 2 Better Balls. All games are played under USGA Rules of Golf, so putt everything out and play the ball down unless announced otherwise.

Jim Fogel reports that we now have 23 new members and the total roster has increased to its highest point over the past five years. We welcome new members, so if you know of anyone who enjoys playing golf, encourage them to join us.

By now we have most of our seasonal residents back, and hopefully most of you saw some of the fun changes we have made in the restaurant. Our Christmas Eve Dinner was a huge success with great food, wine and company. Guests are enjoying our new menu and we look forward to making small seasonal changes to it in the future. Our new cocktail menu has also been well received. New plates and silverware have been purchased to modernize plate presentations. Lastly, new uniforms have been given out to our staff, making them look modern and professional.

On February 14, we are excited to offer a three-course Valentine's Day menu with an optional wine pairing. See Coming Events for details. We hope you will come and join us for great food and a pleasant evening.

With the busy season upon us, I want to remind everyone that, although many improvements have been made, any kitchen can only do so much with a large volume of orders in a short period of time. We strive for orders to take no longer than 20 minutes every day, but on busy nights like Fridays, this is extremely difficult because we are serving 200 hundred orders in a two-hour period of time. That amounts to a plate of food being served every 40 seconds. The best kitchens in the country are hard pressed to keep that pace going. There is, however, a solution to this dilemma. If you order prior to 5 PM on Friday, you will receive your food faster, as well as spread out the congestion in the kitchen. I thank you for understanding, and look forward to serving you in the coming months.

A new sport is surfacing in senior communities. POP Tennis is being introduced throughout the U.S. as the softer side of tennis. The serve is underhand which allows for slower motion with little shoulder elevation. A demonstration of the new sport will take place at the Desert Oasis courts at the stated date and time. Come join us.

With the holidays behind us, the club settles into orientations, classes and working together to offer our new members ideas and confidence to become independent clay workers.

The final totem pole has been installed at last, and visitors to the area continue to enjoy the clay and glass collaboration. Often we see grandparents bring their young visitors to look at and pose before the colorful and charming creation of our joint venture with the Stained and Fused Glass Club. It gives us great joy to watch from

our windows and know we gave this to our community. We are grateful for the opportunity to serve in this artful manner. Who knows what will be next? Enjoy our windows and know we are happy campers.

This photo shows models of WWI airplanes that are on display in the window at the Modelers Room. While shopping at a local hobby shop, Modeler Club President Fred Faust met a gentleman with a box of the WWI model air-

planes he had built in the 1950s. He intended to give his collection of models to the hobby shop. Fred encouraged him to allow the SCOV Modelers Club to place this valuable collection on display.

All SCOV residents are welcome at our monthly meetings and to the use of the Modelers Room. On any day, if the lights are on and someone is in the Modelers Room, stop in. At our meetings, you will see what we are about and you may enjoy a cup of coffee and a sweet roll. From time to time we schedule field trips of interest to modelers.

Last year proved to be quite a busy year for Casa Amigas. We were able to provide over 2,000 articles of clothing, afghans, quilts, walker/wheelchair bags, tote bags and infant items. Recipients included IMPACT, Teen Outreach Pregnancy Services, Sr. Jose Women's Shelter, Youth on Their Own, Veterans Health Services, Vets for Vets and Tri-Community Services.

Gary Jones has been a professional musician since 1977, playing saxophone, flute, and harmonica in various bands. He splits his time between Arizona and Oregon, where he owns a Christmas tree farm. He has done macramé and has made beaded necklaces, belts and earrings for many years. He also constructed terrariums for Macy's Department Stores in the Northwest. Gary joined the Silversmith and Lapidary Club in the fall of 2016 after taking the student orientation class. One of the things he particularly appreciates about the club is the opportunity for creative expression. Another is the helpfulness of fellow silversmiths. He enjoys creating cabochons from rocks and the processes for integrating them into silver jewelry pieces. His artistic background is a great fit with the club and his willingness to become a monitor shows his enthusiasm and commitment. Clubs don't operate by themselves, and he helps keep the club going strong.

What a year 2017 was, and we are off to a great start in 2018. There is a lot of creativity going on in the studio showing imagination of believing if you can dream it, you can do it. Rudy was a woodworker in Milwaukee. He and his wife, Lorraine, came to SCOV in 2001. Rudy joined the Woodworking Club immediately and has served as a monitor ever since. They also support the Wisconsin Club and Seniors for Kids. Rudy and Lorraine are true assets to the SCOV community.

Don Jovag will be conducting free safety classes in the Woodshop starting Monday, February 5, 8-9 AM. Classes continue every Monday and Wednesday for four weeks. No registration required. Just show up at 7:45 AM on Monday, February 5 for the start of the class.

Our speaker on Thursday, February 15, is Dr. Alyson Ford from the Astronomy Department at the University of Arizona. Dr. Ford is the Radio Telescopes Manager at the U of A. Her research focuses on the gaseous content of galaxies and the processes that shape this gas, including star formation and stellar feedback. To study these topics she uses multi-wavelength data ranging from the UV through the optical to the radio.

Dr. Ford has made important breakthroughs from her research on gas clouds in the disk-halo interface of the Milky Way. She studied for her Doctorate at the Swinburne Technical Institute in Melbourne, Australia.

The Astronomy Club has speakers from a multitude of astronomy studies. Each speaker in our lecture series covers a different aspect of the astronomy world. A star party is scheduled for Tuesday, February 20. Come out and see what's up there.

Our February title is *Hillbilly Elegy* by J.D. Vance. Vance attempts to explain the anger and disaffection of the white denizens of the Rust Belt via the experiences of his own upbringing. It's hard to escape a legacy of abuse, alcohol, drugs and poverty. This is a well-written account of anger, pain and love combined with cultural influence.

In March we will discuss *Saints for All Occasions* by Courtney Sullivan. Named one of the *New York Times* Critics' Top Books of 2017, *Saints for All Occasions* is a novel about family, secrets, loss and heartache that spans two continents and several generations.

Poets Corner

Sharyn Rafieyan 520-825-6762 srafieyan@comcast.net
Mon., 9:30-11:30 AM, WC1

The beginning of a new year is a good time for reflection as we ponder what has passed and wonder what's ahead. Poets Corner member Christa Lubatkin contemplates confronting the world around us and finding the means to accept what is while struggling with what isn't the way we'd like it in "What's given us."

and so we take what's given us / the strong and sturdy tree / the crooked one too, stunted / under leaf umbrellas/ lacking sun and even rain

we rail against injustice / disappointment, pain, despair / as we watch the three-legged dog / happily skipping along a blind man striding on his way / click, click he goes / his face turned to the sky, his ears

awake to everything, birdsong / a crack in the path our mothers, with promises / we'd always be safe, / have died away, and so we take what's given us

The January theme, "All About Soup," provided some challenges, like what kind of soup do you make for dessert? We enjoyed some very tasty recipes. There are a lot of amazing cooks in the community.

February is going to be a busy month. Besides the Moroccan meals that will be prepared and enjoyed in our homes, we will have our midterm luncheon at The Gallery on Thursday, February 22. Be sure to watch your emails for details.

March's theme is "Taste of Spring." Besides the home-cooked meals in our homes we will be enjoying our last get together of the season Wednesday, March 28. This will be a catered event so we can all get together and enjoy an evening of friendship and food before the seasonal residents start leaving for the summer.

Any questions, please contact Alan.

Harvey Gardner 520-308-5616 savear@cs.com
Fri., 10-11:30 AM, AFC/Studio 2

Folk dancing is more fun than a treadmill, and it's an excellent exercise for balance, mindfulness, muscle and mood. For most dances, we hold hands in a circle performing non-gymnastic steps to the sometimes strange but fascinating music and rhythms of diverse cultures, including our own. Neither partner nor prior experience needed. Typical dance session consists of 12-15 mostly easy folk dances preceded by instructions. Drop by to see if this internationally popular dance form is right for you and see us in action by doing a Google search on Folk Dance Sampler YouTube.

Pilates

Mary Ayers 520-638-7916 scov.pilates@gmail.com
Mon., 3 PM, Thu., 1:30 PM, AFC/Studio

Forty years after his death, the system of exercises developed by Joseph Pilates to strengthen your core muscles (abdomen and back muscles), has never been in such high demand. Fortunately, SCOV offers Joseph Pilates exercise classes twice per week here in our AFC. People ask can the benefits of this Pilates method, which comes from the strengthening and stretching exercises we do, really develop and strengthen the body's core (abdomen and back muscles), increase spine mobility and build flexibility? The answer is yes, and the additional benefits you'll see from taking our group mat classes will also include better balance, more muscle tone and increased stamina. Not only do we have experienced instructors, the cost is only \$8/class and annual club dues are \$20 pp. Please stop by and watch one of our classes. Call Mary with questions.

Our current classes began January 11. If you have had previous Tai Chi experience, you may be able to join the class session already in progress. Please contact one of our co-chairs for class details.

Another session will begin in March.

The POP-ular sport called POP Tennis is coming to SCOV for everyone looking for a new, exiting racquet sport. POP Tennis is played on a scaled-down version of a regular tennis court. A shorter, lightweight, perforated wooden paddle, that comes in various grip sizes and handle length, is used with low compression balls. The same tennis scoring and rules apply but only a single, underhand serve is allowed. This is an advantage for those with shoulder or elbow issues. POP Tennis is a fun, social activity that is compatible with and complementary to both tennis and pickleball. A Grand Arrival Event and demonstration is scheduled for Sunday, February 18, 2 PM, Desert Oasis courts. Look for more information in the coming weeks.

Three major club activities this month are 1) Valentine's Day mixed doubles and social, February 11; 2) Men's doubles tournament, February 12-25; 3) Ladies Valentine Day round robin and social, February 14.

Lots to do in addition to our monthly meetings. Check the club website regularly for the most recent information.

If you are an RVer who would like to learn more, go to our website, or call for an invitation to attend a meeting.

Wheels for Kids

Wheels for Kids is a 501(c)(3) charity dedicated to providing rehabbed bicycles for kids in need in the Tucson area. To date, we've provided over 2,200 bikes to various other 501(c)(3) charities who then distribute the bikes to their clients. Some of our partner organizations are Youth on Their Own, El Grupo, Refugee Focus and Tucson Boys and Girls Club. Wheels for Kids is a total volunteer effort, and we need mechanics. If you are interested, we'll train you. Call Dick Swain 920-217-2610 or Tom Terfehr 520-789-7423. Visit our website, azwfk.org, for more information and how to donate bikes or financial support. Help kids experience the same joy you had when you got your first bike.

YOTO/Northwest Auxiliary

Kris Cohen 520-818-2582 krisandearl@msn.com

Speak with your financial expert about a tax advantage and help local youth and yourself when you donate to Youth On Their Own.

The PATH Act of 2015 permanently extends the IRS provision that allows certain individuals to make tax-free distributions to qualified charities, like Youth On Their Own, from their IRA. In case you don't already know, if you have an IRA and are 70½ years or older in 2018, you are required to take an annual withdrawal from your IRA. This compulsory yearly distribution is called your "required minimum distribution" or "RMD."
