### The Board of Directors Responds to the Challenge of Constant Change in SCOV

by Ted Hood

I recently saw a quote from a technology guru saying, "The technology we will use 20 years from now hasn't been invented yet."

The Board recognizes that the capital and asset reserve spending approved today must not only meet current needs, but also future requirements (as much as can be anticipated). To do this the Board has authorized Board committees that tap the wealth of knowledge and experience available from volunteer residents within our community.

Committees that deal with future issues are:

- Future Housing Task Force
- Cooperative Rights
- Long Range Planning

In addition, the Desert Oasis Renovation Committee and Activity Center Planning and Design Committee will be considering future needs as part of their research and recommendations.

The Long Range Planning Committee will be a permanent ongoing committee. The first of several objectives of the committee charter is "to provide a vision for the future of the community."

The Board fully expects that recommendations from the above committees will result in changes to our governing documents and changes in responsibilities of other Board committees.

As residents, you are encouraged to log into the SCOV website, click on members, and then on committees, for complete information on all of the Board committees.

The committees welcome your input, so be a part of your future at SCOV.

## Help Collate the Tipster

Once a month, residents are needed to insert flyers into the *Tipster*. Receive your *Tipster* early, share refreshments with us at the Auditorium. Usually the work is performed on the last business day of the month at approximately 10:45 AM. Call Dave or Tempe Johnson 825-6994.

## Advice for Residents

Common Household Product is Magic—  
SCOV has Magic Too

Most of us already know that a teaspoon of baking soda in the batter will make the muffins rise, but who knew that a pinch of it mixed with scrambled eggs will make them fluffier or added to water will make steamed vegetables stay green?

Aside from cooking, everyone knows that an open box of baking soda in the fridge will absorb strong odors. But did you also know that baking soda in bath water can relieve itchy skin caused by bug bites or poison ivy? And that pouring a cup of baking soda followed by a cup of hot vinegar down a stopped up drain will unclog it? Baking soda also can be used to polish tarnished silver, remove rust stains, extinguish a grease fire, freshen toothbrushes and clean dishwashers and coffee makers. Add it to kitty litter and the laundry to help deodorize. Use it on sidewalk and driveway cracks as a non-toxic weed killer. A dusting around pet food bowls will keep ants away.

A couple of cautions: Its magic powers fade with time, so check the expiration date on the box. Most important, don't mix it with other cleaning products. The chemical reaction could be toxic.

Just as baking soda is an amazing household product around your home, so is community spirit around SCOV. Applying a liberal amount of community spirit can be an amazing product. Community spirit is displayed in a myriad of ways. Here are just a few:

- Keeping your home and landscape looking nice.
- Volunteering to serve in clubs or committees or serve on the Board of Directors.
- Voting in elections and on issues.
- Sharing your thoughts and ideas to better the community.
- Stopping malicious gossip and rumors or other things that diminish the positive energy.
- Being involved in programs and activities.
- Participating in forums.
- Showing concern and support for a neighbor.
- Being involved and giving back of your talents and knowledge.

A couple of cautions about community spirit, though: Its magic powers fade if it is not fed regularly, so be sure it is expressed often. Most important, don't mix it with negativity, the reaction could be toxic.

You have worked very hard to create a wonderful place in SCOV. Thanks to all of you for what you do to enhance our community spirit. I love being here!

## Volunteerism Is a Way of Life in Sun City Oro Valley

by Joy Huxtable

When people plan for their retirement, they often worry about what they will do to keep busy. If you are a regular reader of the page 4 article in the SCOV *Tipster* "It's More Than Living... It's A Lifestyle!" you have seen many articles featuring the numerous activities and clubs we have in SCOV. While many residents enjoy playing golf or expressing their creativity through their art, or hiking and biking in the greater Tucson area, others miss their careers, and/or volunteer work in their former communities. Well, no worries; SCOV has a lot to offer residents who want to keep busy and give back to their community.

SCOV is unique among active adult communities. We have a very large number of volunteers who make a significant contribution to our success. Volunteers support much of the day-to-day management and operations of our community. In addition to leadership positions on the Board of Directors, there are also currently over 25 committee chairs serving as leaders for a variety of committees. There are standing committees, advisory committees and service and support (SAS) committees who support both the SCOV Board and the administrative staff.

In addition, there are ad hoc committees which involve people coming together for a short period to work on a specific issue facing the SCOV Community, e.g., the Activity Center Planning Team, or the Future Housing Task Force.

Not interested in a leadership role? Well, there are hundreds of residents who volunteer to support the work of these committees. Sharing your past experience and expertise can assist in the continued success for SCOV as a premier active adult community. According to Active Health Committee Chair Janyce Lundstedt, "I chose to volunteer in our community to get involved and meet new people, as well as utilize my professional experiences."

What's involved in being a volunteer? The simple answer is: time, sharing your expertise, caring and the desire to give back to your community.

Barb McNeill, Vistoso Helpful Hands Chair, Ambassador

and *Tipster* Editorial Committee member observed, "I consider volunteering as my way to spread the Golden Rule. We have enough people in the world who see problems. I say, if you see a problem, offer not only a possible solution, but work on making it happen."

You may be surprised to learn some of the benefits in volunteering. According to experts, perhaps the first and biggest benefit people get from volunteering is the satisfaction of incorporating service into their lives and making a difference in their community. However, there are also physical and mental rewards. It can reduce stress when you focus on something other than yourself. It interrupts usual tension-producing patterns. Volunteering can make you healthier, because moods and emotions like optimism and joy strengthen the immune system. Also serving on a committee brings people together and builds camaraderie which often leads to developing new friendships.

From the perspective of Lou Gard, Chair of the Ambassadors and a member of the Architectural Review committee, "It is fun to give back to the community that Sharon and I enjoy so

Members of the Future Housing Committee at the Committee Appreciation Breakfast.

Volunteer Ambassadors lead tours of SCOV for prospective residents.

much. By engaging in our community and not sitting on the sidelines, volunteers can effect positive change in SCOV."

Another important benefit of volunteerism: it keeps our community HOA dues lower by reducing the number of paid staff needed to maintain and enhance our quality of life here in SCOV.

Do you miss getting involved and utilizing your knowledge, technical, or organizational skills? There are countless opportunities to participate and make a difference in SCOV. Check out the list of committees on the SCOV website under "members" for examples of where you can volunteer your services.

Now that you know the needs and benefits of volunteering, choose a place to serve in your SCOV Community.

### Best of the Northwest and So Much More

Congratulations to us. We are in the top three positions for six categories for the *Explorer* newspaper's "Best of the Northwest." We have been nominated for Best Oro Valley Restaurant, Best Breakfast, Best Cocktail, Best Golf Course, Best Active Adult Living and Best Hiking/Biking. In mid-April the *Explorer* will publish where we ranked in those categories, but before all that happens I wanted to draw attention to something very important and very powerful.

While it's awesome SCOV received these votes, it's also impressive how we communicate with each other and the amazing level of responsiveness of our residents. You see, in order for us to receive all these votes in all those categories, an email was sent out asking you to vote...and you responded and voted! This level of responsiveness of our residents is repeated over and over within our community.

There are two other recent examples of where we asked you to take action and you did. One example was the request for feedback on Activity Center renovation wants and needs resulting in 125 responses and most recently the survey on views which had 389 responses. And while we're going to celebrate SCOV as the Best of the Northwest in whatever categories we win, we will also celebrate excellence in communications and responsiveness. It's a very powerful tool we have developed.

The beauty of the desert is everywhere. We all love to see the desert in bloom. Residents are doing yard work, taking walks and meeting new neighbors and old friends. SCOV can be proud of our golf and common area maintenance departments. They keep SCOV looking great all year. Once again, we remind you to take a plastic bag with you when walking your dogs to keep our community looking clean.

Soon our winter residents will be leaving, and I hope you enjoyed the entertainment I arranged and the clubs that you participated in. The monitors do a great job in assisting residents and reminding everyone of Association rules. SCOV is a great place to live. Remember our slogan, "It's more than living...it's a lifestyle!"

### Communicating with Neighbors

Frequently, residents come into the office and voice complaints that have to do with neighbors. After listening to their concerns, I ask if they have spoken to their neighbor about the subject at hand. In most cases it is better to speak neighbor-to-neighbor about a problem rather than have the Association call or write a letter of violation. Reactions when asked to talk to neighbors first range from, "Oh no! I don't want them to think I am complaining" to "That's your job; not mine"

If there is an issue that affects another neighbor, the Association would write a letter; but think about how you might feel receiving a violation letter generated from a complaint

by your neighbor. You might think, "Why couldn't Mary just come over and mention this to me? I would have been happy to either discuss the problem or make it go away."

Inviting them for a friendly cup of coffee with cookies can often work wonders as you explain a concern; especially, if you want them to see the problem from your property. Often, they have no idea that a problem exists. Residents have told us that changes have been immediate after a neighborly chat and they've grown closer to their neighbor as a result.

### How Important are Fluids in the Summer?

Fluid replacement is probably the most important nutritional concern for an exerciser. Approximately 60% of your body weight is water. As you exercise, fluid is lost through your skin as sweat and through your lungs when you breathe. If this fluid is not replaced at regular intervals during exercise, you can become dehydrated.

When you are dehydrated, you have a smaller volume of blood circulating through your body. Consequently, the amount of blood your heart pumps with each beat decreases and your exercising muscles do not receive enough oxygen from your blood. Soon exhaustion sets in and your athletic performance suffers.

If you have lost as little as 2% of your body weight due to dehydration, it can adversely affect your athletic performance. For example, if you are a 150-pound athlete and you lose 3 pounds during a workout, your performance will start to suffer unless you replace the fluid you have lost. Proper fluid replacement is the key to preventing dehydration and reducing the risk of heat injury during training.

### Special Note From the AFC:

Orientation on how to use the gym equipment will be held every Thursday at 1 PM, so stop in and sign up. Contact Lonnie Davis, AFC Coordinator, to discuss questions or problems with the AFC.

AFC and Desert Oasis: See Hours of Operation on page 2.

Tuesday, April 11, the AFC pool and spa will be closed for cleaning and shock treatment. It will reopen the following morning at the regular time.

Wednesday, April 12, the Desert Oasis pool will be closed for cleaning and shock treatment and reopen the following morning at the regular time.

## Association Committees

### Help Needed

This Help Needed section seeks volunteer help for various Association Committees. You must be an owner/resident to serve.

Wanted: Recording Secretary for the **Golf Advisory Committee**. Meetings are the first Wednesday of the month, 2 PM, WC3. If interested, please contact Tim Kelley at [tkelleykcs@gmail.com](mailto:tkelleykcs@gmail.com) or Yvette Schulz at [hyschulz@gmail.com](mailto:hyschulz@gmail.com).

The **aluminum can recycling program**, primarily for the benefit of the Loan Room, is looking for a few men or women to assist us with this program. We need daily sorters, about 15 to 20 minutes one day a week, and drivers and unloading helpers for our every six-to-eight week trip to the scrap yard. This will take a minimum of two hours per trip. If you can be of assistance, especially during the late spring, summer, and early fall months, please contact Dave Johnson (825-6994) for more information.

On April 21, 1 PM, Auditorium, the Active Health Committee is hosting "Taking the Sun Seriously: Advances in Prevention and Identification of Skin Cancer." The speaker, Dr. Anthony Lux, an Oro Valley dermatologist, will provide an overview of the diagnosis and prevention of skin cancer and share information regard-

ing current knowledge in the field. Since skin cancer is the most common type of cancer and continues to increase in incidence, you likely know someone who has had skin cancer. Active adults are wise to make sun protection part of their daily routine. Dr. Lux will also make recommendations for dealing with sun-damaged skin.

At this time of the year the AFC is busy. The weather is breaking, warmer days are here and residents are more active. The equipment in the AFC is popular and at times there is a wait to use one of the pieces of exercise equipment. You are encouraged to utilize the machine you are interested in and move on to your next exercise. You may be tempted to sit and rest on the machine and chat with a friend. There is a good possibility that someone else is waiting to use that machine. Please do your exercise and promptly move on.

### Architectural Review

Second and Fourth Tue., 2 PM, WC3

One month to go to evaluate the shrubs beside your driveway. Trimming them to 42 inches or less will help with visibility and improve safety when leaving your driveway, whether you drive a Hummer or Mini-Cooper. When your bumper reaches the inside edge of the sidewalk, you should be able to see an approaching vehicle, walker or cyclist on the road.

Another item for thought is your property line. Your lot does not begin at the sidewalk. Most front yard property lines are four to five feet behind the sidewalk toward the house. If your plantings are in that area, they are not on your property.

The Development Standards provide guidance whenever you make changes to the outside of your structure or landscaping. Be sure to plan ahead.

### Finance-Budget

Chair Dick Brammell [crbbrammell@gmail.com](mailto:crbbrammell@gmail.com)  
Third Mon., 1 PM, WC3

The committee met on February 27 to discuss the first draft of the budget for 2017-2018. The committee had questions that required additional information from the administration. On March 6, the committee met to review and discuss the additional data provided by the administration. At that meeting the committee approved the budget for the next fiscal year.

The budget approved by the committee will be presented

to the Board of Directors at the Thursday, April 13 Study Session for their review. The budget will then be approved at the Tuesday, April 25, Board meeting.

### Food and Beverage

Chair Del Peterson 307-631-3114  
Oct.-Jun., First Tue., 9:30 AM, WC1

I recently volunteered on a Friday night for five hours at The Views. I greeted and seated guests, cleared tables, reset tables, poured water and coffee and served cocktails. The restaurant was extremely busy with a full staff of servers and kitchen workers. Later I stopped to reflect on how far we've come. I remembered that just two years ago we were only open for breakfast and lunch.

The Views has become a first-class restaurant and lounge. During this transitional phase, we have worked hard to address constructive comments that we receive. For the volume we handle, our staff does an amazing job and they appreciate the goodwill of our residents.

As I finish my four-year term as chairman, I want to thank the committee, the hard-working staff and the patrons of The Views for your willingness to adapt as we continue to improve this excellent amenity to our SCOV community.

### Friends of the Library

Our library is one of the jewels in the crown of Sun City Oro Valley. It sparkles so brightly because of the community participation, the dedication of our volunteers and the inimitable stewardship of our librarian, Kate Cusumano.

Many thanks to the community for your participation in our fundraisers: the Home Tour and the Book and Author Luncheon. Thanks, also, to all of you who are members of Friends of the Library. These fundraisers and your membership in Friends of the Library make it possible to keep our wonderful library chock full of new and exciting books, videos, and audios.

Come and visit.

### Future Housing

Last month we held several well-attended focus groups which shared ideas, concerns and opportunities about the future of our housing stock. There are many shared values as well as many different opinions. Our next information gathering strategy will be an online survey in which all members of the community can participate. As always, you are welcome at our monthly meetings.

If you are leaving for the summer: Be sure to cover or leave running any water feature in your yard to avoid stagnation and mosquitoes.

Featured artists this month are Don Jovag (pictured at left) and Luann Jamison. "Glass has been my hobby and my business for over 25 years," says Luann, who has made lampwork glass beads, melting rod glass in a torch flame at 2,500 degrees. This work was sold all over the world and her jewelry resides in the Royal House of Sweden. "Currently, I'm working with glass in a different form—sheet glass that I cut, manipulate, decorate, and fuse. They eventually become bowls, vases and decorative pieces" (photo on right).

Don is known for his food-safe wooden bowls and platters that feature intricate designs he creates with different varieties of wood. When you feel one of these bowls, you get an appreciation for his meticulous attention to finish and detail. Don also makes beautiful segmented wooden bracelets.

There is still time to sign up for the fall Arts and Crafts Festival. Pick up an application in the Gift Shop.

### Government Affairs

We've recently experienced a tough national election cycle followed by a number of calls for election reform. On Monday, April 10, Dr. Barbara Norrander of the UofA's School of Government and Public Policy will share a wide variety of ideas on election reform including those being talked about at universities and think tanks. Her interesting presentation will be at 1 PM, Activity Center/Native American Rooms. Please come to learn what people who study and make recommendations on election reform are thinking about, and share your novel ideas.

On Tuesday, April 11, Melissa Martin, Senator Jeff Flake's assistant will meet with any SCOV resident in the Activity Center/Kachina Lounge if there are issues or questions for which you'd like help from your Senator in Washington. Drop in between 10:30-11:30 AM.

### Loan Room - Community Assistance

Chair Gay Russell 825-5763  
Meeting Third Thu., 3 PM, WC1

The Loan Room has been very busy for the past few weeks and, with several special dates coming up, we expect it to be even busier. We will try to accommodate all your requests for equipment, but we sometimes run out of popular items. We will try to offer a substitute, if at all possible, and hope for your understanding if we are out of options. It becomes very important that you return any items you have at the designated times. For your information, medical items will be loaned for a two-month period and can sometimes be extended, but, if you need something on a more permanent basis, you would need to purchase your own. All other items are on a two-week loan basis and cannot be extended during our busy times of the year. We hope you understand these requirements, and make use of what the Loan Room has to offer to SCOV residents free of charge. Thank you for your support.

### Marketing

Barbara Ross 818-0701 [bfgnye@gmail.com](mailto:bfgnye@gmail.com)  
Fourth Thu., 3 PM, WC1

Marketing is defined as the art of finding, developing and profiting from opportunities.

We are looking for a few good people who want to help us find the opportunities and develop a plan for marketing, communications and public relations to take advantage of those opportunities.

We will meet on April 27.

### Neighborhood Pride

Chair Tempe Johnson 825-6994  
Third Tue., 2 PM, WC3

### Spring Came Early

We had rain showers early this year, along with exceptionally warm temperatures. Because of this, spring came early. Wildflowers and weeds are popping up everywhere. When weeds are small, they are easy to remove. Wildflowers are allowed in our community until after they bloom; then they need to be removed. It is time to make sure those empty pots in front yards are filled with living plants, cactus, or flowers. Please trim any trees or shrubs which overhang the sidewalk or street. Remember, no artifacts of any kind are allowed on the ground in front yards, no matter how cute they may be.

Winter residents need to have their yards maintained during the summer months so the home looks cared for while it's empty. Please make arrangements for your yard to be serviced while you are gone. Be sure to notify Administration of your summer mailing and current email addresses in case they need to reach you while you are away. Continue to take pride in your property even when you are not on site, so that it will look just as nice when you return as when you left.

## Posse

Chair Larry Clark 404-7664 2larryclark@gmail.com  
First Tue., 3 PM, Catalina Vista  
scovaz.com/committees/posse/ (must be logged in first)

As our winter residents close up their homes and leave for the summer, we wish to remind you of the Oro Valley Police Dark House program that is available for free. Go to the OVPD web page, [orovalleyaz.gov/police/darkhouse](http://orovalleyaz.gov/police/darkhouse), and fill out the form online, or call the Community Resource Unit 520-229-5080 Monday through Friday, 9 AM-5 PM to give them the information. The Sun City Posse will still patrol past your house every night, but we do not get out of our vehicles and walk around any of the homes. Nor does the Posse keep track of which homes are occupied or vacant. We highly recommend the OVPD Dark House program when you will be away for more than seven nights.

## Properties

Chair Ed Zwierling, 520-329-0737, EZwierling@yahoo.com  
Third Thu., 9 AM, WC1

The Properties Committee recently completed our semi-annual inspection and has given the results to the Board of Directors and staff. This inspection paid particular attention to storage areas. We will be making recommendations in the near future on how to better utilize our existing spaces. We will also be making recommendations on rectifying some of the problems discovered in the recent Chalk Creek inspection. The solar generation system is performing very well from the production and reliability aspects, and, with the anticipated TEP rate increase, we will be ahead of our original savings projection sooner than expected.

Please join us on the third Thursday of the month in the Welcome Center and participate in the many discussions about our facilities.

Head Golf Professional - Kim Griggs

[kgriggs@theviewsgolfclub.com](mailto:kgriggs@theviewsgolfclub.com) 917-8053

I have been noticing a lot of cigarette butts on the course and in the parking lot areas. Please be courteous and deposit your cigarettes into your own ashtrays or the receptacles that are provided for you. We would like to keep the golf course and community as clean and beautiful as possible.

If you haven't already, please stop by our brand new fully stocked Pro Shop and check out our wide variety of merchandise. We have golf balls, golf shoes, men's and women's clothing, sunglasses, wide brimmed hats to keep the sun off your ears, etc. Annual pass holders receive 30% off, and residents receive 15% off, excluding sale items, equipment and golf balls.

Since the weather is getting nicer and the days are longer, please remember, if you are a walker or driving your golf car on the golf course to enjoy the views, there still may be golfers out on the golf course. Please yield to the golfers and then proceed after they have hit their shots. We have walking hours posted, and we ask that you abide by those specific hours. This is not only for your safety, but for the golfers to enjoy their paid round of golf. Thank you for your cooperation.

Lessons are available from Tim Lochner and me. The cost is \$45 for a half hour and \$55 for 45 minutes. We both have a lot of teaching experience.

Our ball machine for the driving range has been moved. It is down by the driving range for your convenience. You may buy range tokens in the Pro Shop and they are \$5 for a small basket (approximately 25 balls), and \$7 for a large basket (approximately 50 balls). Our driving range dress code is the same as it is for playing the course. A collared shirt is required; no denim, no gym shorts, swim suits, flip flops, etc.

The Cure for Cancer Tournament was a huge success. All golf clubs participated, and with matching money from the Sun City Vistoso Foundation, we donated \$13,646 to the University of Arizona Cancer Center. Photo by John Njaa.

April is the time of year the golf course begins the transition from the overseeded winter ryegrass to the underlying Bermuda grass. The goal is to minimize the impact of the ryegrass on the Bermuda grass and improve golf course conditions in May and early summer.

One change this year: the seed rate was again reduced in the fairways at overseeding to help reduce the competition between the two grasses. With less competition, the underlying Bermuda grass has better access to sunlight, moisture and nutrients over the winter months. The fairway conditions turned out very acceptable this winter, so the reduced rate of seed did not impact playability from the golfer standpoint.

Last year, the ryegrass was chemically removed over a longer period of time with a mixture of chemicals. Instead of spraying a chemical in one or two applications in late May, we sprayed one type of chemical in late March and again mid-April. Then, we sprayed a different chemical in mid-May. This really reduced the negative impact of the fairways turning brown and dying in late May while allowing the underlying Bermuda grass a chance to start growing earlier in the spring.

Overall, the golf course should have better playing conditions during the early part of summer. Any areas that still need to be repaired will be done in June during the reverse overseed when nine holes are closed each week. This program was very successful last year and resulted in the turf conditions being excellent by mid-July.

### Bee Management

It is our practice when a swarm of bees lights on the golf course to identify the swarm by a hazard marker (white circle). They move on after a day or two.

### Golf Advisory

Chair Tim Kelley 734-645-8199

First Wed., 2 PM, WC3

Golf Advisory has been busy. Working with the Pro Shop, we have developed guidelines for pace of play at The Views. The guidelines will be published shortly and will encourage a four-hour pace of play for 18 holes. The guidelines support a more enjoyable round for all players, and we welcome your support.

We have recommended changes to the Committee Charter. The proposed changes require Board approval. They will establish a defined relationship between Golf Advisory and long-range planning efforts, two-year terms for women's and men's club representatives to improve continuity and a liaison relationship between the Golf Advisory and Marketing Committees.

Finally, as we approach the end of the season, I would like to thank those who have served on the Golf Advisory Committee. This committee is an important communication link among our customers, Pro Shop, maintenance crew and administrative staff. Enjoy the summer.

A tax deductible donation to the Sun City Vistoso Community Foundation is a way to assist many worthwhile causes within SCOV and surrounding areas. Four grants were made in February to very dedicated area organizations that support kids (Assistance League, YMCA, and Kids Unlimited) and families (Emerge!). These are some of the organizations that are supported by the Foundation through your generous donations that can be made by check, stocks, or gifts in kind. Donations may be made throughout the year by check to the Sun City Vistoso Community Foundation, 1565 E. Rancho Visto Blvd., Oro Valley, AZ 85755.

The Foundation will sponsor another annual shredding event on Saturday, April 22, 9-11 AM in the Activity Center parking lot. ### American Red Cross Blood Drive

People come in all different shapes, sizes and blood types. The vast majority of blood types fall into one of the major ABO groups. However, for a small percentage of the population, finding someone else with the same blood type can be as difficult as looking for a needle in a haystack. You could be that needle. Every two seconds someone in the United States needs blood. Sun City Oro Valley's drive is Thursday, April 13, 8-11 AM, Auditorium. Schedule an appointment by calling the Red Cross 1-800-448-3543 or by visiting red-crossblood.org.

### Costume Closet

The Costume Closet is available to all residents by appointment only. For assistance call Marty Siracusa 520-825-6961, or Betty Verderese 520-825-7811. Please do not return items to Desert Oasis monitor.

## Celebrations & Life Events

When we describe SCOV as an active community, we are not joking. One of our residents, Tim Cronk, participated in the recent Ultraman Florida (UMFL) and ranked ninth out of 44 participants in the 3-day race and set a M50-59 age-stratum course record.

Heather Webber, Tim's wife, was part of a small three-member support crew.

A vegan athlete, Tim's race statistics are:

Day 1: swam 6.2 miles in 3:02:10; biked 92 miles in 4:19:39; Day 2: biked 171 miles in 8:40:44 and Day 3: ran 52.7 miles in 8:25:26 for a total of 321.6 miles in 24:27:59.

Tim also took part in a sleep study while doing the UMFL.

### SCOV 30th Anniversary Celebration

On February 15, we celebrated SCOV's 30th anniversary with a tea in the Auditorium and special recognition of the Trailblazers who were the first people to live in our community.

A big crowd came to celebrate SCOV's 30th anniversary.

Original employees Norma Meyers and Mary Cunningham entertained with their stories.

## Thank You Corner

*This section allows residents to express thanks to the community. Articles should not exceed 50 words and should not contain thanks to specific persons.*

Thank you to all the AARP tax volunteers. Your many hours of service are greatly appreciated. And thank you to Sun City for providing the facility each year.

Bob & Leslie Esparza

Many, many thanks to my wonderful friends and neighbors in Sun City who have been so kind and supportive to me since my husband, Don, passed away. We found a true home when we moved here in 2004. Sun City people are the best.

Ann Feeney

A huge thank you to the Men's Tennis Club for their most generous donation to Seniors for Kids. We are so appreciative that the Men's Tennis Club chose us for their charity from hosting a large tennis tournament. Seniors for Kids continues to support local children affiliated in five area non-profits.

Sharon Larsen  
President, Seniors for Kids

Thank you to all those who supported the Cure for Cancer Golf Tournament 2017. With matching funds from the Sun City Vistoso Foundation, \$13,656 was raised to support the University of Arizona Cancer Center. Our theme this year was "We will win this fight!" We are on our way to doing that.

Peg Bushong and Yvette Schulz  
Co-Chairs, The Views Womens Golf Club

A huge thank you to all who helped make the Courtyard Sale another success. Whether you donated rummage or raffle items, bought coffee or hot dogs, or worked at the sale, know that we could not have done it without you. It takes many helping hands to make such a successful event. Seniors for Kids thanks the wonderful people of SCOV for their constant support.

Sharon Larsen  
President, Seniors for Kids

I would like to thank all my friends for the cards and prayers during my heart surgery and recovery. Sun City is a great place to live.

Billie Walstead

On March 5th, my best friend passed and created a large hole in my life. Bonnie enjoyed our time here and made many friends who will miss her joy of life.

The cards and personal expressions of sympathy from neighbors and friends throughout Sun City have gone a long way in helping our family through a most difficult time.

Thank you seems inadequate but is the best I can do.

One of the benefits of working in the Clay studio is watching passersby stop to enjoy the new totem installation in the courtyard. Some sit on the benches

to find new pieces while others cannot resist touching the bright glass dangles. Others are bold enough to remove the toppers covering the safety locks. From our windowed studio enclosures we say, "Don't tap on the glass, it scares the fish." Now we say, as my mother said, "Look, don't touch!" We love seeing your smiles and knowing you are enjoying the results of our love of clay and glass. Thanks to all the potters and glass people for working so hard to produce this piece of art. We worked together to meld the media, and it brings us great pleasure to give back to the community in this way.

Oh, for the want of quality artists. No wanting here in our studio. We're loaded in that category. We come from various backgrounds with one common denominator: We love to paint and create beautiful art pieces. Our studio just buzzes with art talk, including

artists' materials, the best shows and galleries in town and abroad. We critique, when requested to, with the goal of improving the painting. With coffee mug abreast and some goodies to accompany it, we work our way through a satisfying project. During this month, the Art League is adorning the Activities Center walls with a themed show "Patterns". With no restrictions on the subject, medium or size, viewers will be graced with a pleasing array of artworks and photos. We have a fun, productive class of artists so, come on down on Wednesday mornings and watch us paint.

Japanese flower arranging (*Ikebana*) is the art of arranging flowers, branch materials, grasses and leaves. At its core is the beauty resulting from a combination of color, shapes, and graceful lines. More than simple floral decoration, it is a form of sculpture with plant materials.

Aleda Haug working on a human head with Gene McCullagh.

Our head/torso classes, led by our resident expert, Aleda Haug, are ongoing and the students are producing some quality work, even at their first try. We have an active club and assist each other with constructive criticism and a helping hand at our brazing station. While oldies music is playing, we work the clay with fingers and produce some lovely sculptures.

Our annual club get together, barbeque and pot luck will be held Friday, April 7, 5 PM at the home of Laurie and Al Lichaa. Laurie is coordinating the menu and taking attendance sign-ups. This is always an enjoyable evening and the club supplies the main dish and all libations. Please join our fun group of fellow sculptors at this event.

### Sewing Thimblelenas

Penny Burroughs 530-545-2642  
Mon.-Fri., 9 AM-Noon and 1-4 PM, Artisan Center/Sewing

When cleaning out your closets, please keep this in mind: we do not accept non-washable fabrics, zippers, embroidery hoops, large knitting needles, crochet hooks or patterns. You can help us by sorting out these items before donating. In turn, we can only throw them away ourselves.

The Orientation/Pfaff class will be Friday, April 21. Use of the room and equipment requires an hour orientation class for the first-time users. You can sign up for these orientation sessions and future classes listed on sheets posted outside of the Sewing Room door. Maybe you will be one of those who can't resist being involved in several groups. When you join Thimblelenas, you can be active in as many of the seven groups as you wish: Seniors for Kids, Casa Amigas, Sun City Vistoso Quilters, Machine Embroidery, Tapestry Rug Hooking, Cheer Bears and Pet Beds.

Are you one who knits or crochets? Do you have any left-over washable yarn that we can use for afghans or baby items? Many of our gals make these at home. Can you help us out? Drop them off at the Sewing Room marked for Casa Amigas.

Please do not leave donations outside a closed door.

Anyone interested in machine embroidery is welcome at our monthly meetings. In addition to showing our latest projects, we also have an educational topic at each meeting. Thank you, Sandy Fritz, for your inspirational ideas at the March meeting.

Many members are having fun trying new projects on their own home embroidery machines. If you are a Thimblelena member and interested in learning to use

the 6-needle embroidery machine, contact Karin Frohlich for lessons. Come check us out.

Our quilt show was a fabulous success. We heard from many attending that it was the best show yet. The winner of the raffle quilt is Flo Chaulklin, a very excited SCOV resident. April will be the last month until fall that we have regular bi-monthly meetings. At our April 11 meeting we will have a demo by Karen Neuendorf. We will also get the final step to the mystery quilt. Maybe we can have a special exhibit of them at our next quilt show.

Rich Rozehnal working on a wire cuff bracelet.

Silver mining began about 5,000 years ago in what is now the country of Turkey, spreading around the world wherever the ore could be found. Mining and metallurgy technologies have evolved through the centuries, as have the tools, techniques and science of fashioning the precious metal into utilitarian objects and fine jewelry. In colonial America, a silversmithing apprenticeship for teenage children typically lasted four to seven years.

Fortunately, a person quickly can learn enough basic skills in a short period of time to produce some of the simpler jewelry forms and gain experience over time for more complex pieces. Our beginner's class includes two days of silversmithing instruction, followed by four hours of orientation to lapidary work. Our students and members are reflective of the community and include a wide range of professional backgrounds from the workaday world. The common language we share is that of the silversmith and lapidarist.

He also reminded the audience that, "You can't advance without making mistakes."

Thanks to all who contributed to making our Courtyard Sale a huge success. It is a great feeling to get our woodshop more organized each year with so many volunteers. We are excited to have a new Laguna 18-inch bandsaw in our wood shop. It will be a great addition to our tool set.

If you have not done so, please pay your 2017 dues, \$20, plus \$5 for a locker, which will prevent you from having to take the new member workshop to be reinstated as a member.

## Astronomy

[scovastronomy.com](http://scovastronomy.com)

Dr Daniel Opei spoke to us about his identification of planets that are in the "habitable zone" (like earth, not too hot or cold) and orbiting far out stars. He can also determine their physical make-up. Will we go there someday?

Our speaker this month is Justin Hyatt who is a solar engineer. He works from the Steward Observatory Solar Lab at the UofA. He also is associated with the College of Optical Sciences. His presentation is "Innovative Energy Solutions." He worked several years

with M3 Engineering and collaborated on several design engineering projects including two years in South Africa where he learned to speak Zulu. He is referred to as "one of the best young innovative and inventive engineers."

In March three of the Coronado fifth grade teachers showed us what they teach about astronomy with help from our club. Now we are as smart as a fifth grader.

A field trip to Kitt Peak is April 12. Call Barry Shabel at 520-308-4818 for details and reservations. Star Party, Monday, April 3, 6:30 PM, 7th tee.

We continue our study on *John 3:16* "For God so loved the world that He gave His only begotten Son that whoever believes in Him will not perish but have ever-lasting life." This verse is so laden with truth and hope that it demands a careful and thorough examination to understand just how powerful it is. Max Lucada wrote the series of lessons which are being followed. Join us for our study and for an optional breakfast at the Views Restaurant afterward.

The deadly sin we will consider in April is sloth. On April 5 the selection is "Babylon Revisited" by F. Scott Fitzgerald and on April 19 the selection is "The Custard Heart" by Dorothy Parker. The book can be purchased from Amazon or the Great Books Foundation. All SCOV residents are welcome to join us.

The emphasis is on the stories, and everyone has a story in them. We all bring a short (approximately two pages) piece for reading to the group, and lively, meaningful discussion follows. We collectively pick a topic or theme for the next meeting, and on occasion we plan to have a speaker/presenter or an exercise in writing craft. If you have ever felt an urge to write about anything, be it stories, essays, opinion pieces, play scenes, memoirs, just show up and give it a go. Be aware that it is free, fun and addictive.

We will have our final get together for this season Friday, April 7, 5:30 PM, Catalina Vista for a spring picnic. Look forward to a fun evening with friends, some who will be going back home for the summer. It was a terrific year. Our mem-

bership grew, and we sampled tasty food that we might not have tried otherwise and have many new recipes to use.

If you are thinking this might be a good club to join, just let us know and we will put you on the list to be contacted for our opening event in November.

See you in the fall.

Kozachok—Russian Folk Dance.

Folk dancing is more fun than a treadmill and excellent exercise for balance, mindfulness, muscle and mood. For most dances we hold hands in a circle performing non-gymnastic steps to the sometimes strange but fascinating music and rhythms of diverse cultures. No partner or prior experience needed. A typical dance session consists of 12-15 mostly easy folk dances always preceded by instructions. Drop by to see if this internationally popular dance form is right for you or see videos of us in action by doing a Google search on "Folk Dance SCOV YouTube."

Put your empty aluminum cans to work for SCOV. Deposit only empty, rinsed aluminum cans in the box outside the Activity Center kitchen door.

## Pilates

Mary Ayers 638-7916 scov.pilates@gmail.com  
Mon., 3 PM, Thu., 1:30 PM, AFC/Studio

Joseph Pilates wrote that "physical fitness is the first requisite of happiness." To enjoy and get the full benefits of Pilates, a person needs to understand and apply the basic principles, which takes time and patience. Pilates is different from other forms of exercise but is always enjoyable, interesting, challenging and can even be addictive. Our classes teach proper balance, breathing, focusing on your core (abdomen and back muscles) and controlling your movements. There is constant movement from one exercise to the next. As a result, strength and stamina are developed. Your posture gets better, your spine is lengthened and flexibility and mobility of the joints improves. We have two experienced instructors who teach the Joseph Pilates system to seniors. The cost is only \$8/class and the annual club dues are \$20 pp. Stop by and watch a class. For more information call Mary.

A new class session begins Thursday, April 6.

Many medical professionals now recommend Tai Chi to help their patients improve balance and prevent falls.

But Tai Chi is much more. Tai Chi is credited with decreased pain, improved sleep and mood, and better quality of life by Tufts University School of Medicine research.

In our classes we not only enjoy learning Tai Chi form, we also increase flexibility and strength and even learn to reduce stress. Our instructors, Jose Hernandez-Rivera and Donna Drzenovich, teach us how to apply Tai Chi principles to our daily lives.

Would you enjoy Tai Chi? Why not try it out? The April 6 introductory class is free. Newcomers, please contact Gail or Karen for class details.

Our Tai Chi Club instructors are dedicated to learning and improving their own skills, too. Here they demonstrate a complex and beautiful form using fans.
