All Board minutes, agendas and reports are available online and in the SCOV Library. Board meetings are open to residents.

Looking Back, Looking Forward

by Mike LaBarbera

Where has the time gone? It seems like yesterday, but it has been three years since I was elected to the Board of Directors. It has been my honor to serve our community and give back during my tenure. I want to congratulate the new incoming Board members and wish them well in putting the Association ahead of personal preferences.

In the over 25+ years since Del Webb handed over the reins of running SCOV to our residents, our community has benefited in many ways. In 2000, SCOV established the Asset Reserve Fund to build a financial cushion to pay for the repair and replacement of items, which is still highly funded, to avoid assessing homeowners.

The Capital Contribution Fee (CCF) was established and funded, when a home has transferred title, for use on Capital Improvement Projects (CIP). A majority of money in the Capital Fund is obtained from the CCF, and money from the Comcast and AT&T contracts. Some previous CIPs include building the Pro Shop, expanding the Fitness Center, purchased solar systems, part of the Activity Center Renovation, part of the golf course renovation and driving range expansion and the Copper Center purchase. The purchase of the Welcome Center in 2000 was made so we can own and control buildings within our footprint. It was a needed addition for which all residents are now grateful.

During some of these past projects, there has been resident discord. Some want to keep things the same and not spend money for renovations or to update our aging facilities, while others are forward looking and welcome the modernization of our community. Current resident demands on more studio, club, meeting and storage space continues to grow, while the population remains the same. More residents are getting involved with the many amenities we have to offer, which drives up these demands. There is a need to improve, renovate, and update our community to attract future younger, more active residents, with minimal costs to our current residents.

Although I am leaving the Board of Directors, I will remain a presence in Sun City volunteering in some capacity and continue to give back to this wonderful community.

General Manager - Mark Wade

Summer Wanderlust: A Friendly Reminder for a Blooming Community

Change is an inevitable and exciting part of any community, and it is with great pleasure that we welcome two new members to our Board of Directors. We are confident that their unique skills and dedication will contribute significantly to the continued success of our community.

As we welcome new faces, we also bid farewell to two outstanding Board members, Mike LaBarbera and Allan Mashburn, whose terms will conclude at the end of April. Their unwavering commitment and invaluable contributions have played a vital role in shaping our community. We extend our heartfelt thanks to Mike and Allan for their faithful service, hard work and dedication.

Additionally, I would like to express my gratitude to the entire community for the overwhelming kindness shown since I announced my pending retirement at the end of July. The outpouring of support, both in words and deeds, has been truly heartwarming. It has been my honor to serve as the General Manager of this wonderful community, and I am confident that the spirit of collaboration and community engagement will continue to thrive under the capable hands of our Board members and soon to be selected new General Manager.

Thank you for your ongoing support, and I look forward to witnessing the continued growth and success of Sun City Oro Valley Community Association.

It's More Than Living... It's A Lifestyle!

The Best Camera is the One You Have with You

by Bill Laing

Almost all of us have one—that technological Swiss Army knife known as a smartphone. It keeps track of our appointments; sends us reminders and messages; allows us to surf the internet; and, oh yes, make and receive phone calls; among a host of other functions.

Recently, more and more people have discovered another exciting feature of their smartphones—its camera. A decade ago serious photographers scoffed at the notion that a smartphone could create anything more than snapshots. Even casual photographers preferred the pocket sized point and shoot camera or a camera body with interchangeable lenses. The rest of us completely ignored the fact that we were carrying a perfectly capable camera in our pockets or purses.

Within the past several iterations of the smartphone, manufacturers have worked their magic to design and create a mobile phone camera that rivals the more expensive single-purpose camera. Smartphone cameras have become sophisticated enough that professional photographers have started to use them in many situations as a convenient, high quality alternative to their more expensive digital single lens reflex (DSLR) and mirrorless cameras. Granted, if your interest is in photographing a bird in flight from fifty yards away, then the traditional camera with its telephoto lens is still the go-to tool; but if your interest is to celebrate the beauty that surrounds us here in SCOV and beyond, then your smartphone camera is a convenient, high quality gadget that will allow you to create engaging, compelling and personally-satisfying images you would be proud to share with others.

All this talk about cameras ignores the most important principle of good photography—it's not the camera, it's the photographer behind the camera, that usually makes the difference. The camera is the tool. The photographer is the artisan. So, how do you become a better photographer? You can spend some time learning the craft with people right here in SCOV who share your interest in improving their photographic skills.

SCOV's Vistoso Photo Club (VPC) is open to all residents.

Taken with a smartphone camera in SCOV

The club offers a forum and gathering place for photographers of all levels of experience and expertise, regardless of their camera of choice. Whether you are just beginning to learn the art of photography or you have been creating images for many years, the club is a welcoming environment to learn how to improve your skills. The aim of the club is to provide an opportunity for growth and education to all club members. VPC is a group of active photographers challenging each other to "learn as we do." The club offers educational and entertaining programs, field trips, workshops and competitions to help members hone their skills. The voluntary competitions, facilitated by outside professional photographers, provide members an exceptional opportunity to improve their skills by observing the critiques of their own images as well as others' in the club.

Members also learn from the club's monthly programs. Recent presentations by experts in their field include "Photographing the Night Skies," "Photographing Fall (and Spring) Color," and playing with "Intentional Camera Movement Photography."

VPC has an active education program. Recently, nearly two dozen members gathered for a Saturday workshop devoted to learning how to take better photographs with their smartphones. A second workshop offered insights into how to enhance smartphone camera captures using third-party processing applications on their phones. Upcoming workshops will cover how to be a more effective photographer using a DSLR.

At the end of the day, it's not about the camera you use, it's about the image you've created and the response it evokes from the viewer. After all, no one ever asked Hemingway what typewriter he used to write *The Old Man and the Sea*.

If you want more information about VPC, visit the club's website at www.vistosophotoclub.weebly.com. Membership information can be found there as well.

Restaurant Update

Our consultant has finished his work at the restaurant. Budgetary direction has been given from the Board with regards to subsidy for next year's budget. You will now see our adaptation of those recommendations. As the consultant mentioned, there are inevitable challenges with change, but there are also improvements.

The most significant change is the menu and its pricing. We are receiving positive feedback about the menu. The food is delicious. Also, based on customer response, adjustments were made to bring a couple of the previous menu items back. The pricing has been adjusted to market values. As we all know from trips to the grocery store, food prices have risen over the past few years. Our menu had not been significantly changed in about four years, which included Covid years, and over that period the prices increased only minimally. This will be a significant contributor to the deficit in the Food and Beverage department and price increases are one way that deficit is being addressed.

By now most will have met our new leadership team of Sandy Wilson, Food & Beverage Director, Nate Jenkins, Executive Chef and Ricardo Frascari, Restaurant Manager. They are shaping the program to develop and improve each of their respective areas. You've probably already noticed improvements, and they are just getting started. This year will see steady advancements in the Food and Beverage program here at SCOV.

We are equipping them with needed tools to accomplish goals, starting with providing consistent food, good service and moving into expanding revenue in event spaces, golf shared events and catering. This is your restaurant, and the staff is grateful for your patronage. And as a personal note, I absolutely love the croque madam breakfast. I'd never heard of the dish before and am so impressed with the presentation and how delicious it tastes. I'm sure you'll find your favorite too.

Replacing your Roof?

Eagle Tile is the name of the roof tile used by most roofers in Arizona. It is the company that supplied the original tiles for most of our roofs. Several of your neighbors may have already replaced their underlayment and tiles and if you have not yet had to do that, the time may be drawing near. Either an In-House Submittal approval or an Architectural Review Committee (ARC) approval is necessary before replacing a roof.

Eagle Tile has discontinued making several colors of the original tiles most of us have. If you are going to do a lift and re-lay replacement (where the roofer lifts off all the existing tiles, puts down new underlayment and then puts the old tiles back on the roof), a 10-15% breakage rate is involved. To replace those broken tiles, it is important for you to use tiles that closely match what you already have on your roof. That is why we ask you to request the roofer to give you a sample tile of what he will use in this instance. Put that sample outside your garage so an ARC member can verify the close match and fill out an In-House Submittal form available online from our website or at the Welcome Center (for a paper copy).

If you are going to use brand new tiles on the entire roof, you may choose from a list of pre-approved tile colors. Use

an In-House Submittal Form if using one of the pre-approved colors. Currently, there are just three #s: 3118, 3314, & 3645. Color samples are in Katy Mosier's office or are found in the Eagle Tile check-out books at the Welcome Center.

If you want to have ARC approve a new color, please get the Eagle Tile number from the Eagle check-out book or the Eagle website for Southwest Collection and submit your request on an ARC Submittal form found on our website or at the Welcome Center.

Feel free to contact Katy Mosier, Architectural Coordinator if you have any questions.

Anne Hillerman's newest book *Lost Birds* is scheduled to release on April 23. This moving and exciting addition to the Leaphorn, Chee and Manuelito mysteries involves several complex cases that will test the detectives in different ways.

The audio version of Anne Hillerman's new book will be read by Jessica Martin, the actor that plays the smart, strong and feisty Bernadette Manuelito in the "Dark Winds" television series.

The Library is planning to purchase more than one copy of Anne's new book and the audio if it is available on CD.

"Dark Winds Season 1" DVDs are available in the Library; currently Season 2 is only available through streaming. Anne announced plans to begin shooting Season 3 later this year.

It has been a pleasure working with the Library volunteers, Friends of the Library volunteers and board members and patrons of the Library. I have truly enjoyed my time here at SCOV as your librarian.

Importance of Core Strength

Many people may not realize how much our larger core muscles influence our everyday life. We have all done sit-ups and push-ups, but there is more to exercising your core. The muscles in our abdomen, trunk and even pelvis need to be in harmony, which leads to better balance and stability either on the field, court or just everyday activities. Many of the exercises that target our core do not require any type of specialized equipment. Doing something as simple as a bridge can strengthen muscles in the pelvis area. You can enhance this by adding any type of resistance or weight. If you strengthen the muscles in your core, everything from swimming, playing golf or even bending over to tie your shoe will be easier. Strengthening your core can improve posture and minimize lower back pain. There are also many low-impact activities that target our core and are simple to do even for beginners.

Special Note From the Aquatic and Fitness Center (AFC)

Orientation on how to use the gym equipment is held Thursdays, 1 pm. Stop in and sign up. Classes are limited. Contact Lonnie Davis, AFC Coordinator, to discuss questions or concerns regarding the AFC. Hours of operation for the AFC and Desert Oasis are on page 2.

Tuesday, April 9, the AFC pool and spa will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Wednesday, April 10, the Desert Oasis pool will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Tuesday, April 23, the AFC spa will be closed for cleaning until 1 pm.

First Wed., 11 am, WC1

The committee will meet two more months prior to the summer break. We are looking forward to new cardio equipment and pool furniture. As noted previously, if you need orientation on new equipment, please check with Lonnie.

Architectural Inspection Group

Conveyance Coordinator Lisa Orach 520-917-8072, scoroval@ciramail.com

Meet fourth Wed., 2 pm

If you are considering listing your home for sale, it is your responsibility to have an exterior inspection done according to our governing documents and for the legal disclosure for escrow. While several real estate agents regularly sell homes here in SCOV and know this requirement, not all real estate agents know the rules of our Association or the required inspection process. Please be sure to discuss these with your agent at the time of your listing. This will help avoid confusion and delays going forward in the sale of your home. If you or your agent have questions about the inspection process, please contact the Conveyance Coordinator at 520-917-8087 or stop by the Welcome Center.

Architectural Review

Jim Cherry 612-805-5637 ARC@suncityorovalley.com

Zoom meetings Second and Fourth Tue., 2 pm

A roof lift and relay is a common occurrence in SCOV. It involves having the tiles removed and the underlayment replaced, sometimes also fixing water damage at the same time. The original underlayment of the 1980s and 1990s are not compliant with today's building code quality required today. Over time these tiles can slip out of position, creating drainage gaps. With the amount of money we are spending on the inside of our homes, this would be a good investment. A roof project will end up replacing about 10% of the existing tiles already damaged over time or which break when moved. Finding replacements that match your specific color can be a challenge as many of the SCOV tiles are no longer in production. Be sure to check out the Development Standards Section 2.16 for guidance. Go to our website, select: Member Services/Documents/Overarching/Development Standards.

Meetings first Tue., Activity Center (subject to change)

The Views Restaurant is undergoing changes and enhancements. We hope you will take time to stop by and see what's new. While there, take a moment to introduce yourself to our new Director of Food and Beverage, Sandy Wilson, and new Restaurant Manager, Ricardo Frascari. Both bring a wealth of restaurant experience to The Views Restaurant and share a commitment to the customer's dining excellence.

The menu has several new offerings, while keeping some of our long-time favorites. The menu had not been updated in over three years, so changes were needed. You will notice a variety of health-conscious options. Protein selections including salmon, chicken and tofu can be added to vegetarian options, making the menu more appealing to a variety of dietary considerations.

Additionally, the quality of beef has been upgraded to Certified Angus beef and all seafood is now cut in house and shipped fresh from San Diego three times a week, improving the quality of the dishes served. Chef Nate has worked diligently to enhance the quality of the dishes with the addition of international flavorings, a wider variety of cheeses, house-made sauces, and the addition of rye, multi-grain and focaccia bread.

Finally, happy hours have changed to Sunday through Thursday, 3-5 pm. While this will be seen as a take-away by some, it allows The restaurant to operate in a more cost-effective structure.

With all these updates, changes naturally come in the price of menu items. It has been over one year since The Views Restaurant has changed its menu prices and two years before that due to Covid. As we are all aware, the cost of labor and wholesale food prices have increased in the last three to four years. The Bureau of Labor and Statistics reports that the cost of wholesale food prices has increased over 17% in

the last eighteen months. The National Restaurant Association reported that restaurants increased their prices in 2023 by 7.7%, and that 91% of reporting restaurants increased their prices in the last year. Finally, labor costs have risen as much as 5% in the last two to three years and labor can account for up to 40% of restaurant costs.

Residents of SCOV have been clear that they are dissatisfied with the level of subsidy that the operating budget provides to the restaurant year after year. There is a commitment from the Board of Directors to minimize these losses and staff are responding to that challenge by optimizing cost savings, increasing prices, training employees, refining services and improving food quality. These changes enhance the quality of the dining experience, and minimize the losses. The Views Restaurant has consistently experienced. It's a goal they will be working to obtain.

Three consignors are featured this month.

Lori Nalewicki has worked with clay for 20 years in SCOV, offering cactus luminaries, vases, desert themed wine holders, wall hangings and mosaic tile pictures. She also makes watercolor greeting cards and prints.

Bill Norton taught shop at junior high, high school and junior college levels. He began wood turning and free form carving soon after living among nature in Arizona. "I enjoy

working until my mind, heart and hands are happy with what my eyes see. My goal is to never have two projects that look the same."

Pat Norton decided that if they were both working with the Gift Shop, she should try her talents on the knitting loom to add a supply of baby cocoons, hats and booty sets and ruffle scarves. Always generous, for every cocoon set she sells she donates a set to the Seniors for Kids.

It's time to ensure that the empty pots in front yards are filled with living plants. Wildflowers are allowed in our community until they finish blooming, after which they must be removed. Please trim any trees or shrubs that overhang the sidewalk, street or neighboring properties.

For those who are seasonal residents, it's important to have someone maintain your yard during the summer months so that your house looks cared for while you are

away. Please notify the Administration of your summer address so they can reach you if necessary. If there are any water features on your property, take mosquito measures such as covering them, or using mosquito dunks (available at hardware stores) to help control mosquitoes. The community will certainly appreciate your effort.

The Posse had 104 volunteers as of December 31, 2023. While we ask our volunteers to patrol two times a year (three-hour patrols), we had some that put in extra effort on our behalf. Volunteers that put in five or more patrols are called "frequent flyers." Last year there were 31 frequent flyers. The Posse squad leaders all put in a minimum of 10 patrols. At our Posse Roundup last month, we recognized these volunteers. I want to thank all our volunteers for the work they put in to help keep our community safe. You are amazing.

Director of Golf Maintenance - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

April is the time of year when the peak golfing season is slowly ending, the temperatures are steadily rising, and big changes begin to happen on the golf course. The golf clubs still have major events in the first couple weeks of April, so it is important to maintain turf conditions at a high level, but with the warmer temperatures and the chances of rain decreasing that becomes a challenge.

The roughs are really starting to green up as they come out of the winter dormancy. As they begin to grow, the irrigation needs to be turned back on as well. Throughout most of the winter, the non-overseeded areas do not require irrigation, but instead rely on the winter rains. This keeps the course drier, and also saves water. Turning the irrigation back on leads to more maintenance to ensure the grass is getting the correct amount of water while trying to keep playing conditions from getting too wet.

April also sees the start of transitioning away from the overseeded winter ryegrass back to the underlying Bermuda grass in the tees and fairways. It is a challenge to slowly remove the ryegrass while getting the Bermuda grass to grow and maintaining good playing conditions for the club events. This process is done slowly by: lowering mowing heights, verticutting the turf canopy to allow sunlight down to the Bermuda grass, aerification to alleviate compaction and allow oxygen to the roots, and small applications of herbicides to slowly remove the ryegrass.

Pres. Tod Milton 520-256-0962 theodore.r.milton@gmail.com

We have completed yet another successful and satisfying season of golf at our very own Views Golf Course. This year, we were finally able to host the away and home visit from the SaddleBrooke 9-Hole Men's Club. If you remember, last year their visit to us was cancelled because we had four inches of snow that morning. Such good times.

Our final Burger Bash and awards meeting is Thursday, April 4, Activity Center. There should be many laughs and prizes for the winners of this year's club tournament. We'll also have drawings for prizes. The winners of this year's tournament will be reported in the May *Tipster*.

The Cure for Cancer tournament was a grand success due to all the amazing efforts of the SCOV golf clubs, members of our community and The Views Golf Club staff. We appreciate everyone's willingness to give their time, talent and treasures.

Here's a date to put on your calendars: awards ceremony and raffle, Thursday, April 4. Men's 9-Hole Club: Half the time, Twice the fun.

Hats on, ready to golf

April is our final month of the regular 9-Hole Women's golf season. Play is now happening for our club championship. Some of us love the competition, others would rather not compete. And that's okay with us.

League members can choose to sign

up for championship medal play (winners compete next year at the state level) or instead sign up for casual golf with a fun play-of-the-day game.

We also held our "Going Green...Away from Plastics" luncheon, a fun, healthy and eco-friendly get-together. It was a ton of fun.

Although we're winding up regular season play at the end of this month, you might want to join us for Summer Fun Play. Beginning in May, it includes weekly Thursday play and a monthly get-together for ice cream, potato chips and camaraderie. Birdie prizes and a chance for the hole-in-one prize fill out the program. Contact Sally (see above) to join the group.

Thank you to our community for your patience and understanding through our new menu rollout. This menu was designed to stimulate your taste buds and give you new options for mealtime. Chef Nate spent countless hours creating this just for you. We do hope you are enjoying every last bite. We are very excited for your continued feedback. This allows us to make the necessary changes to keep the excitement flowing.

We kicked off the Terrace Grill in March. This gives you the ability grab a quick bite at the Terrace Grill on Friday, Saturday and Sunday evenings. This is a cash only grill. You will have two options to choose from. Just come up to the grill with your cash and order from our grill master. This will only be available at the Terrace Grill and not from a server, easy for those enjoying the live music from the lawn or Terrace. We hope to see you soon.

Many of you have inquired, and we have made the decision to start catering now. Please contact me and I would be happy to assist in making your vision of the event a reality.

SCOV Wheels for Kids brings smiles to area children. Community volunteers give of their time to refurbish over 500 bikes annually and donate to area charities. In addition to a "new" bike, each child receives a new helmet and lock. Foothills Walmart donates over 20 bikes each year to the program. Wheels for Kids has developed a unique partnership with the Federal Prison in Tucson to train selected inmates to become bike mechanics. Not only do children benefit from this program, but inmates become part of the outreach and gain a skill to use after their release.

The Foundation granted \$6,600 to Wheels for Kids, joining with other donations to purchase bike parts as well as helmets, locks and new bikes for smaller children. Each refurbished bike, new helmet and lock costs the club approximately \$42.

Support Group for the Visually Impaired

Judi Peterson 815-222-4754
Raven 505-469-7505, sivaraven@gmail.com
Third Thu., 3-4:30 pm, Desert Oasis/Saguaro Room

All who are in any stage of visual impairment and their support persons are welcome to join us as we come together for mutual support. The goal of the group is to share resources and to help make the possibility of limited vision less intimidating. We share technological and equipment advances that help enhance accessibility. We share our stories and our hope.

One new advancement in technology is Seeing AI, an app that describes in detail the environment in front of you. It can be used to read shelves in the supermarket or describe a scene. This app is the newest iteration of Be My Eyes that does the same thing, but relies on a base of sighted volunteers. We will explore these and other apps in our meetings. We also encourage everyone to read in print or audible format Andrew Leland's book, *The Country of the Blind*, which chronicles one man's journey from sightedness to visual impairment.

Join us to learn and share more about resources in a supportive environment.

Clay

Pres., Mary Murck 612-205-0084 mmurck@earthlink.net
www.scovclayclub.com

L-r: Marti Friday, Barb Peterson and Jill Varley
prepare to instruct a recent orientation class.

Clay Orientation is the first step for new members. The Education Team offers seven orientation classes annually, which are limited to about eight people and are very much in demand.

There is much to learn about clay. What is hand-building and what is throwing? What types of clay does our studio carry? How does one operate a slab roller? How do you center on the wheel?

These and many more questions are answered during orientation.

Each orientation participant pays a fee that covers the year's dues, a set of basic tools and five pounds of clay. A room orientation follows as well as a hands-on session learning important clay skills, such as forming a basic cylinder. During this beehive of activity, many additional volunteers help instruct. The goal is to have everyone leave smiling at what they have learned and accomplished.

Please join us for our next general meeting Thursday, April 4, 1 pm, Activity Center/Kiva room.

Featured artist is Cathy Harrison. Cathy is an expert colored pencil artist who enjoys working on small to mini art pieces. She is finishing a stargazer lily picture. Look for her work hung periodically in Catalina Vista.

Japanese flower arranging, ikebana, is the art of arranging flowers, branch materials, grasses and leaves. At its core is the beauty resulting from a combination of color, shapes and graceful lines. More than simple floral decoration, it is a form of sculpture with plant materials. Learn from certified instructors at your own pace and make creative arrangements for your home.

Mon., 2:30-4:30 pm, Activity Center/Hohokam

An ongoing group project is making crocheted sleeping mats out of plastic shopping bags. You can participate in this project by cutting the bags into strips, stringing them into plastic yarn (plarn), and/or crocheting them into mats.

We are temporarily suspending bag donations because we have collected enough bags to supply us for the next few months. We are grateful to receive all the bags that SCOV residents have donated for the homeless sleeping mat project over the past several years. We will resume collecting later in the year.

Israeli battle tank

This may look real but be assured it is a model on a simulated desert surface. It is a TAKOM 1/35 scale model of the Israeli Merkava Mk.2b battle tank. The member who built this has meticulously painted and textured the surfaces to match real tanks used in battle. He also added typical items used to protect this tank from enemy fire and support the crew. The model and surface are on display in the three windows of the Modeler's Room at the Artisan Center.

There are many models on display in the windows. Please come by and see our work. If you want to hear some history of the models or assembly techniques, attend our meetings on the second Friday, 8:30 am, Catalina Vista and the fourth Friday, 8:30 am, Modeler's Room. Sculpture

Mon., 9 am-5 pm, Catalina Vista/Art Studio

The Sculpture Club meets on Mondays in Catalina Vista/Art Studio. If you are interested in becoming a member or learning more about our club, stop in on Monday morning or contact Dale Foster. Our sculpture pieces are in the glass case and Art Studio window inside Catalina Vista, a showcase outside of the Library, and inside the Library.

Christine Takerian's presentation

Since the beginning of 2024, the Sculpture Club has offered two workshops for the community. January 15, Trace Getz's presentation, "Thinking outside the Display Case" provided information on creating outdoor pieces of art such as wall masks, wind chimes and soaring eagles. On February 19, Christine Takerian's workshop, "Experiential Sculpture and Mixed Media" focused on her approach to creating sculpture using multiple medias in her creations such as beads, wood, wire, etc. Approximately 15 residents attended the workshops, and six of those attendees became members. The new members are receiving personal instruction from current club members as they begin creating their first sculptures.

We are busy at the Sewing Room Monday and Thursday mornings. We are literally bursting at the seams with eight sewing machines, four sergers, one quilting machine, and one embroidery machine, all being used at the same time. There are so many projects being worked on, it's hard to keep track. These include quilting blankets and Christmas placemats, embroidering infant sleep sacks with cute figures, and sewing and serging pajama bottoms, tote bags and cosmetic bags for teenagers. It seems we'll never finish converting all the donated used sheets into twin and crib sheets. The needs are never ending, and we're trying to do our part. Join us if you have an itch to get back into sewing. None of the projects are complicated, and we can always use more hands.

Cheer Bears

Wed., 1-3 pm, Artisan Center/Sewing

We are still embroidering faces, sewing bodies, stuffing them with love, and are filling the shelves with Cheer Bears to march out to new families. Our shelves are filling fast, and happy volunteer faces are smiling at each other as they work. We even plan to have a lunch this month to thank everyone for all the hard work they have done and wish the seasonal residents good summer travels.

If in your sorting and cleaning, you find you have some flannel pieces or polyester fiberfill stuffing you no longer need, we will gladly take it off your hands. Donations are always welcomed.

Thank you again to the Tennis Club for continuing to support our bear making with cash donations every year. Their "love" always scores high with us. Please remember that kindness is good for all.

Monitors are vital to the operation of the woodshop. We are dependent on them, because no one can work in the shop unless a monitor is present. Poets Corner

Sharyn Rafieyan 520-825-6762 srafieyan@comcast.net
 Mon., 10 am-noon, call for location or invitation to Zoom

T.S. Eliot famously called April "the cruelest month" but Ogden Nash provides a more balanced description in the following poem:

"Praise the spells and bless the charms,
 I found April in my arms.
 April golden, April cloudy,
 Gracious, cruel, tender, rowdy;
 April soft in flowered languor,
 April cold with sudden anger,
 Ever changing, ever true --
 I love April, I love you."

Neither of these well-known poets captures the reality of April in Tucson, but we don't provide prompts or assign subjects for Poets Corner members. We do, however, provide helpful, suggestive critiques and abundant encouragement.

Performers' showcase Wed., Apr. 17, 4 pm, Auditorium

Calling all musicians, comedians, and other performing artists. The Sun City Performers Club is a vibrant space to share and hone your creative self. We have had an exciting season so far with lots of developing and shared talents and many fun collaborations. Our weekly efforts culminated in enthusiastically-received Showcases that drew a crowd of more than 200 people to our Valentine's Day show.

Do your solo thing or connect and share with fellow artists (seasoned and otherwise), try out new material, jam with others, provide instrumental backup, or dive into fresh creative realms. Brush the dust off that old instrument in your closet. Tighten up your comic bit. Warm up your do-re-mi's. This is a safe space to make it happen, together.

Join us at our weekly workshop sessions most every Sunday 3-5 pm, Catalina Vista, and at our Showcases in the Auditorium. Our next Showcase (and finale for the season) is Wednesday, April 17, 4 pm, Auditorium. Won't you join us as a performing participant or an audience member? We hope to see you there.

The mission of the Staying in Charge as We Age Club is to educate and empower ourselves by discussing issues impacting our lives as we grow older. We have speakers on the fourth Sunday of every month, 2 pm, Activity Center/Hopi. In April, Laura Lyle-Allen from BMO Bank will speak about "Executors, How Banks Can and Cannot Work with Them." In May, we begin a summer series on "Home Care or Where to Go When Living at Home Gets to Be a Burden." Joan is seeking a highly-motivated team to help plan speakers and preview summer field trips to different kinds of senior residences. We are an interactive group; join us in seeking more clarity about issues we face as we grow older.

Aqua Tone is a toning water workout that incorporates a variety of rhythmic body movements. This aquatic exercise class enhances cardiovascular fitness and muscular endurance.

There is no fee to join the club or the class. The teachers are club member volunteers. Participants should be able to do a basic swim stroke. Items used in the class are buoys, boards, noodles, balls and a fitness band. Most items are available at the pool. We assign an experienced member to a newcomer to help learn the various movements. We enjoy a great workout in a fun class.

VP Paul Mercer pawmerc@gmail.com
Mon., Wed., Fri., 1 pm, AFC/Pool

Come join us Mondays, Wednesdays and Fridays. We meet when the air temperature is 77 degrees or warmer, as recommended by the Arthritis Foundation.

Our club performs gentle water exercises which target all muscles and are used by several health organizations to increase strength and balance, and to increase mobility and flexibility.

Water exercise is especially helpful for arthritis, fibromyalgia and replaced joints. Some new members have expressed their surprise at how quickly the first couple of sessions have already increased their abilities to move while others comment on improved stamina.

New members are always welcome. Our members are

fun, accepting and welcoming. We frequently hear "I came for the exercises and love all of the friends I have made."

Dues are \$5/year, and your first class is free.

Energetic Exercise

Pres. Anne Palmer 520-289-9140 palmersaz03@gmail.com
Mon., Wed., Fri., 8-9 am, Activity Center/Auditorium

Our members love the spirit of Valentine's Day

The goal of Energetic Exercise is to develop and maintain strength, balance and heart health. Members receive a monthly calendar that tells the focus for the day, such as aerobics, cardio tone or interval training. Equipment such as hand weights, resistance bands

or balls adds variety and is always optional. Everybody moves at their own pace and adjusts to individual needs. Dress is exercise casual with sport shoes required. Membership in the Energetic Exercise Club costs only \$3/year, and then members purchase a 12-class punch card for \$30. Newcomers can try a first class for \$3 and are welcome to stay for the coffee social at The Bistro every Wednesday. There is no online registration; just show up and say hi to the people at the entry desk.

New members are welcome. The ability to swim one mile under 45 minutes should be used as a guideline for participation. Please ensure you have medical clearance to participate in a vigorous workout.

Pilates

Mary Ayers 520-638-7916 scov.pilates@gmail.com
Mon., 3 pm, Thu., 1:30 pm, AFC/Studio

To get the full benefits of Pilates, a person needs patience and, at first, to take a little time performing the exercises as they may be different from those you are used to doing, but they are fun, interesting and challenging. Pilates can become addictive. It teaches proper balance, breathing, how to focus on your core (abdomen and back muscles) and movement control. The constant movement from one exercise to another results in developing more strength and stamina. Even posture is improved. The spine lengthens and joint flexibility and mobility increase. SCOV has two experienced instructors who teach the mat Pilates classes and they modify many of the moves for us, if necessary. The cost is \$8/class and the annual club dues are \$20 pp. Please stop by and watch a class. Call Mary if interested.

Scrabble

Jan Fischer 520-825-2401 fischer_janice@comcast.net
Fri., 1-3 pm, Desert Oasis

Board games similar to Scrabble have been around for over 2000 years. Egypt's king Tut was put to his final rest with various board games so he could play his favorite games in the afterlife. The Ashanti tribe of Ghana is believed to have invented a board game known as wari which over time has become known as mancala. Society evolved and progressed over years until approximately the 1800s, with a game called mansion. The basis of the game was to reach heaven before other players. Other games invented over the last 200 years are Parcheesi, Clue, Scrabble and Monopoly. These are just a few of the most popular games.

Scrabble is recommended by doctors for those affected with memory issues due to brain injury, accident or disease. The game of Scrabble is also used in schools to sharpen students spelling, vocabulary, dictionary usage, math skills, spatial relationships, creativity and to promote teamwork. Many residents of SCOV do daily newspaper crossword puzzles, online puzzles or even purchase crossword puzzle books. If doing puzzles is a challenge, one might find an afternoon of Scrabble enjoyable. All visitors are welcome.

Cycling renews us. Getting outside in the clean air, taking in the incredible mountain views and biking with friends are

some of the reasons we choose to live here. Oro Valley is one of the greatest biking destinations in the country. Wide streets, gorgeous bike paths, clean air and desert beauty draw cyclists from all over the country.

Cycling here is a dream come true for members of the Sun City Vistoso Cyclists Club (VCC). With over 250 members and organized group rides four days per week, there's a ride for everyone.

We support three local charitable organizations: Wheels for Kids, El Grupo and the Interfaith Community Food Bank. VCC volunteers build or repair and deliver over 400 bikes to kids in the Tucson area every year through the Wheels for Kids (WFK) program. WFK's 40 volunteers have delivered over 4,600 bikes to charities such as Boys and Girls Club, Casa de los Niños and More Than a Bed. New volunteers are welcome.

You can purchase your tickets by calling 520-529-1000 or visit our website at www.orovalleytheatrecompany.com for more information. FYI: One of the cast members lives in SCOV, and she would love to see you in the audience.

"We've used Brenda O'Brien and her team twice, once as sellers and once as buyers. Both experiences have been very good. She's professional, responsive, and knows how to move a transaction along. We highly recommend Brenda for your real estate buying or selling needs in Tucson."
