Association News

From the Board of Directors

Our mission as the SCOV Board is to lead in maintaining and enhancing the quality of life in Sun City Oro Valley as an active adult community.

All Board minutes, agendas and reports are available online. Board meetings are open to residents.

Board of Directors- Larry Webster

lwebsterscov@gmail.com

To serve on an HOA Board of Directors (BOD), a homeowner needs to be a member in good standing, not have a conflict of interest and demonstrate a commitment to the community. While there aren't universal, state-mandated qualifications, common requirements include being a homeowner within the community, being up to date on assessments and adhering to HOA rules.

Examples of qualifications:

-Homeownership: Board members are required to be homeowners to ensure they have a vested interest in the community's well-being.

-Member in Good Standing: This means being current on assessments, not in violation of the governing documents.

-No Conflict of Interest: Members should avoid any situations that could compromise their ability to make impartial decisions.

-Commitment to the Community: Board members should be passionate about improving the association and dedicated to fulfilling the responsibilities of their role.

-Communication Skills: Effectively communicating with other homeowners, handling disputes, and distributing association news are crucial skills.

-Time Commitment: Serving on the board requires a significant time commitment, including attending meetings, participating in discussions and contributing to decision-making processes.

-Ethical Conduct: Integrity, honesty and transparency are essential qualities for board members.

Key Responsibilities:

-Policy Decisions: Board members are responsible for making policy decisions that affect the community.

-Financial Oversight: The board oversees the association's finances, including budgeting and accounting. The board has a legal obligation called fiduciary duty to act in the best interests of the association as a whole and its members. This duty includes care and good faith, meaning they should not take advantage of their position or make decisions that benefit themselves at the expense of the community.

-Compliance: The board ensures compliance with the governing documents, rules and regulations.

-Enforcement: The board enforces rules and regulations and addresses violations.

-Communication: The board provides open communication to the membership.

Ultimately serving on the BOD is rewarding but one has to commit to serving three years. Understanding communications, ethics, governing documents, fiduciary duty, integrity and teamwork is vital for a successful HOA Board. State of Arizona Department of Liquor License and Control requires all Officers on an HOA board be subjected to fingerprinting as part of the background investigation process.

General Manager - Sandy Seddon

sseddon@suncityorovalley.com 520-917-8080

It's been a busy and productive summer at SCOV. Several major projects have either wrapped up or are actively underway, and we want to thank the community for your continued patience and support as we work through the following important improvements:

-Solar Installation complete: The new solar array near the Activity Center is now fully installed. This project supports our sustainability goals and will help reduce long-term energy costs.

-Golf course Renovation Progress: The green-side bunker renovation is progressing on schedule and is expected to be completed by August 1.

-Underground Void Quickly Repaired: An underground void was discovered during routine work and addressed immediately to ensure community safety and prevent further complications.

-The Views Restaurant Repairs: A leak in the dish pit area required temporary closure of the restaurant. Repairs have been completed, and measures are in place to avoid future issues.

-Pool System Assessments: A commercial pool company has been hired to conduct a full assessment of all community pools.

-Our top priorities are the AFC pool and the Desert Oasis pool will also receive attention for any safety-related concerns. A Request for Proposal will be prepared to move forward with the work needed.

-Pavement Plan Developed: A paving engineer has completed a full evaluation of our asphalt, resulting in a year maintenance plan with cost projections. We expect to go out to bid for this year's work shortly.

Our sincere thanks to the dedicated committees who contribute their time and expertise. Your support makes these projects more successful and impactful for the entire community.

It's More Than Living... It's A Lifestyle!

Lizards of Southern Arizona Diversity and Ecological Importance

Southern Arizona is home to a remarkable variety of lizards, thanks to its unique blend of desert, grassland, and mountain habitats. This diversity makes the region one of the richest areas for reptile life in the United States. These fascinating creatures are not only an important part of the landscape but also play a vital role in maintaining ecological balance.

Common Lizards of Southern Arizona

One of the most commonly seen species is the Desert Spiny Lizard (On the Cover). With its bold, spiny scales and vibrant colors, this lizard is often spotted basking on rocks or tree trunks. It is a highly adaptable species, thriving in both desert scrub and urban backyards.

The Common Side-blotched lizard is another widespread resident. These small lizards, recognizable by the dark blotch behind each front leg, are abundant in open desert areas. They are quick-moving and well camouflaged, making them a favorite snack for many predators.

The Zebra-tailed lizard stands out for its distinctive black-and-white banded tail. Known for its speed, it raises its tail high when running across hot desert sand. This species prefers open areas with sparse vegetation, where it can spot predators from a distance.

One of Southern Arizona's most colorful reptiles is the Collared Lizard, with its bright green or yellow body and black collar bands around the neck, it is both striking and powerful. Collared lizards are skilled hunters, preying on insects and even smaller lizards.

The Greater Earless lizard is another fast-moving species that lacks external ear openings. These lizards are well adapted to desert life, often sprinting across open areas and blending into sandy soil.

In rocky areas and canyons, the Chuckwalla can be found. This large, herbivorous lizard feeds primarily on desert plants and is famous for wedging itself into crevices when threatened.

Ecological Importance of Lizards

Lizards are far more than just a familiar sight in Southern Arizona—they are a key part of the ecosystem. One of their most important roles is as insect controllers. Many species consume large numbers of grasshoppers, ants, beetles and other insects, helping to regulate pest populations that could otherwise damage vegetation.

They also serve as a critical food source for a variety of predators. Birds of prey, snakes, coyotes, and even larger lizards depend on them for sustenance. This makes lizards an essential link in the desert food web.

Some species, like the Chuckwalla, help with seed dispersal. By feeding on flowers, fruits, and leaves, they contribute to plant reproduction and help maintain the desert's native vegetation.

Lizards also act as bioindicators—their presence, abundance, or absence can indicate changes in environmental health. They are sensitive to temperature, habitat disturbance and pollution, monitoring lizard populations can give scientists valuable information about the impacts of climate change and human activity.

While most lizard species in this area are not endangered, their habitats face pressures from urban development, invasive plants, and climate change. Maintaining healthy desert ecosystems is crucial for their survival. Homeowners can support lizards by preserving native vegetation, avoiding pesticide overuse, and providing natural shelter such as rocks and brush.

Southern Arizona's lizards are as diverse as the landscapes they inhabit—from tiny side-blotched lizards darting through gravel to robust chuckwallas sunning on rocky slopes. Each species plays an important role in controlling insect populations, supporting predators, and maintaining plant health. Protecting their habitats not only safeguards these fascinating reptiles but also preserves the ecological integrity of the entire region. By understanding and valuing the role of lizards in Southern Arizona, we take an important step toward sustaining the health and beauty of our desert ecosystems for generations to come.

Stay Connected with the SCOV Mobile App

If you haven't downloaded the Sun City Oro Valley HOA mobile app yet, now's the time. Available through your device's app store, the SCOV mobile app is an easy and convenient way to stay informed, stay organized and stay connected with your community—right from your phone or tablet.

Simple to Use, Packed with Features

The app is designed with ease of use in mind. With just a few taps, you can access a full record of Association events—sign up, track and manage what you're attending with no hassle. If you're a lap swimmer, lap lane reservations are right at your fingertips. Want to know what's coming up? The community calendar keeps you in the loop.

Need a quick contact? The community directory is handy, intuitive and searchable. And when you're trying to beat the heat (say it's 103 degrees and your AC goes out), the vendor list provides reliable local options quickly.

Always in the Know

The Trending section gives you a snapshot of what's happening in the community each day, while the Feed brings you timely updates on events, news and more. Plus, you'll find easy access to important documents like Board meeting info, committee updates, governing documents and financials—all in one place. You can even check the balance of your HOA account from the app.

Get Alerts Fast

One of the coolest features of the app is push notifications. These instant alerts keep you informed about urgent happenings—like a pool or building closure—so you're never caught off guard.

Be the First to Know

Information is often sent to the app before it goes out via email, meaning you'll get updates sooner and stay ahead of the curve.

Already on the Website? You're ready to go.

If you already have login credentials for the SCOV website, you're all set—use the same credentials for the mobile app. Download it today from your app store and discover how easy and convenient staying connected can be.

The fiscal year for the Association ended June 20, 2025. As in the past, the financial summary for June is not included in the August Tipster due to time constraints for completion of year-end procedures. When ready, the full financial report will be available on our website, suncityorovalley.com, by going to Members/Financials/Monthly Statements.

Our annual audit will be conducted in September, and the complete audited financials will be available on our website by October 31, as mandated by the Bylaws.

If you have any questions regarding the Association's finances, please contact me.

Development Standards and ARC Submittals

Just a reminder that it is important to request ARC approvals for exterior projects. When you sell your home, you will thank yourself for being proactive when you are trying your to complete an escrow.

Please complete all of the process by providing all items at once. It is best not to submit until you have decided on a contractor and have a written estimate to included in your submittal. We are not interested in the pricing. Feel free to black out that information. What we need from the vendors are usually drawings and complete descriptions including all materials, colors and dimensions. Missing information will delay your approval so please check with the Architectural Coordinator if you have any questions.

Applying on the website, remember this is a two-step process. The first step you are requesting a plot plan and the correct form by identifying the project. No details are needed then. Once the plot plan and form for your project are sent back to you from project@suncityorovalley.com, you will then provide all details of the project. Your complete form and backup information are received by us, it will go on the next ARC agenda. The ARC meets the second and fourth Tuesday of each month; the deadline for submittals is the Tuesday prior to the meeting.

What a monsoon of a success we had with our monsoon sale last month. A huge thank you to all our wonderful patrons who took advantage of this fantastic yearly sale. You and our stormy, awesome volunteers have made the SCOV Library the perfect place to escape the heat. Come in to cool off and check out all the hot new books your kind donations and purchases have brought into the Library. We are adding popular new titles and those hidden gems to the Library on a weekly basis. We scour book, journals and websites for the best suggestions of what people want to read, but we need your help. We can't research everything, so if you find something we've missed, please let us know. We have a recommendation sheet available in the Library for you to complete. Come in and let one of our friendly volunteers assist you.

Counteracting the Effects of Aging

Many of the changes in our musculoskeletal system result more from disuse than from simple aging. Stretching is an excellent way to help maintain joint flexibility. Weight training can increase muscle mass and strength, enabling people to continue their daily routine activities without maximal exertion. Just 30 minutes of moderate activity incorporated into your daily routine, can provide health benefits.

An exercise program doesn't have to be strenuous to be effective. Walking, square dancing, swimming and bicycling are all recommended activities for maintaining fitness as we age.

Special Note from the AFC:

Orientation on how to use the gym equipment is held Thursday, 1 pm, so stop in and sign-up as classes are limited. Contact Lonnie Davis, AFC Coordinator, to discuss questions or problems with the AFC.

Tue., Aug. 12, the AFC pool and spa will be closed for cleaning and shock treatment. It will reopen the following morning at the regular time.

Tue., Aug. 26, AFC Spa closed for cleaning. It will reopen at 1pm.

Wed., Aug. 13, the Desert Oasis Pool will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Next Meeting Nov. 11, 3 pm, WC-2

The Active Health Committee is taking a break from monthly presentations, but we want to encourage you to keep active and healthy. There are many opportunities to keep walking when it is hot outside. Walk with friends in the Auditorium from 6:30-7:30 am. If that is too early, walk indoors Mondays and Fridays, 1-2 pm, AFC. Or, if you just like to walk outside, join SCOV Walks Monday through Friday, 7 am from Catalina Vista or Desert Oasis. Maps are available. Make a date and bring a friend so you will always have someone to walk with who will motivate you and make it fun. Ask others to join you and have the movement snowball.

The Master Declaration, Tract Declarations and Development Standards 2.18.C.4 provide a pretty clear direction for managing greenery within one's yard. Besides weed control, we have a duty to be neighborly and promote safety.

Example: Within the front yard setback, 3 feet 6 inches is the maximum height of any bush/hedge. This keeps visibility between drivers and walkers within a measure of safety.

For side and backyards, the maximum height is 6 feet. This height keeps plants under control and mitigating scenery visibility impairments for one's neighbors. For some, managing neighbor visibility is even more critical. For example, Unit 15 (Cirrus Hill Dr, Tumble Brook, Meteorite Trail, and half of Trade Winds Way) has a maximum of 3 feet high for shrubbery that is within 15 feet of the back yard property line.

This summer was another growth year for our greenery. Please take the time to enjoy that growth while also showing neighborly consideration.

How can I get notifications of emergency situations including wildfires and flash floods? First, when the National Weather Service issues certain weather warnings, cell towers will broadcast the alert to all connected cell users. Here are some other applications for your phone that may help you: Weatherbug provides additional weather alerts including flash flood and lightning warnings. Watchduty provides alerts for nearby wildfires. You can also set other locations if you want to keep track of the area near a second home or vacation home. CodeRedMobile is used by the Town of Oro Valley to send notices to town residents. If the affected area is smaller than the town, they are able to geofence the alerts so they send a notice to only the affected area.

Help is needed. Every year, Friends of the Library (FOL) puts on a presentation of book reviews published in the previous year. Great Reads 2026 will be in January 2026. We need your help reviewing books published in 2025. What did you think of this book or a newly published book (must be from 2025) that you just read? We need reviews from any genre in fiction and any topic in non-fiction. Interested? Contact Andrea Houston 520-825-6919 or text 225-205-8317 and let her know, or write a short review yourself and email it to her: scovfol@gmail.com. You will not have to read your review at the presentation and not all reviews will be used, but we do need your opinion. Please help us to continue to offer this hugely popular event to FOL members. Jan Emery (left) designs and creates one-of-a-kind wire-wrapped gemstone pendants within four collections: Southwest, Beach, Floral and Faith. The pendants create a visual story that can be shared by the wearer. Her collection includes unique statement pieces incorporating fresh-

water pearls and crystals. Earrings to coordinate her necklaces round out the collection.

"These pendants are attention getters...you can share your story about your favorite things and potentially make friends with like interests. They are truly conversation starters!"

Vicki Gushwa (right) enjoys making jewelry out of semi-precious stones and fossils. Unique necklaces, earrings, and bracelets can be found made with beads and pendants. Each bead or pendant could be made up of turquoise, lapis, jasper, quartz, coral or amber. Each is a one-of-a-kind creation made from these beautiful natural materials.

Located next to the Golf Barn, we're open every Tuesday and Thursday, 8-9 am. Come check out our inventory.

Summer months are our slowest period, so we encourage SCOV residents and renters to plan ahead by making reservations in person or through our website up to two months in advance. Popular items such as tables, chairs and beds run out quickly around the holidays.

Bring your SCOV card to pick up items. Borrowing periods vary by item type: Medical equipment may be borrowed for up to two months, while other items are available for up to two weeks. We have many items for children, including strollers, car seats and toys.

Please clean all borrowed items before returning them. Our SCOV Community Recycling Program supports our inventory through proceeds from recycled cans, and we welcome both recycling contributions and on-site donations.

We look forward to serving you.

Why It's So Important to Regularly Trim Palm Trees in Arizona's Desert Climate

Arizona's desert climate brings intense heat, strong winds and occasional storms, which can make poorly maintained palm trees a significant safety concern. Dead fronds, which can weigh several pounds, may fall unexpectedly, posing risks to people, pets, vehicles, and nearby structures. Additionally, overgrown palm trees are more susceptible to losing fronds during storms or even becoming uprooted, potentially causing extensive damage. Another hidden danger is the increased fire risk; dry, dead fronds are highly flammable, and regular trimming can help prevent the rapid spread of fires. Keeping your palm trees well-maintained not only minimizes these hazards but also enhances the overall appearance of your property. If you experience storm-related damage, it's crucial to contact a tree trimmer for an inspection. Thank you for your commitment to maintaining your property and contributing to the safety and beauty of our community, especially during the hot summer months.

The *Tipster* Editorial Committee is a group of SCOV volunteers who help edit articles for dates, grammar, spelling, punctuation and accuracy. The editing is done online using Google Docs. We may call the submitter to clarify article details and because of deadlines, need a timely response.

Our committee needs a few more volunteers. No professional editing experience is required. You will be trained. The first edit can take as little as one hour a month. A short monthly meeting with staff helps us with editing consistency. If you are interested, contact one of our co-chairs.

Overseeding is right around the corner, and the course is scheduled to be closed from September 15 to October 5. When we reopen on Monday, October 6, it will be cart path only for a couple of weeks. The Pro Shop will be open

for limited hours during overseeding, and the driving range will be open for hitting off mats.

During the inclement weather of the monsoon season this month, we want to remind you to be safe and use your best judgment while playing golf. Use the following suggestions to keep safe when on the course during this time: Check the forecast and check it often, and download a reliable radar app. If you hear thunder or see lightning, leave the course or seek shelter immediately if you are not able to get off the golf course in a timely manner.

If you have been thinking about improving your game, we invite you to attend one of our weekly clinics on Tuesdays at 8 am covering the full swing and/or the short game. For further help, take a private lesson with one of our professional staff. Call the Pro Shop at 520-825-3110.

The major work on the greenside bunker renovation is scheduled to be completed by August 1. That completion date doesn't include final sodding of remaining areas. The final project punch list of small items that will still need to be completed will keep the construction on site into the first part of August.

All sodded areas are considered ground under repair until after overseeding. Please do not drive on the sod or play shots off of it so it can get established properly. The sod areas will be very wet for about a week following installation, but then the water will be reduced to allow the areas to dry. These areas will not be overseeded this year to allow the grass to establish over the course of an entire growing season.

Areas in front of some of the greens on the back nine that were chronically wet were repaired while the temporary greens were in place for the bunker renovation. A foot of the bad soil that didn't drain was removed. Drainpipes were installed to help remove the excess water coming from the green's irrigation sprinklers. Sand was installed over the drainage followed by sand-based sod. This should greatly improve the condition of the approaches while still keeping the greens at the correct moisture percentages required for healthy greens.

This summer is very busy with all of these projects, but the golf course will be so much better when these projects are finished.

The 18-Hole Men's Golf Club board of directors has been busy during this off-season scheduling for this fall's games. The process is to research and come up with games that are not only fun for everyone, but work for players of all different handicaps. The group has decided to bring back the handicap coordinator next year. Our goal is to play games that can include all players with a fair and current handicap. The board is currently working with the Pro Shop to ensure that all new games can be integrated with Golf Genius for easy and accurate scoring.

With the course currently undergoing some major sand trap renovations, this is a great time to get into the habit of repairing divots, fixing ball marks and picking up stray garbage. By the time the traps are finished, the course should be in spectacular shape when the fall league starts.

Ready to Play

It's August and only a few weeks from course shut down for over-seeding. There is still time to win a skin in the summer skins competition so be sure to come out on Thursday mornings. The first game of the month is a regular foursome game for team prize money; the last three are a skins game for individual skins prize. It is a great format as everyone has a chance to get a skin.

If you are just arriving in SCOV or have been away from golf for some reason, now is a good time to join us. The nice part of playing nine holes is that it takes just two hours and then leaves the rest of the day for other things. That is why we say, "half the time, twice the fun."

Some golfers might think it's too hot to have fun playing golf in June. Eight of us didn't think so. On June 25 and 26, we traveled to We-Ko-Pa Casino and Resort to play two rounds of golf and we had a great time. The resort was beautiful. The customer service is spectacular and the staff certainly provided convenient golf amenities. We were shuttled to the courses both days. Our bags were stored and carted for each round.

There are two beautiful desert courses, the Saguaro and Cholla courses. The resort pool was cool and refreshing. The casino

was enjoyed by everyone.

The Women's 18-hole club continues to play at the Views through the summer. Join us on Tuesday mornings for a shotgun start at 7 am and try us out. If you are interested in playing one round or joining, contact Pattie Shock, president or Joan Mayer, VP and membership coordinator.

Hot August so let's make it count

Can you believe it's already August? Summer is flying by, and that means we're in the second month of our fiscal year. Business got off to a rough start in July with construction happening in the restaurant, but we're bouncing back and ready to finish the summer better than ever.

If you haven't checked it out yet, our Summer Happy Hour Menu is still in full swing, and it's been a guest favorite. From refreshing cocktails to tasty small bites, there's something for everyone to enjoy while soaking up those last warm evenings. But don't wait too long, it won't be here forever.

Behind the scenes, we're already cooking up something exciting: Our new fall menu. We're blending guest favorites with new seasonal flavors and a few surprises we think you'll love. And yes, some of your summer happy hour favorites may make the cut, so stay tuned.

As August heats up, it's also the perfect time to start planning those Welcome Back parties as our friends return from their summer homes. Let us help you host a gathering to remember; great food, fun atmosphere and the best company around.

For the football fans, we've got something extra exciting: Pre-season NFL football is just around the corner. That means the return of NFL Sunday Ticket and an all-new Sunday-only menu designed with football in mind. Whether you're here for the game or the grub, Sundays are about to get a major upgrade.

Have an idea for something you'd love to see on the Sunday menu? Don't be shy, fill my inbox with your suggestions. We're building this menu around what you want, so your feedback really matters.

Hot August is here, and we're really heating up. Thank you for sticking with us as we're ready to make the rest of this year our best yet.

Bubbles and Chips

Clay members use many creative techniques to enhance their projects. Two techniques members are currently using are adding glaze chips and blowing bubbles. With the glaze chips technique, the artist dries different glaze colors. Once the glazes dry,

the artist breaks them into chips and sprinkles them onto a clay piece. When the piece emerges from the kiln, the glaze chips have melted, resulting in a colorful patterned surface. With the blowing bubbles technique, the artist mixes glaze, water and dish soap. Then, using a straw, the artist blows bubbles which cascade onto their clay piece. The bubbles deflate and once fired, the piece reveals a beautiful bubbled pattern. Look in the Clay Studio window and the SCOV Gift Shop for some completed pieces using these techniques. An orientation class will be held in September and, once scheduled, the date will be posted on the Clay Studio door.

Did you know that in the past, young ladies (even from affluent households) spent a significant time training to be good seamstresses? They had to if they wanted to wear clothes. A shirt took a day to finish. The first sewing machines were not made for the home. The exorbitant price of those machines made it impossible to buy them. Englishman Thomas Saint laid the groundwork for the machine in 1790. But American Isaac Singer in 1851 made significant improvements to machine technology, and innovations came swiftly. By the 1900s, affordable home-use machines started to sell. Women could sew clothes for themselves or others, and make money. The sewing machine not only transformed the garment industry, but altered social dynamics around the world making clothing more accessible. Today a shirt takes an hour to complete. Come see our modern sewing, serger, long arm quilter and embroidery machines. And yes, we still hand sew.

The picture is of two different projects. The left was created by Jane Honeywell and the right was created by Coni Arseneau. These projects were selected to show the difference between using free form hooking compared to hooking with straight lines. The project on the left also was hooked with wider strips of wool. The pattern dictates how the project will be hooked. In Jane's bench pillow, she hooked the light background in a straight line and combined the two techniques. There is no right or wrong, it just depends on the pattern and the desired outcome.

Come in, cool off, and see what we're about. Our talented members make glass pieces that are on display in our Artisan Center windows, in the Activity Center, and in our gift shop. The picture was taken at one of our summer classes. The hobby of stained and fused glass making, offers a creative outlet and a sense of accomplishment as artists see their designs come to life. It can also be a way to unwind and relax, as the

process requires focus and attention to detail. Whether creating pieces for personal enjoyment or to give as gifts, stained glass making is a hobby that can bring joy and satisfaction to those who pursue it. Visit our website for more details.

Photography is the perfect marriage of technology and art. For beginners, today's cameras and smartphones act like autopilots. They can automatically adjust focus, lighting and exposure so anyone can snap a great shot with minimal effort. It's like having a co-pilot

that knows the basics, letting you focus on the moment. But for experienced photographers, that same technology becomes a toolset for precision and creativity. Advanced controls, sensors and editing software allow pros to fine-tune every detail by shaping light, color and composition to match their artistic vision. Whether you're capturing a sunset or composing a surreal portrait, photography offers the best of both worlds: intuitive tech for getting started and deep creative control when you're ready to go further. Regardless of your experience level in photography, the Photo Club is a place for you to share, learn and polish your skills.

Wood Carving

"I can't do that." How often have you heard someone mutter those words while admiring an item on display in a craft complex display window? Many of the artists who made these items never participated in that activity prior to coming to SCOV. We have to give thanks to the many experienced club members who take the time to instruct and mentor those of us wanting to acquire new skills in one of the craft areas. Check out next month's *Tipster* for details about wood carving subgroups to find one that might bring you a new sense of accomplishment. If you have any questions, feel free to contact Dick Minch.

Chuck Dugan from Astronomy Adventures Arizona shows Coronado K-8 School 5th graders how to use their new telescopes.

SCOV Astronomy Club members distributed telescopes to 5th graders at Coronado K-8 School in April, continuing a 15+ year tradition. Chuck Dugan of Astronomy Adventures Arizona volunteered his time once again to show the students how to set up and use their telescopes. The students were quick learners and so appreciative.

Through the use of the Arizona State Tax Credit Program, our members support the purchase of telescopes for 5th graders as well as University of Arizona Astronomy Summer Camp scholarships for 7th/8th grade students.

Members of our club just can't stay silent about the books we are reading. Sometimes a book gets panned, but most often they get pretty positive reviews. Everyone is reading a book of their choice and has the opportunity to share about it each month. We are a friendly group and always love to have new members join us. We meet the second Sunday of each month, 2:30 pm, Desert Oasis.

If you have questions, feel free to email Tammy.

Payment is by credit card (\$10 pp, per course; and \$15 pp for a LOM tour). If you are not an ILR member, you must pay a one-time \$25 pp member fee before registering for classes. If you are away and not in SCOV on Friday, August 1, you can contact Barb Wetzstein, the ILR registrar. 815-245-9970.

Poets Corner

Sharyn Rafieyan, 520-825-6762, srafieyan@comcast.net, 1281 E. Clearwind Pl., Monday, 10 am - 12 noon, zoom, no website

Writing haiku can be a challenge. Despite their brevity, only three lines, there are various constraints. The first and third lines should be five syllables each and the second, seven. American poets don't always adhere exactly to the syllable account and there are no restrictions on subject or theme, unlike the original Japanese versions, which most of us have only read in translation. Poets Corner member Dennis Kirchoff puts his own spin on the following, which include glimpses of his personal philosophy that intrigue and engage the reader:

Little things matter
because they sneak past pride
touching heart and soul.

Not knowing anything,
I chose the right companion—
the luckiest break!

Fighting any sleep
existential tinnitus
keeps my brain reeling.

In fear and blindness
invincible ignorance
can vanquish the truth.

We are currently meeting every other Monday via Zoom. Newcomers are welcome but will need to request an invitation.

Please note the
Conscious Aging Club
is taking a break
from its regular
schedule for the
month of August.
(We'll be back with
a new book study
in September.)

Conscious aging is about the inner work of reorienting ourselves as we turn from our roles we assumed while managing careers and tending families, to turning inward and cultivating a deeper awareness of who we are now. Our goal is to discover how to face the known and unknown challenges of aging. With the help of our community, we are pondering the questions: Who am I? What are my values? What do I believe? What matters most to me?

This inner work is supported by mindful movement such as qigong, guided meditation and book study that draws from psychology, sociology, metaphysics, philosophy and meditation. Conscious aging is about accepting who we are now. Our meetings consist of a short period of easy mindful movement, followed by guided meditation and discussion. Please contact Phyllis for information or email the club.

Havurah is a SCOV club that was founded in 1994, with the purpose of celebrating Jewish traditions and roots. We get together for holidays as well as enjoying companionship and good times throughout the year. Our calendar includes a "Break the Fast" dinner, Hanukkah party and Passover Seder, plus other events. We also have monthly dine-outs at local restaurants. The Havurah Book Club has been going strong for ten years. We love reading and discussing various genres of literature.

You do not have to be Jewish to join Havurah. Our main focus is friendship and coming together to enjoy each others' company. Check out our website for future events and come meet us.

Cooling off with some ice cream

Members of the Prepare and Share club enjoy getting to know some of their SCOV neighbors and friends who enjoy cooking and eating interesting food. Themed dinners take place in small groups in members' homes December through March. Since everyone brings part of the meal, it is not a huge effort for the hosts. April through November events like an "Ice Cream Social" and a "Burger Bash" bring the summer residents together. For more information about our club or how to join, check out the club's website or contact our president, Debbie Winger.

Currently there are no plans for a July meeting. TEP recently had a nearby power outage. Luckily, we in SCOV were not affected. Here's a recommendation regarding power outages. Place a cup of water in the freezer, let it freeze solid then place a quarter on top of it. If there is a power outage that is long enough to cause your frozen food to partially or completely thaw, the quarter will have moved or sunk to the bottom as the water refreezes. For those that are away and may not know there was an outage, or for those that are here and experience an outage, this method would provide a reference. The mission of Staying in Charge as We Age is to educate and empower ourselves by discussing issues impacting our lives as we grow older.

 Tue., Thu., Sat., 9 am, AFC/pool

Aqua Tone is a toning water workout that incorporates a variety of rhythmic body movements. This aquatic exercise class enhances cardiovascular fitness and muscular endurance.

There is no fee to join this club or the class. The teachers are club member volunteers. Participants should be able to do a basic swim stroke. Items used in the class are buoys, boards, noodles and a fitness band. Most of these items are available at the pool. We assign an experienced member to a newcomer to help learn the various movements. We enjoy a great workout in a fun class.

Arthritis Water

 Mon., Wed., Fri., 10 am AFC/Pool

Beat the heat while getting healthy exercise. Join us Mondays, Wednesdays and Fridays 10 am AFC/pool. The Arthritis Foundation recommends meeting when the air temperature is 77 degrees or warmer.

Our club performs gentle exercises which target all muscles. They are used by several health organizations to increase strength and balance, mobility and flexibility. Exercise is helpful in managing arthritis, fibromyalgia, replaced joints, etc. Some new members have expressed surprise at how quickly the first sessions had already increased their abilities to move. Others comment on improved stamina.

New members are always welcome. Our members are fun, accepting and welcoming. We frequently hear "I came for the exercises and love all the friends I have made."

Your first class is free. Yearly dues are \$5 pp. There is no fee per class. Hope to see you there.

Energetic Exercise

Pres. Peggy Smith 520-400-8659 pdsaz@aol.com
 Mon., Wed., Fri., 8-9 am, Auditorium

Summertime is the perfect season to work out in the comfort of air conditioning at your own pace and alongside a welcoming group of friendly folks.

Dress comfortably, wear supportive sneakers and don't forget your water bottle. Be sure to check the schedule for any required equipment. While we sometimes incorporate hand weights, balls, exercise circles, wooden sticks or weighted bars, these are all optional. You'll still have a great time even if you choose not to use them.

This isn't your same old boring exercise class. Our instructor, Sally, keeps things lively with routines that work every muscle—set to music you'll know and love. Singing along is encouraged.

To join, bring \$3 in cash in an envelope. After your first session, you can purchase a 12-class punch card for \$30.

Pilates

Mary Ayers 520-638-7916 scov.pilates@gmail.com
 Mon., 3 pm, Thu., 1:30 pm, AFC 1/2

Are you a golfer? If so, you know there is a lot of twisting on drives, squatting and leaning over to pick up balls. The results can be overused weak muscles and imbalances affecting legs, hips, arms, shoulders, and back. Over 60? Your game is probably affected with shorter, less accurate drives. Stamina decreases and muscle strains, pulls and tears occur as we age. For years, elite golfers (Tiger Woods) have turned to Pilates, an essential training tool to stay balanced and improve performance. Like golf shots, Pilates is based on movement from the body's center or core (trunk, shoulders, abdomen, pelvis). As you strengthen your core, hip rotation improves your range of motion and back stability. Other results are powerful, more accurate golf shots and a symmetrically muscled, flexible, strong body. Pilates is a full body exercise with very little joint strain. Call Mary, or come by and watch a class.

Summer heat slows everything down a little. I tend to hibernate in the house on those long lazy afternoons. Sometimes I get to thinking about this year's Maj card. There are some unique uses of the Dragons. How many hands require stand-alone or Dragon pairs? How many hands have at least one set of 4 Dragons? And how about those Dragons that come in 3's?

I guess that's enough thinking for one afternoon. Tomorrow I may focus on the use of Flowers. Fortunately, Thursday is just around the corner. Join our group for a stimulating Maj afternoon. New players are always welcome.

www.scovbirding.wixsite.com/birdersgroup

A few Birding Bandits during COVID

Have you always had an interest in birds but are not sure how to get started? A new member of our group, who just returned to her summer home in Colorado, found there were 20 species of birds in her backyard. She and her husband had attend-

ed the ILR "Birding 101" lecture and learned of the free Merlin app available for both IOS and Android smartphones. It is an amazing app that listens to birds and lets you know which bird is calling. You can also use the app to see a picture of the bird so you can start making an association between the sound and the bird. That's a very good start.

The Birders Club is an informal club of 140+ members mainly focused on field trips during the cooler months. We are now midway through our summer hiatus but will resume our trips in the fall. For more information contact Peggy above.

Two past presidents at Spring BBQ.

We welcome experienced and novice players, both men and women. If you have ever played in the past and want to get reacquainted with the sport, or if it's something you'd like to try, come join us. Many of our members hadn't played in decades. Now they're on the court having fun. Court time is from

7-9:30 am, Monday, Wednesday and Friday. It's a great way to get good exercise during these hot summer days.

Spare rackets are in the storage room; we supply the balls. Just be sure to bring safety goggles. Want to just practice to see if it's a fit? Come around 9 am; one of us will be glad to stick around. If interested in joining, contact any of our officers. Dues are \$5 pp annually. Our members enjoy great camaraderie; come join the fun.

Thu., Play 4:30-8 pm

Sat., Club members 9-10:30 am; All play 10:30-noon

Sun., All play 1-3 pm. Play is at Catalina Vista

The Table Tennis (ping-pong) club enjoys playing year-round. We do not separate players by skills; however, we do have a women's only slot on Tuesdays. We try to play with everyone present and typically play two games per table and then rotate. If you are new to the game, you will be gently coached and soon you will be laughing and smacking the ball with confidence. Saturdays and the women's slot on Tuesday are the most popular times; and since we only have one room with three tables on Saturday, we often play doubles to avoid waiting. The poor chair-exercise group in the next room must really be curious about the raucous folks next door with all the laughter and friendly conversation. If you want to know more or get private instruction, contact John or Peggy above to arrange a convenient time.

The sweltering heat is bearing down upon us, so keep in mind these tips to stay cool while on the courts.

Hydration- Drink plenty of fluids before, during, and after your match, including water, electrolyte drinks, fruits, and vegetables. A rule of thumb is to drink eight ounces of water for every 20 minutes of play. Don't wait until you're thirsty.

Clothing- Wear light-colored, breathable, sweat-wicking clothes that reflect light. Avoid dark colors. Change your

clothes, including socks, during set breaks.

Headwear- Wear a breathable hat to keep your head cool, which can also help cool the rest of your body. If you start to overheat, dunk your hat in water.

Cooling accessories- Use ice packs, ice towels, ice saunas, or ice vests to cool down during and after your match. Put ice packs under your arms, in your groin, around your neck, or in your lap. Stay in the shade when possible.

"Selling a house is normally a stressful time however working with Brenda made this an enjoyable pleasant experience. Not only was Brenda effective but so very helpful with many details and easy to get in contact with too. She would be the only person I would deal with and I would recommend her to anyone who is in the market to buy or sell. Working with her was a pleasant experience."
