How Do You Stuff 10 Pounds of Potatoes in a 5-Pound Bag?

by Ronna Heinig

This is a question that your Board of Directors has been struggling with for more years than I have been on the Board. Our residents' wants and needs continue to evolve and change, making it a challenge to find space within our limited geographic confines to accommodate our changing demographic.

SCOV wants to remain relevant in the marketplace by keeping up with amenities that attract new home buyers to our community, thereby keeping our home prices competitive.

Buyers pay about \$100/sq.ft. more for a home here in SCOV than for a similar property outside our HOA. Why, you ask? They are not only purchasing the house, but a slice of our HOA amenities that enriches our lives.

The renovation of our Activity Center after 30 years represents the type of upgrades that we will all enjoy going forward, but it is not the end of what can be achieved to enhance our community.

SCOV needs more hard courts for our growing racket sports, a larger space for our artisan studios, an enhanced Welcome Center and an additional pool. How can we fit all 10 pounds of these amenities and upgrades into our 5 pounds of space?

Today we are faced with a choice, a choice to move forward to provide for our future and find a way to accommodate those extra 5 pounds of amenities, or to close our eyes and wish these resident wants and needs would simply go away. We now find ourselves at a crossroad which may never come our way again.

If I may paraphrase Mr. Stan Shopa, who so succinctly pointed out the analogy between our purchase of the Copper Health facility and the church that he attends. He acknowledged that prior to his attending that church, some forward-thinking parishioners took action to build the new church that he and his wife enjoy today.

It is now our turn to look forward for our SCOV community. We Board members have a fiduciary responsibility to our Association to assure that it will be a viable entity in future

years. We feel that the Copper Health opportunity is a huge step toward providing a beautiful and needed solution to our space challenges that have plagued us in past years. Now, the choice is in the hands of our residents. View the presentations on the website, ask the questions, be an informed voter and it is our hope that you will see the possibilities that we see with this opportunity.

How do you fit 10 pounds of potatoes in a 5-pound bag? You could mash the potatoes, but I'd prefer to grab the bigger bag that is being offered to us.

Much to Celebrate

We just finished celebrating one of the best times of the year, and I thought I'd just keep celebrating. In a short time we will be having the grand opening of the Activity Center. I'd like to celebrate the dedication and hundreds of hours of devotion to this project. So many people for so long have spent so many hours that it is simply unbelievable.

Let's take just a minute to reflect on a few: the Activity Center Committee met and planned for years; Jim Mitchell has been sending out the weekly update on the facility for over a year; nearly every day since the ground breaking, Larry Webster has inspected the work and its progress; Sharon Kennedy has devoted hours upon hours of her talent and knowledge to be our SCOV project manager, and so many others I can't even begin to cover everyone.

So when you get a chance to experience the results of all these many wonderful dedicated resident volunteers, let's not only celebrate what a stunningly beautiful facility it is, let's also celebrate the many volunteers who unselfishly gave of their time and talents to make this all possible. Let's celebrate this wonderful community who voted to continue to invest by allowing this renovation. Let's celebrate this lifestyle that you've all created over the years. Let's celebrate each other.

Time to Celebrate!

Activity Center ready to open for business and pleasure

by Jim Mitchell

After four years of planning and development, SCOV's largest construction project ever, the Activity Center, is coming to completion. A grand opening is scheduled for 10 AM, Saturday, January 14. In addition to SCOV Board members and those who've worked on the project, the ribbon-cutting will include Town of Oro Valley Mayor, Joe Winfield, Acting Town Manager, Chris Cornelison, representatives from the general contractor, W. E. O'Neil, and the architects, Highton Associates. Various SCOV clubs will provide entertainment, including singers, musicians, and dancers. There will be cake, coffee, and wine to top off the celebration.

Highlights of the new design include a larger lobby, an improved Auditorium, a new Kiva meeting room, Kiva Patio, the new Bistro Coffee/Wine Bar and additional restrooms.

The lobby has been expanded to more than 1,000 square feet including a foyer with seating. As you enter, your eyes will be drawn to the large, multimedia art to the right. Commissioned and created by SCOV artists, the piece includes glass, metal and wood.

The Auditorium floor is all parquet, adding to the usable dance space. The stage has been enlarged and raised for better sight lines. A hearing loop under the flooring will provide hearing assistance to those who need it. A new automated backstage lift will aid in getting heavy objects onstage. The Green Room to the side is larger and has improved lighting and mirrors. A new storage room at the rear is large enough for the tables and chairs that used to be stored along auditorium walls.

To the east of the Auditorium, a new 1,400 square-foot Kiva Room will seat around 100 people classroom-style. Just outside of the Kiva Room, the Kiva Patio will feature a fire pit and an overhead shade system.

The new Bistro Coffee & Wine Bar will offer coffee, espresso, lattes, and other coffee beverages, along with pastries in the mornings. In the afternoon, it will offer wine, beer, sodas, and various bar snacks. It will be open mornings, afternoons and evenings (see hours on page 5) and hours will be adjusted to accommodate the business plan or special evening events. It will be managed by The Views Restaurant.

There are more restrooms serving the building. Off the

lobby, the redesigned ladies' room has added two new stalls and new lavatories. There are also two family restrooms off the Kiva Room and one by the Green Room.

Sharon Kennedy, who had 40 years of construction management experience in the Seattle area, has guided the construction over the past year. She was supported by lead team members Mark Wade, Robin Coulter, Ken Sandrock, Howard Schulz and Jim Mitchell. Other support included the inspection team of Larry Webster, Meade Davis and John Gausman, who completed daily inspections to make sure the project followed the plan and codes. The finishing

team of Dan Stasi and Judee Wickersham worked with Highton Architects and Robin Coulter on colors, fabrics and furniture. Judee Wickersham, Mary Sherwood, Sue Paluska and Eldon Ward comprised the art team that raised funds, hired the commissioned artists, and oversaw the art project throughout.

The original Activity Center Renovation Committee began their planning in March 2018. Those members included Ed

Zwerling, Ted Hood, Richard Babin, Don Teiser, Al Johnson, Hal Linton, Barbara Ross, Jim Mitchell and Meade Davis. They interviewed more than 50 clubs and committees who use the building, along with staff, to assess needs and wants for the new design. After

prioritizing those, they interviewed architects and general contractors and chose Highton Associates and W. E. O'Neil. They also organized three community meetings to explain details of the project, which required a 60-percent approval of resident households due to the \$4.5 million budget that will be met.

Come join your SCOV friends and help us celebrate the grand opening on January 14. We hope to see you there.

The lovely new entry will greet you at the renovated Activity Center. Larry Webster photo

The renovated Kiva patio will offer shade and a fire pit for gathering with friends. Larry Webster photo

Court and Lap Lane Reservation System Update

The transition to the new reservation system for lap lanes and courts is complete. As you may remember, during Covid we moved to SignUpGenius for our pool lap lanes. However, lap lane sign-ups increased, and the limits of the software created more work for the staff.

New software, Court Reserve, was purchased and staff learned how to use it and set up our different systems. SCOV is using it for lap lane reservations, and added court reservation as well. Once staff felt the system was set up properly, several resident swimmers were asked to test the system and provide feedback. After adapting to their feedback, staff met with the hard court and bocce clubs to introduce the software to them, blocking out club use time and establishing when the courts are available for open play by SCOV residents.

Kat Peabody is the key staff member for this software. She has spent hours learning, listening and adapting the software to meet the wants and needs of SCOV. Kat reports that with the old system she had to recreate a calendar for lap lane usage every two weeks. Now, she makes changes only twice a year. When asked about the new system she replied, "It's cake compared to the old system."

Lonnie Davis, Fitness Coordinator, is another back-end user of this software. He assists pool users in getting signed up and checked in for their lap lane reservation. He tracks when there are "no shows," since there's a penalty for having three due to the demand for lap lanes. Lonnie reports that since October, there have been around 32 "no shows," and no one has received the penalty for not checking in for their lap lane. It's easy to check in. Just walk into the AFC lobby, find your reservation on the iPad and check in. *Viola!* Lonnie reports that most users find the system easy to use and are happy with it. His workload has been reduced and his ability to report on "no shows" has been made easier.

Our governing documents provide for club use of our facilities, but it also provides for use by all residents of most of our amenities. So, if you'd like to reserve a bocce court, pickleball court or a lap lane, sign up now with the new reservation system. You don't have to guess if these spaces are available, you can check the website and even reserve it online. From www.suncityorovalley.com click Fitness > Reserve a Court/Lap Lane and get out there and have fun!

Lifestyle Coordinator - Brenda Puzzele-Stoltz

bpuzzele-stoltz@suncityorovalley.com 520-917-8077

We have two activities planned this month. The first event is Thursday, January 19, 6 PM. Come enjoy an evening of fire dancing and spectacle from Tucson's local circus fire troupe, Cirque Roots, at the putting green area. For over 10 years they've lit up the night for families across the United States from fire juggling to LED hula hoops. They bring fire dance, humor, acrobatics, stilts and more for this community event.

The second, you can go to Crazy Hearts Ranch near Moore and La Cañada and audit a session presented by Lanny Leach, world's leading horse trainer, Saturday, January 28, 9 AM. There are several different methods and philosophies about the best way to train a horse. When it comes to overall horse training, Lanny has based his program on key principles to building a calm, willing horse for any discipline. You may have already seen some of Lanny's work if you viewed

the 2015 documentary *Unbranded*. Tickets for both events are available on SCOV's website under Members > Member Services > Tickets.

ARC Submittal On-Site Reviews Reminder

Our governing documents are very specific about what is needed for the Architectural Review Committee (ARC) to review an exterior project followed by a vote to grant or deny approval. The ARC is made up of volunteers who have devoted numerous hours each month.

When a submittal is received, it is necessary to meet with an ARC representative at your home to go over the project. You may judge this to be ridiculous, but over the years this process has made the difference between approvals and denials. Prior to a vote, the ARC member comes to the ARC meeting fully prepared to answer any questions of other members who have not been to the site. Please be aware there are several small projects that can be addressed with an In-House Submittal that do not require the more involved process.

Development Standards Section 4.4 states: "Decision Making Process and Appeal. The ARC shall review submittals based on the information contained within the submittal, any other information required in Section 4.3, and the site visit with the Resident or Designated Representative by one or more committee members."

The ARC Submittal Directions and Form clearly state "...There will be a physical review of the property prior to an approval approximately one week prior to a meeting. An ARC member will contact you for an appointment. If you do not respond to the ARC member's phone call for an appointment, then your submittal will be tabled until you communicate agreement to an appointment time with the ARC representative."

The committee members lend an immensely valuable contribution to SCOV for the continued maintenance and enhancement of property values. If you are unable to physically meet because you are out of town, etc., please make arrangements with the Architectural Coordinator to name a Designated Representative in writing, who can speak and make decisions on your behalf. These ARC volunteers deserve the respect of you being available for an appointment or else making other arrangements.

New Year, New Exercise

It's a new year, and maybe you've resolved to start an exercise program. If so, good for you. Getting regular physical activity is one of the most important things you can do, and it's one of the most common New Year's resolutions among Americans each year. Just make sure you start off on the right foot with these helpful tips. Take it slow and set small goals: after all, you're in this for a lifetime. Talk to your doctor before getting started, especially if it's been 8-12 months or longer since you've last exercised, you've had a large weight gain, or you've had a noticeable change in health. Evaluate your personality. Do you like to exercise alone, in a large group or with a partner? The answer to this question will help you decide what type of exercise will keep you motivated to stick with your new routine. Be safe. If you're exercising outside, make safety a priority. Dress for the weather, wear reflectors and light colors if you'll be out when it's dark, and carry a cell phone with you.

Special Note From the Aquatic and Fitness Center (AFC)

Contact Lonnie Davis, AFC Coordinator, to discuss questions or concerns with the AFC. Hours of operation for the AFC and Desert Oasis are on page 2.

Wednesday, January 11, the Desert Oasis pool will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Tuesday, January 24, the AFC spa will be closed for cleaning until 1 PM.

Architectural Inspection Group

Conveyance Coordinator, Jack Mooney, 520-917-8087, scoroval@ciramail.com

You have decided to make a change to the exterior of your home without getting your plans approved by the Association ahead of time. Who is ever going to know? Your neighbors are great; they won't say anything. All is fine until you decide to sell your home; then comes the exterior inspection of the home which is required before the close of escrow. The resulting report lists all violations present and is sent to you, the title company, the involved realtors and the prospective buyer.

The prospective buyer might begin to get nervous. Trying to find someone at the last minute to correct the work could be difficult, and several questions will likely be raised about who will be responsible for and pay for the correction. It's possible that something your buyer liked when they made their offer may have to be removed. This is an inconvenient time to have to deal with a modification/addition that should have been approved before now.

Please, before you do anything substantial to the exterior of your home, check the SCOV Development Standards and Master Declaration which are on our web page or call the Administration office and ask about any required approvals. The time, money and frustration saved will be worth your effort.

Architectural Review

Jim Cherry 612-805-5637 ARC@suncityorovalley.com
Zoom meetings Second and Fourth Tue., 2 PM

We begin a new year and for many, a new set of property maintenance and upgrades are in the works. Hopefully, materials and workers will be more accessible than we have seen recently.

As a reminder, most everything you do outside is likely to require some level of review. Changing a light bulb, replacing a dead plant with a similar plant, or doing some touchup painting on the outside are simple exceptions to review requirements.

Beyond those very basic examples, you will likely need either the Architectural Coordinator or the Architectural Review Committee to be involved for actions like replacing an outdoor light fixture, putting up a new garage door or even wanting to plant a bush or tree. They all have Development Standards surrounding your plans. So, be sure to do your research and if you are unsure, give us a call.

Featured consignors are Kris Ahlstrand and Robin Schmidt.

Kris loves textiles after working in the garment industry and collecting clothing and fabrics while traveling. She repurposes these fabrics as

pillows and runners. Huipils pillows are made from garments worn by the indigenous people of Latin American countries. Ikat is an Indonesian dyeing technique to color yarns prior to weaving the fabric. Kris uses Ikats from Guatemala and Africa in her pillows and runners.

Robin's grandma and aunt sewed on black Singer Feath-

erweight machines when she was young. In college she ignored in Home Economics, then began sewing clothes for her kids on her own Featherweight. Every Christmas she sewed something for every family member. She also began quilting, buying more fabric than needed, creating a fabric stash. Robin held "Grammy's Sewing Camp" with four of her granddaughters. Out of the stash each one made a pillow and pillowcases for their bedrooms.

Golfing experience that provides professional and friendly service, mountain views and excellent conditions.

Director of Golf - Rick Price

rprice@theviewsgolfclub.com 520-917-8086

It will be another exciting season this year, and we look forward to serving your golfing needs. We hope you had a wonderful holiday season and a happy new year.

This month we host the Oro Valley Senior Championship on January 7 and 8. The event will draw some of the finest players around the southwest. There are two divisions to the tournament, with the championship division playing gross only and the regular division playing gross and net with a maximum handicap of 10.

On Saturday, January 21, from 10 AM-3 PM, we will conduct our annual Helicopter Ball Drop along with a demo club fitting day. We will provide a great barbeque with music and fun. The following golf club companies will be in attendance for you to try out their new equipment: Titleist, Taylor Made, Cobra, Srixon, Cleveland, and XXIO.

The Helicopter Ball Drop is a 50/50 fundraiser for the men's and women's golf associations. To participate, you purchase a golf ball(s). The cost is \$10 per ball/3 balls for \$25, 7 balls for \$50, and 15 balls for \$100. The golf balls will be dropped from the helicopter at approximately 1 PM during the event on Saturday, January 21, at The Views Golf Club Driving Range.

You can purchase a golf ball(s) anytime up until 5 PM Friday, January 20, in the Pro Shop or online. The three balls closest to the hole win. After distribution of the 50/50 split, first place receives 50% of the prize fund, second place 30% and third 20%. The total number of balls sold will determine the prize fund distribution.

If we can assist you with any of your golfing needs, please do not hesitate to ask. Thank you for enjoying all the activities at the club, and we look forward to having you play soon.

Director of Golf Maintenance - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

Happy New Year! January is the time of year when the normal activities in the golf course maintenance department really slow down. The cooler temperatures decrease the growth rate of the grass, so the amount of turf maintenance is reduced. Less fertilizer, water and mowing are required for maintaining good turf health. This allows our department to catch up on other areas of the golf

course that we don't get to spend a lot of time on during the rest of the year.

Several years ago, we started root pruning around tee complexes with our trencher. The turf on some of the tees struggles with transition in the early summer due to heavy golfer traffic, limited sun from trees and tree roots growing under the turf which compete with the grass roots for water and nutrients. The branches are continually trimmed over, but the roots aren't removed very often. The trencher cuts the tree roots outside the turf edge and all the roots under the tee are no longer able to compete with the grass.

The chronic wet areas around the new greens will be an ongoing project that will continue in the winter months. Since the new greens have extensive drainpipes leaving the greens, we are able to tie into these pipes to move water out of the wet areas. Some of the wet spots are areas that settled above the greens' drains. In those areas the pipe is exposed, and a French drain of pea gravel and sand is used to replace the non-draining native soil.

Wowzers it is 2023... when did that happen? Another year has flown by and we're anxiously awaiting a whole bunch of new fun golf and grand memories. As you may have noticed, the course is in great shape and pretty as ever. Believe it or not, upwards of 70,000 rounds of golf were played here last year. With that in mind, it's even more important that we all use the gates and stay off the resting Bermuda grass on the sides of the fairways. Additionally, it is important that when driving down fairways, #2 as an example, we stay away from driving down the middle of the fairway. When we use the same area of the fairway repeatedly, it compacts the grass and dirt beneath. Following this practice will keep our luscious fairways from dying off prematurely.

At our annual opening day Burger Bash, we awarded two members their hole-in-one awards. Congratulations to Jack Leonard, two holes-in-one, and Darwin Priebe, one hole-in-one. Obviously, the rest of us are quite jealous.

Irmgard and Gunther Mueller's Legacy Gift

The Sun City Vistoso Community Foundation (SCVCF) mission statement reads: "To enhance the quality of life of residents and the surrounding community through support for health, cultural, recreational, educational and charitable needs." In keeping with that mission statement, the Foundation honors Irmgard and Gunther Mueller for their generous estate gift to the Foundation that supported funding for The Bistro Coffee & Wine Bar in the newly renovated Activity Center. This is to be a gathering place where kindness is sown and friendships bloom over a cup of coffee or glass of wine.

Cecilia Pfeiffer, their dear friend, offered this tribute: "Irmgard and Gunther came to America from Germany in the late fifties. After WWII, they both worked for Siemens in Germany. When they were sponsored to come to America, they secured jobs as engineers in the aerospace industry.

Gunther and Irmgard Mueller

Their jobs took them to the eastern and southern shores of America, but their favorite was the west. They discovered Del Webb's Sun City on a road trip, and it was love at first sight. The Mueller's home on Copperstone Drive had windows facing the Santa Catalina Mountains with no houses to obstruct the sunsets. They would always say, "When the mountains turn pink, it's time for a drink" when friends and neighbors stopped by to toast the mountains and beautiful sunsets. They passed away in nursing homes, first Gunther, then Irmgard. Since they never had children, Irmgard and Gunther thought of Sun City as 'their local family' and loved being here."

Planned gifts: If you are interested in discussing the possibility of making a planned gift to Sun City Vistoso Community Foundation, please contact Carol Johnson, SCVCF President 425-343-7138.

Knit and Crochet

Jane Fairchild 520-909-5069 janemail11@yahoo.com
Tue., 2:30-4:30 PM, Catalina Vista/Pusch Ridge

If you have a knit or crochet project, or would like to learn, come join us. An ongoing group project is making crocheted mats out of plastic shopping bags. You can participate in this project by cutting the bags into strips, stringing the strips into plastic yarn (plarn) and/or crocheting them into mats.

Donna Peterson helps new member with crochet project.

If you wish to donate bags, flatten clean Fry's, Safeway or Walmart bags and stack them by color. You can then fold all the stacks over into one, no need to fasten them together. This effort on your part greatly streamlines the cutting and crochet process. Do not include newspaper bags as they do not work for this project.

Bags can be dropped into a basket on Jane Fairchild's front porch any time at 1750 E. Crown Ridge Way.

Happy New Year to you all. What a year 2022 was. New members have been added to our roster. We have supplied many children with love through our toy distribution and adopt-a-family program at Tri-Community Food Bank in Mammoth and the many charitable organizations in Southern Arizona. It is really joyful to think that a small group can affect so many lives.

Now we are focusing on what we can accomplish in 2023. The Sewing Room shelves are already filling with new toys, quilts and all kinds of creations. Karen Curry from the Wood Shop will be again planning for work days in the shop, to make the cherished wooden toys. She encourages the woodworkers to make and supply to our stash for next holiday season.

A special shout-out to Wheels for Kids, who supplied nine bicycles and helmets to children at Tri-Community Food Bank. They not only supplied the bikes and helmets, but they also assisted in delivery. Living is giving and giving is living. Thank you from us all.

Happy New Year. May you all be blessed for the kindness you shared in 2022, and may you continue to care for others in the year ahead.

A sampling of our bears

Our little band of cutters, embroiderers, sewers, stuffers, bottom closers and bow tie-ers have had a busy year. We have made over 450 Cheer Bears this year and sent them on their way to new homes of young and old alike.

We put several in the Gift Shop, since many of you requested to be able to purchase them for your grandchildren. This income helps us to purchase supplies we need to keep the supply chain full and keeps our ladies busy and satisfied that their time is never wasted. Along with this funding, donations from the Tennis Club and residents keep our materials flowing. Thank you for all the community support.

The Tapestry Hooking and Fiber Arts group meets Tuesdays, 9-11 AM, Sewing Room. If you are interested in our group, stop by. The group provides materials and instruction for those interested in learning hooking. People involved in other arts using fiber are invited and encouraged to join our group.

If you read the past articles about our club, you know that we primarily use either wool material strips or wool yarn for hooking. Although some people might use other materials like synthetic yarn, we prefer 100% wool. Wool is durable and will last so that your hooked pieces can be passed to your children and grandchildren. Wool is naturally stain-resistant and cleanable. Wool is water resistant, holds color so it is easy to dye, and it is naturally flame-resistant. Most of all, wool is environmentally friendly, a renewable and biodegradable product.

Silversmith and Lapidary

 Next member meeting, Mon., Jan. 9, 3:30 PM, Artisan Center/Lapidary Room

Featured artist of the month, Robin Khan, explains enameling. Enameling is a process by which powdered glass is sifted onto a metal surface, such as copper or fine silver, then torch or kiln fired at high heat. The powdered glass can be applied either wet or dry to the metal. The enamel melts, turns glossy, and fuses to the surface in a smooth coating when heat is applied. Firing temperatures using a torch or a kiln generally range between 1,400 and 1,650 degrees Fahrenheit. Both torch or kiln firing are effective.

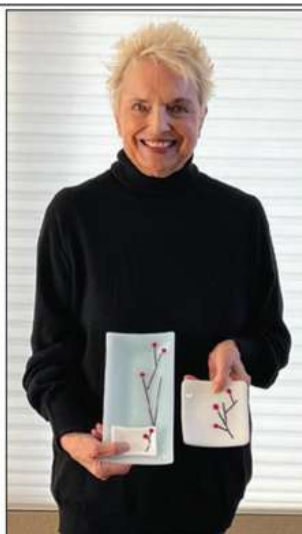

Techniques vary in complexity such as cloisonné, where small wires are shaped and filled with wetted enamel, then fired. Glass decals can be applied, then dried, fired and fused. We hope to be offering a demonstration class this winter in the Silversmith Studio. Please take a look at the

Silversmith Studio display. All items are made by amazing SCOV artists. Stop by the shop if you are interested in joining our club.

She loves the opportunity to allow her creative juices to flow and sincerely appreciates the encouragement and inspiration she receives from her fellow club members. Joy likes experimenting with glass and is still seeking to find her niche. Apart from glass, Joy loves knitting and creating many beautiful pieces of silver jewelry. She is on the Government Affairs Committee and participates in Prepare and Share. She remains amazed at all of the talent within SCOV. Sharyn Rafieyan 520-331-1092 srafieyan@comcast.net
Mon., 10 AM-Noon, Zoom

This month's poem by Sharyn Rafieyan confronts a familiar problem: What to do if your get-up-and-go is leaving.

"Sitting in the kitchen
sipping a cup of tea / sunlight shawling my shoulders
I contemplate my day
check to-do list in the bedroom / open laptop on my desk
bare the window / flex my fingers and begin.
Words emerge from scattered thoughts / form in ranks
on a blank white page,
Why has my muse been shirking when I need her
to be working?
Aging is my new excuse for plodding / but I've always
needed deadlines as a prod.
I know I can slow this growing old / before it settles
in my bones—kick-start the climb of life's thick vine
while there's time."

Suggestion: Resolve to visit our well-equipped fitness center and/or Zoom along with our group. Newcomers are always welcome. Have a happy and healthy new year.

Vistoso Cyclists membership is only \$15/year, which is hard to believe, given we are one of the best cycling clubs for seniors in the nation. Aside from the rides, our members enjoy our very useful website, including a searchable member directory, club classifieds, online ride schedule, cycling resources and more.

We offer several hundred scheduled rides year-round, among four different ride subgroups, from 20 to 60-plus miles, to cafe destinations within Tucson and nearby towns, utilizing both pathways and roadways. Occasional away rides are offered as well. Our cafe stops offer coffee and conversation, which are greatly enjoyed by our members.

The club has e-bike, mountain biking and Women on Wheels subgroups. There's also our monthly club newsletter email.

All schedules can be found within the excellent member area of our website. We also host social events and support both the Interfaith Community Services Food Bank and Wheels for Kids. For more information or to join, visit our website.

Miles, smiles and tailwinds.

Fri., Jan 27, 4 PM, Catalina Vista/Art Studio
www.scovbirding.wix.com/birdersgroup

Normally, we only show SCOV birds here, but we were gifted this November by a rare visitor from Mexico and Central America. Just up the road in Catalina Regional Park, the Fan-tailed Warbler was seen by many of our members as well as loads of visitors from other states. It was a happening. Dozens of birders took photos and just enjoyed the comradery.

We are a 100-plus member, activity-oriented group and all SCOV residents are invited to join us on our field trips. We carpool and learn more about the birds in Arizona. Below is a list of upcoming field trips. If you are interested in going on any of these, be sure to contact the trip coordinator for details at least three days in advance and ask Peggy (above)

This is the perfect time of year weather-wise in Tucson, to enjoy hiking in our beautiful area. Nature can improve your mental health. Studies show that within just the first five minutes of being outside, people experience a better mood. Spending twenty minutes in nature doing an activity, like hiking, or walking, helps reduce stress. A quick walk outside is a great way to soak in extra Vitamin D from the sun, which improves your sleep at night. As an extra bonus, by joining the Hiking Club you develop friendships, enjoy the company of fellow hikers from many walks of life, and you get to take in breathtaking scenery. There are many hikes scheduled at all levels of difficulty. Renew or join now.

The annual membership is \$10, due at the end of January.

It's perfect pickleball weather and we welcome all players. Check out the schedule posted at the courts or online.

Recently, a group of the women players registered a team with the Arizona Pickleball Players League (APPL). This is a first at SCOV. The team's name is Dinking Buddies and will compete at level 3 starting in January. The group is practicing two-to-three times each week. APPL is a non-profit which started in 2019. Instead of tournaments, APPL's team concept provides another enjoyable way to experience the social, mental, and physical benefits of pickleball.

Any female can register with APPL. Players may register their own team (of at least 6 players) or individuals may register and be assigned to a team. Typically, there are 8-12 matches per season. Zero Zero Play.

Wallyball is volleyball played on a racquetball court with three to five players on each side. It is fast, fun, and a great workout that tones muscles and improves coordination. Players use the walls to create angles on shots but cannot use the ceiling or back wall of the opposing team.

We welcome new members, both men and women. Come see if the game is for you.

Recreational play Sun., Thu., 1-3 PM

Advanced play Mon., Wed., 1-3 PM, Desert Oasis pool

Residents living near the Desert Oasis pool often come around when they hear all of the laughter coming from the pool area. This is what happens when we play water volleyball. The game is fun, but laughing at each other for bad plays is what makes it so compelling. Nobody takes it seriously, so if you muff a play, everybody gets a laugh. We all make mistakes, but getting outside for some physical activity and laughter with friends while playing a game is what makes this game so special. If you are curious or just want to laugh while watching, come by.

Meetings second Mon., 9 AM, WC3

Our next meeting is Monday, January 9, 9 AM, Catalina Vista. If you are a newcomer to SCOV and have an RV, join us as a guest at our next meeting.

Three formal trips have been posted on the website: Sedona/Flagstaff; Very Large Array, NM; Kartchner Caverns, Benson. If interested, sign up online.

Some important dates are the St. Patrick's Day celebration Sunday, March 19, and our Catalina cookout and overnight is set for Tuesday, April 11.

November 4-14, 2022, seven RV's traveled to Death Valley to experience the National Park's natural beauty, Rhyolite Ghost Town, and the Pahrump Historical Museum. The visit was scheduled to coincide with Death Valley '49ers Encampment Days. A trip highlight was the reenactment of the settlers' wagon train arriving in Death Valley, consisting of seven horse- and mule-drawn covered wagons.

Left: Wildrose Charcoal Kilns in Death Valley National Park. Yes, that is snow, as the kilns are at 8,100 feet elevation versus the valley floor at -282 feet and 80 degrees. Right: Members were educated by the displays at the Pahrump Museum about Nevada's nuclear test site located in the same county.

"Sunset after the storm" by Blythe Campbell

Joanne Larman enjoys photographing clouds

Residents donated lots of toys to The Views Golf Club holiday toy drive. Golder Ranch Fire Department picked up the toys to distribute to needy kids

Vice mayor Melanie Barrett, second from right, and council member Joyce Jones-Ivey, far right, joined the fun by donning "Thing" wigs to ride in Betty and Roger Benasutti's "Thing" in the annual holiday golf cart parade. Thank you Oro Valley Police and Golder Ranch Fire for escorting parade entrants
