From the Board of Directors

Our mission as the SCOV Board is to lead in maintaining and enhancing the quality of life in Sun City Oro Valley as an active adult community.

All Board minutes, agendas and reports are available online. Board meetings are open to residents.

Board of Directors - Eileen Buskirk

Eileen Buskirk, 206-450-6146, eileenbscov@gmail.com

Farewell Reflections

Looking Back: Three Years of Service

So long, farewell, auf wiedersehen, goodbye. Three years ago I was honored to be elected to your Board of Directors. Now, in what seems like no time at all, it's time to move on. During my tenure, this community has experienced a lot of growth, yet in some ways, it remains much the same. We have new solar, new parking lots and an improved kitchen. We've gained a few more gray hairs and are missing a few hairs as well. Some neighbors have moved away, while new friends have joined us. Advancements in technology have made it easier to stay informed about community events and we've navigated the pros and cons of social media together. We welcomed a new General Manager whose sense of purpose and enthusiasm has inspired us to find better paths forward.

The Heart of Our Community

What remains unchanged is our sense of community and commitment. While we may not always agree on our direction or how to achieve our goals, we share a collective sense of belonging and purpose. We strive for growth and prosperity—not only for our community, but also as individuals looking to live our best lives. Retiring here allows us to learn new skills, improve at our chosen crafts and sports and pursue lifelong learning to keep our minds active. Many of us join clubs to share our passions, participate in committees to share our knowledge and we celebrate each other's successes. We are also there for one another in times of sorrow and pain.

Personal Reflections and Future Plans

I will miss the conversations I've had with residents while walking Maggie and hearing about the joys of your lives so many of you have shared with me. I will miss the moments when I was able to help and champion change. I'll especially miss the times when meetings let me skip exercising or "projects" gave me a reason to avoid dusting. Looking ahead, I plan to start exercising again, return to lifting weights and work on lowering my handicap. I also hope to get back into the glass studio.

Parting Words

Well, that's it. Goodbye and thank you. If I may leave you with one thought—something I aim to do better myself—be kind.

General Manager - Sandy Seddon

sseddon@suncityorovalley.com, 520-917-8080

As we approach our annual Committee Appreciation Luncheon in March, it is important to pause and recognize the people who make this community function at the level we all expect and enjoy, our committee members.

Our committees dedicate countless hours reviewing policies, evaluating projects, analyzing budgets, planning improvements and working through complex issues. Much of this work happens behind the scenes. It requires preparation, thoughtful discussion and a willingness to tackle topics that are not always simple or popular. That level of commitment deserves to be acknowledged.

This year, we have made a concerted effort to increase the visibility of our Standing Committees. They now submit monthly reports as part of the Board meeting materials, allowing the membership to stay informed about the work being done on their behalf. I encourage residents to review these reports to better understand the scope and impact of committee efforts.

In addition to our Standing Committees, we also have Service and Support Committees that report directly to me as General Manager. These volunteers step up wherever needed, assisting with operational initiatives, supporting staff and helping move projects forward. No job is too big or too small. They truly do it all.

The luncheon in March is a small gesture of appreciation, but the gratitude extends well beyond one event. We are who we are as a community because of the time, expertise and steady leadership our volunteers provide. The Board and staff rely heavily on their recommendations and involvement to ensure thoughtful governance and long-term stability.

It would be an oversight not to say it plainly: without our volunteers, Sun City Oro Valley would not operate at the level it does today.

To every committee member, thank you for your service, your professionalism and your commitment to this community. Your efforts matter and they do not go unnoticed.

Board Candidates Q&A

See Election Committee article on page 8 for voting information. Information about Candidate Forums on March 3 and Ballot Initiative Forums on March 4 can be found in Coming Events on page 13.

David Olsen

Why Do You Want to Serve on the Board?

SCOV needs steady, community centered leadership that protects our long-term stability and strengthens what makes our community special. Over the years, I've served as Chair of both the Architectural Review Committee and the Emergency Response Committee and contributed to the Property Committee, Chalk Creek Wash subcommittee, Fountain Task Force, Pool Restoration Work Group and Copper Center Work Group. Through this work, I've gained a deep understanding of our community's governing documents and our strengths as

well as the challenges we face.

I'm running for the Board because I want to ensure SCOV remains a premier, well-managed, forward-thinking retirement community, one where residents feel heard, respected and proud to call this place home.

Is There Something Specific You Want to Change or Accomplish?

My highest priority is financial stability, strong reserves, predictable costs and no surprises.

A second priority is restoring transparency and rebuilding trust. SCOV thrives when residents are part of the conversation. During the Development Standards update process, resident involvement directly improved the final outcome, a powerful reminder that collaboration leads to better decisions.

As a Board member, I will work to bring open forums and public comment opportunities. A strong community listens to its residents and I'll ensure your voice has a seat at the table.

What Knowledge, Skills and Experience Do You Bring?

My experience blends leadership, construction and project expertise and financial oversight skills that directly support responsible governance.

As General Manager of a lifestyle center, I oversaw a wide range of operations—from housing and restaurants to entertainment and amenities, ensuring all elements worked together to create a vibrant, successful community. As a general contractor, I've managed complex projects, found cost-effective solutions and delivered results under pressure.

I will bring these skills to the Board to protect our financial reserves, support smart budgeting and maintain SCOV's facilities so they remain safe, functional and enjoyable for years to come.

**Meet David Olson: Wednesday,

Jane Krabbeler

Why Do You Want to Serve on the Board?

Eight years ago, my husband and I traded the suburban hustle of Long Island for the serenity of our beautiful desert. Since then, we have fully immersed ourselves in the SCOV community.

However, over the last several years I have been saddened by the growing conflict and division within our community. As a retired Clinical Social Worker, I am seeking a seat on the board to put my professional expertise to work for us. My career was built on facilitating active listening and conflict resolution. Skills, I believe are vital to

navigating a path forward.

Is There Something Specific You Want to Change or Accomplish?

I commend the board's recent efforts to bridge communication gaps and I am eager to build on that foundation. My platform prioritizes enhanced communication by initiating Quarterly Community conversations, led by a professional facilitator. This will ensure that resident concerns are heard and addressed in a supportive environment. By fostering open dialog, we can create an environment where diverse perspectives thrive and innovative solutions emerge from shared understanding.

What Knowledge, Skills and Experience Do You Bring?

My involvement in our community is broad. Currently, I serve as Co-Chair of the 40th anniversary gala committee and Co-President of the Culinary club, while managing the finances of the Sun City Singers as their club treasurer.

My professional experience in non-profit management has equipped me with the skills to navigate complex budgets and regulatory environments without losing sight of serving the community.

As a Social Worker, my primary tool is active listening; Solid leadership should involve merging the diverse voices of our residents into our board of directors decision making process.

When we actively communicate with each other our community will be stronger and thrive.

**Meet Jane Krabbeler: Friday,
March 6, 1 pm, Kiva**

Why Do You Want to Serve on the Board?

I believe good governance begins with listening, learning and acting responsibly. My experiences, both successes and challenges, have shaped my values and commitment to thoughtful community focused service.

Is There Something Specific You Want to Change or Accomplish?

I do not come to the Board with a personal agenda.

I will support preserving what makes Sun City a wonderful place to live in. I will support efforts to improve and maintain community resources responsibly. I will support transparent governance

and clear communication. I will support decision making today that will strengthen our future. I will support and encourage resident involvement at all levels of our self governance model.

What Knowledge, Skills and Experience Do You Bring?

- Honored as a recipient of the Sun City Distinguished Service Award 2025.
- Choir Director for our Sun City Singers from 2012 to present.
- Past President of the Men's 18 hole golf club.
- College educated with diverse work and life experiences.
- Teacher and lifelong learner.
- National Guard service in South Dakota and Arizona.
- Founding principal of St Anthony's Catholic School.

Donald Hess had his local candidate meeting on Thursday, February 19

Why Do You Want to Serve on the Board?

I want to serve on the board because I care about this community and all the people who live here. We have a vibrant, thriving community and I want that to continue. I have lived in Sun City since 2016. Now that we are full time residents I have the time and commitment to be an active and responsible Board Member. I believe that transparency and an open dialogue with residents are a critical part of leadership.

Is There Something Specific You Want to Change or Accomplish?

• Complete the Copper Center Project with conservative financial involvement with the goal of utilizing the entire building. As part of this project renovation of the Artisan Center Complex needs completion. This project will impact a large number of our residents who currently are utilizing overcrowded rooms and will add the opportunity for more residents to join their activities. Right now there are several large Artisan Clubs that have to limit membership and/or limit the number of members who can participate. The gift shop, with expansion, could accommodate additional artists consigning their creations. All of this should be accomplished within budgetary constraints.

• Work with Long Range Planning to maximize implementing facility upgrades and provide new amenities whenever possible. Research needs to be done to determine which new amenities are possible, considering available locations, cost and other critical factors.

• Most importantly, promote transparency by having an open dialogue with residents, particularly those who have major concerns with the governance of our community.

What Knowledge, Skills and Experience Do You Bring?

I have twelve years of experience as an elected official. Four years on the City Council in Northern California and eight years as a County Supervisor in Northern California. As a County Supervisor, I researched all agenda items and met with specific county Department Heads or Agencies on the agenda before every Board Meeting. I was well prepared with all information to make informed decisions at the meetings. I was the Board Chairperson for two years and conducted all meetings of the Board. My knowledge of meeting procedures and Roberts Rules are a valuable asset.

As an elected County Supervisor I listened to my constituents and was able to successfully represent them on many of their issues.

Copper Center Update

Theda Ellis, 302-388-9798, thedaellis@me.com

Moving Forward

After our long, hot summer, progress picked up quickly in January and early February. We're excited to share that the Copper Center is now open on a temporary basis, with full opening coming soon.

So what changed? On January 30, we received the Certificate of Occupancy, which set everything in motion. Thanks to the hard work of staff, both building access and the internet and Wi-Fi were in place. The remaining item is installation of the interior and parking lot camera system. A contract has been selected and may be completed by the time you read this. In the meantime, the building is open during daylight hours.

Table Tennis has already moved in and cardtables and chairs are available for community use by game and card players on a first-come, first-served basis.

We are planning a series of open houses in mid-March. The first will be at the Artisan's Center on March 17, immediately following the Community Meeting. This is a great opportunity to meet our local artisans and see the spaces where they currently work. Later that week, we'll host an open house at the Copper Center so residents can see first-hand the additional space and possibilities it offers: including a small meeting room, an archive room and some unassigned space for future needs.

We look forward to welcoming you and sharing this exciting next step for our community.

Community Services

The Oro Valley Police Department (OVPD) and the Golder Ranch Fire District (GRFD) offer several programs that enhance community safety, emergency response and preparedness for residents of all ages.

The File of Life program provides first responders with quick access to critical medical information during emergencies. Medical details, medications, allergies and emergency contacts are stored in a magnetic pouch placed on the refrigerator. Packets are available through GRFD and at OVPD outreach events.

The Key House Lockbox Program allows emergency personnel to access homes during emergencies without causing damage. Participants install a secure lockbox containing a house key, accessible only to first responders. GRFD assists with installation after an application is completed.

The CodeRED Emergency Notification System delivers timely alerts about severe weather, public safety threats and other emergencies via phone, text or email. Residents can register through the OVPD website or at community centers and should keep contact information current.

Through the Dark House Program, OVPD conducts periodic checks of registered homes when residents are away for extended periods, helping deter criminal activity. Registration is available online or in person.

The Community Assistance Program (CAP) provides crisis support for individuals affected by traumatic events, domestic violence or sudden loss. Trained volunteers offer emotional support, resources and referrals.

Finally, Senior Safety Checks promote the well-being of older residents through wellness visits, connection to resources and reduced isolation. Requests can be made by

seniors or family members.

Together, these programs reflect OVPD and GRFD's commitment to a safer, more connected Oro Valley community.

Buyer Beware

In the past several months we have become aware of some questionable practices by sales representatives in our community. Some of these instances are nothing more than sales tactics that vendors might have learned along the way which have worked in the past and so they continue voicing them today. Some are fairly innocuous, but others are borderline scams and need to be called out.

When you are ready to make a decision on a vendor, please take the additional time to research their references and ask the hard questions. Be aware of anyone who professes to be the #1 in our community, the #1 Recommended (contractor) in our community, SCOV's Community Choice, etc. unless they can prove it with a bonafide certification such as an award citation that is published.

Another situation that gets residents into trouble is when a vendor asks for money down before the resident has gained written ARC approval for a project. Most ARC and In-House submittals are approved but you never know if your submittal could have extenuating circumstances involved or if you have not understood what is necessary to gain approval.

Other tips include: Use a licensed and insured contractor. Go to <https://roc.az.gov/before-hire> to make sure they really are licensed. If they cite a number, double check the number on the site above.

Check our Vendor List for names of contractors that other residents have used with success.

Balance Exercises You Can Do Anywhere, Anytime.

These "anytime, anywhere" exercises will help you improve your balance. And you can do them as often as you like, as long as you have something sturdy nearby to hold onto if you become unsteady. Walk heel-to-toe. Position your heel just in front of the toes of the opposite foot each time you take a step. Your heel and toes should touch or almost touch. Practice standing up and sitting down without using your hands. Stand on one foot. You can do this while waiting in line at the grocery store or while brushing your teeth using the timer on your toothbrush as a reminder when to alternate feet.

Special Note from the AFC:

Orientation on how to use the gym equipment is held Thursday, 1 pm, AFC, so stop in and sign up as classes are limited. Contact Lonnie Davis, AFC Coordinator, to discuss questions or problems with the AFC. AFC and Desert Oasis: See Hours of Operation on page 2.

Co-chair Dave Olson, daveoscov@gmail.com
Meetings Second and Fourth Tue, 2 pm

As a reminder, most everything you do outside is likely to require some level of review. Changing a light bulb, replacing a dead plant with a similar plant or doing some touch-up painting on the outside are simple exceptions to review requirements.

Beyond those very basic examples, you will likely need either the Architectural Coordinator or the ARC to be involved. Actions like replacing an outdoor light fixture, putting up a new garage door, adding gutters and downspouts or even wanting to plant a bush/tree you just found on sale. They all have development standards surrounding your plans. So, be sure to do your research and if you are unsure, then give us a call.

Emergency Response Committee

Chair Dave Olson, daveobuilds@gmail.com

How can I get notifications of emergency situations including wildfires and flash floods? First, when the National Weather Service issues certain weather warnings, cell towers will broadcast the alert to all connected cell users. Other applications for your phone are available. Weatherbug provides additional weather alerts including flash flood and lightning warnings. Watchduty provides alerts for nearby wildfires. You can also set other locations if you want to keep track of the area near a second home or vacation home. CodeRedMobile is used by the Town of Oro Valley to send notices to town residents. If the affected area is smaller than the town, they can geofence the alerts so they send a notice to only the affected area.

Did you know we have approximately 50 consignors in the Gift Shop? That's 50 talented, creative individuals that are busy doing what they love and making available items that cannot be found in any store or online. Our shop is unique, merchandise is routinely being refreshed and new items are being added. Stop by and take a look and come often. New items are always being introduced.

Each month we feature an artist whose work is available in the shop. This month our featured artist is Ellen Jordano. Ellen's passion is working with glass. Over the years she has made bowls, platters and what she calls "little dishes". These little dishes have been very popular with many who visit the shop. They provide the perfect holder for jewelry, that morning tea bag, loose change, that next collection of pills to be taken or those keys that like to get lost. Stop by and take a look at these popular "little" items.

Government Affairs

Chair Earl Vittitoe 309-360-1601 scovga@gmail.com

Second Tue, 1 pm, WC1

www.suncityorovalley.com/committees/government-affairs

On Monday, February 2, Government Affairs hosted Oro Valley Police Chief Kara Riley and Municipal Judge James Hazel for a community forum. They shared with us the over-all crime picture for Oro Valley, the department's relationship with Pima county and the steps they take to make our community one of if not the safest towns in the nation. They explained that repeat offenders are most often organized shoplifting rings. To counter this threat, Chief Riley partners with local stores to have a police presence. This was the second time we had these two leaders in the same forum and the partnership they have makes Oro Valley the place criminals avoid.

Browse our online catalog at the SCOV Loan Room website to see and reserve available equipment. The Loan Room is supported by our Community Recycling Program. Proceeds from recycled aluminum cans help maintain our inventory. Long Range Planning: How We Help Shape SCOV's Future.

Have an idea for a new community project? The Long Range Planning Committee is your first stop. We review every proposal using a thoughtful matrix that considers quality of life, community usage, costs and potential revenue. After our evaluation, we share our findings with the SCOV Board. If they see promise, they may form a task force to take a deeper look. That group then returns to LRPC with recommendations and we review the project again before it goes back to the

Board for a final decision.

It's a collaborative, step by step process that ensures every idea gets a fair and thorough review.

LRPC meets on the second and fourth Wednesday of each month at Catalina Vista. Visitors are always welcome. Come see how the (good) sausage gets made, learn what's in the pipeline or share your ideas for keeping SCOV vibrant and forward-thinking.

As spring approaches, it's important to remember a few key guidelines for maintaining your personal yard. Ensure that trees are trimmed to a height of at least seven feet above sidewalks and do not obstruct the visibility of stop signs. Plants should be kept from extending over sidewalks and any frost-damaged sections of shrubs and trees need to be pruned and removed. Homeowners are responsible for keeping cracks in driveways and sidewalks free of weeds, while hedges should not exceed six feet in height. Additionally, shrubs near driveways must be trimmed to under 42 inches to maintain clear visibility for both vehicles and pedestrians. It's also essential that your house number is clearly visible from the street, with all outdoor lights functioning properly for nighttime visibility. Remember that according to Oro Valley regulations, outside light bulbs should not exceed 250 lumens. Lastly, any glass tinting, decals or artwork on windows and doors must be unobtrusive and the use of additional film coatings or non-traditional materials is prohibited. Thank you for your attention to these details and for taking pride in your property.

Posse

David Ilse, Chair 952-451-3220 dvdilse@gmail.com

Monthly meetings first Tue except May-Oct

www.suncityorovalley.com/committees/posse

The traditional Posse Round up will be held for members Tuesday, March 17, 9-10 am, AC/Hohokam/Hopi with refreshments provided by The Views Restaurant.

The Posse patrols all SCOV streets nightly for approximately 2.5 hours between 8 pm-midnight to protect your home and security. These are the hours that OVPD says our community is most vulnerable to outsiders. This was demonstrated in February when two men were found soliciting homes at 8 pm. Posse volunteers called OVPD, who arrived at the scene, advising the intruders to leave. Later at 10 pm, javelinas were discovered in an open garage. Leaving your garage door open, even a few inches, provides access for rats and snakes.

It is important that the Posse has a current phone number to reach you in case of a problem. Check the SCOV directory. If no phone number is listed or is inaccurate, contact aeggiman@suncityorovalley.com.

Support your community as a Posse volunteer. To apply on line: SCOV website>memberservices>committees>posse and scroll down to application.

Director of Golf Maintenance - Michael Kropf

mkropf@suncityorovalley.com 520-917-8063

The greens were rebuilt in 2020 and they were grassed with a variety of Ultradwarf Bermuda grass called TifEagle. This variety of turfgrass is widely considered to be very durable, putts well and is more drought tolerant. Since the golf course has been averaging over sixty-thousand rounds a year it was necessary to have a grass that can withstand that large amount of play and still provide a good playing surface.

The negative side of the Ultradwarf variety of turfgrasses is they don't transition well after being overseeded, they are more susceptible to diseases as compared to older bermudagrass greens and they rapidly generate organic matter, also called thatch. The accumulation of organic matter is what impacts playability the most as time goes on. Most importantly, as thatch builds up under the surface the greens become spongy causing bumpy, soft conditions.

Organic matter is managed by various processes. The most visible method to control thatch is aerification where cores are pulled, which literally removes the thatch. The holes are then filled with sand that contains no organic matter at all. Another method is verti-cutting. The mower blades are vertical to the surface, so they pull the thatch out of the green surface. Sand is then top dressed in the grooves for smoothing.

These methods do disturb the playing surface which is inconvenient for golfers. However, the more they are performed over the years, the better the playing conditions remain. Skipping aerification, verti-cutting and topdressing will eventually lead to unhealthy greens with poor putting surfaces.

Almost Pros

It's March and we have another busy month coming, but it is also a good time to look back and recap all the events of February.

We had a great burger bash and meeting on February 12. We enjoyed burgers off the grill from George. We had some special gifts presented for those who got the correct answers to golf rule questions. It was another great meeting.

We completed another fun "Home and Away" game with Saddlebrook. It is always good to play that HOA1 course and see the mule deer. The annual league tournament will start this month and run for three consecutive days, March 12, 19 and 26. It is the best two out of three games and a chance to win the coveted "Bag Tag". A reminder to all to practice those short putts as there are no "gimmees" during tournament play. All putts must find their way to the bottom of the cup.

Bark Carving

Tue, 1-4 pm, Thu, 9 am-Noon, ART/Lapidary

In this issue of the Bark Carvers notes and happenings, I would like to address the effects of ultra violet light on wood burned carvings.

If we decide to apply any wood burning to our carvings, ultra violet light will cause the wood burned effect to be cancelled out by causing the darkened areas to fade. So, we must purchase a spray can product which offers UV protection. Listed below are several products which will provide protection for your carvings.

- Rust-oleum Painters Touch, matte clear #0-20066-1 8744
- Minwax Heisman satin clear #0-27426-33253
- Variathane oil based spar urethane satin #0-20066-42974
- Krylon UV Resistant Acrylic Coating matte, #7-25404-013099

If you have any doubts feel free to contact the manufacturer for additional information, details and specifics.

Masks by Kevin Harney

The Clay Club has two studios in the Artisan Center and each studio has a display window. The pottery display window changes each month and showcases the finished work of several artists. This picture shows some of the masks created by Kevin Harney that were recently showcased in the pottery display window. The ceramics

window provides samples of glaze combinations that members can use for their work. It often displays finished pieces and explains what glazes the artist used. In this way members can preview glazes and make informed selections for their work in progress. Come to the Artisan Center each month and visit our SCOV clay gallery windows.

You may purchase seasonal flowers and branches from the leader or bring your own. If possible, we try to use materials from

our own yards. Most arrangements are made in low round, oblong, square or rectangular containers. Stems are held in place by a metal floral pin frog. Call Nicole Laing to learn what tools you need to get started.

Note of thanks from the families who attend sessions at Make Way for Books

One of our dedicated volunteers takes time each month to make deliveries to More than a Bed and Make Way for Books. In January when she stopped to offer sheets, quilts, sleep sacks, sleep pant sets, fleece hats and bibs at both organizations, she was praised for our continued support.

The staff at More than a Bed emphasized that the sheets are the most coveted donation.

Casa Amigas takes donated sheets, resizes them, then adds new elastic with a serger sewing machine to create twin and crib sheets for the children's beds.

The members of our group feel fortunate to have the supplies and sophisticated equipment available in the sewing room. They allow us to continue to provide, create and share quality goods with others.

Your donations along with the support of the Foundation are critical to continuing with our commitment to help others.

Sometimes we have people try hooking, but find it difficult. Here are some traits of people that enjoy rug hooking. Individuals who are tactile and sensory oriented, who like the feel of the material and

working with fabric. They tend to be playful, creative and self-directed, with a willingness to experiment with colors, textures and design. They tend to have type B personalities, being easy-going and willing to pull out their work when there is a mistake. Patience and persistence are required because it takes time and dedication to complete a project.

The ancient Egyptians excelled in metalworking and employed wax casting, a technique that entailed crafting a wax model and covering it with clay, then heating it to let the wax flow out. Molten metal was poured into the cavity, taking the shape of the original wax model. Once the metal cooled, the clay mold was broken to unveil the finished metal object. This process enabled the creation of intricate objects like jewelry findings and statuettes. Last month, members of the club recreated this lost-wax process.

SCOV silversmiths are available to assist SCOV residents in the art of jewelry making as well as stone cutting, shaping and polishing. If you are interested in joining the Silversmith & Lapidary club, stop by the studio and speak to a monitor about membership.

In the realm of artistic expression and craftsmanship, stained and fused glass stands as a testament to the human capacity to transform a seemingly ordinary material into a breathtaking work of art. It is a creative endeavor that marries science and artistry, producing glass pieces that captivate the eye and stir the soul. Each piece of finished stained and fused glass tells a story of metamorphosis, revealing the beauty that emerges when artistry and craftsmanship converge in a symphony of light, color and glass. You can view some of the wonderful stained and fused glass creations made by our talented members displayed in the windows of our studio in the Artisan Center. Why not join us? We provide equipment

AI Versus Photography.

AI will not eliminate photography any more than photography eliminated painting. Think of AI as a fast, tireless brainstorming partner: it can suggest mood-board directions, depict unusual subject pairings or pre-visualize scenes when you feel stuck. AI can't replace your eye for timing, your rapport with a subject or your discipline in editing. Your camera will do what it always has done, it will capture light and record your choices. AI can widen your creative starting points, but it's the photographer who makes the creative choice, breathes life into the photo and gives it the human touch.

Our next program is "Intentional Creative Moments", Wednesday, March 11. The presenter will be Jeff Greinke. Our next competition theme is "Open" on March 25. Both events are at 6 pm, Catalina Vista, the public is invited to attend.

Wood Carving

Dick Minch 262-844-7444 Minch11864@msn.com
Sat, 9 am-Noon, ART/Lapidary

In this month's article I would like to provide information about wood. When we exhibit or offer our carvings for sale, many people ask us, "What kind of wood do you use?" There are two types of wood used for carvings, hard for architectural and soft for artistic work. Our group of carvers use the softer variety of woods such as bass, cottonwood bark or tupelo.

Basswood is a popular choice for carving because it can be kiln or naturally air dried. It has a nice straight grain pattern and is relatively easy to develop excellent detail. You can hand or power carve it, burn it, paint it, stain it and even use shoe polish to finish it.

We use Cottonwood Bark for whimsical carvings that let our imaginations flow with each cut of the knife. The material is relatively the softest of the woods we carve, offers interesting grain patterns and coloring. We often leave some of the bark on the carving to add to the personality of the piece.

Tupelo is the preferred wood of choice for decoy carvers because it offers a close grain pattern and it can be power or hand carved because it holds detail very well.

Now that you have a basic knowledge of the woods we use, stop in during one of the carving times listed above and make a cut.

Poets Corner

Sharyn Rafieyan, 520-825-6762, srafieyan@comcast.net, 1281 E. Clearwind Pl., Monday, 10 am-noon, Zoom

Poets Corner member Megha Morganfield displays her talents as a musician as well as a poet in the cadence of this poem she wrote for her father. You can see it, hear it, feel it and immerse yourself in the flow. You can even give it meaning in a way that is personal to your own experience or imagination.

"Here...

You won't need a plot or plan
You can quit your machinations

Ride the river to the dam
Then, just notice the sensations

Hear...

A breath of hardly any beck
The guest that rivals all the callers

The guilt that filtered without check
Settles now a little softer

Here...

the place, the pool of stance
The chance to float and feel the cheat

Moments languished in the water
Where sky and time await the leap"

We continue to meet every other Monday. Please plan to join us.

Conscious Aging

Pres. Phyllis Burks 520-245-2785
SCOVConsciousAging@gmail.com
Wed, 9-10:30 am, AC/Navajo

Conscious aging is about the inner work of reorienting ourselves as we turn from our roles we assumed while managing careers and tending families, to turning inward and cultivating a deeper awareness of who we are now. Our goal is to discover how to face the known and unknown challenges of aging. With the help of our community, we are pondering the questions: Who am I? What are my values? What do I believe? What matters most to me?

This inner work is supported by mindful movement such as qigong, guided meditation and book study that draws from psychology, sociology, metaphysics, philosophy and meditation. Conscious aging is about accepting who we are now. Our meetings consist of a short period of easy mindful movement, followed by guided meditation and discussion. Please contact Phyllis for information or email the club.

Aquatone is a water workout that incorporates a variety of rhythmic body movements. This aquatic exercise class enhances cardiovascular fitness and muscle endurance. It includes warm-up, cool down, various swim strokes and strength exercises. We use buoys, boards, noodles, balls and a fitness band. Most of these items are available at the pool. Participants need to be able to do a basic swim stroke. The class is taught by club member volunteers. There is no fee for Aquatone. Please call Irmel for more detailed information before your first visit.

Winter Mondays and Fridays 10 am AC/Hohokam

Due to the closure of the AFC pool the entire month of March, we will continue our winter schedule of chair arthritis exercises. Members will receive weekly e-mail updates regarding classes. Non-members may reach out to Norma Waters.

Our club performs gentle exercises which target all muscles. They are used by several health organizations to increase strength and balance, mobility and flexibility.

Exercise is helpful in managing arthritis, fibromyalgia, replaced joints, etc. Some new members have expressed surprise at how quickly the first sessions increased their abilities to move. Others comment on improved stamina.

New members are always welcome. Our members are fun, accepting and welcoming. We frequently hear "I came for the exercises and love all the friends I have made."

Your first class is free. Yearly dues are \$5.00. There is no fee per class. Hope to see you there.

Energetic Exercise

Pres. Peggy Smith 520-400-8659 pdsaz@aol.com
Mon, Wed, Fri, 8-9 am, Auditorium

From the looks of our packed classes, the resolutions you made about making it a priority to get to class three times a week are being kept. What fun we are having with the new and challenging classes Sally came up with for us.

Actually one of the snowbirds went to Sally and said she has noticed a definite change in her stamina and strength. Folks, it works, plus it is fun. We are now being challenged to ramp up the workout as summer is on its way. Come and join us to see what we are all about.

Wearing the correct footwear to class is important. You want sturdy, supportive athletic shoes. They help balance and give you a feeling of security when moving in class.

Class dues for the year are \$3 pp, cash only, in an envelope with a name. Classes are 12 for \$30 pp, cash only. Sorry NO CHECKS.

Understanding Pilates exercises takes a little time and patience because some of them are different from others we're familiar with. They're all fun and challenging. It has been said that Pilates can become addictive. It teaches proper balance, breathing and movement control and how to focus on strengthening your core (abdomen and back muscles). Results include the development of more strength and stamina. Even posture is improved and joint flexibility and mobility increase. Two experienced instructors conduct the mat Pilates classes and will modify any of the moves for you, if necessary. The cost is \$8/class and annual club dues are \$20 pp. Please stop by and watch a class or join us. Call Mary at 520-638-7916.

It is no longer a secret. We play all year long braving the cold 60 degree weather of winter, the warm 100+ temps of summer and the monsoons. What a great way to spend a Thursday afternoon. Sit down at a Maj table. Visit with friends and make new ones. That's just what we did on Thursday, January 21 when we set an all time record for number of players. We had six full tables plus one extra person rotating in for a total of 25 players.

Our first 2026 tournament was played on January 8. Congratulations to our winners. Terri Alverdes took first place while Cathy Morrow and Barb Harding tied for second and third.

Have you played in one of our tournaments this year? If not, this month is your chance. The last of our three tournaments will be played on March 12. Tournament entrance fee is \$2. Exact change appreciated.

We Hold These Truths

From the Battles of Lexington and Concord to the Siege of Yorktown 6 1/2 years later, our Founders clearly understood the necessity of being able to raise a defense against tyranny and oppression. That understanding resulted in the formation of the 2nd Amendment and the nine other amendments which make up the Bill of Rights.

As we celebrate the 250 anniversary of the signing of the Declaration of Independence, all Americans should take time to remember the extreme sacrifices and life-threatening peril these true Patriots endured. We owe

them so much more than they could ever have imagined. Our next Gun Club meeting is Wednesday, March 11, 2 pm, CV/Mt. Lemmon room. Stop in and share your thoughts.

Congratulations to Leslie Esparza for winning the Silver Metal at the Senior Olympics in Tucson.

Members of our Table Tennis Club often win medals in the Senior Olympics playing in younger categories than their age allows. That said, we are a casual group and not all of our players are that advanced. We have a whole range of players and welcome all levels. Our current schedule is shown in the *Tipster* and if it shows "All Play" you don't need to be a member to play, but you will probably need to bring a partner, as we can't guarantee there will be others there to play. We should be moving three to four of our tables to the Copper

Center shortly and when we do that, the club schedule will change to include all seven days and more convenient club time slots. Contact either Peggy or John above if you wish more information.

"I have already recommended Brenda O'Brien & her team to a work colleague & Brenda is now representing them. Brenda & Michelle were phenomenal to work with & did for us what no other person, team, or small army could do. They helped us through so much & we were out of state for almost all of it. Brenda was equal parts consultant, guide, voice of reason & counselor. Her network & marketing programs brought over 5 times as many viewings as our neighbor who used a different realtor. This allowed us to find the perfect buyer & best offer."
