Forward Thinking

by Rocky Gedrose

I was recently looking through the archive of past *Tipsters*. I specifically looked at the April 2013 issue. I was curious what the issues were ten years ago in SCOV.

Cigarette butts on the golf course was a problem. I don't believe it is a big problem today, but I see them occasionally. Dogs were not permitted on the course, ever. It seems that the weather in February of 2013 was not very good, so the amount of play on the golf course was down. Sound familiar? The specials in the café were endless soup and salad on Wednesday and meatloaf on Thursday. The Cure for Cancer Golf and Tennis event raised \$3,824. This year more than \$40,000 was raised. Some things change and some stay the same.

The other thing that grabbed my attention in the April 2013 issue was the "From the Board of Directors" submission. The Director's submission had an interesting point, although I completely disagree. He wrote, "No amount of spending on restaurants, landscaping improvements, and other additional facilities will enhance our community enough to put us in a leadership position compared to nearby developments." Where would SCOV be today if we all thought this way? We would have never purchased the current Welcome Center. The restaurant would still be a small café with limited hours, sharing space with the Pro Shop. The Aquatic Fitness Center would not be what it is today. The Activity Center would have received a fresh coat of paint, not the fantastic remodel. We might even still have shuffleboard where the pickleball courts are today.

If we all had that same attitude, we would not have purchased the Copper Building. What a mistake that would be. This Copper Building opens so many options that will save money in other areas. We need to carefully decide which options will provide the greatest benefit. I encourage everyone with an interest to get involved in the process.

I believe SCOV is in a leadership position compared to other nearby developments. We may not be as new as some others, but what we offer exceeds many of them. Our willing-

ness to take advantage of opportunities and to think forward has made us one of the more desirable 55+ communities in the Tucson area.

Preparing for Summer

Can you believe another winter season is just about finished and we will be starting into our summer season? For those of you who will be heading to cooler climates, please remember to prepare your homes for your absence. If you have water features, remember to cover them, empty them or leave water running in order to prevent stagnation and mosquitoes. Also, please don't forget to arrange for the landscape to be taken care of in your absence. If you are new to SCOV, it is always a good idea to talk with your neighbors and get a few tips for other things you might do to prepare your home for your absence.

Just an update on the Copper Building: The *Lis Pendens* has been dismissed, opening the way for the purchase. I hope that this will be accomplished quickly, and a corrected purchase agreement is already in the works.

As many of you know, I wrote this article about three weeks before it was published. I hope that much has happened during those three weeks. If all goes as scheduled, the Auditorium should be about complete with the audio, visual and lighting. We may even have the Copper Building purchased. The elections are now over, and we have two new Board members.

Many of you may not know how very much work has been done by our outgoing Board members, Ronna Heinig and Terry McFadden. I worked extremely closely with Ronna as she has served as the Board president, and I can attest to the full-time effort she has put in. I've worked with Terry in many ways, such as with the Properties Committee for which he is the liaison. We should all give them a BIG thank you.

I also want to welcome our new Board members and wish them well in their service. I'm sure the Board members who have a lot of experience will be a great asset to help them be successful.

For those of you who are staying for the summer, I look forward to seeing you around. I hope you all stay safe and keep protected from Covid.

It's More Than Living... It's A Lifestyle!

Who You Gonna Call?

by Robin Coulter

Do you remember the Ghostbusters film with Dan Akroyd, Bill Murray and Sigourney Weaver? They are called to rid New York City of paranormal phenomena at everyone's whim—for a price. And who could forget the catchy tune by Ray Parker Jr., "Who You Gonna Call?... Ghostbusters!"

We have our very own version of that here in SCOV. Not for paranormal phenomena, but for the special or sometimes urgent needs that pop up. Grandkids are coming to visit and you need a car seat. Who you gonna call? The Loan Room. Tweaked your knee and need a rolling scooter. Who you gonna call? The Loan Room.

SCOV has dedicated space for the Loan Room with items available to residents who need equipment after surgery, items for visitors, items to assist with big events and more. This is unique to SCOV and not available anywhere in Southwest planned communities.

The Loan Room is operated by the Community Assistance Committee and is a free service to SCOV residents. The Loan Room provides medical equipment such as walkers, wheelchairs, toilet risers and shower seats. The knowledgeable volunteers can assist residents with their recovery needs after almost any type of surgery or medical emergency. They also loan rollaway beds, mattresses, tables and chairs, car seats, highchairs and some fun and creative children's toys for visiting family or grandchildren. All of these items are loaned out free to residents. Medical items can be checked out for a two-month period and other items for two weeks.

Check-in and check-out procedures are computerized. Requests for reservations can be made on the SCOV web page under Members > Member Services > Loan Room. Your SCOV card can be used to complete the check-out. Reservations can be made up to two months in advance at the Loan Room. The inventory is constantly evaluated and necessary items are replaced or retired to ensure the inventory is up-to-date. The committee watches expiration dates on car seats or recalls and updates the item accordingly.

The Loan Room is staffed by volunteers, and the room is open two hours each week in the winter to pick up reserved items (one hour weekly in the summer). For emergencies, like a tweaked knee, the committee chair has been willing to take phone calls and meet people at the Loan Room after hours. Last year the chair made an additional 49 trips

and received 108 phone calls (and that's just for the chair). Talk about customer service!

It is a free service, but funding for all these items must come from somewhere. The committee is entirely financially supported by the aluminum can collection and private donations. In the over twenty-five-year history of the Loan Room, the Association has never been asked for funds. With Covid and the Activity Center renovation, can collection stopped, so funding stopped. Add to that the

need to replace computers and some equipment and it's

time to replenish their funds. Now that the Activity Center is operational, the aluminum can collection is back in full force, so start saving those cans. Recently someone dropped off cans they'd been saving during the entire closure of the Activity Center remodel. Now let's all save and contribute those cans; it provides a great funding source.

Finally, and most importantly, you can make a donation. Make a donation when you borrow from the Loan Room, and make a donation now to get them back on their feet, so they can get you back on your feet (or in a rollaway bed or a car seat). And remember, the next time you need something... who you gonna call? The Loan Room!

Distinguished Service Award honors residents "who make remarkable contributions to our community"

by Ronna Heinig

If I had only one word to describe this year's recipient of the Distinguished Service Award, Larry Webster, it would be the word "passionate!" Passionate about his service to both our country and our community. Larry's outgoing and positive personality makes working with residents and their contractors run more smoothly. He recently volunteered to put his talents to use serving on the Properties Committee. Larry is probably best known for his work on the SCOV Lead Inspection Team for our renovated Activity Center. Spending countless hours reviewing the construction progress daily, his passion for perfection served us well from the Activity Center's foundation to its roof.

Larry found his calling early in life when he took a high school class in building trades and seized the opportunity to learn all about home construction by actually helping to build homes. Joining the U.S. Navy at the age of 18 as a Submarine Torpedoman's Mate, Larry advanced to the rank of Chief and retired after 21 years of service.

Volunteering is not normally encouraged in the military, but Larry took advantage of opportunities that came his way, which led to him to Brazil to assist their Navy in modernizing their Submarine Combat Systems. He developed training and safety procedures. He became an expert in Trident and Seawolf Class

Submarines and was a Master Training Specialist.

After retiring from the Navy, he worked as a civilian serving as a valuable resource for our submarine fleet west of the Mississippi.

Larry met and married his wife of 37 years, Kathy Cowser, while serving in Hawaii. Although Larry is one of the few who has actually visited all seven continents, they resided the longest in Bremerton, Washington.

A friend from Michigan introduced Larry and Kathy to southwest living, and from there they researched many 55+ communities in which to put down their retirement roots. They ended up taking Ambassador tours at SCOV with Al Johnson on two separate visits and purchased their home in 2018, becoming full-time residents in 2020.

When the Covid shutdown started loosening up in late 2020, Larry and Kathy joined the Posse. Larry serves as an Ambassador, and

many of you know him from his work on the Architectural Review Committee. In Larry's "spare" time, he is active in the Astronomy Club and is the treasurer of the Veteran's Club.

Thank you, Larry, for your countless hours of service to our community. We are so happy that you, Kathy and your two Siamese cats, Rose and Crawford, chose SCOV as your home!

I Know You (But I Can't Remember Your Name)

Community. It's a powerful thing. We belong to something bigger than ourselves. We are not alone. Community is something that SCOV does well. We play, learn and care for one another here in SCOV, but sometimes we can't quite place the name with the face. And it's no wonder: Our population has changed by 70% since 2014, so there are a lot of new faces around. But don't let that stop you from introducing yourself and asking their name. Do you know what street that unnamed person lives on? The community directory lists our residents by street, so you could peruse that section of the directory to help locate the name. Do you know what state they're from? The directory is also broken down by state, so that's another option to help us stay connected. Or, if you want one of the handy, dandy SCOV name tags, you can order one for yourself (\$12.50) at www.scovaz.com > Member Services > This & That > Name Tag Order Form, and you'll always be greeted by your name. And there's always the powerful smile and wave. Each of you make this a positive and welcoming community, so say, "Hi, Robin" and join in on the community feeling of SCOV. By the way, did you know that our motto is, "It's more than living...It's a lifestyle!"? You make this community a great place to live and play and learn. You make it a lifestyle.

Recreation and Fitness - Lonnie Davis

ldavis@suncityorovalley.com 520-917-8073

Why Stretching is Important

Stretching keeps the muscles flexible, strong and healthy, and we need that flexibility to maintain a range of motion in the joints. Without it, the muscles shorten and become tight. Then, when you call on the muscles for activity, they are weak and unable to extend all the way. That puts you at risk for joint pain, strains and muscle damage.

For example, sitting in a chair all day results in tight hamstrings in the back of the thigh. That can make it harder to extend your leg or straighten your knee all the way, which inhibits walking. Likewise, when tight muscles are suddenly called on for a strenuous activity that stretches them, such as playing tennis, they may become damaged from suddenly being stretched. Injured muscles may not be strong enough to support the joints, which can lead to joint injury.

Regular stretching keeps muscles long, lean and flexible, and this means that exertion won't put too much force on the muscle itself. Healthy muscles also help a person with balance problems to avoid falls.

Special Note From the Aquatic and Fitness Center (AFC)

First Wed., 11 AM, WC1

The Aquatic and Fitness Center Advisory Committee is happy to report that the pool will have additional heaters added, which should solve the temperature issue. In addition, based on your concerns, anti-slip tape will be added to the locker rooms to prevent slipping where there is water tracked from the pool and showers.

In this next year, the committee will address the asset reserve list and look at replacement needs in the fitness center. It's a busy committee and we welcome your comments and ideas.

Architectural Inspection Group

Conveyance Coordinator, Jack Mooney, 520-917-8087, scoroval@ciramail.com

Thinking about selling your home? Don't forget about the SCOV-required inspection.

There are three types of inspections available; you may choose the one that fits your needs. All SCOV inspections look at only the exterior of the home and property for any violations of our governing covenants. To request any of our inspections, go to the SCOV website > Members > Member Services > Sell Your Home and complete and submit the short form.

The listing inspection is requested by either the realtor or the seller at or near the time of listing, and is good for 90 days. Once completed, a report of violations is sent to the realtor/seller. You may still have time to correct violations before entering escrow. When an offer is accepted, the violations are forwarded to the title company in a mandatory inspection compliance report. Remember that you must have either a listing or escrow inspection completed before the close of escrow. For further details, please contact the Conveyance Coordinator at the Welcome Center 520-917-8087.

Architectural Review

Jim Cherry 612-805-5637 ARC@suncityorovalley.com

Zoom meetings Second and Fourth Tue., 2 PM

Many homeowners have added patio covers in their backyards. The most popular styles involve slatted patio covers (not pergolas), as they are a great way to deflect sunlight while still allowing heat dissipation. These structures have a wood appearance, but are made of powder coat aluminum square tubing across the top with matching posts.

If you are interested in this upgrade, the first step is to initiate the Concept Application process in advance of securing a contractor. This first step will allow the Architectural Review Committee (ARC) to meet and discuss your idea and determine where the posts would be placed in conjunction with setbacks, and if there are any neighbor visibility impacts. Once this initial review has taken place, an approval to proceed may be given, and you may move forward with securing bids and obtaining drawings for your Final Submittal. This is another opportunity to leverage knowledge from the ARC.

It being spring, we're finding things blooming not only outside but within. The excitement of new faces within the Friends of the Library (FOL) board brings new ideas. Look for new and fun fundraisers to help support our SCOV Library.

We want to give a huge thank you to Andrea Houston, who after many years is stepping down from her dual position as treasurer and membership chair. She can't completely step away, however, as she and BJ Kass will again be bringing Great Reads to FOL members later in the year. Claire Wendt will be taking on the task of filling Andrea's shoes.

Join us for our monthly fun, Book Bingo, Wednesday, April 19. It's open to non-FOL members. See Coming Events for more details.

Don Jovag and Rochelle Van Ryn

Featured artists are Rochelle Van Ryn and Don Jovag.

Rochelle is from Colorado. Her favorite media are pen, ink and watercolor. For several years, she has enjoyed making art using Scriptures. She creates originals

in watercolor journals that will go to her seven grandkids. The prints and cards we carry are from those journals. She taught art as a volunteer at her kid's public school for eight years, then three years at an inner-city Denver public school, using art to teach English. She used those lessons in the U.S., Mexico, Italy, Peru, Rwanda, Jordan and Australia.

Don is known for his food-safe wooden bowls and platters that feature intricate designs created with different colors and varieties of wood. When you feel one of these bowls, you get an appreciation for the quality of his work and his meticulous

attention to detail. Don also makes beautiful and durable wooden bracelets, hoop earrings and urns.

The Loan Room is a free service provided to all SCOV residents and run by volunteers in our community. It is supported by revenue from the aluminum can collection program (those blue recycling bins) and by donations from you. During March, we asked for your help with donations, so we can keep the equipment we loan in good condition and up-to-date for the needs of our community. We want to thank you for your generosity and support of the Loan Room program.

Spring has arrived, and it's time to make sure those empty pots in front yards are filled with living plants, cactus or flowers. With all the rain we had early this year, weeds are popping up everywhere. When weeds are small, they are easy to remove. Wildflowers are allowed in our community until after they bloom, at which time they need to be removed. Trim any trees that block stop signs, or shrubs which overhang the sidewalk or street. Remember, no artifacts of any kind are allowed in front yards. Winter residents should be sure they have someone maintaining their yards during the summer months, so the home looks cared for while you are away. Be sure to notify Administration of your summer address in case they need to reach you while you are gone. Please continue to take pride in your property even when you are not on site, so it will look just as nice upon your return as when you left.

Barb McNeill has joined the Posse board and taken over as Squad C leader. Both individuals continue to serve our community. While we will miss seeing Larry at Posse board meetings, we're sure to see him riding his bike and giving his all to Wheels for Kids. Barb is an original resident and has spent 31 years giving to our community in a wide variety of ways, including as an Ambassador and on the *Tipster* Editorial Committee. Thank you both for recognizing the value of the Posse and giving us your time and expertise. The Posse is always looking for new volunteers. Please join us. Director of Golf - Rick Price

rprice@theviewsgolfclub.com 520-917-8086

Last month we had our annual Cure for Cancer event, and again it was a huge success. Thank you to all who participated and donated to the cause. We raised well over \$40,000 for the University of Arizona Cancer Center.

In April, we have the Women's 18-Hole Club Championship April 4, 7 and 11. The Men's 18-Hole Member Invitational is scheduled for April 14-15. All leagues are wrapping up their main tournament events this month.

Our Chip & Putt event on Thursdays continues through this month, starting at 4 PM on April 6 and 20. You can play up to six people per group. The entry fee is \$15 pp for golf, prizes and dinner on The Views terrace. Sign up online through the reservation system or call the Pro Shop 520-825-3110.

This month's Yappy Hour is Thursday, April 13, 4-5 PM, on the driving range tee. There will be drink specials and treats for the dogs. Social dogs with up-to-date shots are welcome, and leashes are required. The driving range will be closed at 3:30 PM for a clean pick of all the range balls in the wash and desert areas. Any volunteers are appreciated in helping us collect the balls.

Next month we will announce our new rates and membership plans for our fiscal year starting July 1, 2023.

Spring is finally here, and as the weather warms up the Bermuda grass is starting to grow. We look forward to enjoying the golf course conditions this spring and thank everyone for their support in playing golf.

Director of Golf Maintenance - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

April is the time of year the golf course begins the transition from the overseeded winter ryegrass to the underlying Bermuda grass. The goal is to slowly remove the ryegrass and promote the growth of the Bermuda grass, while still providing good golf course conditions in

May and early summer.

This process involves many steps that actually start in September and last until the Bermuda grass is healed in July. Seed rates have been greatly reduced over the years to provide less competition between grasses. Overseed preparation is significantly reduced to prevent injury to Bermuda grass before seeding even occurs.

Irrigation is monitored very closely to prevent injury to the Bermuda grass in late spring as the temperatures start to rise. If the ryegrass is watered too heavily, the underlying Bermuda grass gets weaker and declines. If the ryegrass is not watered enough, the salts build up in the soil, also leading to Bermuda grass decline.

A mix of chemicals is applied starting in March to weaken the ryegrass. This reduces competition and allows the Bermuda grass to come out of dormancy more easily. A different chemical is used in May to completely remove the ryegrass and *Poa annua* to allow the Bermuda grass a chance for full recovery.

Fortunately, this transition program has led to better and

better conditions each summer. The transition program combined with not overseeding fairways last year should lead to even better conditions in late May and June. Hopefully, the fairway conditions will require few repairs and heal quickly.

March luncheon

The Lady Niners celebrated St. Patrick's Day at our March luncheon and meeting. At that time, Candis Cook did a brief presentation on rules, so we'd be ready for upcoming tournaments, including the Cancer Tournament, our Club Championship and the tournaments of local

women's golf groups in which we are participating. We also held our invitational tournament in March, The Ladies Masters, with enthusiastic participation by the Niners and many local ladies' golf clubs.

There is plenty of golf left this spring and summer on our beautiful course. With 98 members, we are getting very close to our goal of 100, so don't hesitate to join us.

Bee Management

It is our practice when a swarm of bees lights on the golf course to identify the swarm by a hazard marker (white circle). They move on after a day or two.

Many of us expected our tax preparations to become less complicated when we retired. How wrong we were. While our personal finances may have simplified, the tax code continues to become more complex.

Riding the white horse to the rescue, the Sun City Oro Valley AARP tax program has trained a volunteer group of certified counselors from our community to assist residents in completing their tax forms. Since 1990, nearly 300 residents have benefited from this free service.

SCOV residents and AARP tax counselors, Sue Lane (left) and Sandra Fritz assist residents with filing their income tax return.

This year, when the IRS did not provide enough copies of needed documents to SCOV's AARP tax program, they requested and received a grant from your Foundation to fund the copying costs. With tax season now in full swing, AARP tax program volunteers are busy helping those residents needing assistance. The Foundation thanks all volunteers who provide this very worthwhile service.

What is a fun way for beginner potters to learn basic skills? The answer: "Bob Arms' Piggy Bank Class." On February 22, our newbies gathered together to make their own version of the perfect pig. Skills learned in this class included forming a cylinder for the pig body, slipping and scratching to attach the pig body parts, paddling the clay body for a smooth appearance and of course, carving an opening for all the coins to feed the piggy. Lots of inspiration was provided, while imagination and creative design were encouraged. Bob says that he really appreciates the volunteers who came to the class and helped make it a success.

Debbie Murphy enjoyed the piggy bank class.

Spring is here. Stop by the Clay and Glaze Studio windows to see the unique and beautiful art our potters have created this winter.

Having fun learning batik gourd art

We have been delighted to welcome some new artists to the group. Last month we enjoyed a class that introduced us to batik art used to create beautiful gourds. We are continually amazed by the multitude of ideas that are used to create gourd art. Why not stop in and see for yourself? We have everything you will need to get started.

Japanese Flower Arranging

Donald Marier 520-825-4878 dolmar21@gmail.com
Nov.-May, Second and Fourth Mon., 2-4 PM, Catalina Vista/Pusch Ridge

Japanese flower arranging, ikebana, is the art of arranging flowers, branch materials, grasses and leaves. At its core is the beauty resulting from a combination of color, shapes and graceful lines. More than simple floral decoration, it is a form of sculpture with plant materials. Learn from certified instructors at your own pace and make creative arrangements for your home.

Knit and Crochet

Jane Fairchild 520-909-5069 janemail11@yahoo.com
Tue., 2:30-4:30 PM, Catalina Vista/Pusch Ridge

If you have a knit or crochet project, or would like to learn, come join us. An ongoing group project is making crocheted mats out of plastic shopping bags. You can participate in this project by cutting the bags into strips, stringing the strips into plastic yarn (plarn) and/or crocheting them into mats.

If you wish to donate bags, flatten clean Fry's, Safeway or Walmart bags and stack them by color. You can then fold all the stacks over into one; no need to fasten them together. This effort on your part greatly streamlines the cutting and crochet process. Do not include newspaper bags as they do not work for this project. Bags can be dropped into a basket on Jane Fairchild's front porch any time at 1750 E. Crown Ridge Way.

The Sculpture Club meets Mondays in the Art Studio, Catalina Vista. If you are interested in becoming a member or learning more about what we do, stop in Monday mornings or contact Dale Foster. You can view some of our work in the glass case and window inside Catalina Vista, in a showcase outside of the Library and in the Library.

The photo shows a recent sculpture completed by Gayle Franklin. Gayle is a relatively new member of our club, and this was her first sculpture. Members are impressed that she took on such a detailed project for her first sculpture. Along the way she learned about some issues that can occur when working with polymer clay. Gayle is pleased with the outcome and refers to the sculpture as *Soledad* (Solitude).

Thimblelenas groups give much to our greater community through sewing, time and imagination. We rely on our SCOV community's generous donations. The donations we receive may come in as bedsheets and go out as crib sheets. Donated blank t-shirts turn into caps for newborn infants. Fabrics, used and unused, may turn into a bed for shelter animals. We welcome these contributions dropped off at the Sewing Room during club hours. If you have any questions, contact one of the officers listed above. Our annual dues are \$5.

Our club has volunteered to sew several hundred Christmas stockings for the community organization, More Than a Bed. This organization provides foster families with much-needed items. Casa Amigas regularly donates crib sheets, infant sleep sacks, quilts and pajamas. In order to complete so many stockings, we need holiday fabric to add a festive touch at the top of each stocking. Please search through your fabric stash and see if you can donate any holiday/Christmas fabric. If so, please drop off the fabric at the Sewing Room during the day, Monday-Friday, and label the fabric for Casa Amigas.

Wed., 1-3 PM, Artisan Center/Sewing

Spring is the season that many of our winter residents migrate back to their second homes. We will miss all of your smiling faces until you return to SCOV. March brought many hands to work in the Sewing Room during our Cheer Bear creating hours. The machines have been humming, and the bears have been marching.

We thank the Tennis Club for the donation from their tournaments. The bears really put the funds to a great use.

We will once again work on Wednesday afternoons during the summer, so we hope to keep the room alive with laughter and sharing. Sign in and come join us to complete our tasks. We love to meet new faces each week.

We always welcome flannel and polyfill donations to keep our Cheer Bears on the move.

If you can spare an hour or two cutting up scraps, either in the Sewing Room or at home, we would appreciate it.

The group provides materials and instruction for those interested in learning hooking. People involved in other arts using fiber are invited and encouraged to join our group.

Saniya Otus is a longtime member of our club. She has completed numerous rug hooking projects and at this point, she doesn't want to start another hooking project. Therefore, Saniya turned to knitting as a fiber arts project and just finished the tennis racket handle warmer shown in the picture. Saniya is an active member in the Tennis Club, so this winter she will find this project worthwhile.

Pat LaCroix's silver creations

This month we feature the work of long-time active member, Pat LaCroix, who came to SCOV from Spokane, WA. Her work represents the diverse techniques that you can observe in the window display at the Silversmithing and Lapidary Club.

There are many tools and processes

involved. Every one of us started by learning the basics of cutting, forming, soldering metal and polishing. In hand sawing, a special saw is used to cut silver in preparation for stone setting, or to cut out a decorative element in a piece. Hammering, stamping and texturing are other areas to explore. Please check our windows to see what's new.

SCOV residents interested in joining should visit the shop and speak to the monitor about scheduling training. New member training is held monthly on the second Tuesday and Wednesday.

Chris now teaches others how to create plant stakes and votive candle holders. Chris is also a member of the SCOV 18-Hole Women's Golf Club and the Yoga Club. She loves quilting and enjoys jewelry making. Chris recently created a large Arizona desert fused glass piece, which she donated to the Cure for Cancer golf tournament auction held last month.

Poets Corner

Sharyn Rafieyan 520-331-1092 srafieyan@comcast.net
Mon., 10 AM-Noon, Zoom

Poets Corner member Esther Berlot's "The Nursing Home" describes a scene familiar to those of us who have visited friends and/or relatives in places where the inhabitants are likely to be unhappy. It's a sad, but very moving poem reminding us how different things can be.

"Take me home—take me home. / I can hear a voice that screams for the yesterday I can't remember to that girl I used to be.

Blue vein fingers clutch / strangers passing by. / Take me home—take me home. / A lost voice softly cries: / Mother is waiting for me."

The brevity of this poem enhances the impact of the emotion so graphically expressed. Poetry is an outlet for all sorts of feelings, from sorrow to humor—even anger. Sharing your feelings with others is cathartic for the writer and often the reader as well. We invite all SCOV poets to participate in our weekly meetings on Zoom.

SCOV Technology Club

Pres. Leo Belardinelli 520-989-9314
Technology Club help desk 520-989-9314 scovtech@gmail.com
www.scovcomputer.com

By the 1990s, most of us who worked in various U.S. industries ended up having to punch a keyboard and patiently wait until our query screen appeared on a monitor. Some of us spent most of our working day staring at those screens. As the years progressed, we might have even had the option to work from home but that didn't eliminate the need to pound the keys. It was just the convenience of a different location minus some travel.

The situation hasn't changed much for those who work from home or are still on the job, but the devices we utilize may be completely different. Today, the savvy worker or traveler can use a much smaller device like a tablet or phone, even using their voice to start their activities. We may have left the rat race, but that didn't prevent those new devices from finding us. So, if you are one of those people who are struggling with these new-fangled devices, the Technology Club may be your salvation. We have classes or help sessions on all the latest laptops, phones and tablet devices. Look for classes information on our website.

We sure love our dogs. They are such an important part of our lives. They bring us joy, protection and peace. Studies indicate lowered blood pressure and improved immune system can be achieved by interacting with a dog. They also offer us companionship and offer increased activity levels. They lower our stress.

Morning at our dog park

Dogs are also a responsibility. We feed, exercise, and do our best to keep them healthy. For all the benefits they bring, we want them to have good lives. A well-behaved dog is welcomed so much more than an untrained or uncontrolled pet. It's best to start when they're young and make sure you are in charge. That's not always possible. Some dogs are rescues, and we don't know what they've been through. Patience, praise and consistency can help improve their behaviors. If that's not working, a professional dog trainer can help.

Pilates

Mary Ayers 520-638-7916 scov.pilates@gmail.com

Mon., 3 PM, Thu., 1:30 PM, AFC/Studio

To get the full benefit of Pilates, a person needs to understand the basic principles. It takes a little time and patience, as the exercises performed may be different from those you are familiar with, but they are fun, interesting and challenging. Pilates can even become addictive. It teaches proper balance, breathing, how to focus on your core (abdomen and back muscles) and movement control. The constant movement from one exercise to another results in developing more strength and stamina. Even posture is improved. The spine lengthens and joint flexibility and mobility increase. SCOV has two experienced instructors who teach the mat Pilates classes, and they modify many of the moves for us, if necessary. The cost is \$8/class and annual club dues are \$20 pp. Please stop by and watch a class.

The spring tai chi session began March 16 and is currently underway. Classes are taught in 10-week sessions and are offered three times per year in the fall, winter, and spring. The next course will begin in October.

Tai chi is a gentle, low-impact exercise with many health benefits available to people of all ages and fitness levels. Many medical professionals recommend tai chi to help their patients improve balance and prevent falls. It also builds muscle strength, increases flexibility, improves breathing and reduces stress. Plan to join us in the fall to learn this meditation in motion. No prior experience is necessary.

For club members who have already completed the course, we look forward to seeing you at practice. Contact Alice Hutchison for further information or questions.

Scrabble

Jan Fischer 520-825-2401 fischer_janice@comcast.net

Fri., 1-3 PM, Desert Oasis

In 1998, Scrabble celebrated 50 years since Alfred Butts brought Scrabble to the marketplace. Years earlier, in New York City, the architect had observed that "...there is one thing that keeps word games from being as popular as card games: they have no score." With this in mind, Mr. Butts created Lexico, a scoring word game that he refined in the early 1930s and later called Criss Cross Words.

Mr. Butts churned out game sets from his home to fill orders from all over the country as he tried in vain to acquire a patent, a copyright and a manufacturer. In 1948, he had all three; with a name change to Scrabble and a redesign of the game board, his pet project was rolling off the assembly line. Currently, Scrabble is manufactured in the millions each year and is played worldwide in many languages.

Cycling renews us. Getting outside in the clean air, taking in the incredible mountain views, and biking with friends is one of the reasons we choose to live here. Oro Valley is one of the greatest biking destinations in the country. Wide streets, gorgeous bike paths, clean air and desert beauty draw cyclists from all over the country.

Cycling here is a dream come true for members of the Sun City Vistoso Cycling Club (VCC). With over 250 members and organized group rides four days per week, there's a ride for everyone. We support three local charitable organizations: Wheels for Kids, El Grupo and the Interfaith Community Food Bank. VCC volunteers build or repair and deliver over 400 bikes to kids in the Tucson area every year through their Wheels for Kids (WFK) program. WFK's 40 volunteers have delivered over 4,600 bikes to charities such as Boys and Girls Club, Casa de los Niños and More Than a Bed. New volunteers are welcome.

For more information or to join, please visit our website. Ride. Have fun. Be safe.

Back in February we had an eruption of American Robins and Cedar Waxwings throughout the area, including SCOV. They love pyracantha berries. Usually in small flocks and often hanging with robins, they may very well strip the berries in a day or two. Only here in the winter, these beautiful birds will head towards Canada as summer approaches.

We are a 110+ member, activity-oriented group. All

SCOV residents are invited to join us on our field trips (we carpool) to learn more about the birds here in Arizona. Below is a list of upcoming field trips. If you are interested in going on any of these, be sure to contact the trip coordinator for details at least three days in advance, and ask Peggy to be added to our mailing list.

Either way, players exercise eye-hand coordination, motor speed and concentration in an atmosphere of fun and friendship. All are welcome, whether you have never played or happen to be super skilled. Club paddles and balls are available. Sport shoes are recommended. Come join us in this indoor sport that will carry on despite our heavy April winds.

Did you know a portion of your Tennis Club membership fee goes towards worthy causes in our community? As a matter of fact, charitable giving is one of the Tennis Club's core values. A portion of proceeds from all three tournaments the club sponsors each year, along with charitable donations made by the fans who attend, goes toward Casa Amigas, Seniors for Kids and Cheer Bears. The club was also proud to once again sponsor the Aztlan de Pueblo High School Mariachi concert this past March. Along with proceeds from ticket sales, and the generosity of SCOV audience members, the total funds exceeded \$4,000 dollars towards their invitation to represent Arizona at the Independence Day celebration in Washington, D.C. this summer. Thank you to residents who attended, and kudos to the Tennis Club and SCOV staff. You could say that the Tennis Club motto is "Do good, play hard." So join in the fun of a classic sport, great health benefits and worthy charities all in one. If you are interested in Tennis Club activities, contact Jim Benshoof at jabenshoof@msn.com.
