Love, Amor, Amour, Amore, Liebe, Tresna

by Elaine Deeter

No matter how you say it or what your primary language is, it all means the same thing: an intense feeling of deep affection.

There are different kinds of love. Love of family, friends, life and country. The love of the community that we live in is an important one for me, besides all of those mentioned above.

Many years ago as a child living in Los Angeles, I developed a love of all things Southwestern. I was attracted to the beauty of the desert and cactus. I can remember traveling east with my parents with the old heavy canvas desert water bag strapped to the hood of the car, just in case the radiator overheated. We, of course, did that part of the trip at night to prevent overheating. I actually have one of those old water bags in my backyard, to remind me of those early years and the desire I had to make it to the desert.

Never did I think I would end up living in Arizona and particularly in Sun City Oro Valley. Finding a place in this community fulfilled my ultimate dream.

I read the following recently: "Whatever else it might be about, love is about connection. It is about how we relate to each other. It is about how we feel about others, how we think about them, how we connect with them and what we do with them. Love is not so much personal as interpersonal." It's been said there is no better place to learn the art of loving than in a community.

When I think about our community I think about how we all came together from different places, different backgrounds and different lifestyles. While we might not always agree, you have to admit we all love our community. We have different interests, hobbies, sports and friends, but we all want to be here, because it is the best place for us to live and be happy. We need to come together, make peace and do what is right, not just for ourselves, but for our wonderful community.

Remember, it isn't how you say LOVE, it is how you show it to others: a kind word, a thank you or even just a smile to brighten someone's day.

A Future of Possibilities

It was Robert Frost who wrote:

"Two roads diverged in a yellow wood,
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth;

Then took the other, as just as fair,
And having perhaps the better claim..."

This past month, our community started down a road that will be filled with possibilities. Years ago, our community found out through a survey that our residents wanted more gathering spaces. After years of meetings, planning and renovation, we reopened the Activity Center with more of these areas. From the moment you enter the building and see all the beautiful art in the entry, to the time you sit down in a number of new areas, you will see and feel that our community has embarked on an adventure down a road we haven't taken before. There is a new Kiva Room along with the new Kiva Patio. Oh, the gatherings and activities that will take place in those two places. And let's not forget the work that has taken place in the Native American Rooms that will make them more user-friendly and quieter when meetings are taking place in an adjacent room. The Auditorium with its new colors, drapes, flooring, stage, sound system and much more will definitely provide a place for large gatherings. The music, plays, entertainment, dinners and socials will add a refined element to the facility. Then there is the Kachina Lounge area and The Bistro Coffee & Wine Bar where more intimate conversations will abound.

It is all so exciting. I can't wait to see what is around the next bend in the road. I hope you enjoy living here at Sun City Oro Valley as much as I enjoy working here.

Rocking Chairs to Shuffleboard to Pickleball and Beyond *How it all started*

by Ronna Heinig

When hearing the words Active Adult, you have to think of Del Webb, one of the pioneers in the 55+ community concept. These were master-planned communities that focused on amenities. Opening January 1, 1960, the first Sun City was born in Arizona. The target market focused on retirees of my grandparents' Greatest Generation age group, and more than 100,000 visited on its opening day.

The concept of age-restricted developments located in warmer climates with lots of amenities, was a huge success as retirees redefined retirement. Retirement no longer meant sitting on your family home's front porch in a rocking chair watching the world go by.

Today we Baby Boomers have again impacted the retirement market by looking at retirement in another way. The definition of retirement is to stop, but Boomers don't want to stop; they want to move into a new and purposeful time in their lives. Boomers may have changed careers or completed a degree. They are more focused on healthy living, wellness and community service. Boomers have made demands every decade as they grew up, and they are not stopping now.

Where our grandparents played shuffleboard, Boomers are playing pickleball. Where my grandparents were just looking for sun and a pool, we Boomers want a more diverse lifestyle, which is ever evolving as technology expands. Promoting social engagement and a sense of community ranks high with Boomers, as does increasing the quality of life.

The 55+ housing market is even more attractive as we age, as many of us are opting to age in place. Nursing homes and assisted living facilities' costs are continuing to rise, making remaining in your own home in a community that provides a caring and safe environment extremely attractive.

Providing services that promote aging in place can already be seen here in SCOV. Vistoso Helpful Hands, a SCOV community support group, can assist residents in connecting with services such as grocery delivery, housekeepers, landscapers or transportation needs. All of these can make it possible to remain in your own home near friends as you age.

How the Generations Stack Up:

The Boomer generation has always been a mighty force powering our American society and economy. Boomers

have above average incomes, a greater share of household wealth and an unmatched level of mortgage-free homeownership, leaving them positioned to survive financial blows.

Baby Boomers are currently retiring at the rate of 10,000/day in the United States. Boomers currently are 58-76 years old and are pushing home prices for 55+ communities even higher. This will not stop with Boomers. The GenX generation is only slightly smaller than the Boomers, with the Millennial generation even larger. 55+ communities with lots of up-to-date amenities will continue to be in high demand for years to come.

The 55+ Housing Market's Future:

Demand for senior housing is growing from 1.5 million units in 2020 to 3.2 million units expected in 2040. The U.S. Census Bureau has estimated that 100,000 units per year will need to be built between 2025 and 2040 to keep up with demand.

We can see this in our own Sun City Oro Valley by looking at over five years' worth of statistics gathered from local realtor Lisa Bayless:

SCOV Housing Statistics

	Oct. 17	Nov. 20	Nov. 21	Nov. 22
Average selling price:	253K	339K	387K	447K
Average cost/sq. ft.	161	213	250	278
Average days on market	25	24	25	18

Sales of homes in SCOV are a function of the number of homes on the market. With the number of days on the market consistent over the last five years, the cost per square foot for our homes has increased from \$161/sq. ft. to \$278/sq. ft., or 73%.

Even with mortgage rates and inflation rising, real estate remains America's favorite long-term investment, according to a 2022 Bankrate survey.

With the continued housing pressure from retiring Boomers and GenXers entering the 55+ market, and the significant lack of inventory for senior housing, our investment in SCOV is very attractive. To keep it attractive however, we must always be prepared for the demands for new and tech-savvy amenities that the next generation demands.

A home in SCOV is still a good investment

The Bistro Offerings

We're launching a new service in the Activity Center which includes specialty espresso, coffee and tea options. The selected vendors are special. One is located right here in Tucson and the other is located in the Phoenix area.

Our Bistro coffee and espresso is from Momentto Coffee Co. located in Tempe. A family-owned business in its second generation, established in 1989, has over 50 years of combined experience and utilizes the latest state-of-the-art blending, roasting and packaging equipment. Their roasting plant holds food safety and organic certifications. Their motto is "Freshness you can taste." They roast per order, so the coffee is always fresh and never bitter. As we get further along with our menu at The Bistro, we will be expanding and refining our offerings from Momentto.

The Bistro tea comes from the Maya Tea Company. It was first established in 1997 by founder and owner, Manish Shah, and his brother, cofounder Yash Shah located in Tucson. The name "Maya" comes from the first two letters of the brothers' first names. They started by importing teas from China and India. The first sales outlet was a booth at the local farmers' market. As the business expanded, operations were moved into a large warehouse on the west side of Tucson. In 2014, a trademark "Maya Tea" was issued by the U.S. Government. At that time, Maya Tea Company teas were served in various coffee shops, tea houses, restaurants, taverns, salons and hotels across the United States. The company has been featured in *Fresh Cup Magazine's* "2013 Tea Almanac," *Tea Magazine*, *Tucson Lifestyle Home & Garden* and on the podcast, "Steeping Around."

We hope you will enjoy these special beverages as you make friends and enjoy the SCOV lifestyle.

Development Standards Revisions

Each year the Architectural Review Committee (ARC) reviews each section of the Development Standards and recommends clarifications, enhancements and updating of information so that your submitted projects can be approved in a timely and consistent manner.

The ARC will introduce its suggested Development Standards revisions to the SCOV Board at the February 9 Board Study Session. After its review and agreement to any or all of these recommendations, the Board will approve changes at its February 28 Board meeting.

You are encouraged to review the revised Development Standards as soon as they are posted after February 28. Access them on our website under Members > Documents > Development Standards. If you would rather have a paper

copy, it will be available at the Welcome Center.

After your review, if you have any questions, please contact Katy Mosier. Submittal decisions made after the Board's approval of the Development Standards revisions will follow the latest policies.

The Library is very appreciative for funding from the Friends of the Library, for a *Bookmarks* subscription. *Bookmarks* is a full-color publication that summarizes book reviews, highlights classic and contemporary authors and much more. Copies are available for use in the Library and can be found on the reference shelf.

The Library is hosting three author events this month. Deborah Goodrich Royce will talk about her new book, *Reef Road*, which was released in January. *Reef Road* is pure fiction, but it reads as compellingly as a mixture of memoir and expose. Royce's presentation is Friday, February 3, 9 AM, Catalina Vista.

We are thrilled to bring Marge Saiser, an award-winning poet to SCOV. She has published eight poetry books and co-edited two anthologies. A frequent guest speaker at the Green Valley Public Library, she packs her writing with sensory detail and multiple perspectives. She will present Wednesday, February 22, 11 AM, Catalina Vista.

Cardio Benefits That You May Not Think About

Try to think of your workouts not as a daily or weekly obligation, but rather as some quality alone time. The physical nature of exercise and the release of hormones serve as a stress reliever. Mentally, a long cardio workout session can be beneficial as well. It's a little bit of time spent away from potential stressors. Mix up the cardio routine to keep things interesting and fresh. If the treadmill is your thing, get on a cross-trainer one day a week. Want to work different muscles? Try the total-body workout of a rower from time to time. Different approaches to your cardio workouts can help ensure that they're always fresh and something that you're excited to do. Getting started with your workout is often the hardest part. Convince yourself to take that first step, and you'll never miss a workout.

Special Note From the Aquatic and Fitness Center (AFC)

Contact Lonnie Davis, AFC Coordinator, to discuss questions or concerns with the AFC. Hours of operation for the AFC and Desert Oasis are on page 2.

Tuesday, February 14, the AFC pool and spa will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Wednesday, February 15, the Desert Oasis pool will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Tuesday, February 28, the AFC spa will be closed for cleaning until 1 PM.

Considering selling your home? You may be wondering what the current trends are in SCOV. Homes are still selling, but as you know, things have certainly changed over the past several months. Listed homes are sitting on the market longer than they were when the market was so active. Buyers have more houses to consider and are more selective in the homes they choose to pursue. Sellers and buyers are doing more negotiating about any costs or issues involved in closing a sale. The bottom line is that SCOV is still a highly desirable place to live, and for good reason. This is a unique place surrounded by fantastic natural wonders and a wonderful lifestyle to enjoy. There are buyers who genuinely want to live here. They will be happy to look at your house as part of their plan going forward.

Many homes have had windows upgraded this past year with vastly improved designs. No longer do you see metal frames, as most manufacturers have developed plastic framing and glass materials, which are significant improvements. The challenge for us, however, is these new designs have much wider frame widths than the originals. See section 2.13 of the Development Standards that provides specific requirements related to frame widths. When you think about frames, look at the spacing between the edge of the glass and the stucco's edge. The Standards provide measurements that provide a level of flexibility, yet maintain a consistency we all wish for our community. When filling out your ARC submittal form, those widths will be key points of our review, and suppliers should be able to provide the measurements.

Community Directory

Chair Blythe Campbell 907-717-7546 scov.community.directory@gmail.com
www.scovaz.com/members/services/directory

Thank you so much to the more than 70 volunteers who counted directories and bags, organized distribution and delivered the community directory to all 2,488 homes in SCOV. Directory delivery is done in two phases: first, volunteers walk their routes and hang a book at the first barrier for each home (gate, screen door, front door). Several days later, they walk the same route and remove any directories that haven't been taken inside. If you weren't in Sun City for directory delivery, you can pick up a copy at the Welcome Center.

Preparing and printing the directory is a long process, so the cutoff for listings to get into the printed directory is usually September 30. Now is a good time to check your listing in the paper and online directory. You can have different parts of your listing published in one or both: name(s), address, landline, cell phone(s), hometown(s) and former occupation(s). Your email address(es), if provided, are only published in the online directory. Of course, you can also choose not to be listed, but your friends and neighbors will have a harder time inviting you to the next pickleball game or block party. If you want to change your listing, click on the Community Directory section of the Member Services portion of the SCOV website for the online form.

The Vendor List has been available for viewing at the monitor's desk at Catalina Vista during Activity Center renovation. It will return to the AC when the building is officially open. Check the Vendor List often, as changes are made frequently.

Vendors should email Susanna Moran to inquire about applying to be on the Vendor List.

Election

Meet Your Candidates Ballots and Forums

Results of the Copper Health vote were provided to the audience. The initiative to "approve the purchase of the Copper Health building in compliance with Bylaws 6.3.b, the Board is asking the Membership to authorize the expenditure of \$4,515,000 for the purchase of the building known as Copper Health and its real estate located at 1119 E. Rancho Vistoso Blvd, Oro Valley, AZ" passed. There were 2,469 eligible votes. Of those 2,469 eligible, 1,855 votes were cast with a 600 quorum and a threshold to pass approval by a simple majority of the Owners voting in an election duly called. The quorum was met; there were 928 votes needed to pass. Of the 1,855 votes cast there were 1,287 for the initiative and 568 against the initiative, meeting the needed 928, thus the initiative passes.

Tuesday, February 14, a ballot will be either emailed or USPS mailed to homeowners. If you have not already done so, create a contact for Vote-Now using the email address (elections@vote-now.com) so that when the online ballot is sent, your email provider will recognize the sender and you will receive the email. If you do not receive the email, call the Administration Office 520-917-8082 for assistance. If you lose your email or want a paper ballot, the Administration Office can help with that as well.

You will be voting to fill two three-year positions on for the Board of Directors. Biographical flyers are inserted into this

Tipster for each candidate. This is a good tool to get to know the candidates. If you have additional questions, see the flyers for their contact information.

Board Candidate Forums are Monday, February 6, 9 AM and 6 PM, Zoom. Videos of these forums will be posted on the website, and you will receive an email with a link for easy access. Mark your calendar now.

February brings thoughts of Valentine's Day, and you can find special gifts for your sweetheart in our own Gift Shop. Featured consignors this month are

Elaine Deeter and Jane Holder. Elaine started creating greeting cards for personal use, then began making cards to sell in our Gift Shop. She enjoys seeing people appreciate her work and hearing how their friends and family are happy to receive a handmade card. She also makes gift bags and wine bags that are holiday related.

Jane stated, "It all started with an explosion of tiny colored sparkles embedded in the wet sandy beach. The sight of hundreds of colorful little 'beads' was magical to me. Since then, I have collected thousands of beads, experimenting with different beading techniques from simple stringing to using a beading loom. The latter process adds a second dimension for greater interest."

Government Affairs

The Government Affairs Committee was established to develop and maintain engagement between the community and governmental organizations.

Last year we sponsored a forum with Oro Valley Police Chief Kara Riley, a mayoral debate and established ongoing Coffee with a Cop sessions. This year we are working on a number of public forums; Oro Valley Police Chief Riley, members of the town council, Golder Ranch Fire District, the current water situation, future outlook and solutions.

To help us develop additional sessions for the community, the Government Affairs Committee is seeking input on what is important to you. You can help us make these forums more effective by sending any suggestions, comments and questions to our email address, scovga@gmail.com. You are welcome to attend our meetings.

Our medical items are available for reservations and for unexpected medical issues. The Loan Room staff will always be responsive to medical emergencies. All items are on a first-come, first-served basis unless you have a reservation for some of our one-of-a-kind children's items. We are open 8-9 AM, Tuesdays and Thursdays, at the end of the Cart Barn. Come visit us to see what types of equipment we have. Thank you again for your support.

It's Not too Soon to Plan for Summer

It's not too soon to think of things to do before summer arrives. Putting pre-emergent herbicide down in your yard will save you from having weeds appear later, and it is well worth the cost and time to do it. Pre-emergent, used twice a year prior to rains, prevents seeds from germinating. If the seeds don't germinate, you will not see weeds. Pre-emergent will not prevent weeds 100%, but it will have a drastic effect on the appearance of your yard. It will still need attention, but not nearly as much as it would if you did not use pre-emergent. Now is the perfect time to apply the pre-emergent. Talk to your landscaper.

It's not too soon to line up someone to take care of your yard if you leave for the summer months. You need to have your yard maintained at least every other month, as it doesn't take much in the way of monsoon rains for weeds, trees and plants to take off and really grow. If yards are serviced on a regular basis, it not only keeps your property meeting SCOV standards, but helps in the overall appearance of the entire community. Thank you for your help.

The solar systems installed at various SCOV buildings continue to produce electricity, thereby reducing the Association's utility costs and reducing our community's carbon footprint. The eight systems, with a total capacity of 426 kilowatts, are located throughout the common area parking lots and roofs. Last year, solar provided 90% of the electrical needs of the eight major facilities. The systems were installed in 2016 and currently provide a net annual savings to the Association of about \$120,000 when compared with the purchase of power from TEP. The Properties Committee monitors the solar system's monthly performance and reports the results to SCOV management. The committee is currently working on a proposal to install solar power at the AFC. Our recent meetings have been in person and via Zoom. See the calendar on the SCOV website for scheduled meeting dates, times and meeting format.

Board Candidates Answer Questions

See Election Committee article on page 8 for voting information. Information about Candidate Forums on February 6 can be found in Coming Events on page 13.

Eileen Buskirk

Why do you want to serve on the Board?

I have always lived in small communities where volunteering and getting involved were the norm. SCOV is no different. I have loved this place from the first night I spent here on an air mattress in the living room waiting for furniture, only to discover if the porch light is flashing a police officer will come to your door making sure you're safe. I want to run for the board to give back and be a part of continuing the legacy of SCOV; helping to ensure others will experience the same sense of community which makes us feel we are a part of something greater than ourselves.

Is there something specific you want to change or accomplish?

It is hard to believe the last wave of baby boomers is leaving the workforce and the oldest Gen Xer's are starting to retire. It is critical we provide the facilities and amenities this changing demographic will demand to remain one of the outstanding retirement communities in Arizona. There is so much discussion about how SCOV should move forward and so many voices that need to be heard. I want to facilitate an open dialogue where all residents feel they are heard and understood. I want to help foster an environment where we can work together to build a community that enables all members to achieve their goals: physical, mental, emotional and social.

What knowledge, skills and experience do you bring?

In my life I've worked in professional theatre, as a bartender, a waitress, a card dealer in a casino, as a critical care nurse and as a clinical educator for medical device companies. These jobs all required the ability to listen, learn and share knowledge. I will always research and understand the myriad sides of an issue, make decisions based on facts and then back those decisions. For me, the role of a board member is to investigate, learn, collaborate and make choices that will allow SCOV to meet the needs of the future without sacrificing the lifestyle we cherish today.

Jane Fairchild

Why do you want to serve on the Board?

I want to serve on the Board because I care deeply about our community. I want to participate in the Board's decision making by working diligently to represent my fellow residents' needs. During the 10 years I have lived here I have seen many changes. As a Board member, I would contribute to our progress by providing input to strategic improvements and effective financial management. I feel strongly that a well-organized and financially sound community is necessary for us to attract new residents now and in the future.

Is there something specific you would like to accomplish?

I do not have a specific personal agenda for SCOV. I'm open to new ideas and am cognizant and respectful of the diversity among our residents. As an active participant in many creative and social activities, and leader of several, I often hear questions and concerns from both new and current residents. I absolutely love our vibrant, friendly community and want to help our Board provide residents with necessary information and decision transparency. I worked for Xerox Corporation for 30 years and was instrumental in rolling out a strong customer satisfaction program that was cascaded throughout the company from top to bottom. As a Board member, the residents of SCOV would be my "customers" in that they are directly affected by Board decisions. I plan to spend time listening to residents and understanding their various viewpoints.

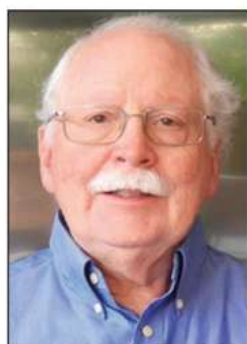

What knowledge, skills and experience do you bring?

I have had experience in both small and large businesses in my career, from preschool teacher to managing various learning and development functions at Xerox Corporation. I earned an Associate Degree in Early Childhood Development at El Camino Jr. College and a BA in Psychology at Dominguez Hills University in California. I have been recognized as an exceptional organizer with strong project and

people management skills. My history of involvement with SCOV entities is as follows:

- I am a member of the Institute of Learning in Retirement (ILR) Sampler planning team
- I am president of the Knit and Crochet Club
- I am a member of the Food and Beverage Committee
- I am a SCOV Ambassador and love showing off our beautiful community to prospective home buyers.
- I am past president of The SCOV Book Club
- I am past president of the SCOV Women's Auxiliary (now called Charity Works)
- I served on the Gift Shop board and was sales trainer for several years
- I have conducted monthly luncheons at The Views to welcome new SCOV women for 10 years
- I started the SCOV project of making sleeping mats from plastic grocery bags, which are distributed to homeless people.

I am process-oriented and can remain the "voice of reason" when things get difficult. I believe my abilities would be of great value and service to the SCOV Board.

John McConnaughey

Why do you want to serve on the Board?

I am pretty much happy with Sun City the way it is. Maintaining fiscal solvency and the efficient running of SCOV needs to be the first priority of all Board members. My overall goals are to make improvements and upgrades where needed and prioritized by Sun City residents, while maintaining the current services provided.

Is there something specific you want to change or accomplish?

Hard courts, particularly the need for more pickleball courts, is one of the major issues that will be driving capital expenditures in the near term. As an active member of both the Pickleball and Tennis Clubs, I am keenly aware of the issues. None of the current board are either Tennis or Pickleball Club members, and neither are the other two candidates. The hard courts need representation on the board, and I hope to bring that perspective. But don't think of me as a single-issue candidate, I am here for all of Sun City.

I have also enjoyed the artisan shops; they were a big draw bringing me to SCOV.

I want to make sure they receive the attention they need to maintain their services. I have been active with a number of clubs, including serving as vice president, and president of the Sundowners, vice president for the Pickleball Club, and treasurer for the Photography Club. I've been an active member with the Biking, Hiking, Bridge, Astronomy and Water Volleyball clubs.

What knowledge, skills and experience do you bring?

I earned a master's degree and have been employed as a research analyst, a fisheries biologist and a wetland scientist in my career. I bring analytical skills, experience managing projects and supervising employees. As a consultant, I worked with planning departments in 12 cities and counties in Oregon and Washington.

In SCOV I have been active with 11 different clubs and served on the boards of three of them. I have also served on SCOV's Election and Nominating Committees. I believe I am well qualified to serve on SCOV's Board.

Director of Golf Maintenance - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

The golf course is looking really good with the overseeded fairways outlined by dormant roughs. Overall, the golf course is in good condition, but a couple of items continue to take away from its appearance. Golf cart traffic and improperly placed divot mix in non-overseeded areas continue to be an issue.

The golf course puts out hundreds of rounds of golf each day, and most of the groups have two or more carts. Individual golfers don't realize the damage the carts inflict on the turf over time. As the number of rounds has increased over the last few years, the damage to high traffic areas has also increased. The areas on #2 fairway, from the 150 pole to the green, and the end of #9 fairway, in front of the 150 pole, have been damaged so severely that no turf remains by April. Placing one tire off the path near the greens also creates dirt areas near many of the greens. Please try to keep tires on the paths as much as possible and obey traffic signs and stakes.

Another blemish that impacts overall conditions is using sand/seed divot mix in non-overseeded areas. A pre-emergent herbicide is used in these dormant areas to prevent weeds from germinating, but when a golf club creates a divot, that chemical barrier is removed. When the divot is filled with seed, it creates green patches of ryegrass that are very visible. Please remember seed mix should only be used in areas that are overseeded green, and don't use seed mix in brown non-overseeded turf areas.

The guys on a Thursday morning warming up before the shotgun start

Greetings from your friendly neighborhood Nine-Hole Golf Club. This is a call for our members and the SCOV community for your help and participation in the Cure for Cancer Tournament, Sunday, March 12. Last year the Nine-Hole men's club sponsored the 7th Hole KP event. This year we have been given the task, along with the 18-Hole Men's Club, to assemble gift baskets and the 50/50 raffle. When a 50/50 raffle ticket is purchased, it can be designated to be used for the cash prizes or for a gift basket.

The women raised \$7,000 last year. Hopefully, we'll be able to meet or exceed that goal this year. The raffle tickets will be sold in front of the Pro Shop as well as on the putting green on a variety of Tuesday, Wednesday, and Thursday mornings. There may be other times and locations selected as well, so stay tuned.

Baskets can include wine, jewelry, crafts, gift certificates or gift cards, etc. The plan is to have 20 to 25 baskets valued from \$30 to \$50.

Many of us may have had cancer or experienced the loss of a friend or family member. The University of Arizona Cancer Center has helped to make a cure more possible. Please donate and participate in this worthwhile fundraiser. Watch the SCOV website for additional information.

Thank You Corner

What a day! Coming together as a community for the opening festivities of our newly remodeled Activity Center on January 14 was the culmination of a vision. We cannot begin to thank all the individuals who participated in making this extraordinary day happen.

The residents who approved the initiative for the project and the residents who volunteered hundreds of hours of their expertise to see it to fruition. Design and construction teams, management and maintenance staff that did everything in their power to stick to our opening date. Artisans that filled the space with amazing and imaginative works of art and clubs that filled our rooms with music, theater and dance. Those who worked on planning the day, and those who implemented the plans so beautifully. Thank you to all of you.

John and I want to thank all of our wonderful friends for your support and caring during April's recent convalescence. Your calls, visits, cards, treats, flowers, books and concern helped enormously. We feel so lucky to know each of you, and hope we grow even closer as we age together.

January saw potters returning as well as some new members. Many are trying clever and creative techniques. Classes fill up fast, and trying to balance educational pursuits with studio time is tricky, but our education team really makes it work. In fact, our volunteers in all aspects of the club are what makes the club run smoothly.

The Empty Bowls project has been getting into full swing. Our club has pledged to make 50 bowls, which will be sold at the annual charity soup supper. We actually hope to make twice that many. Attendees of Empty Bowls sample signature soups, breads and desserts donated by local restaurants, participate in auctions and raffles and select a beautiful handmade pottery bowl by a local artist to keep. All proceeds benefit Inter-faith Community Services of Tucson. Event information at www.icstucson.org/event/empty-bowls-2/.

Japanese Flower Arranging

Donald Marier 520-825-4878 dolmar21@gmail.com
Nov.-May, Second and Fourth Mon., 2-4 PM, Catalina Vista/Pusch Ridge

Japanese flower arranging, *Ikebana*, is the art of arranging flowers, branch materials, grasses and leaves. At its core is the beauty resulting from a combination of color, shapes and graceful lines. More than simple floral decoration, it is a form of sculpture with plant materials. Learn from certified instructors at your own pace and make creative arrangements for your home.

Knit and Crochet

Jane Fairchild 520-909-5069 janemail11@yahoo.com
Tue., 2:30-4:30 PM, Catalina Vista/Pusch Ridge

If you have a knit or crochet project, or would like to learn, come join us. An ongoing group project is making crocheted mats out of plastic shopping bags. You can participate in this project by cutting the bags into strips, stringing the strips into plastic yarn (plarn) and/or crocheting them into mats.

If you wish to donate bags, flatten clean Fry's, Safeway or Walmart bags and stack them by color. You can then fold all the stacks over into one, no need to fasten them together. This effort on your part greatly streamlines the cutting and crochet process. Do not include newspaper bags as they do not work for this project. Bags can be dropped into a basket on Jane Fairchild's front porch any time at 1750 E. Crown Ridge Way.

A young Casey Jones is explaining to his fireman, Tom Mehring, the proper way to blow the horn on his locomotive as it approaches the town of Nagleville: two long blasts, one short, and another long one. Nearly 200 guests visited the club's workroom in the Artisan Center during our holiday open houses. There was something for most everyone. Some focused on the detailed scenes in the towns of Nagleville, Farmington, Prairie Crossing and North Harbor. For others, the model airplanes were the main event as visitors recalled the history of these machines or how they had worked on their construction. The Marine colors on a model

of one helicopter did not please the young man who flies the real thing for the Navy. Join us at our monthly meetings to learn more about our models and the stories behind them.

Mon., 9 AM-5 PM, Catalina Vista/Art Studio

The Sculpture Club meets Mondays in Catalina Vista/Art Studio. If you are interested in becoming a member or learning more about what we do, please stop in on Monday mornings or contact Laurie Lichaa. You can view some of our work in the glass case and window in Catalina Vista or in the SCOV Library.

The Sculpture Club uses Sculpey polymer clay for their sculptures. Although the Sculpey Company offers a variety of different clay products, the club has either Regular Sculpey or Super Sculpey in one pound blocks available for members to purchase. Super Sculpey is identified as the best clay from this company to use for sculptures because of its fine tooling and detailing characteristics. The two clays are shown in the picture with the Super Sculpey on the right. Some members have purchased and used polymer clays from other companies, because the unique characteristics of the clay differ from the Sculpey clays.

Seniors for Kids is a nonprofit organization that works to supply the needs of children and to keep smiles on their faces. We believe that "Living is giving and giving is living." All of the joy that we are able to give to the children we serve keeps us moving no matter how tired we feel at times. This chance to give gets us out of our beds and houses daily and gives us the meaning we all need in our lives. If you are looking for such a place, come join us and enjoy the friendliness that abounds in our group. We definitely have a use for your talents and friendship, and we welcome you to come and get involved.

Calling all crafters, quilters, woodworkers, toymakers and multi-talented adults: We are planning two Wood Shop work days, one in March and one in April, to make wooden cars and toys for our 2023 holiday giving. Hope that you will be interested in helping. Watch next month's *Tipster* for more details.

There is a lot of happy energy in our six groups which make up Thimblelenas Club. We share sewing and other fiber arts through various means. Some groups are purposed with making items to help support our larger community. Thousands of items like Cheer Bears, crib sheets or children's clothing, made through the year are donated. Other clubs meet to provide education, ideas, and shared techniques of their craft. If you might be interested in any of the clubs listed below, check out the Sewing Room at the times listed in the *Tipster*, or on the door and stop in. Our dues are only \$5/year, and you are welcomed to attend orientation to the Sewing Room and training on our machines.

The Sewing Room is busy with many hands working on sewing flannel pajama bottoms for school age children, fleece sleep sacks for infants, colorful quilts for infants and foster children, Walker bags and cute fabric totes for Sunrise House at Tohono O'odham reservation. We try to find out what the needs are for the community organizations we support and determine if we can help. Needs change and we want to provide however we can. Please continue to donate any extra fabric or yarn you might have. If we can't use it, we usually can find someone who can. Bring any donations to the Sewing Room on Monday or Thursday mornings from 9 AM-Noon.

Cheer Bears

Wed., 1-3 PM, Artisan Center/Sewing

See how cheery we are as we work on our Cheer Bears

We are embroidering faces, sewing bodies, stuffing them with love and filling the shelves for the next set to march out to new families. Our shelves are filling fast and happy faces are smiling at each other as they work. It is good to have so many people in the room and around the table again.

If you find you have some polyester fiberfill or flannel pieces, we are in need of the fill to plump up the tummies and flannel to make the bodies of the bears. Donations are always accepted. Thank you all for your support.

We were amazed that our group sent over 500 bears marching in 2022. We still got to take time off once in a while for team building at a restaurant or ice cream shop.

The Tapestry Hooking and Fiber Arts group meets on Tuesday mornings. If you are interested in our group, stop in on Tuesday mornings. The group provides materials and instruction for those interested in learning hooking. People involved in other arts using fiber are invited and encouraged to join our group.

Wendy Baumann recently joined our group. Since she had no prior experience, the club provided materials and instruction on how to get started. We generally start new members with a practice project using a #3 (3/32") cut of wool strips. Wendy had trouble with the materials shredding when it was

hooked, so the club provided her a project that was donated to the group which used a wider cut of wool, and Wendy found that hooking with the wider strips worked much better for her. The picture is of her project.

SCOV residents interested in joining, please visit the shop and speak to the monitor about scheduling training.

The featured artist this month is Carolyn Shisler. If you're new to making jewelry, wire wrapping is a fun and relatively easy place to start. It's also a great way to express your creativity and individuality as no two pieces are the same. Carolyn explains, "Using thin metal silver wire, I wrap it around itself and beads to create unique jewelry. This technique is described as a bit like sewing with metal. I have been a member of the Silversmith and Lapidary Club for six years."

Please stop by the Lapidary Room windows and see the diverse variety of beautiful jewelry.

Although Jack never previously worked with glass, he was always curious about being able to turn a flat piece of glass into a thing of beauty. So curious, that he decided to join the glass club five years ago. If you arrive at the studio early in the morning, you are very likely to see Jack already at work on one of his stained glass projects. He enjoys working in a quiet setting. One of Jack's current goals is to improve his foiling and soldering; the process of joining the edges of two pieces of glass. Many of Jack's stained glass pieces can be seen throughout his home. The Wood Carvers are back in action, so come to the Artisan Center Lapidary Room on Saturday morning and see what interesting projects are in the works. He is working on hollowing out the back of this project to make it lighter in case he wants to hang it on a wall. If you think you might be interested in wood carving, we can help you get started with some basswood,

Next meeting Thu., Mar. 2, 9 AM, Wood Shop
www.scovwoodworkingclub.com

The Wood Shop is in full swing now that our seasonal members are back. This month's featured woodworker is Kevin Storberg, a new Woodworking Club member, who has been coming to SCOV from Michigan on a part-time basis for the past 30 years.

Although sighted, Kevin is now creating incredible wood artistry even though he is legally blind. He wouldn't be able to enjoy the Wood Shop, much less create such exceptional woodworking art without the help and tutelage of Bill Norton. Under Bill's direction and assistance, Kevin has become a talented woodworker. When not at SCOV, Kevin and his wife raise puppies for leader dogs for the blind.

New-member orientation is the first Wednesday of each month at 4 PM. Call Bill Norton 480-980-5493 for further instructions. Visit our website for more information. A \$30 membership fee is required to take the class.

Mon., 10 AM-Noon, Zoom

Long ago I exchanged Valentine cards with my entire first grade class. If only love was shared that way today. Shakespeare's "Sonnet XXIX" reminds us that being loved is a treasure to cherish.

"When in disgrace with fortune and men's eyes / I all alone beweep my outcast state, / And trouble deaf heaven with my bootless cries, / And look upon myself, and curse my fate, / Wishing me like to one more rich in hope, / Featur'd like him, like him with friends possess'd, / Desiring this man's art, and that man's scope, / With what I most enjoy contented least; / Yet in these thoughts my self almost despising, / Haply I think on thee, and then my state, / Like to the lark at break of day arising / From sullen earth, sings hymns at heaven's gate;

For thy sweet love remember'd such wealth brings
That then I scorn to change my state with kings."
Re-reading the Bard provides us pleasure and an inspirational challenge.

By now, you may have visited or had a meeting in the recently renovated and reopened Activity Center. The Technology Club will soon restart our general monthly meetings, which were suspended due to Covid. As of this writing, the club will hold its first general meeting in the renovated Activity Center/Kiva Room on Monday, February 13, 1 PM. Please look for Technology Club announcements should this situation change.

The subject for our first general meeting will be a discussion of "streaming." For those unacquainted with the term, streaming is a digital internet-based service that provides on-demand entertainment content, relayed directly to the user. In other words, you can look at almost any TV program at any time, if you know how to find it. Like most services, there may be a cost associated with your access to this service, so come to the meeting and learn how to watch "Gun-smoke" whenever you want.

Our club benefits Emerge of Tucson and IMPACT of Southern Arizona Food Bank and Clothing Bank. Emerge provides support and transitional housing to women and children survivors of domestic abuse.

Charity Works volunteers at Emerge's Holiday House

We were able to participate in Emerge's Holiday House this year. Holiday House is a donation-driven event where survivors and their children can pick out gifts for each other at no cost while building new traditions free from abuse. We assist them with shopping and sometimes wrapping of presents.

IMPACT of Southern Arizona is a nonprofit organization providing assistance to residents in Northwest Tucson, Marana, Oro Valley, Catalina and Southeast Pinal County. They help feed the hungry, care for seniors, provide clothing to those in need, and offer educational programs for our youth and literacy/ESL classes for adults.

Donations for Emerge and IMPACT are taken at our monthly meetings. You may go to the Emerge website www.

emergencecenter.org for information regarding what they need. All donations must be new items.

Our next meeting is Tuesday, February 14, 9 AM, WC3.

Aqua Tone is a toning water workout that incorporates a variety of rhythmic body movements. This aquatic exercise class enhances cardiovascular fitness and muscular endurance.

There is no fee to join the club or the class. The teachers are club member volunteers. Participants should be able to do a basic swim stroke. Items used in the class are buoys, boards, noodles, balls and a fitness band. Most items are available at the pool. We assign an experienced member to a newcomer to help learn the various movements. We enjoy a great workout in a fun class.

Some of these days it's a little chilly. We meet Mondays, Wednesdays and Fridays when the air temperature is 77 degrees or higher, as recommended by the Arthritis Foundation.

Our club performs gentle water exercises approved by the Arthritis Foundation to help with range of motion. If you are a paid member and unable to join us, you may contact the club officers for modified copies of our exercises that can be performed safely at home.

We are very much in need of part-time instructors. We are all volunteers, and happy to train you for this fun and easy volunteer position.

New members are always welcome. Due to our cooler weather this time of year, we are not always able to meet. We look forward to seeing you when time and weather permit.

Guess what? It's already the second month of 2023 and time to consider a new exercise routine. Why not try the SCOV Pilates Club mat classes? They take place in the AFC Mondays and Thursdays. The exercises strengthen your core (abdomen and back muscles). You will also notice that you have better balance, more muscle tone and increased stamina. People always ask "can the benefits from the stretching and strengthening exercises really develop the body's core, increase spine mobility and build flexibility?" The answer is a definite yes. We have two experienced instructors, and the cost is only \$8/class, with annual club dues of \$20 pp. Please feel free to stop by and watch. Call Mary.

Fri., 1-3 PM, Desert Oasis

Happy Valentine's Day. We invite you to check out the Scrabble Club. The entire world has heard of Scrabble, but hardly anyone knows how it got started. Scrabble is an American classic. During the middle of the Great Depression (1931) Alfred Butts, a young out of work architect from Poughkeepsie, New York, set about earning extra money by inventing a new game. Using anagrams and crossword puzzles, Scrabble was born.

The SCOV Scrabble Club meets most Friday afternoons

from 1-3 PM. The club welcomes all, no matter their skill level. We love to meet new people.

Wheels for Kids

Tom Terfehr 520-789-7243 www.azwfk.org

Do you remember your first bike? Wheels for Kids is a 501(c)(3) nonprofit organization dedicated to providing rehabbed bicycles to children and families in need in the Tucson area. To date, we have donated 4,500 bikes to local nonprofits, who then distribute the bikes to their clients. Some of our partner organizations include Refugee Focus, Boys and Girls Club of Tucson, Children's Advocacy Center, Casa de los Niños, Ronald McDonald House and Youth On Their Own. Wheels for Kids is an all-volunteer effort, and we are always happy to welcome new people to our team. If you are interested in learning more, please visit our website or call Tom Terfehr. Help kids experience the same joy you had when you got your first bike.

ILR Samplers

Help needed: The Institute for Learning in Retirement's Sampler Committee is looking for some help delivering quality, diverse, in-person lectures to the SCOV community. We need a couple of new members to help us search out and secure speakers. We don't have many meetings; most work is done individually. We also need someone to set up the microphones and computer connections with speakers before the Samplers, and to be onsite during the presentation if anything goes wrong. Training is available. If you are interested, contact Sally Evert sallyevert@gmail.com or any other committee member.
