Loyalty

by Mike LaBarbera

What is loyalty? Loyalty is a strong personal feeling of support, allegiance or faithfulness to a person, place or thing. Growing up, we didn't realize it, but we were instilled with trust and loyalty in our family. Family was there to comfort us and talk with or confide in. We would help with chores, yard work, making dinner or giving family some of our paycheck to help make ends meet. We didn't complain; we wanted to contribute.

We were loyal to our school by attending class daily, doing homework, joining school teams and clubs and helping teachers with projects.

As we grew older, we became loyal to our employer by showing up to work on time and doing the jobs we were required to do. We were part of the team. We suggested ideas and followed directions to contribute to the business for a more productive workplace.

In the military, we were loyal to our unit, commander and country. Veterans know what that sense of loyalty means. We did and accepted things we didn't like but knew it was important to complete the mission. Many of us made personal sacrifices out of loyalty.

Community loyalty is very similar and is founded upon communal commitment. Many residents feel the personal motivation to perform unselfish service to encourage, assist, harmonize and play in our wonderful sandbox. During the peak of winter, there are over 4,000 residents in SCOV. Residents volunteer and contribute in many ways that demonstrate loyalty to our community. Over 10% of our residents have a passion for our way of life and want to make it better by volunteering in the Gift Shop and Library, collating the *Tipster*, delivering the SCOV directory, serving on one or more of the 140-plus club boards, one or more of the 20-plus SCOV committees or the Board of Directors. Without these resolute residents, SCOV would not be the thriving community we live in today. This is by no means blind loyalty but the strong personal desire to improve growth and well being, and pay back to our wonderful community.

Addressing the Rumor Mill

I've served the SCOV community for about six years now. Being in management it was not long before I realized that the rumor mill was alive and well. I've heard it said that if a rumor is repeated three times it becomes fact in the minds of those who have heard it, so they repeat it as well.

The source of the rumor mill may be verbal communications, snail mail, email, text or social media. Unfortunately, there is much misinformation spread through our rumor mill. The amount of misinformation seems to be increasing.

The Board of Directors and management want to do our part to dispel this misleading information. To help with this issue, the Board of Directors will be monitoring and keeping track of false information they see in social media, texts, emails or any of the other sources. The Board will then address these false statements from time to time in "This Week in SCOV." In addition, we will address these items in our monthly Board of Director and General Manager chats.

May I suggest that before you pass along information that may be inaccurate or questionable, please check with me or a Board Member. You could also bring it up in a Board of Director and General Manager chat.

We are pretty much an open book, and you can ask just about anything. Let me add one disclaimer: we don't talk about litigation or employees or anything that is legally protected including items on the agenda for executive sessions of the Board. Other than these legally protected items, you can ask, and if we know the answer, we'll respond. If we don't know the answer, we can get it for you. Hopefully you'll like the answer but a warning that there may be times you won't. All I can say is that you'll get an honest answer.

The Board and I would like to inform you about things of interest as much as possible. The more informed you are, the less fodder there is to fan the flames of the rumor mill. Please feel free to take advantage and ask your questions. You might be surprised by the facts.

SCOV Technology Club We Can Talk to Your Devices so You Don't Have To.

by Drew Ludwig

How we got started.

You might say that SCOV folks have been interested in technology since the beginning. The Vistoso Computer Society (VCS) was started in 1990 with the goal of assisting members in using their computers. Early meetings were held in the Artisan Center, but when the Association took over the Welcome Center in 2000, work began on creating a hands-on computer center. In December of 2002, VCS dedicated the Vistoso Computer Learning Center, now called the Technology Lab. Equipment and software were purchased from club dues, along with grants from the Sun City Vistoso Foundation and member donations. We have recently changed our name to SCOV Technology Club to reflect the ever-expanding role technologies have in all our lives.

Where are we going?

As you are probably aware, technology has moved well beyond the desktop computer, and the club sees the need to help our members stay abreast of advances in the technology sphere. But more broadly, our SCOV community needs a level of understanding to make use of the technology that benefits our lives. We realize that there are basic users, intermediate users, and advanced users, and we would like to serve all of them. The Technology Club has also been supporting other clubs in SCOV by expanding use of the Technology Lab, including use by the Photography and Genealogy Clubs and the Library (website training, business center and book repair). And, we have recently added QR codes to our *Tipster* articles, so you can quickly access our website and schedules. If you are unfamiliar with QR codes, we can teach you how to use them to access all kinds of information, such as restaurant menus.

What can you buy for \$10? How about a year of tech support?

For the low cost of a club household membership (\$10), you will have access to the club's website, help desk, in-per-

son help sessions, and topical classes. There are no dumb questions. The answer may be simple or complex, but we have members with a broad range of experience. They can help you find information and hopefully a solution to your problem. And most importantly, many of you don't want to understand how your device works, you just want to be able to use it.

Club members enjoy help sessions on your personal phone, tablet or laptop; classes structured for a diversity of skill levels and advice on replacement of devices. We can help you understand how much capability you really need and how much money you should expect to spend.

Get involved.

We are welcoming new members for the 2022-2023 season for only \$10 per household.

We are always in need of folks to lead or assist in classes and answer questions at help sessions.

And most of all, we need your ideas. Let us know how we can help you or someone

you know who needs to be introduced to the Technology Club. Interest has already been expressed in help/training for:

- Conducting a basic or advanced search on the Internet.
- Downloading ebooks from the public library.
- Operating smart phones, smart TVs, smart cars, not-so-smart personal assistants.
- Keeping your older devices working for you.

The future is not as far off as you think. If you are new to SCOV, come join us. If you have tech issues, come test us. If you just want to expand your horizons, we just might be the ticket to a new adventure.

Peg Bushong teaches iPhone classes that are free and open to non-club members in the Technology Lab located in the Welcome Center

What You, as a Homeowner, Can Do About Landscape Maintenance in the Common Areas

One of the beautiful aspects of our community is the natural landscaping. As a resident of SCOV, you enjoy the 1,000 acres of Common Area land owned and cared for by the Association. The manager of our Common Area Maintenance (CAM) crew is Mary Kaye Cunningham. Mary has worked for the Association since the beginning of Del Webb days. CAM has many responsibilities with all this land to manage, with some exceptions, one of which is the common area that abuts homeowner lots.

There is a maintenance schedule where a five feet buffer is maintained behind homeowner lots on our common area. This schedule takes approximately one-and-a-half years for her staff to cover the estimated 10 miles of area.

If you want landscaping work done before the crew comes behind your lot, you can participate in the Pre-Qualified Landscaper program. This is a program of landscapers who have gone through a qualifying process that informs them of what work is allowed in our common areas. It is the responsibility of the homeowner to interface with the Association and apply for the work to be done and to make sure the permit is properly displayed. If your favorite landscaper is not on the list, there is an application process for them to become qualified.

The scope of work that can be done, including trimming and removal of trees, may be found on our website under Members > Member Services > For Your Home. The applications need to be submitted to our Architectural Coordinator who is available during the work week from 9-11 AM in the Administration Office.

Another type of common area maintenance the Association manages is for lots that qualify as a Golf Course View Lot. The lots that meet the qualification are listed in the Development Standards, Article 5, Appendix E and the scope of work provided is outlined in policy CAM-002. The services the Association provides behind these lots are opening the golf course view up to 50% including desert clean-up and trimming.

Please be aware of what this program provides and the guidelines you are required to follow. We all enjoy and appreciate the beautiful landscaping of our natural desert surroundings and our relationship between our homeowners and the Association.

November is the time of year that people begin to go out in the cool weather and enjoy social activities. SCOV is hosting our own car show on Wednesday, November 9, 12:30-3 PM, in the parking lot between Rancho Vistoso Blvd. and the tennis courts. A local Tucson hot dog vendor will be selling hot dogs, Sonoran dogs, tacos, chips and drinks. If you would like to bring your car for viewing and a chance to win a prize, go to www.bit.ly/SCOVcarshow to register your car or email bpuzzele-stoltz@suncityorovalley.com. We hope to see you there.

Revised Board Policy for Expansions

On September 27, 2022, the SCOV Board approved a revision to its policy ARC-006 Home Expansions and Patio Covers. The change has to do with neighbor communication of a proposed expansion (room addition and/or patio cover). Prior to the revision, any neighbor who was within 100 feet of a property line of the proposing lot would receive an emailed Notice of Neighbor Property Expansion. In many cases this measurement made no sense and caused confusion. The revision now states that a notice will be sent to any neighbor owning a lot adjacent to the platted lot requesting an expansion.

If you are considering adding to your home with either of these projects, please familiarize yourself with this Board Policy which can be found on the SCOV website under Members > Documents > Board Policy ARC-006.

The Library welcomes author Lynn Downey to talk about her debut book, *American Dude Ranch: A Touch of the Cowboy and the Thrill of the West*. Lynn tells the story of the dude ranch and how it wove its way into American life and culture. However contested and complicated, western history is one of America's national origin stories that we turn to in times of cultural upheaval. Dude ranches provide a tangible link from the real to the imagined past. This book tells their story with familiar, eccentric and often surprising details. Details for Lynn's presentation are in Coming Events on page 12.

The Library, with support from the SCOV Technology Club, is holding a Library Catalog Class. Learn and practice how to utilize our electronic catalog. Details for the class are in Coming Events.

Back by popular demand, we will be holding our annual Southwest Book Sale. We have so many books on local birdwatching, hiking, plants, animals, gardening, cooking as well as travel and restaurants. All revenue earned from this sale supports the purchase of new books for our Library. Dates for the sale will be in "This Week in SCOV."

If you have been away and just returned to SCOV, please stop in and visit. We have added new shelf markers, new books and some new volunteers. We are here to help you find that perfect book.

How Can I Prevent Injuries?

To avoid injuring yourself during exercise, don't try to do too much too soon. Start with an activity that is fairly easy for you, such as walking. Do it for a few minutes a day, several times a day. Slowly increase the amount of time and the intensity of the activity. For example, increase your walking time and speed over several weeks. Start every workout with a warm-up. This will make your muscles and joints more flexible. Spend 5 to 10 minutes doing some light stretching exercises and brisk walking. Do the same thing when you're done exercising, until your heart rate returns to normal. Pay attention to your body. Stop exercising if you feel very out of breath, dizzy, faint, nauseous or if you feel pain. Seek medical attention if you have questions or think you have injured yourself seriously.

Special Note From the Aquatic and Fitness Center (AFC)

Contact Lonnie Davis, AFC Coordinator, to discuss questions or concerns with the AFC. Hours of operation for the AFC and Desert Oasis are on page 2.

Tuesday, November 8, the AFC pool and spa will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Wednesday, November 9, the Desert Oasis pool will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Tuesday, November 22, the AFC spa will be closed for cleaning until 1 PM.

Architectural Inspection Group

Conveyance Coordinator, Jack Mooney, 520-917-8087, scoroval@ciramail.com

Thinking about selling your home? Don't forget about the SCOV required inspection.

All SCOV inspections look at only the exterior of the home and property for any violations of our governing covenants. There are three types of inspections available, and you may choose the one that fits your need. To request an inspection, go to the SCOV member webpage, select Member Services, and then select the Sell Your Home icon and complete and submit the short form.

The first inspection we offer is a courtesy inspection done at the seller's request. This inspection is optional but has some advantages before you list your home. The Association inspector conducts the inspection and turns over the findings to you, the seller. Only you see the violations which allow you to correct any violations before listing.

The second inspection is the listing inspection. It is requested by either the realtor or the seller at the time of listing and is good for 90 days. Once completed, a report of violations is sent to the realtor/seller. You may still have time to correct violations before entering escrow. When an offer is accepted, the violations are forwarded to the title company in a mandatory inspection compliance report.

The last inspection we do is called an escrow inspection and is completed if a listing inspection was not requested before an acceptance of an offer to sell. Violations found during this inspection are submitted directly to the title company, and the seller and buyer receive a copy of the report. All violations are negotiated between buyer and seller.

Each of these inspections provides you, the seller, with valuable information. However, you must have either a listing or escrow inspection completed prior to the close of escrow. For further details, contact the Conveyance Coordinator at the Welcome Center or call 520-917-8087.

Architectural Review

Jim Cherry 612-805-5637 ARC@suncityorovalley.com
Zoom meetings Second and Fourth Tue., 2 PM

The Master Declaration, Tract Declarations and Development Standards 2.18.C.4 provide a pretty clear direction for managing greenery within one's yard. Besides weed control we have a duty to be neighborly and promote safety.

By example, within the Front Yard setback 3'6" is the maximum height of any bush/hedge. This keeps visibility between drivers and walkers within a measure of safety.

For side and backyards, the maximum height is six feet. This height keeps plants under control and mitigating scenery visibility impairments for one's neighbors. For some, managing neighbor visibility is even more critical. By example, Unit 15 (Cirrus Hill Drive, Tumble Brook, Meteorite Trail, and half of Trade Winds Way) has a maximum three feet height for shrubbery that is within 15 feet of the backyard property line

This summer was another great growth year for our plants. Take the time to enjoy that growth while also showing neighbor consideration.

Loan Room hours: Tue., Thu., 8-9 AM
www.suncityorovalley.com/members/services/loan-room/

The Loan Room is a free service to all SCOV residents, staffed by volunteers and open throughout the year. Our hours are Tuesdays and Thursdays, 8-9 AM. We are located at the end of the Golf Cart Barn. We do not carry tools of any kind, but do have most medical items, children's items, tables and chairs and several kinds of beds, all for short-term loans. Bring your SCOV card when you come in to borrow items or make reservations, which may be made up to two months in advance. You may also make reservations on our website. Please do not leave any items outside our doors or ask any SCOV employee to put items inside for you when we are not open. As our residents return, we will be busier, so reservations are recommended during this active season.

The purpose of our committee is to develop and recommend to the Board a rolling 5- to 10-year plan to maintain and further enhance the quality of life for current residents, while ensuring SCOV remains competitive in attracting active and involved people to our community. Neighborhood Pride

Chair Bill Bable 248-231-2829, wbcfp33@gmail.com
First Wed., 9 AM, Catalina Vista
www.suncityorovalley.com/members/committees/neighborhood-pride

Following is a brief summary of how Neighborhood Pride Committee (NPC) performs the duties outlined in the committee charter:

The community is divided into seven sections. Seven teams of two members tour those sections to identify non-compliance of the standards established in the Master Declaration and Development Standards.

If the first team identifies a home in noncompliance, a second team of two members reviews the property. Only if all four committee members agree is a Courtesy Notice sent to the homeowner.

Currently, this process is spread over two months. Beginning this month, NPC will tour every other month. The dates NPC will tour in 2023 are on the NPC web page. This month's dates are: November 3-13: Team 1 identifies properties in noncompliance. November 14-23: Team 2 reviews only properties identified by Team 1. Courtesy Notices are sent following Team 2 tour.

Give Back to Your Community

Would you enjoy giving back to your community by serving on our Board of Directors? As you know, the soundness and quality of our community depends on good volunteer

Your Association is seeking potential candidates for the Board of Directors. The March 2023 vote will be to fill two director positions, serving three-year terms. According to our Bylaws (5.1) there are two ways to become a candidate for the Board of Directors, through nomination or through petition.

Through nomination (prior to December 22): If you would be interested in being considered by the Nominating Committee (or to suggest others) please fill out a Statement of Interest available from the Administration office.

Through petition (prior to January 1): If you would like to be placed on the ballot through the petition process, you must be a member in good standing with a written certification of eligibility from the General Manager and complete a petition with signatures of 25 Association members in good standing. A copy of the petition is available from the Administration office. Once the petition is received, the General Manager will certify eligibility.

Director of Golf Maintenance - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

The first part of November is when the golf course has dried up from the water used during overseeding. The ground is firm enough to allow the golf carts off the paths and onto the fairways. Cart traffic has been controlled the last few years using a system of blue stakes

to direct golf carts on and off the paths. This would be a good time to refresh everyone on the rules associated with the blue stake gates to help minimize confusion.

Each hole will have a set of blue stakes at the start of the hole and at the end of the hole. These are "gates" where golf carts will pass through to both leave and return to the cart path. Once the cart leaves the path through the gate it will drive straight to the fairway. The cart will remain in the fairway until it reaches the other end of the fairway where it will leave through the exit gate. However, if driving the rest of the fairway is unnecessary, then exit at any time 90 degrees straight to the cart path.

One big change this year is to holes #2 and #9. Those holes suffer considerable turf damage from carts each winter, so the traffic control needs to change. Now there will be designated areas where carts will be allowed. Carts will not be allowed to drive the length of these two fairways anymore. Hopefully, this will cause a smaller area of damage and protect the rest of the hole.

Play Thu. morning

Hello everyone and welcome to the 2022-2023 Men's Nine-Hole season. We are looking forward to a great season. Mark your calendars for these upcoming events: the first Burger Bash and league meeting Thursday, November 10; a league meeting and Burger Bash on February 9; our annual three-day club championship March 9, 16 and 23; and our final meeting, burger bash and awards ceremony April 6. We are also going to SaddleBrooke for the first part of Home and Away February 8 and SaddleBrooke comes to The Views March 2.

For now, our meetings and burger bashes will be on the grassy area next to The Views Restaurant as we did last year. We hope to be able to go back inside the new Auditorium by our last meeting in April.

If you are sitting on the fence wondering about joining the Nine-Hole league, jump off and come join us. Joining is easy to do and can be done from the comfort of your home. You will need a handicap, so be sure to join the Arizona Golf Association and start getting those scores in.

We play Thursday mornings with a shotgun start and a \$4 ante, so we are usually finished by mid-to late morning.

Good fun and only one or two of us take golf seriously.

Nov.-May, Second and Fourth Mon., 2-4 PM, Catalina Vista/Pusch Ridge

Japanese flower arranging, *Ikebana*, is the art of arranging flowers, branch materials, grasses and leaves. At its core is the beauty resulting from a combination of color, shapes and graceful lines. More than simple floral decoration, it is a form of sculpture with plant materials. Learn from certified instructors at your own pace and make creative arrangements for your home.

Knit and Crochet

Jane Fairchild 520-909-5069 janemail11@yahoo.com
Tue., 2:30-4:30 PM, Catalina Vista/Pusch Ridge

If you have a knit or crochet project, or would like to learn, come join us. An ongoing group project is making crocheted mats out of plastic shopping bags. You can participate in this project by cutting the bags into strips, stringing the

strips into plastic yarn (plarn) and/or crocheting them into mats.

If you wish to donate bags, please flatten clean Fry's, Safeway or Walmart bags and stack them by color. You can then fold all the stacks over into one, no need to fasten them together. This effort on your part greatly streamlines the cutting and crochet process. Please do not drop off newspaper bags as they do not work for this project.

Bags can be dropped into a basket on Jane Fairchild's front porch any time at 1750 E. Crown Ridge Way.

Wooden toy making, various times, Artisan Center/Wood Shop

First Thu., 8-9 AM, Catalina Vista; no meetings May-Sep.

SFK is a 501(c)(3) tax exempt organization

Our first fall business meeting was October 6, where we started planning our holiday Adopt-a-Family and Kuddles for Kids. Last spring we had a work day organized by Dick Minch where we cut, drilled, routed, sanded and painted small cars. We get cradles, treasure boxes and many more things made

by the men and women who create in the Wood Shop. Another group who helps us is Wheels for Kids, which grew from Seniors for Kids (SFK). They supply rebuilt bicycles to needy children in the area. SFK really appreciates the past support.

SFK Santa's helpers at work

SFK will have a sales table at the Arts and Crafts Festival in the courtyard Saturday, November 12, 9 AM-3 PM. We sponsor the Kuddles for Kids project that unites all of SCOV in collecting stuffed animals for AVIVA, Three Points, Mammoth and other places.

The toy distribution will be held Thursday, December 1, 9 AM, WC3 (see Coming Events on page 12). The entire community is invited to attend.

Mon. and Thu., 9 AM-Noon, Artisan Center/Sewing

Whenever we receive a donation of polyester fabric that's not suitable for clothing that we sew, we are able to use it to make long skirts for Somali girls to wear. These girls are used to wearing long colorful skirts in their native home. We've made several simple skirts for the Amphi School District clothing bank, and they have been well received.

Whenever you are ready to clean out your fabric stash or know of someone who is, please consider bringing it all to the Sewing Room. The different clubs of Thimblelenas use all different types of fabrics, so don't think fabric has to be cotton to donate. We will sort through the fabric and notions you donate and determine which club could use what. If we are unable to use the fabric, we will donate it to the Golden Goose. Thanks to all who have donated in the past. Please do not leave donations outside the Sewing Room door. Bring donations by when the room is open.

Last week I took in 30 pet beds. If you haven't seen how nice they are and how cheerful everybody is that makes them, I invite you to come to the Sewing Room any Tuesday afternoon. If you would like to join us, the dues for Thimblelenas are only \$5 for the year. See you there.

Tapestry Hooking and Fiber Arts

The Tapestry Hooking and Fiber Arts group meets Tuesday mornings throughout the year. If you are interested in our group, stop by the Sewing Room Tuesdays between 9-11 AM. The group provides materials and instruction for those interested in learning hooking. People involved in other arts using fiber are invited and encouraged to join our group.

One of the questions that a beginning rug hooker will ask is, "How much fabric do I need?" The answer depends on the cut of wool that one plans on using. The cut is the width of the strips of wool. If you are using a 3-cut (the smallest width), one would need three times the area that will be covered with a particular wool color. For a 4-cut it would be four times the area and 6-cut it would be six times the area.

The shop was very active last summer with the year-round resident members. We are looking forward to the return of seasonal members. Any resident may stop by the shop and sign up for new member classes.

Elaine Woods' latest beautiful jewelry

This month we feature long-time member, Elaine Woods. Elaine says retirement here in SCOV has brought many wonderful benefits. She shared, "In 2008, I walked into the silversmith shop and began my journey creating many one-of-a-kind pieces. Over the years, I have taught beginner silver to new members. The silver shop has become a great place to share our work and energize each other. I have done chain mail, lost wax and Mata Ortiz pottery

creations and most recently, overlay pendant." Come by our shop and see her beautiful work in the window.

In 2017, when Deb and her husband were planning a move to SCOV, she was very excited to learn that our Artisan Center included a Stained/Fused Glass Club. Previously, Deb never worked with glass but had a pleasant experience attending a fused glass party in Pennsylvania. She joined the club immediately, and has assumed an integral role in the studio. She loves the social interaction and the friendliness of members. Deb enjoys the experimentation that glass presents and rarely creates the same item twice. She's quite the ingenious artist. We are most grateful for all that Deb accomplishes within our club. Deb is also a leader of Show 'n Share, a guide for our Hiking Club and the unit leader for 18A.

Deb Wehrung is ready to strike a tune with her winsome fused glass instrument.

Monitors are on duty Tuesday, Wednesday and Thursday mornings. Come visit us. We know you will have a pleasant experience.

It will include a frank and open discussion on topics such as Medicare requirements and options for hospice, medication discussion, how to identify when the end is near and how to be present when a loved one is near the end. While not an easy topic, knowledge is critical to help families navigate the end stage of life with essential information well before it is needed.

Adelaide Crapsey (1878-1915) is credited with the creation of the five-line cinquaine form of poetry. This seasonally appropriate example demonstrates how perfectly her poetry makes the most of the form's brevity:

"November Night
Listen...
With faint dry sound,
Like steps of passing ghosts,
The leaves, frost-crisp'd, break from the trees
And fall."

We encourage experimenting with different poetic forms and styles and always welcome new members willing to share their personal poetic voices.

We will continue meeting via Zoom until December 5, when we return to the Welcome Center.

Folk dancing is a wonderful way to exercise both your body and mind while socializing in the company of a warm and welcoming group. We encourage everyone who is fully vaccinated and boosted to join us and tour the world in music and dance. We review each dance prior to dancing, keeping in mind that the only mistake you can make is to not have fun. No experience and no partner required. Bonus: no meetings, no minutes, no dues; just dance, dance, dance. There is even a club website which lists each week's dances, along with a video link to each dance for those who like to watch or review dances at home.

Please give it a try. Come and see. Check out the website or call Raven.

 VP Norma Waters normawaters1@hotmail.com
 Mon., Wed., Fri., 1 PM, AFC/Pool

Our fun group meets every Monday, Wednesday and Friday at the AFC pool at 1 PM. We meet when the air tem-

perature is 77 degrees or higher. Our club performs gentle water exercises approved by the Arthritis Foundation to help with range of motion. It's great for those with arthritis, fibromyalgia, replaced joints, etc. Our bodies need to keep moving, and this is a safe, fun way to stay fit.

If you are a paid member and unable to join us, you may contact the club officers for modified copies of our exercises you may perform safely at home. Our members are fun, accepting and will welcome you. We hear, "I came for the exercise and love all the friends I've found."

Please consider joining us; our annual dues are only \$5. Your first class is free. Believe us when we say your body will thank you. You will be glad you did.

The Fitness Swim Club will start in earnest in November. While most members are motivated recreational swimmers, we also include nationally ranked master swimmers, triathletes, former club and university swimmers. The group generally goes about 2,400 yards, though some do more, a few do less.

New members are welcome. Please ensure you have medical clearance to participate in a vigorous workout. Swimmers are reminded to socialize quietly after a workout so as not to disrupt the next group of pool users.

Mary Ayers 520-638-7916 scov.pilates@gmail.com
 Mon., 3 PM, Thu., 1:30 PM, AFC/Studio

The SCOV Pilates Club offers group mat classes Mondays, 3-4 PM, and Thursdays, 1:30-2:30 PM, AFC Studios 1 & 2. Each person is striving to increase core strength. The core muscles are deep abdominal and back muscles that help you stabilize your pelvis and spine. Each class begins with warm-up exercises. These Pilates exercises result in benefits that can't be beat: better balance (fewer falls), more flexibility (joints move again), increased muscle tone (you're stronger) and more energy and well-being. The instructors oversee us at all times and have modifications for the most strenuous exercises for anyone with limitations. The cost is \$8 cash per class, and annual club dues will be \$20 pp in January. Call Mary with questions.

A recent article in *Readers Digest* states: "Playing all sorts of brain games at home for fun boosts memory, thinking speed, and other mental skills, according to a 2016 United Kingdom review of 19 studies." Some studies have identified the game of Scrabble as one of the most effective games for improving cognitive abilities and increasing memory. The North American Scrabble Players Association, established in 2009, is a community of clubs of avid home players and has recognized Scrabble as one of the best for increasing brain power.

Aside from the rides, our members enjoy our very useful website, including a searchable member directory, club classifieds, online ride schedule, cycling resources and more.

We offer several hundred scheduled rides year-round, among four different ride subgroups, from 20 to 60+ miles, to cafe destinations within Tucson and nearby towns, utilizing both pathways and roadways. Occasional away rides are offered as well. Our cafe stops offer coffee and conversation, which are greatly enjoyed by our members.

The club has e-bike, mountain biking and Women on Wheels subgroups. There's also our monthly club newsletter email.

All schedules can be found within the excellent member area of our website. We also host social events and support both the Interfaith Community Services Food Bank and Wheels for Kids. For more information or to join, visit our website.

Brown-headed cowbirds have long been considered a pariah within the birding community because of their tendency to deposit their eggs in other bird's nests. Their young are hatched by the host bird, and because they are often larger than the legitimate offspring, it often results in the loss of the host's brood. There are two species of cowbirds in Arizona, but the brown-head-

ed, found in all 48 states, is the only one to be seen in SCOV. It is often seen hanging out with other blackbirds.

We are a 100-plus member, activity-oriented group, and all SCOV residents are invited to join us on our field trips to learn more about the birds here in Arizona. Below is a list of upcoming field trips. If you are interested in going on any of these, be sure to contact the trip coordinator for details at least three days in advance and ask Peggy (above) to be added to our mailing list.

Gila Cliff Dwellings. Photo by Susan Sedlacek

The Hiking Club just completed a successful hiking trip to Silver City, New Mexico, with approximately 48 hikers attending. It was a great way to enjoy spending time with fellow hikers, develop new friendships, engage in healthy exercise, and appreciate the beautiful Silver City surrounding area. The week began with a self-guided trip up to the Gila Cliff Dwellings where we were able to walk up to and through Mogollon ruins and caves. This was followed by three days of hike leader led hikes at various levels of difficulty and length. Some hikes were in the forest, others went to petro-

glyphs and all included beautiful vistas. There were also several docent-led tours of various projects and exhibits in Silver City.

New member orientation hike is scheduled Thursday, November 3. Please check our website for this month's hikes.

The Oro Valley Youth Advisory Council (YAC) was established in 2012 to provide youth a voice in town government and channel their passions to enhance their community. YAC consists of 25 students from all five area high schools. One of the group's goals is to bridge the

Oro Valley youth learning the game of pickleball

gap between youth and seniors in Oro Valley. These included various visits to senior centers and sharing their stories.

The YAC already works with SCOV by offering knowledge in technology to the community. The group thought it would be a great opportunity to expand their relationships with the senior community by getting together with the SCOV Pickleball Club to learn more about the game and building relationships with each other. There were 15 youths who participated in the learning session on September 23. All seemed to enjoy the game and look forward to the next lesson.

SUN CITY HOUSING REPORT

Brenda's team was just fantastic: fast, effective, assertive. Some highlights are: 1) great advice on the price of the house; 2) defense of our interests as client; 3) Great marketing tools including appealing pictures of the house, continuous postings of the house in websites, handouts & flyers; 4) easy to reach by phone & email & rapid response times. It couldn't have been better. I am highly satisfied by the process & results. *Juan O., Home Seller*
