Just My Opinion

by Rocky Gedrose

We live in a wonderful community and are lucky to have everything we have, but that is just my opinion. There are over 100 various clubs. We have facilities for many activities, dancing, swimming, mini-golf, bocce ball, horseshoes, basketball, racquetball, pickleball, tennis, golf, etc. We can enjoy music at The Views Restaurant two or three nights a week, plus karaoke on Sundays. There are dozens of fitness classes every week. If you can't find something to do here, you just aren't looking.

Is everything here in SCOV perfect? No, but I believe if you focus on the positives in life, you will be much happier. If you are living here, chances are you previously had some success or good fortune. You have earned your retirement. Go out and enjoy life as much as you can, while you can. Find your passion, something that excites you. We all need a reason to get out of bed in the morning. Seize the day.

Understanding Your HOA: A Corporation and the Duties of the Board of Directors

Welcome to the latest edition of our HOA magazine, *Tipster*. In this article, I aim to shed light on an essential aspect of our community, the Sun City Oro Valley Community Association (HOA). Many of us are aware that the HOA serves as a governing body, but have you ever wondered about its legal structure and the responsibilities of the Board of Directors? Join me as we delve into the intricacies of the HOA as a corporation and explore the vital duties entrusted to the Board.

The HOA as a Corporation: Before we dive into the Board's responsibilities, let's understand the legal framework that underpins our community association. An HOA is typically established as a nonprofit corporation, which means it is a legal entity separate from its individual members. This corporate structure enables the HOA to own and manage common areas, enforce rules and regulations, collect dues, and maintain the overall well-being of the community.

Board of Directors' Duties: The Board of Directors plays a crucial role in upholding the mission and responsibilities of the HOA. Comprised of seven elected community members, the Board acts as the primary decision-making body, ensuring the Association's smooth operation. Here are some key duties of the Board: Rule and policy creation, financial management, maintenance and repairs, enforcement of regulations, community engagement and communication, and long-term planning.

As residents, it is important to understand that our HOA functions as a corporation, and the Board of Directors serves as its governing body. By familiarizing ourselves with the Board's duties, we can appreciate their vital role in ensuring the community's success and preserving our property values. Open communication and active engagement with the Board foster a sense of collective responsibility and contribute to a thriving neighborhood we can all be proud of. Let us work hand in hand to create a vibrant and harmonious community for years to come.

It's More Than Living... It's A Lifestyle!

So Much to See (and so little time)

by Marsha Dean

Many active adults look forward to retirement as a time to travel and enjoy new experiences. SCOV has two clubs that will help to address that need to explore: Day Trippers and Sundowners RV Club. Both clubs provide multiple opportunities during the year to learn about Tucson and the surrounding area with day trips close to home and overnight trips that explore a wider area with opportunities to see spectacular scenery, cultural experiences and enjoy getting away with friends.

The Day Trippers Club offers day and occasional multi-day trips in Arizona and surrounding states. Members also enjoy attending musical theatres as well as several parties each year with various themes and entertainment. Newcomers and established residents will find a relaxed and friendly venue and an opportunity to learn about the Southwest. There are often several trips planned per month.

St. George's Chapel is one of several chapels on the lush grounds of St. Anthony's Greek Orthodox monastery in Florence, AZ

The past year has included trips close to home to Sabino Canyon and the museum at the Pima County Courthouse. Just a few hours on a bus has taken the group to Tombstone, Chandler and Tubac. Day excursions always include lunch at a fun restaurant. Wine tasting trips to Sonoita are popular and made more fun by not having to drive. Another popular trip is to one of our area casinos with transportation, some free play and stipend toward lunch at the casino, all provided by the casino.

Visit page 26 for the club's upcoming trips, including an overnight trip to Cottonwood and Sedona, September 1-3.

Day Tripper Nancy Phillippi waits outside at the monastery. Women visitors are required to wear modest attire and scarves that cover their head and neck

The trip will include wine tastings in Old Town; Verde Canyon evening wine train; dinner and show at Blazin' M Ranch; Copper Museum; Montezuma Castle National Monument and buffet at Cliff Casino.

A number of SCOV residents own recreational vehicles (RV), and the Sundowners RV Club is a great opportunity to see even more of the Southwest. In addition to social events close to home such as the Chili Fest in November, there is also a cookout with overnight stay at Catalina State Park in April. Club members propose trip ideas which are then selected at a club meeting. Trips range between long and short distances. Experienced wagon masters from the club organize and lead the trips.

The Sundowners spring BBQ at Catalina State Park features live entertainment

A club social activity and/or trip is planned for each month, September to May. Recent trips have taken the group to Death Valley, CA; Kartchner Caverns, AZ and a swing through New Mexico and northern Arizona in May to the Very Large Array Radio Telescope Observatory near Socorro, NM, Chaco Canyon National Historic Park and the Petrified Forest in Arizona.

If you haven't experienced the fun and scenery of historic Route 66, be sure to join the Sundowners on their planned trip slated for October 30 through November 3. The Interstate Highway System made the famous Route 66 obsolete in the 1960s. The largest stretch that is still intact is in northern Arizona where many attractions seem frozen in time. Visit page 27 and the club's website to learn more about the club and their trips <https://sundownersrv-club.wildapricot.org>.

If you find yourself with a little bit of wanderlust, one of these SCOV clubs just may have the cure.

A Sundowners visit to Kartchner Caverns (above) included other attractions southeast of Tucson: Bisbee, Tombstone, Ramsey Canyon Nature Preserve and ghost towns

HOA Stats for Thought

The 2022 Homeowner Satisfaction Survey by Zogby Analytics for the Foundation for Community Association Research reported that there are 385,000 HOAs in the U.S., the value of homes in those HOAs is \$11 trillion and 29% of our population live in HOAs. It was found that 89% of the residents rate their overall experience to be positive. Members say that "absolutely" or "for the most part" their elected board members serve the best interest of the community. Acknowledging that we don't always get along, 68% felt the rules protect and enhance property values. When asked about managers, 74% felt their managers provided value and support to residents and their associations. The survey's comments about the best aspects of living in an HOA included safe, clean, attractive neighborhoods with protected property values.

These are nationwide statistics from those responding to Zogby's survey. For me, it is hard not to recognize what a special place SCOV is for its residents and for its employees. There is a community spirit that is kind and thoughtful, adventurous and soaks up the beauty that surrounds this desert mountain home. SCOV residents volunteer and make a difference not only in SCOV, but in our extended communities of Oro Valley and Tucson, and I am grateful to work for you and with this team.

Meet Two New Employees, Andrew and Cristy

Andrew Clark has joined the Administration staff as Technology Coordinator. A resident of SCOV, Andrew will manage technology matters here on campus and the SCOV side of the website. He's already been assisting committees with their Zoom needs, updating minutes/agendas, the bulletin board, event information and other items on the website. He assists with the computer needs of the Association and helps residents resolve challenges when engaging with our technology. Recently our website was maliciously attacked. As our web hosting company worked through the attack, the fix required all users of the "members only" portion of the site to reset their passwords (this happened twice). Andrew diligently worked with residents over a two-week period to help get their passwords reset and restore access to the members only side of the website. What an introduction to SCOV! Thank you to all who were so kind to him during this stressful time. Andrew loves everything Star Wars.

Cristy Lowing is really new, having just been here a couple of weeks by the time this article comes out. She is friendly, creative and helpful. When asked to describe herself in one word she said, "workhorse," which fits into the hard working administrative team just fine. She will be working with our Ambassador program, overseeing "This Week In SCOV," creating ads for our digital bulletin boards and working with the golf department on its website and communications. She is friendly and welcoming and will make a great first impression on our future SCOV residents.

As you interact with our staff, please know that customer service is our top priority. The administrative department's mission statement is to, "Value people as we facilitate a positive, healthy and active lifestyle!" Providing help and services to you is why we're here.

Lifestyle Coordinator - Brenda Puzzele-Stoltz

4. Roof lift and re-lay projects need an In-House Submittal approval prior to work being started on the roof.
5. Driveway coatings must be approved by the ARC prior to application of coating.
6. Submittal process: Go to www.suncityorovalley.com; sign in as a member (must have already created an account); go to Members > Member Services > For Your Home > What Do You Want To Do? This is a two-step process.
 - a. Your first step will be to identify your project. We will email you a plot plan, directions for the submittal and a link to the correct submittal form. These will be attachments to the email.
 - b. Once you receive the return email with plot plan, directions and correct submittal form, read the directions and click on the link to the form. Call Katy if you are having problems with this and she will help you complete the form, 520-917-8058.

Welcome monsoon season. We are continuing to add new items to the Library each week. Summer is a great time to catch up on reading and movies. The volunteers and I are working on labeling book series that are best read in order. Look for the numbered stickers on the spines of some of our community's favorite authors. "This Week In SCOV" will announce the date of our July summer monsoon book sale.

Recreation and Fitness - Lonnie Davis

ldavis@suncityorovalley.com 520-917-8073

Beginner's Guide to Exercise

A beginner's exercise program should incorporate aerobic activity with some muscle strengthening exercises. In general, I recommend aiming for at least 150 minutes a week of moderate-intensity aerobic activity. This can be split into small increments, even if it's just a few minutes at a time. So where do you start? You can start by simply taking a walk, going for a bike ride, swimming a lap in the pool or hopping on the elliptical. For muscle strengthening, you could start with light hand weights or body weight exercises such as push-ups, sit-ups, squats, lunges and planks. Something is better than nothing, so start slow and low and aim to gradually work up to your goals.

Before you reap the benefits of exercise and its positive effects on your attitude, you must first change your outlook on the importance of exercise. With physical activity being proven to improve your mental and emotional state as well as your physical well-being, there is no reason to not exercise. Remember, there is no right or wrong way to get started. Just get moving.

Special Note From the Aquatic and Fitness Center (AFC)

Orientation on how to use the gym equipment is held Thursday, 1 pm. Stop in and sign-up. Classes are limited. Contact Lonnie Davis, AFC Coordinator, to discuss questions or concerns regarding the AFC. Hours of operation for the AFC and Desert Oasis are on page 2.

Wednesday, July 12, the Desert Oasis pool will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Architectural Inspection Group

Conveyance Coordinator, Jack Mooney, 520-917-8087, scoroval@ciramail.com

As you know, the housing market has certainly changed during the past few months. There are more listings for buyers to look at, buyers are asking for more from sellers, and homes are staying on the market longer than before. To expedite matters during the sale, you might consider having a courtesy inspection completed before you list your home.

The courtesy inspection is optional, is done at your request, and looks at only the exterior of your home and grounds. The association inspector conducts the inspection and turns the findings over to you and only you see the violations found. This gives you the ability to decide what violations to correct before listing your home and before having to negotiate those with a potential buyer, which may add time and frustration during the sale and closing.

Keep in mind that you will still need to have either a listing or an escrow inspection completed before the close of escrow if you choose to do a courtesy inspection. To request any of our inspections, go to the SCOV Member web page, select Member Services, and then select the Sell Your Home icon and complete and submit the short form. Contact the Conveyance Coordinator for more information.

Architectural Review

Jim Cherry 612-805-5637 ARC@suncityorovalley.com
Zoom meetings Second and Fourth Tue., 2 pm

Most homeowners store their trash containers inside the garage. Over 100 homes have invested in an enclosure, however, a number of those enclosures are inadequate. A see-through gate, a one-sided wall, or a wall that is only three feet high does not work. Development Standards Section 2.5 is pretty clear: "All Trash Containers must be covered and stored on a lot not visible from Neighboring Property or the street." This Standard is backed by Master Declaration Section 4.9 which means the Standard has always been in place. An Architectural Review Committee from years back may have approved your building of a structure, however, it is unlikely they audited the structure you built. There are almost 5,000 trash containers in SCOV. If we wanted them to be seen all the time, there wouldn't be a Standard. Please be considerate of your neighbors and ensure that your enclosure is in compliance.

This enclosure keeps javelinas out and trash containers out of sight

Code of Conduct Review Board

Chair Marlene Branz, 618-670-1063 cconduct@suncityorovalley.com

The newly established Code of Conduct Review Board is now up and running under the leadership of Marlene Branz. What is the purpose of this board? If a resident files a Code of Conduct complaint, this board will investigate and make a recommendation to the Board of Directors of how the complaint should be resolved. This could include fines or loss of some or all membership services. Page 5 of the Owner and Resident Handbook outlines in general terms how residents and visitors are expected to behave. If you feel a resident or visitor has violated those standards, you can file a complaint. The complaint form can be found in the members section of the website under member services.

Ran Nathe (left) and Lori Nalewicki

Featured artists for July are Ran Nathe and Lori Nalewicki. Ran is a native of Seattle and has always loved wood, turning his first bowl from a block of mahogany in seventh grade. After retiring in 2010, Ran traveled before discovering our Wood Shop in 2016. His creations are made from American and exotic hardwoods. "My mind is always in the design stage thinking about the next creation. People ask, 'How long did it take you to make this?' I answer, 'A lifetime.'"

Lori has lived in SCOV for over 20 years and loves all types of arts and crafts. She loves working with clay. "I make wall hangings, wine holders, vases, luminaries and handmade tile pictures. Once in a while I will create a critter. I also play with watercolors, making greeting cards along with 5"x7" and 8"x10" matted prints copied from my original pieces."

During our summer monsoons, wind and rain can cause damage. After it rains, it is extremely important to drain any stagnant water where mosquitoes can breed. Check other items, buckets, empty flowerpots, and other containers to make sure they are not holding water.

Wind may cause damage to a neighbor's home that they can't see. Look for roof tiles that have shifted or blown off. Tree limbs or branches may be down in the yards. Try to

contact the owner, but if they are away, call the Administration office at 520-825-3711, as they may be able to contact the owner. Let's look out for each other. Thank you for helping keep SCOV beautiful.

For years, the flashing lights operated by the switch at our front doors allowed us to indicate we needed help. The Posse would contact the police if the lights were flashing and help would be sent. Things change, and we no longer respond to these lights. There are two main reasons. The first is infrequent usage and the number of false alarms reported. The second is the use of technology such as cell phones and life alert devices. Technology is a more accurate way to request assistance and is widely used. Homeowners can and are encouraged to disable the flashing feature.

Interested in volunteering or want information on the Posse? Call Linda Simón at 520-789-2769.

Properties

Chair Jack Evert jackevert439@gmail.com

Third Thu., 9 am, WC1 and via Zoom

Summer is here and residents find it advantageous to park in the shade provided by the solar panels in the parking lots at the Mountain Vista complex. During the past year, the Properties Committee submitted a proposal to the Board of Directors to furnish solar generated power to the AFC. This project would include additional covered/shaded parking near the AFC. Of course, the primary benefits of the project are reduced utility costs resulting in long term savings to the community and a reduction in the community's carbon footprint. The Board asked the Long Range Planning Committee to add the AFC solar project to the updated Development Plan Sequence.

The Properties Committee works on a variety of tasks like this during the year. The Committee is not meeting during the summer and will resume our meetings in September. Please see the calendar on the SCOV website for scheduled meeting dates and times.

We love the enthusiasm expressed by our *Tipster* article submitters, however, our Article Standards do not allow for the use of exclamation points. We spend a good bit of time each month removing them. It's not that we don't share your enthusiasm for your subject matter, but exclamation point overuse tends to take away from the occasional time when a topic has major significance and warrants special emphasis.

Director of Golf Maintenance - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

July is the traditional beginning of the monsoon season in Southern Arizona. In regard to Golf Course maintenance, the start of monsoons is bittersweet. The good news is the golf course will start to green up after the harsh dry weather of June due to the increased humidity combined with hot temperatures. However, the monsoons also bring the chance of heavy rain with the potential to cause serious damage to holes located near washes.

Several years ago, a thunderstorm generated a large amount of water north of Sun City, but no rain actually fell on the community. The golf course was crowded with many golfers who were unaware of the water running down the washes. Several groups were playing holes number 4 and 5 when the wash began to fill. Two golf carts then tried to cross the wash and got stuck. Luckily, nobody was hurt, but it took a couple of hours for the water to recede and get the carts off the golf course safely.

Please remember, when these washes are running, they are as powerful as raging rivers. Don't drive around the course and attempt to cross these washes when the cart path is covered with either water or sand. At the minimum, the golf cart will be stranded until the staff is able to rescue the cart. Be aware that during the monsoons, washes can flow whether it is raining nearby or in the distance, since we are at the bottom of the hill.

According to the National Hole-in-One Registry, the odds of an average golfer making a hole-in-one are 12,500 to 1. Our 18-Hole Men's Club members must be better than average, because we've celebrated four holes-in-one during Men's Club events in the last couple of months. Tom Blume and Darrell Martin both recorded aces in league play, and Dean Silverlock had two in a month. Congratulations to these three members. And for the rest of us, there is always hope.

In May, the Men's Club sent out a survey to get feedback and better understand our members' preferences. More than

half of our members participated in the survey and provided great insights and suggestions. We are evaluating the results and may be adjusting some of the scheduled formats in the future.

League members at the Hummingbird Tournament in Sierra Vista

Summer has arrived, so what does that mean for the league? Summer means maintenance crews are very active aerating and sanding the course, yet golf activities continue. Members may sign up for casual Tuesday golf.

Opportunities are also offered to play other courses. Members may enjoy planned play days at Gold Canyon, Sierra Vista or We-Ko-Pa, to name a few possibilities. Our league president, Pattie Shock, organizes these outings.

Summer also means travel. Our members are returning to Michigan, Wisconsin, California, Colorado, Alaska, Washington and Idaho. Road trips and boat trips abound. Kauai beaches and courses will be found. Some were even Denmark bound while others will be going to South Africa.

Summer is also the time for surgeries... new hips, knees, and backs. Here's to a full recovery for all and back to golf in the fall. We will have a lot to talk about when we gather for opening league day, November 7.

Imagine dozens of people queuing up for a brief look through a telescope. Until recently, the Astronomy Club relied on members bringing their own telescopes to the club's quarterly stargazing parties. This limited viewing access for both members and guests who did not have their own scopes.

To improve the viewing experience, the Astronomy Club requested and received a Foundation grant to purchase their own telescope, plus key accessories. The club's new telescope is controlled by software easily accessed from an iPad. When programmed, the scope can automatically locate a desired constellation, planet or star and project the image on a TV monitor. This enables many to see the same image at the same time, and for as long as they want. Since the club's new equipment debuted, stargazing parties truly have been heavenly.

Many people who join Clay Club express their long-held desire to learn throwing on the wheel. Currently the club has five wheels for members to use. Bill Snead, an eight year Clay Club member, is always willing and happy to teach members who would like to learn this craft. He has been creating beautiful thrown bowls for 14 years.

Having first studied the wheel in Virginia, Bill also took lessons while living in Redmond, Washington and Colorado. Big bowls and platters are his favorite. Bill says, "Throwing is extremely therapeutic. Centering the clay is a part of meditation." Bill is pictured throwing a seven pound bowl with speckled buff clay. This bowl, as with so many of Bill's bowls, will be a special gift.

Japanese flower arranging, ikebana, is the art of arranging flowers, branch materials, grasses and leaves. At its core is the beauty resulting from a combination of color, shapes and graceful lines. More than simple floral decoration, it is a form of sculpture with plant materials. Learn from certified instructors at your own pace and make creative arrangements for your home.

If you have a knit or crochet project, or would like to learn, come join us. An ongoing group project is making crocheted mats out of plastic shopping bags. You can participate in this project by cutting the bags into strips, stringing the strips into plastic yarn (plarn) and/or crocheting them into mats.

If you wish to donate bags, flatten clean Fry's, Safeway or Walmart bags and stack them by color. You can then fold all the stacks over into one; no need to fasten them together. This effort on your part greatly streamlines the cutting and crochet process. Do not include newspaper bags as they do not work for this project. Bags can be dropped into a basket on Jane Fairchild's front porch any time at 1750 E. Crown Ridge Way.

The iceberg was simulated in CAD to the size and scale of the original fatal iceberg using photographs and data collected by another ship. You don't need paint and artist brushes, clay to mold, or stone to sculpt. With the power of your camera, you are still able to create. Capture more compelling images. Capture photos closer to your vision. No expensive camera is required, many of our best photos come from cell phone cameras. Consider joining us this fall to learn how to take better photos.

Sculpture

Dale Foster 520-825-0707 fosterdale1248@gmail.com
Mon., 9 am-5 pm, Catalina Vista/Art Studio

The Sculpture Club meets on Mondays in Catalina Vista/Art Studio. If you are interested in becoming a member or learning more about our club, stop in or contact Dale Foster. Our sculpture pieces are in the glass case and window inside Catalina Vista, a showcase outside of the Library and inside the Library.

The picture is a project that was recently completed by Janet Szumlas. Her troll is a good example of using other objects to enhance and finish a sculpture piece. Janet has her troll sitting on a rock with a piece of wood for his walking stick. She also found some black fuzzy material which she used for his mop on top. It is not unusual for sculpture members to enhance pieces with

materials other than polymer clay. Currently, Gayle Franklin is finishing a sculpture where she uses seed beads as an embellishment.

Business meeting, first Thu., 8-9 am, Catalina Vista; no meetings May-Sep.
SFK is a 501(c)(3) tax-exempt organization

Seniors for Kids is continuing to store away our items scheduled for holiday gifting and the closet is filling. We made a delivery to Three Points for the summer and the items were well-received; the ladies were excited about the many items we delivered. We will make our monetary donations to the Tri-Community Food Bank and Tu Nidito next month.

If anyone is interested in working with the Sewing Room groups, we meet Monday afternoons from 1-3 pm, and Wednesday mornings from 9 am-noon. There are always items to be sewn, knitted, crocheted, stuffed, cut and designed, and there is plenty of material to work with. Just walk in the door and we will find you something to do.

There are also ideas in the Wood Shop. Stop by the shop and speak with Karen Curry or Bill Norton to see if you can help in making cars, trains, cradles, boxes or whatever you think might light up the eyes of a child. Wooden toys are in great demand for holiday gifting.

Have a wonderful summer and remember that fall is just around the corner.

Room Orientation and Pfaff Training Lesley Monroe 509-947-5669

It is quieter now in the Sewing Room as some clubs take a break and return in the fall. It might be time to consider getting trained to be a monitor. Contact Chris Ludwig.

It is also a good time to be reminded that everyone using the room during this time:

- Must be an HOA resident or have renter status and be current on dues: \$5/year.
- Must have a monitor present when using the room. You can check ahead at www.signup.com.
- Must have had room orientation and training on the machine you wish to use. If either is needed, please call Leslie Monroe 509-947-5669 for Pfaff machines or see Sue Lane for serger machine training.

The requirements are in place to keep everyone safe and protect our SCOV club status. Enjoy the season and have a wonderful summer.

Those of us who are in the Sewing Room during the summer months are few but mighty. The needs of the community do not stop. We work in the cool, air-conditioned comfort of our room in the Artisan Center. If you would like to donate, we still need used sheets in reasonable condition that haven't been used to cover cacti. The need for remade crib sheets and twin fitted sheets from used sheets remains high. Thank you to those who have donated fabric and sheets to our many causes.

Cheer Bears

Pat Norton 480-993-8762 panpan9803@yahoo.com
Wed., 1-3 pm, Artisan Center/Sewing

The troops are rolling along this summer, meeting weekly from 1-3 pm in the Sewing Room and continuing to keep our bears marching out the door. There are fewer of us than in the winter, but we still enjoy the friendship and talk that fills our bears with the love and kindness to be spread to the many who receive them.

We, as always, welcome any donations of Poly-fil stuffing and flannel that you may have in your stash for making our bears. Please feel free to stop by the Sewing Room and join us on Wednesday afternoons. Many hands make the work an easy and enjoyable task. Hope to see you soon.

Can you snip fabric into tiny pieces? Our little furry friends down at the Humane Society need an extra touch of kindness while waiting for adoption, so we create soft, comfy beds from fabric sewing scraps. I was told that they will accept towels and washrags also, so clean out your linen closet. We invite you to join us for a laid back afternoon (only two hours). If you are interested, come join us at 1 pm, Tuesday afternoons. Call Jan if you have questions.

Tapestry Hooking and Fiber Arts

The Tapestry Hooking and Fiber Arts group meets on Tuesday mornings in the Sewing Room. If you are interested in our group, stop by between 9-11 am. The group provides materials and instruction for persons interested in learning hooking. Those involved in other arts using fiber are invited and encouraged to join our group.

Last month's article featured dry felted pieces by Carol Sallmann. The pictures above are of Andrea Lombardo's recently completed project where she used the technique of wet felting. Andrea is using soap and water to make felt out of wool fibers. The combination of hot water and soap changes the pH of the wool, which allows the wool fibers to open. As the fibers are agitated with the friction of her hands, the fibers lock together with a result of felt material. This bowl is just one of many projects that can be made with wet felting.

Silversmith and Lapidary

Pres. Rich Rozehnal 520-638-6368 rozehnal@comcast.net
 Summer shop hours: Mon.-Fri., 9 am-noon, Artisan Center/Lapidary Room

Bolo ties are widely associated with western wear. Arizona declared the bolo tie as the official state neckwear in 1971. New Mexico followed suit 34 years later, and soon after, Texas named the bolo as their official tie. Bolos have been part of Hopi, Navajo and Zuni Pueblo silversmithing for many years. Many of our SCOV residents have enjoyed adding a bolo tie as an accessory to their wardrobe. After refining their skills in creating pendants, rings, earrings and bracelets, several of our club members have fabricated bolo ties in the tradition of the Native American artisans. Some are on display in the windows at the Artisan Center.

SCOV residents interested in joining our club should visit the shop and speak to the monitor about training. New

member training is held monthly on the second Tuesday and Wednesday.

Living in South Carolina and working with sea turtles were the inspiration behind Ed Caine's amazing creation

If you have attended one of Ed Caine's stained glass classes, consider yourself fortunate. After working with stained glass for over 40 years, he possesses extensive knowledge. Ed compares working with stained glass to engineering, precisely fitting pieces of glass together. He loves

teaching techniques involved in the process. As you enter his residence, you can't help but admire the many gorgeous pieces he has created. Besides being a first-class glass artist, Ed spends lots of time cooking, particularly smoking barbecue. He also has a passion for photography and is the current president of the Vistoso Photo Club. He enjoys retirement, his favorite activity being traveling with his wife, Joan. Please visit us; you may discover the creativity you have been looking for.

VP Maryfaith Fox 612-414-7789 maryfaith.fox@gmail.com
Oct.-Apr., First and Third Wed., 2 pm, Catalina Vista/Mt. Lemmon

We will return to the pleasure of stimulating discussions in October. Social science research has shown that those who engage in substantial conversations report relatively high levels of satisfaction with life. We find that, even if we come to no definitive conclusions about the material we've read, we leave each meeting feeling that we have grown through the experience of thinking hard and sharing our ideas.

When we resume in the fall, we will be basing our discussions on selections from "Great Conversations 4."

Not So Silent Book Club

Joan Partridge 505-920-7005 joanpartridge@gmail.com (text or email preferred)
Second Sun., 2:30-4 pm, Desert Oasis/Ocotillo

The SCOV Not So Silent Book Club is growing. We hope you will join us on the second Sunday of the month, 2:30-4 pm, Desert Oasis. We bring a book we have been reading: fiction, non-fiction, a heavy tome or bodice ripper, whatever, and maybe snacks or drinks to share. (It was popcorn and Fever-Tree ginger beer in April.) We go around the room: did we love our book, give up on keeping track of the characters, guess the murderer halfway through? You may hear about a book you really would like to read or discover a genre you never thought of trying. Sometimes we give away or loan books, too. Come celebrate your love of reading with us.

Looking for a cool option to the heat of summer? Join the Genealogy Club and spend a few hours a week researching those illusive ancestors at the Genealogy Lab located in the Welcome Center. We have seven computers and lots of subscription-based websites to assist you with your research.

We are continuing our regular meeting schedule over the summer as an opportunity for us to gather together, share our questions, quandaries, quarry hunts, quick tricks, quantum leaps, quizzes and more. Our topic for the Tuesday, July 11, discussion is "Sharing Your Favorite Methods, Tips, and Resources." Whether you're a total novice or have been researching for years, come to get or give advice to each other while connecting with other members. If you aren't already a member, you are welcome to come to check us out.

Poets Corner

Sharyn Rafieyan 520-331-1092 srafieyan@comcast.net
Mon., 10 am-noon, Zoom

Poets Corner members enjoy an in-person luncheon at The Views Restaurant after months of only Zooming. What a treat

Aging, if we're lucky, is a wonderful stage in life, when we get to play the roles we choose and act in a way we think will make us happy. Elise Asch, long-time Poets Corner member, longer than the others can claim to remember, takes the news of a heart beating problem in her stride, or on her ride, with her usual fighting spirit and wicked wit:

Time on the Treadmill

When you look into my heart
at the start you see it pumping love
but along the inner chambers
lurk hidden dangers
from above

ill winds that can latch on to my breath
and if not careful may cause death
but even if the air is still
I think it time to write my will.

Poetry is a wonderful way to share the way we feel, examine our emotions and, maybe, solve our problems. Join us for our weekly Zoom with a poem you'd like to share and have critiqued.

Now that the monsoon season is here, many SCOV clubs pause meetings and many of the SCOV committees also go on hiatus. To some point, the SCOV Technology Club is no different. However, we will still be teaching various classes this summer, so keep an eye on our summer teaching schedule. Generally, at this time of year, our classes are not as crowded as they would be during the winter high season. That results in the possibility of almost individual, student-to-instructor attention. What a wonderful opportunity for our Technology Club summer residents. However, our instructors are asking a favor in return. If you want to attend a class, please notify the instructor if requested. If you require one-on-one help, please attend our general Apple, Windows or Android help sessions or call our help desk

Summer is a great time to learn what nature has to teach us and appreciate the bounty around us every day. Remember to stop and smell the flowers and be grateful and curious.

Sun City Gleaners

Joan Partridge 505-920-7005 joanpartridge@gmail.com (text or email preferred)

We had a marvelous pick of citrus this spring. There were many appreciative SCOV residents who enjoyed the bounty the Sun City Gleaners shared with everyone. What is ripe now? Even if you are a seasonal resident, the Gleaners would love to harvest your figs or other edibles you may have growing in your yard. We will make sure to share what we pick with your neighbors. Please don't let your summer fruit fall on the ground and rot.

Please join us on Saturday, July 22, 6 pm, Activity Center/ Native American rooms for our Summer Movie Night. We will see the movie *iMordechai*, starring Judd Hirsch and Carol Kane. Snacks will be provided.

Mindfulness Meditation Club

Bonnie Grant Baird BJGrant877@gmail.com

Loving-Kindness Meditation (Mindfulness) meets every Tuesday at 3 pm. Meditation connects the mind and the body. Scientific research has demonstrated that meditation may reduce stress, lower the risk of heart attack, improve concentration and memory, and increase empathy.

Our meditation supports no creed or dogma. It is not affiliated with any religious doctrine. People from all religious traditions are welcomed. We encourage anyone regardless of meditation experience to join us.

Our summer schedule consists of 10-15 minutes of introduction and/or a reading, then one 30-minute sitting meditation. If you have questions, please contact Bonnie Grant Baird.

Fun summer brunch

The Prepare & Share Club provides an enjoyable evening getting to know some of your SCOV neighbors who enjoy cooking and eating interesting food. From December through March, themed dinners take place in members' homes. Since everyone brings part of the meal, it is not a huge effort for the hosts. We're looking forward to our 2023-2024 season beginning in November. In the meantime, watch your email inbox for events taking place this summer. The answer is a firm yes. Additional benefits include improved balance, muscle tone, stamina and a feeling of well-being. Summer heat slows everything down a little. I tend to hibernate in the house on those long lazy afternoons. Sometimes I get to thinking about this year's Maj card. There are some unique uses of the Dragons. How many hands require stand-alone Dragons? How many hands have at least one set of four Dragons? And how about those Dragons that come in threes?

I guess that's enough thinking for one afternoon. Tomorrow I may focus on the use of Flowers. Fortunately, Thursday is just around the corner. Join our group for a stimulating Maj afternoon. New players are always welcome.

Scrabble

Jan Fischer 520-825-2401 fischer_janice@comcast.net
Fri., 1-3 pm, Desert Oasis

People seem to think that the game of Scrabble is difficult or hard since it deals with spelling. Maybe this article will give you a new perspective to a game that millions of people around the world play every day. An example of words that can be made from tiles that comprise the game of Scrabble, is the word "coffee." Does anyone ever think how many letters are in words we write or speak each day? A Scrabble game has two Cs, nine Os, and 12 Es, so there are plenty of chances to spell the word "coffee." Thousands of people around the world do crossword puzzles every day and many of them also play Scrabble.

The SCOV Scrabble Club has been around since the early days of our community, and so far has survived a pandemic and many long, hot summers. We are a small group trying to get more of our residents to drop in and give Scrabble a try. We welcome anyone and everyone to visit.

Cycling renews us. Getting outside in the clean air, taking in the incredible mountain views and biking with friends are some of the reasons we choose to live here. Oro Valley is one of the greatest biking destinations in the country. Wide streets, gorgeous bike paths, clean air and desert beauty draw cyclists from all over the country.

Cycling here is a dream come true for members of the Sun City Vistoso Cycling Club (VCC). With over 250 members and organized group rides four days per week, there's a ride for everyone.

We support three local charitable organizations: Wheels for Kids, El Grupo and the Interfaith Community Food Bank. VCC volunteers build or repair and deliver over 400 bikes to kids in the Tucson area every year through the Wheels for Kids (WFK) program. WFK's 40 volunteers have delivered over 4,600 bikes to charities such as Boys and Girls Club, Casa de los Niños and More Than a Bed. New volunteers are welcome.

Barn swallows are said to be found in more places on earth than any other bird species. While there are six species of swallows that call Arizona home, the colorful barn swallow is the most common here in SCOV. They particularly like to build their mud nests under structures during May and June. The restrooms by the pickleball courts are a favored spot. Want to learn more?

Male barn swallow

We are a 110-plus member, activity-oriented group and all SCOV residents are invited to join us on our field trips to learn more about the birds here in Arizona (we carpool). If you are interested in joining us, ask Peggy Smith to add you to our mailing list so we can keep you up-to-date on the trips, which tend to be ad hoc as the monsoons approach and we enter our summer hiatus.

Pickleball

Pres. Michael Voellinger eer26003@gmail.com
VP-Orientation Linda Dolsberry ldolsberry@gmail.com
Registration can be found on the website: www.scovpb.org

This past spring, a group of women in the Pickleball Club formed a team, named the Dinking Buddies, and registered to compete in the Arizona Pickleball Players League (APPL). Weekly competitions were held against teams from around the Southern Arizona region, and the Dinking Buddies made it to the regional play-offs. Quite an accomplishment for their first year. It was enjoyable, exciting and successful. They continue to practice and plan to embark upon a second season of APPL play next spring.

The Dinking Buddies competed in the Arizona Pickleball Players League (APPL)

You must be a member of the Pickleball Club to participate in club activities. Club registration is on the SCOV PB website. Zero zero two.

Tue., Thu., Sat., 7-9 am, Desert Oasis

It's a well-known fact that you should never bet on the weather, but in Arizona you can bet that July will be a hot month. With a little luck, the temperature will be moderated by some cooling monsoon rains. Between those rainstorms be sure to get out on the courts to play some POP Tennis, share some laughs and burn some calories. It's a great way to start your day. We'll see you out on the courts.

The stance is casual, but the sideline shot will be lethal

Welcome club member Gary to our group. Our coffee gatherings at The Bistro are still ongoing after we play. We wish Larry and Mike speedy recoveries and look forward to their return to the court. We shall find out whether the cane or the walker will win the race in the fall.

Think about having fun on a July afternoon, away from the outdoor heat. Come to Table Tennis (aka ping pong) and in the cool comfort of Catalina Vista, you can find easy activity or vigorous competition. You can exercise eye-hand coordination, motor speed and concentration in an atmosphere of fun and friendship. All are welcome, whether you have never played or have super skills. Club paddles and balls are waiting for you; just remember to wear good sport shoes. You will usually find friendly club members playing in the first hours of each session. If you are inviting a gaggle of family and friends, you may like the later hours.

Meetings second Mon., 9 am, Catalina Vista

Our next meeting will be Monday, October 9, 9 am, Catalina Vista. If you are a newcomer to SCOV and have an RV, please join us as a guest.

During the October meeting, plans will be finalized for the Route 66 trip slated for October 30 through November 3. Space is still available for this trip. Please sign up online during the summer.

In May 2023, seven club RVs toured New Mexico, visiting the Very Large Array Radio Telescope Observatory, Chaco Canyon National Historic Park and the Petrified Forest in Arizona. The 1,000-mile trip included a stop in Socorro, NM, home to New Mexico Tech University. The University was hosting Cinco de Mayo Taco & Tequila Night, which the club members attended and greatly enjoyed.

Club member, Warren Ellis, was the winner of the Taco & Tequila Beer Bottle Cap Bingo contest by filling his card before all other players. The event coordinator is presenting a coveted New Mexico Tech t-shirt
