What I've Learned After 10 Months on the Board

by Allan Mashburn

Kathy and I have a wonderful time living in SCOV. We have met many wonderful people and experienced their hospitality and warmth. Between the two of us, we are members of and serve in a number of capacities for various clubs. We are busy and having fun and have been doing this for seven winter seasons.

In addition, I have served on the SCOV Board for the past 10 months. The clubs and Board have a lot in common. They exist so that we, the residents of SCOV, can have enjoyment, a sense of purpose and commonality.

To make all of this work, it takes people. I am amazed at the quality of people in our community and the willingness that they have to provide their time, knowledge, experience and abilities to make our community function now and in planning for the future.

Like any community, we don't always agree with each other. We are rarely like a team of horses that pull the wagon in a common direction. There are those that envision a different path. And we, as a community, need to listen to them, because we don't have all the answers, and there is a lot still to learn. It is incumbent on all of us to be approachable and listen with a sense of openness. As Stephen Covey once said, "The biggest communication problem is we do not listen to understand, we listen to reply."

While Kathy and I owned our bookstore we always stocked Robert Fulghum's *All I Really Need to Know I Learned in Kindergarten*. If you haven't read it in a while, it's worth reviewing. There are lessons that we learned early in life that are important throughout life. As Robert Fulghum said: "Think what a better world it would be if we all—the whole world—had cookies and milk about three o'clock every afternoon and then lay down... for a nap... And it is still true, no matter how old you are—when you go out into the world, it is best to hold hands and stick together."

Support Our Board Members

In the arena of community management, we see many different types of people. That is neither good nor bad, just different.

The past couple of years we have watched the world change. It is no longer strange to see a person wearing a mask in a bank. We no longer have shelves completely stocked in the grocery store. The cheapest piece of 2x4x8 foot framing lumber I could find is now \$6.25 compared with \$.98 a few short years ago. People have gone from being so concerned with Covid that they worked from home and rarely went out, to going back out on a regular basis even though the nightly news reports increasing amounts of Covid cases and deaths.

Yep, it is different.

In these difficult times, I am thankful for those who choose to be different by stepping up to the plate and running for the Board of Directors. These people are like firefighters who run into the burning building. Board members are loved, hated, ignored, chastised and supported. They make the difficult decisions that guide our community in the best of times and the worst of times. They go through the fires and emerge a shining example of different.

Our Board members only want what is best for the community. Sometimes the road of what is best is easily determined, while other times, navigating that road is like driving through a blizzard in whiteout conditions. It can be slow going. The driver's hands hold tight to the steering wheel and show white knuckles, their grip is so tight. In our HOA the stress caused by many situations leaves our Board of Directors with white knuckles, as it were.

Despite all of this, they don't run away, they hold fast and lead with noble hearts. Yes, they are different.

May I encourage everyone in our community to be supportive of one another and especially of our Board and those running for the Board. After all, they are different in a very good way.

It's More Than Living... It's A Lifestyle!

Benefits of Living Next to a College Town

by Marsha Dean

One doesn't have to be in Oro Valley for very long before they realize that our neighbor, Tucson, is a college town. The University of Arizona (UArizona) plays a major role in the culture, economy and the very fabric of the area. We thought we would take a minute to talk about the many benefits that SCOV residents can derive by living a short 40 minutes from the UArizona main campus.

Opportunities to explore the arts are endless. Under the umbrella of Arizona Arts, you can experience music, theatre, visual arts, dance and film (www.arts.arizona.edu). You can take in a play at the Repertory Theatre, film screening events or a concert or recital at the Fred Fox School of Music. Graduate recitals offer a chance to see and hear some of the finest talent in areas ranging from jazz to vocal performance.

Visual arts are represented by student exhibitions, the University of Arizona Museum of Art with its rotating exhibitions and fine permanent collection, and a true gem, the Center for Creative Photography, where you can view works of world renowned photographers.

For life-long learners, UArizona is a natural place to connect. Many colleges offer outreach programs designed specifically for non-degree seeking students, often taught by highly regarded faculty members. The College of Social & Behavioral Sciences holds a Downtown Lecture Series that many may find interesting. Their Community Classroom offers courses for those who want to delve deeply into a variety of topics (www.communityclassroom.arizona.edu). The College of Humanities is another great source of learning with its Humanities Seminars: learn more about everything from Broadway shows to Jane Austen to astronomy or architecture (www.hsp.arizona.edu).

UArizona's Osher Lifelong Learning Institute (OLLI-UA) has options for in-class as well as online courses. A membership fee gives you access to register for courses. Peruse the catalog or watch an overview video to see if you find something that interests you (www.lli.arizona.edu). A number of interesting field trips are also offered. Some courses are held at Pima Community College's northwest campus which is closer to SCOV than the main UArizona campus.

Many of UArizona's lifelong learning programs fill quickly, so consider signing up for email notifications to help you plan and register as soon as the courses open.

If you haven't yet visited the beautiful campus or are looking for some things to do on a nice day, start at the Visitor Center where you can get maps and learn more about the university.

If you have a grandchild who may be considering attending UArizona, reserve an Ambassador Tour, where a student will show them the campus and provide an insider's perspective about campus life (www.visitorcenter.arizona.edu).

Besides the museums noted above, other on-campus places to visit include the Flandrau Science Center and Planetarium where there are informative exhibits and shows (www.flandrau.org). The Arizona State Museum is located near

the main entrance to campus and is well-known for its collection of Native American artifacts, particularly pottery (www.statemuseum.arizona.edu). It is the largest anthropological research museum in the Southwest.

For an off-the-beaten-path experience, visit the Tree-Ring Lab and learn about UArizona's role in establishing dendrochronology as an area of research (www.ltr.arizona.edu).

For you book lovers, the Tucson Festival of Books returns this year, March 12 and 13. It's one of the largest book fairs

in the U.S. and a wonderful opportunity to experience books, authors and the UArizona campus. The Friends of the Library are providing a bus on March 13, a great way to avoid looking for a place to park. See page 8.

And did we mention sports? UArizona is home to many top-notch athletic programs. Probably the best known are men's and women's basketball, which pack McKale Center. Tickets for both programs are available this year, but sellouts are likely in future years as the programs grow in prestige.

You can enjoy a closer-to-home version of spring training by attending UArizona baseball or softball games. Both programs have several national championships in their histories and have new head coaches this year. Put

on a hat and sunscreen, and go to a game. Wildcat athletic events are fun and the student athletes enjoy the community support they receive. Proclaim your allegiance by donning some cardinal and navy attire with the distinctive "A" logo.

Football at UArizona is in a rebuilding phase, but there's nothing like a college football game in the fall. You can enjoy an afternoon or evening game at Arizona Stadium, and with the mild Tucson weather, the most you'll need is a light jacket.

The University of Arizona is a public land-grant research university. SCOV benefits directly from campus outreach: the Garden Club frequently connects with the Extension program's Master Gardeners, and the Astronomy Club frequently hosts professors and researchers from the Department of Astronomy. There is so much to see and learn; make the most of college town life.

Old Main is at the heart of the UArizona campus

Check the Website - Hot Topics

The Hot Topics web page will be mentioned many times this month, because it's where you can find information about what's "hot" in SCOV. Even though it's February, there are a lot of hot topics out there. Hot Topics can be found on the home page in the top navigational bar. From Hot Topics, there is a Vote 2022 web page, where information can be found about the candidates and the voting process. There is also a page about the Activity Center Remodel with updates from the Board president, overview drawings on the project and a place to ask questions. Also in Hot Topics, you can ask questions about the community. More people are using this section this year to get information about what's hot in SCOV and staying informed.

Program/Facilities Director - Pam Sarpalius

I Wish I Had a Crystal Ball

Club meetings, planned dinners, other events all keep changing or being canceled due to Covid. I am asked, "Do you think we can have our event next month?" Sadly, my reply is, "I don't know what protocol will be tomorrow." Between Covid and the Activity Center renovation, changes seem to happen almost daily. I know the patience of many is wearing thin, and we all want to get back to being more active. I ask for everyone to please keep up-to-date on everything by reading "This Week In SCOV" and the *Tipster*. If you aren't currently receiving news emails from SCOV, now is a good time to sign up, and you can choose the information you want to receive. Go to www.suncityorovalley.com/news-info/e-news-sign-up/ and select the lists from which you want to receive SCOV news.

Time to Be Proactive

Most all of you were witness to the numerous weeds that appeared in many of our yards this last late summer and early fall.

Some of you who were located in other parts of the country at the time were sent Courtesy Notices that action needed to be taken to remove weeds. Because you weren't here, you had no idea how prolific the weeds were.

This is a reminder to get ahead of the problem so that our community this year will not be inundated by those pesky and unwanted weeds and grasses. Please contact your landscaper and make arrangements to apply pre-emergent now. The next few weeks are a window of opportunity to stop the weeds in their tracks.

Volunteers worked to rearrange Library books in January

If you have not been in the Library recently, please stop by and see our new arrangement. All new books, regular and large print, are now in the front of the Library. Non-fiction books are along the back wall. The Library volunteers will happily help you find your favorite authors and books in their new location.

The Library is extremely appreciative of two large DVD donations we recently received. We now have all five sets of the *Star Trek* TV series: *Voyager*, *Deep Space Nine*, *The Next Generation*, *Enterprise* and the original *Star Trek* program. These are on the shelf ready for checkout. Several movies in DVD format are on order and will be available soon. Thank you for these generous donations. (Continued on page 7)

There are some great new titles coming this spring. These will be highlighted in "This Week in SCOV" as soon as they are available.

Recreation and Fitness - Lonnie Davis

ldavis@suncityorovalley.com 520-917-8073

Shorten Your Workouts

A lack of time is one of the main reasons for not sticking with exercise. A growing body of research suggests that so-called high-intensity interval training, or HIIT, can greatly reduce the amount of time you need to exercise while producing benefits that are the same as—or even greater than—what you get from conventional moderate-intensity cardio workouts. HIIT involves going hard for, say, 30 seconds, then easy, hard, then easy, and so on—as opposed to exercising at the same intensity for 30 minutes or more. A wide array of exercises, from walking to biking, can be adapted to HIIT. Studies show as little as 10 minutes of HIIT (including rest intervals) can be beneficial, so if that's all the time you have, lace up your sneakers and go. The decreased time commitment, along with the fact that breaking up exercise into intervals can make it less boring, increases the odds that you'll keep at it.

Special Note From the Aquatic and Fitness Center (AFC)

Contact Lonnie Davis, AFC Coordinator, to discuss questions or concerns with the AFC. Hours of operation for the AFC and Desert Oasis are on page 2.

Tuesday, February 8, the AFC pool and spa will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Wednesday, February 9, the Desert Oasis pool will be closed for cleaning and shock treatment and reopen the following morning at the regular time.

Republic Services

scov@republicservices.com
www.suncityorovalley.com/members/services/trash

All SCOV trash and recycle pickups take place on Monday. Don't forget: Republic Services picks up between 6 AM and 6 PM on Mondays. You must have your trash and recycle bins out at 6 AM or you risk a missed pickup.

SCOV has a dedicated customer service representative with Republic Services. Many of you are aware of the labor challenges the country is currently experiencing, and Republic Services highly encourages residents to email any service issues, rather than telephone, in order to receive the best service. Our representative can be reached at scov@republicservices.com. This email is listed on the Republic magnet you received in your annual dues mailing.

Visit our web page where you can find the following information:

1) Recycling: View a video and web page on what Republic accepts in their recycling bins. Glass is accepted for recycling.

2) Holiday schedule: Check when you need to shift setting your bins out due to a holiday.

3) Report a problem: Missed pickup? Bin damaged? Click the Report Missed Pickup tab, fill out our form and Republic will receive a copy.

Architectural Review

Kris Ahlstrand 510-693-5502 ARC@suncityorovalley.com

Zoom meetings Second and Fourth Tue., 2 PM

Over the past year, the Architectural Review Committee has received a large number of applications to modify or add walls or fences. When contemplating such a modification to your property, it will be helpful to review the governing documents. For your convenience, the following are excerpts of what our governing documents state about walls.

Master Declaration, Section 4.19 (5th Amended)

Development Standards, Section 2.3 (c)

"Rear yard, side yard, patio and Courtyard Wall surfaces shall be masonry or stucco. Wall surfaces shall be finished on both sides by the property Owner erecting the Wall. Wall materials shall reflect the character of the home and subdivision.

Maximum height shall be measured from the finished grade of the Lot on which the Wall is built (not including Landscaping material) and shall not exceed 3'6" in the Front Yard within 20' of the front property line or 6' in other areas.

No Wall of any nature of height greater than 5' shall be built within a distance of 15' of the rear property line of a lot bordering the Golf Course."

These are just a few of the requirements to get you started. Consult the online governing documents on our SCOV web page under Members > Documents > Master Declaration > Development Standards. For questions, please contact us at arc@suncityorovalley.com.

Community Directory

Chair Lisa Collins 812-344-4773 scov.community.directory@gmail.com
www.scovaz.com/members/services/directory

The SCOV community directory is completely separate from the administration's HOA database. Here are four ways the SCOV community directory is used.

1. Paper phone book: Includes names, addresses, phones, occupations, and hometowns. Omits emails, units, and lots. Residents are listed by name, street and hometown. Updated annually.

2. Online directory: Located in the nonpublic area of the SCOV website. Includes emails, units, and lots, plus incremental search. Updated monthly.

3. Posse: Gets an updated phone list each month. You can be unlisted in the directory but still provide your phone number for just the Posse.

4. Party planners: Can request contact information for all listed residents in their unit, state, etc.

New owners are unlisted by default. To be listed in the directory, the preferred method is to complete the online form "Change your directory listing." Otherwise, you can fill out an orange card at the Welcome Center.

Consumer Referral - Vendor List

Susanna Moran scovconsumerservices@gmail.com

The Vendor List is on the SCOV website. After logging in, go to Members > Member Services > Consumer Referral Vendor List.

The Vendor List may also be viewed at the monitor's desk at Catalina Vista during business hours (during Activity Center renovation). Please check the Vendor List often, as changes are made frequently.

Vendors should email Susanna Moran to inquire about applying to be on the Vendor List.

Ballots and Forums

On Tuesday, February 15, a ballot will be either emailed or USPS mailed to homeowners. If you have not already done so, create a contact for Vote-Now using the email address (elections@vote-now.com) so that when the online ballot is sent, your email provider will recognize the sender and you will receive the email. If you do not receive the email, call the Administration Office 520-917-8082 for assistance. If you lose your email or want a paper ballot, the Administration Office can help with that as well.

You will be voting to fill two three-year positions on the Board of Directors. At the time this article was submitted, there were no initiatives on which you will be voting.

Biographical flyers are inserted into this *Tipster* for each candidate and also on VOTE 2022. This is a good tool to get to know the candidates a little better. If you have additional questions, they will provide their contact information.

Board Candidate Forums are Monday, February 7, 9 AM and 6 PM, on Zoom. Videos of the forums will be posted on the VOTE 2022 web page and you will receive an email with a link for easy access. Mark your calendar now.

Joan Caine, Pat Norton and Bill Norton

February featured artists are Joan Caine, and husband and wife team, Bill and Pat Norton.

Each of Joan's glass pieces is unique. She creates fused glass plates, bowls and vases of various sizes, shapes and

colors, as well as decorative or display pieces. She loves experimenting with techniques that result in one-of-a-kind glass pieces.

Bill taught shop at junior high, high school and junior college levels. Upon retirement, he became intrigued with wood turning and free-form carving. His top goal is never to have two projects that look the same.

Pat, better half of Bill, adds ruffle scarves, baby cocoons, hats and bootie sets to the shop. It is a new experience for her to sell her items because she has always donated her creations. Now, for every cocoon set she sells, she donates another to Seniors for Kids.

The Loan Room is a free service to all SCOV residents. It is located at the end of the Cart Barn and is open Tuesdays and Thursdays, 8-9 AM. Reservations may be made up to two months before an item is needed, but walk-ins are also welcome. We have recently purchased a few new tri-fold mattresses as these have proven to be very popular. Recently we were given a new-to-us rocking horse toy (pictured), which we expect to be in high demand. We recommend reservations for one-of-a-kind toys. Most medical items are available at all times, although we are currently running low on rolling knee walkers. We do not carry tools of any kind. Please feel free to visit us when we are open to see what we have or check out the website. Thank you for your continued support of this program.

Did We Get Our Winter Rains?

Our rains in the past couple of months are mainly the cause of all the unwanted growth in our yards: weeds and grass. Putting pre-emergence down in your yard will save you from having so many weeds appear later, and it is well worth the cost and time to do it. If you choose not to use pre-emergence, you need your yard maintained monthly during the summer growing season. Even with pre-emergence, yards need to be cared for, at least every other month. If you leave our community for cooler climates for a few months each year, it's not too soon to line up a landscaper to take care of your yard while you're away. We live in the desert, but grass, weeds, bushes and trees grow profusely during our summer monsoon season, and do need attention. Rain brings growth, summer and winter.

Posse

Chair Linda Simón 520-789-7169 posse@5LP.com
First Tue., 3 PM, Desert Oasis
www.scovaz.com/committees/posse/ (must be logged in first)

I hear people say they are interested in joining the Posse but can't because they don't drive at night. Another reason is they don't have anyone to go out with. Also, I hear the reason is they go to bed early. Be flexible. The Posse has drivers willing to pick you up and take you home before and after a shift. We have other singles willing to go on patrol with you. Take a nap the day of your tour, then stay up later that night. We're only asking you to commit to two shifts a year. The benefits outweigh your concerns. You will meet new people and will be helping your community. The Posse needs you. Your community needs you. You can do it. Call chair, Linda Simón, for more information.

Properties

Chair Rich Oaks richoaks114@gmail.com
Third Thu., 9 AM, WC1 and via Zoom

The solar energy systems installed at various SCOV buildings during 2016 continue to produce electricity, reduce the Association's utility costs and reduce our community's carbon footprint. The project, valued at \$1.2M in 2016, was developed and installed with no cost to SCOV. The Association purchased the systems in November 2021. The lower utility costs resulting from SCOV's ownership will repay the purchase price of \$664,413 in approximately six years. The Properties Committee unanimously supported the purchase of the solar systems. Our recent meetings have been in person and via Zoom. Please see the calendar on the SCOV website for scheduled meeting dates, times and meeting format.

Don't forget that the *Tipster* submission deadline is the 8th of the month. We understand this is early, but the process for producing a print magazine requires it. Readers like newsy, informative articles, so try submitting something other than "same as last month." Surely, there's something that people outside of your club or committee don't know but would find interesting. We understand that many meetings and activities have been in flux due to the pandemic. Please submit your article by the deadline and, if something changes before the *Tipster* goes to press, we'll update your information if we can.

Board Candidates Answer Questions

See Election Committee article on page 9 for voting information. Information about Candidate Forums on February 7 can be found in Coming Events on page 13.

John Balaco

Why do you want to serve on the Board?

I believe the Board's primary responsibility is to serve SCOV residents. The Board needs to reconnect with residents and focus on their needs. I will work with fellow Board members to engage with residents, encourage them to speak out and provide input to the Board. Our Board needs to be more transparent. The Board needs

members who are experienced in business, customer service, and have an understanding of finance. I will provide the Board with a fiscally conservative voice to help steer our community in a direction that serves current residents and provides for the future while maintaining our strong balance sheet.

Is there something specific you want to change or accomplish?

Specifically, I will closely monitor the Activity Center project and keep residents informed of the progress. Bringing this project in under budget is critical as it will release funds for other future projects.

I will continue to assist management to maintain The Views customer service while minimizing operating losses.

I will focus on finding ways to build new pickle ball courts without reducing the tennis courts, fund the new fitness pool, and keep residents informed as to planned future projects as they are being developed instead of waiting until they are finalized and voted upon.

What knowledge, skills and experience do you bring?

I have an MBA in Finance and Marketing. For 10 years, I was Finance manager at a Fortune 100 company. For the past 30 years I've been self-employed having built, owned, and operated a hotel and several food/beverage establishments. I'm an active Florida Real Estate investor and licensed Florida Realtor. Since 2005, I've served as Board Chairman of a chemical processing company in Chicago Heights IL. I also serve as the Secretary and Treasurer of a Florida condominium association.

I have a lifetime of business experience that qualifies me for the Board. I will work with Board members and provide fiscally prudent analyses of current and future projects. I understand the importance of actively engaging with others and balancing what is wanted with what is fiscally reasonable.

I pledge to always be available to residents. We may not always agree but I will listen. I appreciate your considering me for a position on your SCOV Board.

Elaine Deeter

Why do you want to serve on the Board?

I feel it is important to be a part of the community that I live in and to serve that community to the best of my ability. We have good strong people leading us and I hope to be a part of that and see it continue.

Is there something specific you want to change or accomplish?

I want to see our community continue to grow wisely and remain financially secure as it has been since first buying here. We need to take care of our investment here and make sure that we have plans in place to take care of what is needed to do this. Things change over time, and we need to be on top of change and act prudently when making decisions.

What knowledge, skills and experience do you bring?

I believe coming from a sales and customer service background I have good people skills. I know how to listen and evaluate what it is people want. I know difficult decisions must be made at times and that not everyone will be happy with some of those decisions but being kind and truly listening is an important factor. It serves no purpose to ignore important questions. What is important to others deserves answers. I try not to take things personally.

Rocky Gedrose

Why do you want to serve on the Board?

I have chosen to run for the Board to help continue the work of Board members who have come before me. I would like to see the community continue in its current direction. If SCOV is to remain a premier active adult community it is critical that we continue to upgrade and enhance our existing facilities. We must also provide amenities

that appeal to an ever-changing demographic. However, equally important, if not more so, is to maintain our financial strength. This is a key factor for many prospective home buyers, and of great importance to our existing residents.

Is there something specific you want to change or accomplish?

I have no personal agenda, but I would like to see communication between the Board and the residents improved. As a Board member I feel it is critical to listen to the members of the community and be a voice for all residents.

What knowledge, skills and experience do you bring?

I served three years on our HOA in Georgia. I was President for two of those years. I served on the board of a men's golf association for five years in Acworth, GA. I currently serve on the board of Views 18 Hole Men's Group.

In my working career I spent 32 years in the corporate world of commercial finance. Most of my career was spent

in Atlanta Georgia in positions of increasing responsibility. I gained extensive experience in annual budgeting and monthly forecasting. Ultimately, I was responsible for managing an office with receivables in excess of \$300 million. I had a staff of between 25 and 30 employees. This gave me a lot of experience in problem solving, conflict resolution, and leadership. In my last five years, I transitioned to Business Development. It was in this role I learned the importance listening. The less I talked and the more I listened I was better able to develop a plan to satisfy the customer's needs.

Tim Kelley

Why do you want to serve on the Board?

SCOV is my forever home. Joan and I bought our home here, in an active adult community with many amenities that are attractive to us in our retirement years. SCOV provides us with a community that supports our lifestyle, keeps us physically and mentally active, and socially involved in our retirement.

I strongly support, have been proactively involved, and served our community, and I want to continue in service.

Is there something specific you want to change or accomplish?

I support change within SCOV where change is warranted to maintain our community as a premier active adult (55+) community. As our residents age and change with incoming homeowners, the amenities and interests within our community must keep pace.

Change should not be easy. Change should be challenged. Comprehensive understanding of proposed changes should be achieved. This requires examination of the need, cost, and the positive and negative impacts prior to approval. There should be a strategic plan, one that is flexible, one that changes with changing interests of our residents.

Continued fiscal responsibility is extremely important for SCOV to maintain the superior fiscal strength among the communities that we compete with in southern Arizona! The amount of annual dues must be competitive.

What knowledge, skills and experience do you bring?

I am an electrical engineer, trained to identify, analyze, and solve problems. My career included project development and management, business development, strategic planning, financial analysis, and marketing.

My SCOV experience includes Board of Directors and Board Treasurer (2017-2020), and service on committees/task forces: Marketing (2014-2016), Golf Advisory (2015-2016), Mountain View Plaza Evaluation (2020), Solar Purchase Evaluation (2020), Resident Representative – Greens Reconstruction (2020), Finance Budget (2021), and Artisan Center Renovation (2021). I served as Chair for many of the committees and have a reputation of getting things accomplished.

My education, training, and career experiences support and relate to SCOV. My SCOV Board, committee/task force experiences provide a wide breadth of experience and knowledge that will benefit the Board in making decisions.

Golfing experience that provides professional and friendly service, mountain views and excellent conditions.

You may have noticed that we recently received new golf carts. Thirty-four carts were designated for Asset Reserve replacement this year with an estimated replacement cost of \$131,300. We have an additional 20 carts that were up in two more years; however, by moving the other twenty carts up two years, we got a greater trade-in amount for those twenty carts, allowing us to get our entire fleet of 54 carts on the same replacement schedule moving forward, for less than the amount we had scheduled for replacing the 34 Club Car carts this year. This saved us roughly \$100k—the amount scheduled for replacing 20 carts in 2023. Basically, we had had about \$232k scheduled for cart replacement for the next two years, and we were able to replace them all right now for \$129,306.

The old Club Cars had a four-year life cycle. We will keep the new Yamahas on the same schedule. When the four years pass, we will evaluate if the carts are in need of replacement. If not, we will push them back a year.

The new Yamaha carts have maintenance-free batteries, allowing for no overflow and leakage from having to refill the batteries. The real savings in my opinion, was the trade-in value we received from Yamaha on all our carts, allowing us to purchase all fifty-four under budget.

Also, we are in the process of budgeting for the fiscal year of 2022-2023. I want to remind everyone that we are including overseeding the course this fall in the budget and have every intention of overseeding. We will reevaluate the pros and cons this spring. We appreciate everyone's support during the current season that we did not oversee for agronomic reasons.

Superintendent - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

The theme for golf course maintenance this winter has been accomplishing projects that have been neglected the last couple years due to lack of staff and time. Normally, the staff is busy mowing, irrigating, fertilizing and detailing overseeded ryegrass. The priority has turned to working on other aspects of the golf course that don't normally get as much attention.

The staff has completed several drainage projects, thinned out big cactus areas around tee boxes, and has removed and trimmed several trees. Another major priority this winter was improving the playability and condition of the sand traps. They were becoming very compacted, thus draining slowly and making it difficult to hit a normal bunker shot. Originally, the plan was to add new sand to the greenside traps. Adding new sand would improve playability and extend the life of the traps until their scheduled replacement in the next few years. However, sand has become one of those items that is very hard to find these days, so that idea needed to be changed.

Ultimately, the sand traps have a good amount of sand in the bottoms, but the sand raking machine wasn't raking

Follow The Views Golf on Instagram:
[@theviewsgolf](https://www.instagram.com/theviewsgolf)

deep enough, leading to a compacted surface. The rake attachment was taken off our new machine and replaced with the rake from an older machine to allow for deeper raking. The tines were also lengthened to help "fluff" the sand. Combined with reduced irrigation around the bunkers, this has led to a much softer, playable sand.

The first mission statement listed for The Views 18-Hole Golf Club states that we are to "encourage and promote organized golf for all members." Please be part of our Wednesdays for fun and competition.

Fun rule change proposals for seniors:

- If a tree is between the ball and the hole, and the tree is deemed younger than the player, then the ball can be moved without penalty. This is so, because this is simply a question of timing; when the player was younger, the tree was not there, so the player is being penalized because of his age.
- If a putt passes over a hole without dropping, it is deemed to have dropped. The law of gravity supersedes the rules of golf.
- There is no penalty for so-called "out of bounds." If penny-pinching golf course owners bought sufficient land, this would not occur. The senior player deserves an apology, not a penalty.

Have you noticed more animal sightings the past several years? Until recently, deer were rarely seen in SCOV until the Oracle Highway wild game over-and underpass crossings were constructed in 2016.

Since then, over 65 different species have been identified and over 350,000 photographs of animals have been catalogued by the Coalition for Sonoran Desert Protection, many taken in the Big Wash on the door step of our community.

These cameras are checked monthly by a group of Sun City volunteers to monitor wild animal activity and then analyzed by the Coalition.

The combination of weathering and an exceptional 2021 monsoon season causing damage meant that many of these cameras needed to be replaced. Your Foundation was pleased to participate in purchasing new cameras.

Isn't it fun to live amongst the wildlife—the animal kind, especially?

Japanese flower arranging, *Ikebana*, is the art of arranging flowers, branch materials, grasses and leaves. At its core is the beauty resulting from a combination of color, shapes and graceful lines. More than simple floral decoration, it is a form of sculpture with plant materials. Learn from certified instructors at your own pace and make creative arrangements for your home.

Modelers love to share the fruits of their labors with the families who come to our four open houses each year as these folks did in December. But, visitors are welcome to come in any time we're working in the club workroom in the Artisan Center. The history of the prototypes of the models we build is important to us. It adds to our appreciation of the miniature world we are creating and leads to more accurate representations. Presentations at our monthly meetings in Catalina Vista help us learn more about the planes, cars, boats, buildings and trains we build. On February 11, club member Bruce Dewald (USN retired) will talk about the role of the B-24 Liberator (PB4Y-1) in naval combat during WWII. All are invited to join us. This 45-minute talk will begin at 9 AM.

Sculpture

Pres. Laurie Lichaa 520-991-9953
Mon., 9 AM-5 PM, Catalina Vista/Art Studio

The Sculpture Club meets on Mondays in the Art Studio in Catalina Vista. If you are interested in becoming a member of our club or learning more about what we do, please stop in on Monday mornings or contact Laurie Lichaa, president. If you would like to see some of our work, we have sculptures in the display cases in Catalina Vista and the SCOV Library.

When a sculpture is close to being finished, the piece is often checked by the artist for imperfections. In the picture above, Janet Szumlas is using a flashlight to inspect her sculpture. Imperfections such as air bubbles, fingerprints, small cracks, etc., can be detected by viewing the piece in various lights or turning the piece upside down or side to side. One trick that sculptors use to look for symmetry is to place a mirror next to

the work to compare one side of the piece to the other simultaneously.

Calling all crafters, quilters, woodworkers, toy-makers and multi-talented adults that just love to bring joy to children.

Seniors for Kids works to supply the needs of children and to keep smiles on their faces. We believe that "Living is Giving and Giving is Living." For all the joy that we are able to give to the children we serve, we feel that in return, we receive the 'busy..ness' that keeps us moving no matter how tired we feel at times. This chance to give gets us out of our beds and houses daily and gives us the meaning we all need in our lives. When we think about the years we have just been through, we all need something to put our lives in order and to help those who have not had all that we in SCOV are blessed with. If you are looking for such a place, come join us and enjoy the friendliness that abounds in our group. We definitely have a use for your talents and friendship, and we welcome you to come and get involved.

What a beautiful day we had to deliver our Adopt-A-Family gifts to Tri-Community Food Bank in Mammoth. Thanks, everyone, for playing Santa

Mon. and Thu., 9 AM-Noon, Artisan Center/Sewing

Carol Meyers, Ellie Anderson and Sue Karstad orient to the new Baby Lock Coronet quilting machine

The quilters of Casa Amigas are an amazing group of women who love to quilt but have run out of quilts to make for friends and relatives. Making quilts for babies and children is what they love to do now. We provide many quilts to several organizations who see that their clients get a lovely homemade quilt to call their own. Much love, time and effort goes into these quilts, and the feedback we receive makes it all worthwhile. If you are interested in joining Casa Amigas to fulfill your quilting creative

juices, come in on Monday or Thursday mornings to see what this group in the back room is all about. Even if you want to expand your quilting skills and learn new techniques, this is the place to be. Our quilters are happy to share their expertise.

Cheer Bears

Pat Norton 480-993-8762 panpan9803@yahoo.com

Wed., 1-3 PM, Artisan Center/Sewing

We are still embroidering faces, sewing bodies, stuffing them with love, and filling the shelves for the next set to march out to new families. Our shelves are filling fast and happy faces are smiling at each other as they work. It is good to have people in the room and around the table again.

If, in your sorting and cleaning out, you find you have some polyester fiberfill or flannel pieces, we are in need of the fill to plump up the tummies and flannel to make the bodies of the bears. Donations are always accepted. Thank you all for your support.

Thank you to Seniors for Kids for continuing to sponsor our bear making.

Tue., 1-3 PM, Artisan Center/Sewing

If you have a dog or cat, you probably already have a comfy bed for them. It's cold outside, and we want to provide comfy beds for the Humane Society animals waiting for their adoption. We create all sizes of colorful pet beds using washable fabric scraps and polyester fiberfill. We can always use more large pieces of fabric and more volunteers. We do have a good time with plenty of conversation while we work, so why not join us some Tuesday afternoon in the Sewing Room? We look forward to seeing our winter residents return.

Tapestry Hooking and Fiber Arts

Tue., 9 AM-Noon, Artisan Center/Sewing

www.scovhookers.weebly.com

If you are interested in being part of our group, stop by the Sewing Room on Tuesday mornings or contact Coni Arseneau or Carrie Wiley. The group provides materials and instruction for those interested in learning hooking. People interested in other arts using fiber are invited and welcome to join our group.

The photo is a project completed by Carrie Wiley. She used a technique for rug hooking referred to as "Proddy." Proddy is an old-fashioned British variation on rug hooking. The proddy tool in the lower right in the picture is used to push cut pieces of wool fabric through

the foundation backing which makes a three-dimensional design. Here, Carrie used traditional rug hooking for the base of the project and Proddy to give the 3D effect of the holiday flowers. An entire rug can be made just by using the proddy technique.

Shop hours: Mon.-Fri., 9 AM-Noon, 1-4 PM, when monitors available.

Monthly meetings the first Mon. of each month, 2 PM, Artisan Center/Silver Shop

The featured artist for this month is Carolyn Scono Shisler. She has been a member of the club since 2016 and enjoys working with our club's creative members for inspiration and support. Her featured art is a malachite gem sterling prong set pendant. The malachite is one of her favorite stones, a pear-shaped gem with intense green colors of a springtime pine. The stone is mounted in a custom prong setting handcrafted in sterling. The setting is open in the back and shows off the circular lines and gradient shades of green. You'll find this gem in the window outside our club.

SCOV residents interested in joining our club are invited to speak to a monitor to schedule observation time and one-on-one training. Mini workshops will be offered to members in the coming months.

Today's featured woodworker is Karen Curry. Karen is a registered nurse and has been a resident of SCOV for the past several years. A Wood Shop monitor, she was recently elected as the 2022 Woodworking Club vice president. Karen's sunny disposition is always appreciated and her skill with the scroll saw is unmatched. SCOV residents of all genders will find a welcoming home at our community woodshop.

A new member orientation is held at the Wood Shop the first Wednesday of each month at 4 PM. Call Bill Norton at 480-980-5493 for further instructions. For questions or more information, please visit the website or call an officer.

My Past

Havurah sadly announces that we will be cancelling all in-person events until further notice. We have taken into consideration the voices and concerns of our membership and have acted accordingly. Our book club will continue to meet via Zoom. The next discussion is on Tuesday, February 8, 3:30 pm, and centers around the novel *The Queen's Fool*, by Philippa Gregory. The Spanish Inquisition, the Tudor court of England...this book has it all. A peek at the March 8 pick: *The Book of Lost Names*, by Kristen Harmel. Check out our website for updates. This club provides an enjoyable social evening getting to know some of your SCOV neighbors who enjoy cooking (and eating) interesting food. Our monthly (December-March) themed dinners in individual members' homes provide relaxing fun as we explore various cuisines (e.g., German) or get creative with more ambiguous themes (e.g., food in songs). Since everyone brings part of the meal, it's not a huge effort for the hosts. We also have several catered/restaurant events each year. Our January dinner theme was "French Bistro." Please visit our website to see photos and details. And contact a club officer for more information if you'd like to join the club. Note: Proof of Covid vaccination is required to attend club activities.

Folk dancers brought visiting family along to join us during the holidays.

Here we are dancing a flamenco style dance, Seguidillas, from Spain

Folk dancing is a wonderful way to exercise both your body and mind while socializing in the company of a warm and welcoming group. We encourage everyone who is fully vaccinated and boosted to join us—no experience, no partners required—to tour the world in music and dance. We review each dance prior to dancing, keeping in mind that the only mistake you can make is not having fun. Bonus: no meetings, no minutes, no dues; just dance, dance, dance. There is even a club website which lists each week's dances along with a video link to each dance for those who like to watch or review dances at home.

Please give it a try. Questions? Come and see. Check out the website or call Raven.

Dancing to music by the band Unwound

We had a dance at Catalina Vista on January 7 with Unwound band that was well attended. This month we'll dance on Thursday, February 10, Catalina Vista, with Clear Country band. Check your email or send a note to KKSCOV@gmail.com to sign up for the dance; it is pay at the door.

We have dances scheduled for Saturday, March 11, and Friday, April 8, Catalina Vista. These are also pay at the door dances. All of the dances at Catalina Vista are planned to be from 6-9 PM.

We started a new season of Country-Western dance classes on January 10. They run through March 7 on Mondays. The classes are held in the AFC Studio 1 and 2 (on the right as you go into the pool/fitness area). The Level 2/intermediate class is from 4:30-5:30 PM on Mondays, then 30 minutes of pattern dancing for both Level 1 and 2 followed by the Level 1 class from 6-7 PM.

Look for updates from and send any questions to Nancy. Klucking@gmail.com or KKSCOV@gmail.com.

Exercise

Aqua Tone

Irmel Wheeler 520-334-0957 irmel5596@gmail.com
 Marcia Polley 520-818-9073
 Tue., Thu., Sat., 9 AM, AFC/Pool

Aqua Tone is a toning water workout that incorporates a variety of rhythmic body movements performed in the water. This aquatic exercise class enhances cardiovascular fitness and muscular endurance.

We meet Tuesday, Thursday and Saturday, 9 AM in the winter, 8 AM in the summer, at the AFC pool. There is no fee to join the club or the class. The teachers are club member volunteers. Being able to do a basic swim stroke is very helpful. Items used in the class are buoys, boards, noodles, balls and a fitness band (you'll need to bring your own). A band can be purchased from Marcia for \$5. We assign an experienced member to a newcomer to help with learning the various movements. You will get a good workout in a fun class.

Arthritis Water

Pres. Sherry Olivier sherryoliver55@gmail.com
 Sec. Melanie Livingston meljean178@yahoo.com
 Mon., Wed., Fri. 1 PM Oct.-Apr.; 10:10 AM May-Sep.; AFC/Pool

When the air temperature is 77 degrees or higher, our club performs gentle water exercises designed by the Arthritis Foundation to help with range of motion. These are great for those with arthritis, fibromyalgia, replaced joints, etc.

Unfortunately, cooler temperatures are hard on many older people or those with muscular and nerve problems. Because January and February in Oro Valley historically have temperatures in the low 60s to 70s, we probably will not be meeting. Paid club members may contact the officers for modified copies of our exercises to be done safely at home.

Annual dues are \$5 and the next membership meeting to recruit new members will be held in late March. See the March *Tipster*.

Energetic Exercise

Donna Clark 970-946-1048
 Mon. and Wed. 8-9 AM, AFC Studio
 Fri., Feb. 4, 18 and 25, 7:45-8:45 AM, Catalina Vista

Have a heart-happy and healthy. Join with SCOV friends, new and old, as we enjoy a wonderful workout with instructor, Sally Martinez. She really knows how to get us seniors moving. You'll enjoy the fun variety of aerobic and weight exercise plus lots of balance and stretch moves to help our bodies be strong and flexible.

During the remodeling of the Activity Center, we meet at two different locations: Monday and Wednesday at the AFC Studio and Fridays as available, at Catalina Vista. The Energetic Exercise calendar and SignUpGenius both provide information on the locations and times for each class.

New members are warmly welcomed—men and women—as long as there is room. We are currently limited to 34 participants in these locations.

Annual dues are \$3. Punch card for 12 classes is \$30.

Fitness Swim

Contact: Dave Goodman goodman@sfu.ca
 Tue., Thu., Sat., 6:45-8 AM, AFC pool

The Fitness Swim Club provides a vehicle for swimmers to participate in a group swim workout. We generally go 2,400 to 3,000 yards per workout, mostly freestyle. Some do more, a few do less.

Workouts are suitable for master swimmers, triathletes and those who would just like to participate in swim workouts. Please ensure you have medical clearance to participate in vigorous physical activity prior to joining. We welcome new members.

Pilates

Mary Ayers 520-638-7916 scov.pilates@gmail.com
 Mon., 3 PM, Thu., 1:30 PM, AFC/Studio

Guess what? It's already the second month of 2022 and time to consider a new exercise routine. Why not try the SCOV Pilates Club mat classes? They are offered here in the AFC Mondays and Thursdays. The exercises strengthen your core (abdomen and back muscles). You will also notice that you have better balance, more muscle tone and increased stamina. People ask, "Can the benefits from the stretching and strengthening exercises done in class, really develop the body's core, increase spine mobility and build flexibility?" The answer is a definite yes. We have two very experienced instructors and the cost is only \$8/class, with

annual club dues of \$20 pp. Please join us or stop by and watch. Call Mary.

Tai Chi

Co-chairs Alice Hutchison 520-329-8090 ahutchison87@gmail.com
Cynthia Chaffee 520-342-6437 cynthiachaffee@mac.com
Thu., 10-11:30 AM, AFC/Studio 1

Tai Chi class will continue for registered students on Thursdays, 10-11:30 AM, AFC/Studio through March 10 and led by Tai Chi Masters Jose Hernandez Rivera and Donna Drzenovich.

At the request of the instructors, we are all to wear masks and participate in social distancing.

Tai Chi is an ancient Chinese tradition that involves slow focused movements. Because of the benefits for balance, strength, and improved breathing, it is an exercise especially suitable for seniors.

For questions, call Alice Hutchison.

Yoga

Pres. Jan Wholey 520-638-7088 suncityyoga2018@gmail.com

Scrabble

Jan Fischer 520-825-2401 fischer_janice@comcast.net

Fri., 1-3 PM, Desert Oasis

Board games similar to Scrabble have been around for over 2000 years. Egypt's King Tut was put to his final rest with various board games so he could play his favorite games in the afterlife. The Ashanti tribe of Ghana is believed to have invented a board game known as "Wari," which over time, has become known as Mancala.

Society evolved and progressed over the years until approximately the 1800s, with a game called "Mansion." The basis of that game was to reach Heaven before other players. Other games invented over the last 200 years are Parcheesi, Clue, Scrabble, and Monopoly. These are just a few of the most popular games.

Chris Haney and Scott Abbott were playing a game of Scrabble when the idea for a new game called "Trivial Pursuit" presented itself. By way of information, Milton-Bradley is one of the largest manufacturers of board games.

Vistoso Cyclists membership is only \$15/year, hard to believe, given we are one of the best cycling clubs for seniors in the nation. Aside from the rides, our members enjoy our very useful website, including a searchable member directory, club classifieds, online ride schedule, cycling resources and more.

We offer several hundred scheduled rides year-round, among four different ride subgroups, from 20-60+ miles, to cafe destinations within Tucson and nearby towns, utilizing both pathways and roadways. Occasional away rides are offered as well. Our cafe stops offer coffee and conversation, greatly enjoyed by our members.

The club has e-bike, mountain biking, and Women on Wheels subgroups. There's also our monthly club newsletter email.

All schedules can be found within the excellent member area of our website. We also host social events and support both the Interfaith Community Services Food Bank and Wheels for Kids. For more information or to join, visit our website.

Peggy Smith 520-344-0991 pdsaz@aol.com
www.scovbirding.wix.com/birdersgroup
Next meeting Fri., Feb. 25, 4 PM, Catalina Vista/Art Studio

The red-tailed hawk is one of several large hawks that can be seen here in SCOV. This stocky hawk, with a wingspan of 49 inches, is resident in almost all of the U.S.A.; however, the Western population is the most variable in looks, ranging from light to dark morphs (color variations). Unlike the Harris hawk, it hunts solo, but like them, helps thin out our rodent population.

Hello fun. Welcome men and women. No experience necessary. Bring your own equipment. Easy to learn. The more you play, the better you get. Did you know seniors 70 and older pitch from a shorter distance with less effort and more accuracy? The shorter distance also makes the game more fun for women. YouTube has several videos of everything related to horseshoes. Check it out.

Good exercise, good people and friendly competition.

Pickleball

Pres. Tony Masterjohn tmasterjohn15@gmail.com
 VP Training Doug Brown wizisland@comcast.net
 Sun.-Sat., 8 AM-9 PM www.scovpb.org

If you are ever in the vicinity of the pickleball courts Monday, Wednesday or Saturday evenings, you will observe several things. The lights are on and there are women playing who are having a whole lot of fun. The camaraderie and laughter which is shared by these women, is just what the doctor ordered. Not only do these women have frequent socials with cookies, hot chocolate and pizza, they have an excuse to have fellowship. They also raised \$360 for Youth On Their Own this past Christmas. What is most exciting is they experience beautiful sunsets and moonrises. The group was formed in 2013 by Bonnie Baird, who not only saw a need for just women to play causal pickleball, but also mentored those who are just learning the game. Check the schedule for starting times or show up around 5 PM.

YOUTH ON THEIR OWN

YOTO/Northwest Auxiliary

Kris Cohen 520-818-2582 krisandearl@msn.com

A Qualified Charitable Distribution (QCD) preserves a way to donate money to Youth On Their Own (YOTO) and enjoy tax benefits under the new tax law.

Traditionally, people who contribute to charity itemize deductions and receive a tax benefit. Under the new law, people may be better off using the new, larger standard deduction.

If you are 72 or older, you can transfer up to \$100,000 from your IRA to charity tax-free as a QCD, which counts as your required minimum distribution but isn't added to your adjusted gross income. And you still get the new, sizable standard deduction against other income. It's a win-win.

"SHE GAVE ME MY LIFE BACK"

Local clinic has a modern, medical solution to treat your Peripheral Neuropathy and is seeing incredible results!

"It started out as a normal outing. My wife and I had to run to the grocery store. "The first stage is pain," shares Acupuncturist Kari Hahn of Oro Valley Acupuncture. "You feel burning, tingling, sharp pains, or you may feel like you're walking on tacks or marbles. This pain eventually subsides and that's when the numbness begins. While it may seem like a good thing to be out of pain, it's actually a further progression of this degenerative disease. Unfortunately the numbness brings with it a whole new set of

issues as was the case with Dan. "I said I wasn't going to drive again, what if that had been a pedestrian?"

It is all too common that peripheral neuropathy and its debilitating symptoms interfere with a person's ability to live their life. Dan was now reliant on his wife to drive him around. Even simple pleasures like driving to the golf range or taking his wife out to dinner was out of his capabilities. And even more common, Dan's general practitioner and several specialists told him there was nothing they could do besides prescribe pills to hopefully ease his pain.

That's where Acupuncturist Kari and her staff at Oro Valley Acupuncture come in. "About 75% of our current patients come to us suffering from the same condition as Dan," tells Kari Hahn, L.Ac..

"They are in constant pain from peripheral neuropathy and it prevents them from not only living their lives, but more importantly from enjoying them. Depending on the severity of their nerve damage, we typically see tremendous progress in 3-4 months of treatment. I like to say we're in the business of making your golden years golden."

"I can't lie" confides Dan. "I was skeptical at first. When I was told by specialists that nothing could be done and then there's an Acupuncturist here in town who tells me she can help. It turns out she was right! About 3 months after treatment started I was able to confidently drive myself to my appointments! My wife and I even celebrated by buying a new car! It's hard to put into words how incredible this is, quite frankly Kari Hahn gave me my life back!"

While Oro Valley Acupuncture specializes in acupuncture, and it's definitely part of the protocol in treating neuropathy, we also use modern adjunct therapies which play a powerful role. One of our most effective tools is ATP Resonance Biotherapy. This technology was originally developed by NASA to expedite healing and recovery. It not only helps with pain, but also aids in the regeneration of both large and small nerve fibers.
