Mask Confusion? Don't Feel Like the Lone Ranger!

by Ronna Heinig

As we commemorate our second anniversary of the Covid pandemic, I feel compelled to take a serious look at how far we have come.

In the beginning, like many others, I saw this as nothing more than the flu, but as people got sick and died, I quickly reversed my position and started taking COVID seriously.

As I enjoyed my quarter pounder with cheese while sitting in my car, my spirits were lifted with the certainty that surely, soon a vaccine would be on the way and save us all.

I learned that wearing a mask was primarily to protect others from me, but I had to hope that somehow, masking up also provided some protection for me from everybody else.

January 2021, thank goodness, we did get the vaccine, but apparently not everyone shared my excitement at the chance of getting inoculated and ending this pandemic, so the mask debate continues.

Today I have a veritable buffet of masks...surgical, cloth, a gaiter with the MSU logo on it, even one with vents and filters. I'm pretty sure most of you can identify with me on this.

But what have I learned? The EPA has researched masks and the percentage of Covid-size particles they filter out, and this is what I found. My MSU gaiter is the worst, filtering only 38% of particles. The cotton mask, 49%; the "surgical" mask, 60%; but the best mask to wear to protect myself is the N95 or KN95 at 80%-95% filtration.

So, as we hopefully transition from the pandemic and learn to live with the Covid virus, I am being proactive and, when necessary, protecting myself with my KN95 mask.

I suggest following the CDC pages (<https://bit.ly/3GgD87H> or <https://bit.ly/3HBzve5>). Since I am vaccinated and boosted, my risk is markedly lower for contracting Covid, being hospitalized or dying from the virus. When you see the statistics by age and vaccination status, the picture that is painted is markedly different than the scary stuff you hear on the news.

We've learned a lot in the last two years. Get vaccinated, wear a KN95 mask in risky situations, and we don't have to rely on others to keep us safe.

Here is to the Horn Honkers of Sun City Oro Valley

A few times each week, one particular resident drives past my office window in his golf cart and honks his horn. Sometimes I'm able to get to my door in time to open it and exchange greetings with this wonderful man. More often than not, I'm busy or too slow to catch him before he is on his way to golf.

Don, that is his name, always honks even though I don't always make it to the door. He will never know how that lifts and brightens my spirit for the day. His kind actions caused me to stop and ponder, as I contemplated this month's *Tipster* article, how many of these acts of kindness he and others in the community perform each and every day for their neighbors and the community.

Don and those like him in the community go about their daily activities never asking for recognition for doing good, they just do it. They are the unsung heroes of Sun City Oro Valley.

So this short but sweet article is in recognition of all those residents who honk their horn, so to speak, in our community. Whether it is checking on a neighbor, cooking a meal for someone who is sick, calling someone just to visit or serving in a million other ways, my hat is off to you, and you all deserve a standing ovation. You are a major part of what makes this community great. Thank you and please never stop.

A Word to Our Readers:

This issue of the *Tipster* is printed on slightly thinner paper than we normally use for your community magazine. This is because the pandemic-related supply chain issues are affecting the availability of the specific paper that we use for the *Tipster*. We expect this to be temporary and will return to the thicker paper when it becomes available.

Monitoring Wildlife in Our Area

by Marsha Dean

In 2006, Pima County voters approved a \$2.1 billion Regional Transportation Authority (RTA) plan to address comprehensive transportation improvements across the region. During the planning process, information about the effect of transportation activity on wildlife was presented by the Coalition for Sonoran Desert Protection (CSDP). Included in the package was \$45 million to protect and enhance wildlife linkages.

The yellow area shows nearby wildlife corridors between the Catalina and Tortolita Mountain ranges. The top pin is the overpass and the bottom pin shows the location of the underpass. Fencing is used to funnel wildlife toward the passes. Courtesy CSDP

project to widen the road from four to six lanes. These structures were completed in 2016, enabling local wildlife to cross safely over and under the busy roadway, improving the health and safety of the wildlife populations as well as reducing risk to motorists from swerving or hitting animals in the roadway.

Yes, there are badgers in the Sonoran Desert, but you will seldom see one, except on a wildlife camera. CSDP photo

Park. They hike to the camera locations and replace batteries and the SD cards that record photos of the wildlife that come in close proximity to the cameras.

There's even a role for people who want to volunteer from

Among the projects to receive funding, the Arizona Department of Transportation received \$11 million to construct two wildlife crossing structures (one overpass and one underpass) along State Route 77 (Oracle Road) as part of their

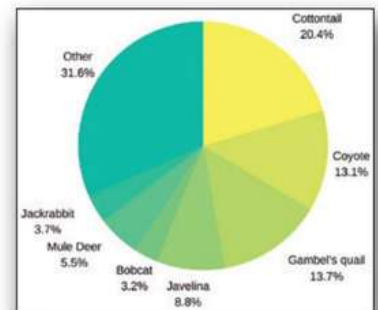

home (see *SCOV Resident*, page 13). Desert Identifiers use their home computers to review the photos captured by the cameras. They identify the wildlife in the photos, which helps the Coalition track the Oro Valley Wildlife Crossings Project that reports the following information:

- There are 20 active cameras divided equally east and west of the highway.
- 350,000 photos recorded to date.
- 65 species (including mountain lion, bighorn, ringtail, coati, badger and raccoon) have been recorded. Many recorded species include birds.
- Mule deer activity increased west of the highway after construction of the crossings and has been steadily increasing, with a short pause after construction of the Big Wash multi-use trail.
- A female mountain lion used the underpass coming from Big Wash last summer, and cameras photographed her continuing to move northeast into Catalina State Park.

Jessica Moreno, Conservation Science Director for CSDP, reports that the Sun City Vistoso Community Foundation provided funds to replace five cameras in the Big Wash, which were lost due to flooding.

CSDP hopes that these efforts to connect open spaces will ensure healthy wildlife populations. Eventually, it is hoped that big horn sheep will return to the Tortolita Mountains. As the current RTA bond expires in the near future, it is hoped that similar wildlife linkages will be included in the next regional plan. It's nice to know that SCOV residents are involved in these efforts.

For more information, visit the Coalition website: www.sonorandesert.org/learning-more/wildlife-linkages-2/

Home Inspection

If you're getting ready to sell your home or thinking about selling, you need to have an inspection of the exterior of your property by the Association. This can happen in three ways: courtesy inspection, listing inspection and escrow inspection. Each inspection is handled a bit differently, so this information is to make you aware of the differences. All inspections look at the entire exterior of the home and property for violations. The courtesy inspection is done at your request. The Association inspector comes to the home, conducts the inspection, and then turns over the findings to you. Any violations found during this inspection are not recorded against the home. This provides an opportunity to correct violations prior to listing your home.

The listing inspection is requested by either you, the owner, or your realtor at the time of listing and is good for a 90-day period. Violations found during this inspection are not recorded against the home but are submitted to the title company in a mandatory compliance inspection report when the home enters escrow. Both the seller and buyer receive a copy of this report. Violations listed here may be negotiated as to who will resolve them during the resale process, either the owner or the buyer. If the buyer agrees to resolve a violation, a form is completed indicating as such. The Association follows up on the violation(s) 30 days after close of escrow. If the violation still exists, it is then entered against the home, and the violation resolution process begins with the Association.

The last inspection is the escrow inspection. This takes place if a listing inspection was not requested. Violations found during this inspection are submitted directly to the title company, and both seller and buyer receive a copy of the report. The disadvantage of the listing inspection is that both seller and buyer are made aware of the violations after resale negotiations are completed. There is no chance to resolve the violations prior to entering a contract for purchase. If the violations have not been corrected when the home is re-inspected after close of escrow, the violation resolution process will begin, and the new owner inherits the existing violations.

You may want to consider the benefit of the courtesy inspection to avoid surprises during the busy time of listing and selling your home. It is a seller's market out there. As of February 10, 2022, there were 15 homes on the market, and the average time for a home to be on the market was 12 days (YTD) and the cost per square foot was \$267 (YTD). If you are contemplating selling your home during this time, please keep this information about inspection in mind, or contact Conveyance Coordinator, Annette Lyons, alyons@suncityorovalley.com or 520-917-8087.

Exciting Things to Come

Between club activities, the restaurant and the Association, many activities are available for residents to enjoy during our renovation of the Activity Center. It is exciting to think about the new things I am planning for you in the renovated building.

As you know, I keep an open door policy, and if you ever have any suggestions, contact me by email or by phone. Let's keep looking ahead.

Revised Governing Documents

On February 22, 2022, it is anticipated that the SCOVB Board of Directors will approve changes to the Development Standards proposed by the Architectural Review Committees as well as a revision of Board Policy ARC-006, which covers Home Expansion and Patio Cover submittals.

The revised Development Standards and Board Policy ARC-006 can be found on our website at www.suncityorovalley.com > Members > Documents. You may also pick up copies at the Welcome Center.

Board Policy ARC-006 explains the submittal procedures that are necessary if you are contemplating building a room addition or a patio cover. It is important that you know the model name of your house as you reference this policy, so you can ascertain whether the footprint of your house will be impacted by your project. You will meet the qualifications for either a Prequalified Expansion Submittal procedure or Major Home Expansion Submittal procedure. Each has a different process. If you have questions about the policy, please email us at scoroval@ciramail.com and we will contact you.

Please take the time to familiarize yourselves with these revised policies, so your submittal processes will be smooth and timely.

Recreation and Fitness - Lonnie Davis

Stretching

Stretching helps maintain flexibility. It is often overlooked in youth, when muscles are healthier. But aging leads to a loss of flexibility in the muscles and tendons. Muscles shorten and don't function properly. That increases the risk for muscle cramps and pain, muscle damage, strains, joint pain and falling, making it tough to get through daily activities, such as bending down to tie your shoes. Likewise, stretching the muscles routinely makes them longer and more flexible, which increases your range of motion and reduces pain and the risk for injury. Aim for a program of stretching every day or at least three or four times per week. Warm up your muscles first, with a few minutes of dynamic stretches—repetitive motion such as marching in place or arm circles. That gets blood and oxygen to muscles and makes them amenable to change. Then perform static stretches (holding a stretch position for up to 60 seconds) for the calves, the hamstrings, hip flexors, quadriceps and the muscles of the shoulders, neck and lower back. However, don't push a stretch into the painful range. That tightens the muscle and is counterproductive.

Special Note From the Aquatic and Fitness Center (AFC)

All SCOV trash and recycle pickups take place on Monday. Don't forget: Republic Services picks up between 6 AM and 6 PM on Mondays. You must have your trash and recycle bins out at 6 AM or you risk a missed pickup.

SCOV has a dedicated customer service representative with Republic Services. Many of you are aware of the labor challenges the country is currently experiencing, and Republic Services highly encourages residents to email any service issues, rather than telephone, in order to receive the best service. Our representative can be reached at scov@republicservices.com. This email is listed on the Republic magnet you received in your annual dues mailing.

Visit our web page where you can find the following information:

1) Recycling: View a video and web page on what Republic accepts in their recycling bins. Glass is accepted for recycling.

2) Holiday schedule: Check when you need to shift setting your bins out due to a holiday.

3) Report a problem: Missed pickup? Bin damaged? Click the Report Missed Pickup tab, fill out our form and Republic will receive a copy.

Artisan Center Renovation Task Force

Chair Tim Kelley tkelleyscov@gmail.com

See SCOV calendar for meeting dates, time and location

The Artisan Center Renovation Task Force (ACRTF) may meet the first and third Tuesdays of the month as needed. The SCOV website will have current meeting notices. The current ACRTF practice is for vaccinated ACRTF members to attend in person. Non-vaccinated committee members and all others may attend via Zoom.

An updated version of "A Discussion of the Existing and Future Facility Requirements for the Artisan Clubs of SCOV" is now available on the SCOV website.

The SCOV website (go to Members > Committees > ACRTF) provides the ACRTF Charter and other information for the task force.

Community Directory

Chair Lisa Collins 812-344-4773 scov.community.directory@gmail.com

www.scovaz.com/members/services/directory

Are you a new resident or have you moved within SCOV? I use the monthly SCOV Resale Report to update the directory database. Those who have sold their homes are removed from the database, and the new owners are unlisted by default. This includes those who move within SCOV.

Why? Many people own more than one house here. Some of these multiples are temporary while the owner buys a new house and sells the old one. Others are permanent and used as rentals. And others are bought to rehab and flip. Thus, all new owners are unlisted by default.

To add or update your information, the preferred method is to complete the online form "Change your directory listing." Otherwise, you can fill out an orange card at the Welcome Center. You can choose to have certain information unlisted in the paper phone book and/or online.

Consumer Referral - Vendor List

Susanna Moran scovconsumerservices@gmail.com

The Vendor List is on the SCOV website. After logging in, go to Members > Member Services > Consumer Referral Vendor List.

The Vendor List may also be viewed at the monitor's desk at Catalina Vista during business hours (during Activity

Center renovation). Please check the Vendor List often, as changes are made frequently.

Vendors should email Susanna Moran to inquire about applying to be on the Vendor List.

When necessary, the FBC will meet more frequently (e.g., budget preparation, audit results, and when information is requested by the Board of Directors). Find meeting dates, times, location and other information on the SCOV website. Current financial information is also available on the website.

The FBC will meet Monday, March 14, 2 PM, for the second review of the proposed 2022-2023 SCOV budget. If necessary, the third review of the budget will occur March 28.

Friends of the Library

Lynne Davis lynnedavis100@gmail.com

Andrea Houston ahoust2@lsu.edu

A huge thank you for a very successful Friends of the Library (FOL) membership drive. We had 205 people either renew or join for the first time. Kate Cusumano's Tucson Festival of Books Great Reads was also a smashing success with 85 eager readers in attendance. Thank you, Kate, for once again giving us a taste of what the festival will be about. If you want to go to the festival on Sunday, March 13, consider letting us drive. Check Coming Events on page 12 for bus ticket information. We appreciate anyone who designates FOL as their Club Sponsor when they purchase a Legacy Brick. Every bit helps.

Bored? Looking for a fun get together with friends? Be on the lookout for Book B-I-N-G-O starting in April. This will be the third Wednesday of every month, open to the whole community. BYOB and appetizers, and win books. What a wonderful way to support your Library.

Jo Wickberg (left) and Joan Kelley

Spring is fast approaching, and offerings in the shop are reflecting new beginnings and colorful items for your viewing and buying pleasure. Featured artists this month are Jo Wickberg and Joan Kelley.

Jo loves art.

After taking classes in various media, she decided to get back into making cards for sale. "I'm now concentrating on pop-up cards. They're fun to make. On opening the card, flowers may pop up or maybe a big birthday cake, or a large "Thanks." Another choice for her was making smaller cards with coordinating subject matter and putting three together to make one packet for sale.

Photographer and potter, Joan, makes decorative and functional clay items as well as photographic greeting and note cards. Although photography has been second nature her whole life, a love of pottery has taken over for the past 20 years, balancing mud play with clean digital imaging.

What's Right Around the Corner?

Spring is right around the corner, and here are spring cleaning reminders concerning personal yards:

- Trees must be trimmed up at least seven feet over sidewalks and not block visibility of stop signs.
- Plants should not extend out over sidewalks, and frost damaged parts of shrubs and trees should be cut off and removed.
- Cracks in driveways, sidewalks, and where the cement meets the asphalt in the street are the responsibility of homeowners to keep weed-free.
- Maximum height of hedges, is three feet, six inches (3'6") in the front yard area within twenty feet (20') of the front property line or six feet (6') in the side or rear yard areas.
- Shrubs near the entrance of a driveway should be cut to less than 42" in height so as not to block visibility of vehicles and walkers.
- Make sure your house number is visible from the street and that all lights in the fixture are lit, so it can be seen at night.
- Outside light bulbs are not to exceed 250 lumens per Oro Valley regulations.

Thank you for heeding the above and for continuing to take pride in your property.

Posse

Chair Linda Simón 520-789-7169 posse@SLP.com

First Tue., 3 PM, Desert Oasis (no Mar. board meeting)

www.scovaz.com/committees/posse/ (must be logged in first)

We're back! The Posse will resume patrols the week of March 7. I want to thank the Posse board members for their willingness to continue to serve. Pat and Rich DiLallo are stepping down from the board; we wish them well and send out a big thank you to them (they have been with the Posse for 10 years). Thanks to the new members who have joined the Posse over the last few months. For many reasons, membership has declined over the last two years. New members are needed. The commitment is a minimum of six hours a year, which is two 3-hour patrols. Please consider this worthwhile service to our community. We need you. Call Linda Simón 520-789-7169 for more information.

Properties

Chair Rich Oaks richoaks114@gmail.com
Third Thu., 9 AM, WCI and via Zoom

Semiannual inspections of SCOV facilities are one of the Properties Committee's primary functions. The purpose of the inspection is to identify the condition and maintenance needs of SCOV facilities and grounds. Committee members, together with HOA maintenance staff, will conduct an inspection during March. The Properties Committee works on a variety of tasks like this during the year. Our recent meetings have been in person and via Zoom. Please see the calendar on the SCOV website for scheduled meeting dates, times and meeting format.

Co-chair Jane Moody 202-657-3058 jane.moody2@gmail.com

If you are like some *Tipster* Editorial Committee members, you appreciate being able to skim through our community magazine and enjoy the photos. Captions help readers know what the photo is about, and many of us enjoy being able to put a name with a face when it comes to a photo of SCOV residents. If you submit a photo of club members, consider adding a caption with the people's names and identify where they are in the photo (left to right). If it's a large group, you don't need to identify everyone, but we appreciate getting names of groups of four or fewer. If you submit a photo of flowers or wildlife, please include identification information if you have it.

Director of Golf - Rick Price

rprice@theviewsgolfclub.com 520-917-8086

We're excited this month as the season comes into full bloom. You will see the Bermuda grass start to green up on the golf course. As a reminder, the decision to not overseed was for the long-term health of the golf course.

The decision was made considering the advantages and disadvantages of playability. It has provided the opportunity to accomplish many projects with the extra time we wouldn't normally have. Thank you for understanding how important it is for the golf course. The golf course condition has improved over the last few years, and will continue to improve. Ultimately, the decision not to overseed the golf course will have long-term agronomic benefits.

Golfers and non-golfers alike, Chip & Putt league is back. Join the fun on Thursdays at 4 PM. The entry fee is \$15 pp, which includes golf, dinner and prizes.

The Cure for Cancer event is Sunday, March 13. The golf course will be dedicated to the tournament that day. If you have not already donated or registered to participate, please do so. Your support is appreciated. There is also a charity auction site to purchase items to support the University of Arizona Cancer Center: bit.ly/tvgcureauction.

The annual Oro Valley Amateur Championship is March 26-27. The entry fee is \$175 and \$75 for annual golf members at The Views Golf Club. For more information, contact the Pro Shop or go to the www.theviewsgolfclub.com.

Bring your pup for Yappy Hour, Thursday, March 24, 4-5 PM, on the driving range tee. There will be drink specials and treats for the dogs. Social dogs with up-to-date shots are welcome, leashes required.

Superintendent - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

March usually is when the weather begins to warm up in Tucson. That is important this year because it means the Bermuda grass will start to green up on the golf course. It takes weeks for the grass to become a uniform green color in the fairways and roughs, but starting the process to break dormancy will be a welcome sight.

During January, the roughs and fairways were sprayed with herbicides to remove any existing weeds, while also preventing future weeds in the spring and early summer. This was one of the big reasons for not overseeding this year. The Poa Annuua that appears every spring in overseeded fairways was also removed as part of this application. Over the next several years, the fairways and approaches will have fewer weeds throughout the overseed season leaving a much cleaner appearance.

The decision has already been made concerning overseeding this fall. The fairways, approaches, driving range tee, short-game area fairway and tee boxes that transitioned well will be overseeded starting September 19. The golf course will reopen on October 10, followed by the usual two weeks of cart-path-only restriction for golf carts to allow the fairways to dry out. The plan moving forward in regard to overseeding will be following the USGA recommendation of not overseeding every 5 to 10 years for the health of the turf. Based on this recommendation, the next time the golf course will not be overseeded is 2030, after eight years of consecutive overseeding.

As of February 1, 2022, over 250 generous households have donated in excess of \$50,000 since July. Your Foundation board has been diligently reviewing grant requests as to what worthy projects these donations are to be used for.

To all who have made a donation, your Foundation board thanks you. You make a difference. If you haven't given yet, please join your friends and neighbors in this endeavor by making a donation today.

SCOV Resident's Volunteer Experience (See related article on page 4)

Gay Russell is one of the volunteers from SCOV who participate in the Coalition for Sonoran Desert Protection wildlife monitoring program.

"I am not able to physically tramp around in the desert, but I volunteer as a "Desert Identifier," someone who is sent the photo files from the chips on the motion-sensitive cameras mounted in the washes, and then goes through the photos, one by one, and identifies the animals. Records are kept of the animals sighted on camera. We count the numbers in each scene. Each camera chip is examined by two volunteers and then the record totals are kept by the Coalition headquarters.

It is fun to see all the different animals that live in the area. Seeing that these animals live around us and they should be enjoyed and protected is important to me. Without something like the Coalition and its volunteers, we would begin to lose some of our native animals. We need to respect that the animals also live here and protect their safe passage from place to place."

Clay

Pres. John Grandner 240-271-9585; VP Barb Peterson 612-710-9421

Clay Club member Renee Baker shared her techniques for "balloon" luminarias. "To begin, I either hand build or throw a bowl. Then with a balloon inside, I build around the balloon with different shapes of clay. I let it dry for a few days, pop the balloon (keeping my fingers crossed it doesn't pop before

Renee Baker with her luminaria

finishing), and then fire and glaze." The luminaria pictured with Renee is one she is in the process of glazing.

This month, as in past years, Clay Club members are happy to donate approximately 100 handmade bowls to Tucson's Interfaith Community Services fundraiser. This organization supports several local agencies.

In 1920, 32 million Americans lived and worked on farms, 30% of the nation's population. One hundred years later, the count of farm families is 3.4 million, 10% of what it was a century earlier. They now comprise just 1% of Americans. Yet they still feed our country and others, even if too many people mistakenly believe that food comes from Safeway. Despite agricultural consolidation, the Underland family farm on the border of Minnesota and South Dakota lives again in miniature on our model railroad. Modeler Bob Underland has recreated the family homestead, building many of the structures and fencing from scratch using recycled wood. Store-bought machinery and cattle bring the scene to life. Pride of place belongs to the prize-winning Black Angus beef cattle Bob would still like to breed. Modelers create worlds both new and old; come join us and make yours come to life.

Sculpture

Pres. Laurie Lichaa 520-991-9953
Mon., 9 AM-5 PM, Catalina Vista/Art Studio

The Sculpture Club meets on Mondays in the Art Room in Catalina Vista. If you are interested in becoming a member of our club or learning more about what we do, please stop in on Monday mornings or contact Laurie Lichaa, President. If you would like to see some of our work, we have sculptures in the display cases in Catalina Vista and the Sun City Library.

In mid-January the Sculpture Club started a class for new and current members taught by club member, Aleda Haug. The class is focused on sculpting a head using a skull armature like the one

shown in the picture. Aleda is guiding students while they use techniques illustrated by Juliana Lepine, sculptor, who is known for her miniature sculptures. The picture also shows the beginning stages of a head sculpture with clay applied to the skull armature and the beginning stages of developing the eyes and nose. Students were tasked to choose a model for this sculpture project.

Seniors For Kids wooden cars, before and after. The recycled piece of a 2 x 6 will end up as a race car.

The progressive steps to produce an SFK wooden race car are:

1) Use a template to transfer the body outline to the scrap wood; then use the band saw to cut out the car body.

2) Take the car body to the edge and reciprocating sanders to smooth the outer perimeter.

3) When the sanding is done, take the car body to the drill press to drill the holes for the axles. A forstner bit is used to drill the window.

4) Use the router to round over all the sharp corners.

5) Paint the wheels, axles (available in SFK supplies) and the car body. Use a stencil to obtain the numbers layout, which are hand painted.

6) Final assembly is the last step.

We are always looking for hands to help us make more of these. They are in high demand come holiday time. Hope to see you in the wood shop.

No business meeting in March.

The sewing groups under Thimblelenas depend on donated materials for the many items made every year for local charities. We are always in need of used bed sheets (never used as cactus covers). These are cut up and sewn into crib sheets. Also needed are t-shirt backs and blank fronts. These are made into newborn infants' hats. Items can be dropped off at the Sewing Room during any club hours. Club members can reserve open times for personal projects, or sign up for one of the club times on SignUpGenius. Casa Amigas

Sigrid Flatness 425-213-6689
Mon. and Thu., 9 AM-Noon, Artisan Center/Sewing

We are a team in Casa Amigas. If one member has a skill that another member wants to learn or needs help, it's just natural for us to pitch in and help each other to make wonderful items to give to others. For example, Suzy Naglekerk and Leslie Monroe have collaborated to produce the cutest bags for teenagers at the Tohono O'odham Reservation in Sells. Leslie machine embroiders symbols and images on the bags and Suzy sews matching fabric and buttons for straps and closures. You can get your creative juices flowing by learning to quilt, machine embroider, serge and eventually merge all these skills to create truly wonderful gifts and charitable items. Come into the sewing room or look at the display windows in the Artisan Center to see what magic goes on here in SCOV. If you are interested in being oriented to the sewing machines or Thimblelenas, contact Carol Myers at 715-754-2824.

We are still embroidering faces, sewing bodies, stuffing them with love and filling the shelves for the next set to march out to new families. Our shelves are filling fast and happy faces are smiling at each other as they work. It is good to have people in the room and around the table again. We have many new faces and lots of talking. We even had a lunch last month.

If, in your sorting and cleaning out, you find you have some flannel pieces, we are in need of the flannel to make the bodies of the bears. Donations are always accepted. Thank you for your support and the large donations of polyfil. You always come through to meet our need.

Thank you again to Seniors for Kids for continuing to sponsor our bear making. Please remember that kindness is good for all.

The Tapestry Hooking and Fiber Arts group meets Tuesday mornings in the Sewing Room. If you are interested in being part of our group, stop by the Sewing Room on Tuesday mornings. The group provides materials and instruction for those interested in learning hooking, and people interested in other arts using fiber are invited to join our group.

This project, by Carrie Wiley, is a good illustration of using a unique yarn to obtain a special effect. Carrie found this yarn on sale and thought she could use it in a hooking project. Since she was looking for a furry effect for the bunnies in this picture, she used the yarn she purchased. If you notice, the middle bunny looks a little darker than the other two. The difference in color is due to the way she pulled the yarn through the hooking material. This is a good example of obtaining two different effects using the same material.

Mon., 10 AM-Noon, WC1, Zoom meetings first Mon. of the month

Club member Esther Berlot's scathing poem conveys an important lesson: It is not only morally superior, but practically more effective, to praise and encourage before suggesting improvements. Our group has successfully followed those principles for over 20 years, creating a safe and nurturing environment that continues to foster friendships as we aid and encourage one another to better success in our poetic endeavors. Kindness and respect are bywords that we follow, and we're always glad to welcome new members.

Inquisition

A poet sits in the docket. / A jutting jaw leans forward / listening to a monsoon / of slashed phrases.

Hands flail like birds / pecking at ramblings, / demanding perfection.

The incoming verbal storm / rips up roots. / Revised phrases, grammar, spelling and punctuation / leave clauses to dangle in limbo.

After storm subsides, / a shattered ego hides in arrogance / to defend her stance.

The inquisition has silenced / a poet's lyrical voice.

Havurah

Pres. Barbara Hamm 928-210-4735
www.havurahscov.org

This year, the Jewish holiday of Purim falls on March 17, celebrating Queen Esther's thwarting of Haman's plans to destroy the Jews in the 5th century BCE. It is normally a raucous holiday, when people dress in costume, eat delicious pastries called hamantaschen, and thoroughly enjoy themselves. This year Purim festivities will be subdued due to Covid. Hopefully, some of us might want to celebrate in our homes with friends and family. Havurah group activities remain canceled, although we hope to have our yearly installation of new officers and ice cream social on Monday, March 21. Check our website for updates. Zoom Book Group meetings continue. We will discuss *The Book of Lost Names* by Kristen Hamel on Tuesday, March 8, 3:30 PM. Join us.

This club provides an enjoyable social evening getting to know some of your SCOV neighbors who enjoy cooking and eating interesting food. Our monthly (December-March) themed dinners in individual members' homes provide relaxing fun as we explore various cuisines (e.g., German) or get creative with more ambiguous themes (e.g., food in

L-r: Jack and Sally Evert, Allan Mashburn and Charlotte and Bob Landis enjoying French bistro cuisine

songs). Since everyone brings part of the meal, it's not a huge effort for the hosts. We also have several catered/restaurant events each year, as well as an occasional potluck. Our January dinner theme was French Bistro. Visit our website to see more photos and details. Contact an officer for more information. Our March 14 meeting will host Jeff Utsch and Mona Gibson who are candidates for Amphi School Board. Mr. Utsch is a UArizona grad in aerospace engineering, founder of "Heirs of the Republic" group that meets monthly. He is also an instructor at the Leadership and Freedom Center in Gettysburg, PA. Ms. Gibson is a professional and a Precinct Committeeman in our legislative district.

Our membership continues to increase; we celebrate several new Precinct Committeemen in our club and encourage others to take that step. It's the most important, influential, local position in the GOP. Everyone is welcome to attend our meetings.

We meet Tuesday, Thursday and Saturday, 9 AM in the winter, 8 AM in the summer, at the AFC pool. There is no fee to join the club or the class. The teachers are club member volunteers. Being able to do a basic swim stroke is very helpful. Items used in the class are buoys, boards, noodles, balls and a fitness band (you'll need to bring your own). A band can be purchased from Marcia for \$5. We assign an experienced member to a newcomer to help with learning the various movements. You will get a good workout in a fun class.

Pilates

Mary Ayers 520-638-7916 scov.pilates@gmail.com
Mon., 3 PM, Thu., 1:30 PM, AFC/Studio

Understanding the principles of Pilates takes a little time and patience because some of the exercises are different from other forms of exercise, but they are fun, interesting and challenging. Pilates can actually become addictive. It teaches proper balance, breathing, focus on your core (your abdomen and back muscles) and movement control. The constant movement from one exercise to another results in developing more strength and stamina. Even your posture is improved. Joint flexibility and mobility increase. Two experienced instructors conduct the mat Pilates classes for us and will modify any of the moves for you, if necessary. The cost is only \$8/class and the annual club dues are \$20 pp. Please stop by and watch a class. Call Mary.

A new 10-week class begins on Thursday, March 17. New students are welcome and asked to call Alice Hutchison for information or to register.

Tai chi is an ancient Chinese tradition that involves slow focused movements. Because of the benefits for balance, strength, and improved breathing, it is an exercise especially suitable for seniors.

A fact known by researchers is an individual's brain loves attention. The goal is to minimize the risk of dementia. This research suggests that the brain needs a healthy diet, exercise, regular check-ups and to play word games.

The Scrabble Club welcomes anyone who wants to socialize, make new friends and feed the brain. Don't worry if you are a beginner, the players just enjoy socializing.

Vistoso Cyclists membership is only \$15/year, hard to believe, given we are one of the best cycling clubs for seniors in the nation. Aside from the rides, our members enjoy our very useful website, including a searchable member directory, club classifieds, online ride schedule, cycling resources and more.

We offer several hundred scheduled rides year-round, among four different ride subgroups, from 20 to 60+ miles, to cafe destinations within Tucson and nearby towns, utilizing both pathways and roadways. Occasional away rides are offered as well. Our cafe stops offer coffee and conversation, greatly enjoyed by our members.

The club has e-bike, mountain biking, and Women on Wheels subgroups. There's also our monthly club newsletter email.

All schedules can be found within the excellent member area of our website. We also host social events and support both the Interfaith Community Services Food Bank and Wheels for Kids. For more information or to join, visit our website.

In March, we begin seeing the neotropic cormorants flying over the pickleball courts on their way to enjoy the golf course ponds. They don't stay here very long and visit only a few states. In fact, they are pretty rare in Arizona, much preferring the Lone Star State.

With 90-plus members, we are an activity-oriented group, and all SCOV residents are invited to join us on our field trips to learn more about the birds in Arizona. Below is a list of upcoming bird outings. If you are interested in going on any of these, be sure to contact the trip coordinator for details at least three days in advance and ask to be added to our mailing list.

VP Training Doug Brown wizisland@comcast.net
Sun.-Sat., 8 AM-9 PM www.scovpb.org

The pickleball/tennis task force completed five meetings to determine if the pickleball club should obtain additional pickleball courts. The task force agreed through a consensus that one tennis court will be striped for two pickleball courts, one on each side of the tennis net. This striping will be on a temporary basis until additional permanent courts are constructed. Thank you, Tony Masterjohn, for your hard work.

In the meantime, another task force, the Pickleball Court Expansion Task Force (PCETF) will explore possibilities and locations for permanent pickleball courts. They will report the findings to the SCOV Board. Nelson Brown will chair the task force, and Phil Rose is the pickleball representative. There also will be a BOD representative and HOA staff person on the committee. They, along with a tennis representative and at least three neutral SCOV residents, will study and research future possibilities.

"It started out as a normal outing. My wife and I had to run to the grocery store. We were driving down the road casually going over our shopping list when the car ahead of me started to slow down anticipating the yellow light. I started to move my foot from the gas to the brake as any normal person would do when they see brake lights in front of them, but I couldn't. I couldn't feel my foot! The car kept moving forward and I just couldn't get my foot on the brake. And CRUNCH! I finally came to a stop when I hit the car in front of me."

This tragic story was shared with us by Dan S., an Oro Valley resident who has peripheral neuropathy. And while thankfully no one was hurt in the accident, Dan had suffered daily with tingling and burning in his feet, until numbness set in.

"The first stage is pain," shares Acupuncturist Kari Hahn of Oro Valley Acupuncture. "You feel burning, tingling, sharp pains, or you may feel like you're walking on tacks or marbles. This pain eventually subsides and that's when the numbness begins. While it may seem like a good thing to be out of pain, it's actually a further progression of this degenerative disease. Unfortunately the numbness brings with it a whole new set of

"SHE GAVE ME MY LIFE BACK"

Local clinic has a modern, medical solution to treat your Peripheral Neuropathy and is seeing incredible results!

issues as was the case with Dan. **"I said I wasn't going to drive again, what if that had been a pedestrian?"**

It is all too common that peripheral neuropathy and it's debilitating symptoms interfere with a person's ability to live their life. Dan was now reliant on his wife to drive him around. Even simple pleasures like driving to the golf range or taking his wife out to dinner were beyond his capabilities. And even more common, Dan's general practitioner and several specialists told him there was nothing they could do besides prescribe pills to hopefully ease his pain.

That's where Acupuncturist Kari and her staff at Oro Valley Acupuncture come in. "About 75% of our current patients come to us suffering from the same condition as Dan," tells Kari Hahn, L.Ac.

"They are in constant pain from peripheral neuropathy and it prevents them from not only living their lives, but more importantly from enjoying them. Depending on the severity of their nerve damage, we typically see tremendous progress in 3-4 months of treatment. I like to say we're in the business of making your golden years golden!"

"I can't lie" confides Dan. "I was skeptical at first. When I was told by specialists that nothing could be done and then there's an Acupuncturist here in town who tells me she can help. It turns out she was right! About 3 months after treatment started I was able to confidently drive myself to my appointments! My wife and I even celebrated by buying a new car! It's hard to put into words how incredible this is, quite frankly Kari Hahn gave me my life back!"

While Oro Valley Acupuncture specializes in acupuncture, and it's definitely part of the protocol in treating neuropathy, we also use modern adjunct therapies that also play a powerful role. One of our most effective tools is ATP Resonance Biotherapy™. This technology was originally developed by NASA to expedite healing and recovery. It not only helps with pain, but also aids in the regeneration of both large and small nerve fibers.
