Are We Relevant?

by Allan Mashburn

I had the opportunity to spend a few weeks with two of our granddaughters this summer. One is 16 and the other is 14. It was quite an enjoyable and eye opening experience as they tried to bring grandpa up to speed on the latest and greatest teenage slang. New words and recycled old words are created, and used, by this teenage subculture on a continual basis. Remember the words and phrases that we used way back in the 60s? Well, this generation has their own and understanding can sometimes be daunting.

To get you up to speed, and maybe help you understand a few of the things that your grandchildren are saying, here are four examples that I found most interesting:

Bussin' – Something that you found extremely good, usually referring to food

Cheugy – Someone who is out of date, referring to style of dress such as knee high boots

Dapper – A way of describing something as cool or awesome. I pointed out to my granddaughters that this word has been around for quite awhile and has been used since the 1920s, to indicate how well a person is dressed. I was informed that dapper has a broader meaning and can refer to anything, not just how a person is dressed.

Rent Free – This phrase is certainly one that I appreciate. It indicates that you are so caught up with someone, or something, that you obsess about it. It's taking up space in your head and you are receiving nothing but anguish in return.

Of course, none of this new fangled slang is really relevant to us. It's for a younger generation. Each generation has different ideas, thoughts, needs and desires.

As residents of SCOV, we need to be aware of the future and what changes we will need for our community's viability and relevance. That means that we can't remain in the past and accept things just because it's always been that way.

Sometime during the first of this month, we will know the outcome of the vote for raising the Capital Contribution Fee. It's passage is a key factor in keeping our community relevant with other 50+ communities. If we don't continue to change,

to improve, then our community becomes less relevant.

And that newly remodeled Activity Center is bound to be totally dapper!

Share Some Kindness

At a national conference of Community Associations Institute (CAI) earlier this summer, I had occasion to visit with many of my colleagues. Many being more than 100. The subject came up of kindness of residents within our respective communities.

Most people know and understand what being kind is. I know of many within our SCOV community that exhibit this special attribute on a regular basis. It would be difficult to try to define by example, as it can be shown in so many ways.

It was sad to hear that in nearly all the communities of those represented, there is an increase of residents that are not kind. The lack of kindness is not directed toward any specific group. It seems to be a phenomenon that appears to originate since Covid became a household word and residents were required to stay at home for many hours, days and months.

Here at SCOV we are not immune to this type of behavior, but thankfully, it is much more rare than what I heard other general managers describe.

I only bring this to your attention to remind all of us that we live, work and play very close to one another. A kindness shown goes a long way and is remembered with fondness. Like the horn honking resident/friend that drives by my office many mornings, it always brings a smile to my lips. Please look at your life and see who you can bring a smile to. Consider using something that won't cost you anything, such as a compliment or a simple greeting to someone who may not get any other interaction all day.

I know many of you. I know how kind you are and the welcome words you share with me. I encourage all of us to be just a little more kind today and everyday.

Thanks to all of you for the many kindnesses shown to me, my wife and all of our staff. I think you're the best.

Touring Tucson's Mural Scene

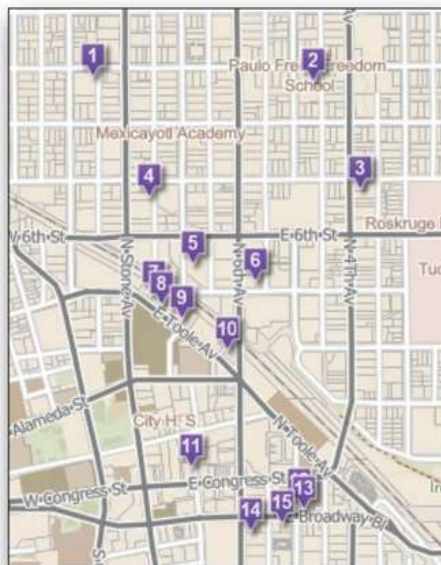

by Marsha Dean

It's still hot and you're looking for something to do. How about a little road trip, in your air-conditioned car, to check out some of our area's extraordinary

outdoor murals? According to www.thisistucson.com, there are more than 100 murals in Tucson and Oro Valley. These public showpieces have become part of Tucson's signature for all to enjoy. If you decide to go on a mural trek, start by planning your route before you go. There is a map of the downtown-area murals at www.tucsonaz.gov/muralmap/#. The downtown murals are a great starting point, because you can see about 25 of them in a relatively small area.

Parking and walking around downtown tend to be much easier on Saturday and Sunday, where you can park for free at metered spaces and there is less traffic. When you go, plan to get out of your car so that you can see the murals in their entirety. Usually, this necessitates standing across the street from the mural. Last year SCOV Hiking Club members explored the downtown murals. Several of the photos are from their walk.

The online interactive map of the downtown Tucson mural locations includes photos and descriptions of the artwork. www.tucsonaz.gov/muralmap/#

murals and learn the artist's names and the addresses where they are located. If you can't take a drive, be sure to take a virtual stroll.

If you'd like to learn a bit more about the murals, www.thisistucson.com has photos along with some narrative about the mural content.

The mural collection is frequently added to, so revisit the web pages occasionally to keep up-to-date. Enjoy and appreciate the native and Hispanic cultures reflected in

many of them, as they reflect the Tucson environment and people. Let us know if you have a favorite.

The University of Arizona Fred Fox School of Music will feature small ensemble performances in front of some of the downtown murals on Monday, October 17. More information will be available at www.music.arizona.edu.

If you decide to venture beyond downtown, there's another interactive map online at bit.ly/tucsonmurals. This map is color-keyed by region so that you can concentrate on specific geographic areas to plan your mural safaris on different days. Click the View Larger Size icon on the map and it will enlarge for easy planning. This web page is a useful resource to scroll through photos of the many

Drones

Following are the guidelines for use of drones within a residential setting. Those equipped with cameras or other sensors have a high potential of creating noise nuisances, unwanted trespass and invasion of privacy. The use of any drone must comply with applicable local, state, and federal laws. A drone's operator must maintain direct control of the device and assumes liability for any damage their drone causes.

The use of drones within this tract shall be restricted to the owner's property and shall not:

- Create an unreasonable sound nuisance.
- Be operated within 25 feet of a vehicle.
- Be operated before sunrise or after sunset.
- Enter or fly above the property of other residents without their expressed permission.
- Be used to view or record other residents or their property.
- Result in the collection of private data or images for publication or posting, without the permission of the people or property owners affected.
- Be used on or above common spaces or easements.
- Lose visual contact.

The airspace above a private residence and below altitudes governed by the Federal Aviation Administration or other governmental agencies, is considered the private property of that owner. Owners and occupants have a reasonable expectation of privacy which must not be violated. Persons under age 16 operating drones shall be actively supervised by parents or adult guardians during their use to ensure compliance with these rules and FAA requirements. The drone must be registered in the Administration office with a copy of the operator's license and insurance on file.

Thinking of Remodeling?

The following are issues that you should discuss with your contractor before beginning construction:

- 1) Residents shall be responsible for the actions of their contractors.
- 2) A clean work site is important. Development Standards Section 2.1.E: "During construction, debris shall be disposed of daily or stored in a covered container located in the driveway. The container shall not extend into the

sidewalk area. Building material shall be stored out of sight in the garage or in the back yard of the house."

3) Contractors are encouraged to be respectful of the neighbors. Aprons and adjacent sidewalks are not designed to support heavy vehicles and parking should be on the blacktop. Neighboring driveways should not be blocked. Parking of trucks to prevent safety concerns should be addressed using safety cones, etc.

4) The Town of Oro Valley Town Code 10-1-4, 6. "Noise: Noise generated by construction, demolition, excavation or grading according to the following restrictions:

a. Concrete. The pouring of concrete and all associated work may be conducted from April 15th through October 15th between the hours of 5:00 a.m. and 7:00 p.m., and from October 16th through April 14th between the hours of 6:00 a.m. and 6:00 p.m., or as authorized pursuant to an Extended Construction Hours Work Permit (ECHWP) issued under Oro Valley Town Code Section 6-6-2.

b. All Other Construction. Within five hundred (500) feet of a residential zone, all other construction may occur between the hours of 6:00 a.m. and 6:00 p.m."

Master Declaration 4.5 Nuisance and Development Standards Article 2.1.E provide the authority for enforcement of these policies.

Before hiring a contractor, please refer to the following site for information on hiring Arizona licensed and nonlicensed contractors: www.azroc.gov. You may also refer to the Consumer Referral Vendor List on our SCOV website under Members/Member Services.

Cleaning Gym Equipment Before and After Your Workout

In the modern age, people have become a little more conscious when it comes to cleaning gym equipment and disinfecting it when they are finished using it. Whether you're going to a fitness class in person or using the equipment, the equipment needs to be cleaned after each workout.

If you are in a gym with other people, it is common courtesy to clean the equipment for a variety of reasons. Nobody wants to share sweat. Even if you are the only one who is going to use the equipment, you should definitely wipe it down. Using your wipes, try to get all the awkward areas such as nooks and crannies, as well as the seams around the seat. Also focus on any area of high contact.

Special Note From the Aquatic and Fitness Center (AFC)

Contact Lonnie Davis, AFC Coordinator, to discuss questions or concerns with the AFC. Hours of operation for the AFC and Desert Oasis are on page 2.

Tuesday, September 13, the AFC pool and spa will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Wednesday, September 14, the Desert Oasis pool will be closed for cleaning and shock treatment and will reopen the following morning at the regular time.

Tuesday, September 27, the AFC spa will be closed for cleaning until 1 PM.

Architectural Review

Jim Cherry 612-805-5637 ARC@suncityorovalley.com

Zoom meetings Second and Fourth Tue., 2 PM

Planning to build an addition or put up a patio cover? Then Policy ARC-006 is there to guide you through the approval process. For specific guidance, go to the website; Members > Documents > Policies and scroll to pages 27-74. The policy covers two paths:

If you want to build within the "Solid Green Lines" for your model, then follow the "Pre-Qualified Concept Application" process. An ARC review can lead to 100-ft. neighbor letters being issued and the formal committee review once the letter process is complete.

If you want to build outside the "Solid Green Lines," the "Concept Application" process is the first step. Complete the application form, your plot plan and a sketch outlining your thoughts. You do not need architects and contractors. The ARC will come out to review your idea, assess visibility risks, lot setbacks, roof lines and drainage. They can also share what others have done in the past.

Leverage the ARC to assist with your planning phase.

Artisan Center Renovation Task Force

See SCOV calendar for meeting dates, time and location

The Artisan Center Renovation Task Force (ACRTF) meets the first and third Tuesdays of the month as needed. The SCOV website will have current agendas and minutes of meetings. An updated version of "A Discussion of the Existing and Future Facility Requirements for the Artisan Clubs of SCOV" is available on the SCOV website.

Community Directory

Chair Blythe Campbell 907-717-7546 scov.community.directory@gmail.com

www.scovaz.com/members/services/directory

If you move within SCOV, your old directory listing is removed. Why? Many people own more than one house here. Sometimes this is temporary while the owner buys a new house and sells the old one. Others are permanent and used as rentals or bought for rehab and resale. All new owners are unlisted by default, even if you were listed at your old address. You can update your listing at any time by completing the online form, "To change your directory listing."

Are you a new resident? Check your new owner emails from SCOV for information about how to list your information in the online and printed directories. In addition to names, landline and mobile phone numbers, addresses and email addresses, we can list your hometown and occupation. We don't list "retired" as that's the case for most SCOV residents.

Consumer Referral - Vendor List

Susanna Moran scovconsumerservices@gmail.com

The Vendor List is on the SCOV website. After logging in, go to Members > Member Services > Consumer Referral Vendor List.

The Vendor List also may be viewed at the monitor's desk at Catalina Vista during business hours (during Activity

Center renovation). Please check the Vendor List often, as changes are made frequently.

Vendors should email Susanna Moran to inquire about applying to be on the Vendor List.

Finance-Budget

Quarterly Zoom meetings on Mondays. Check SCOV calendar for dates and times.

Food and Beverage

Chair Bob Landis landisrc@gmail.com

Next meeting Thu., Sep. 1, 2 PM, WC3

Managing a restaurant is not easy, and during the last few years it has become even more difficult because of Covid, supply and labor shortages and inflation. While there have been some bumpy roads for The Views Restaurant during this time, it is important to point out that (1) The Views has remained open when many like establishments closed or went out of business, (2) Prices have remained constant, (3) Entertainment has remained at a high level and (4) Wine and home supplies (e.g., tissue paper) were made available for purchase.

During the coming months, the Food and Beverage Committee will focus on ways for the community to participate in The Views Restaurant with a focus on continuing to enhance the quality of service in the restaurant and lounge.

New homeowners may not be aware, but SCOV has a wonderful Library in the Welcome Center. Use of the Library is part of your HOA amenities. Our Library contains current fiction and nonfiction books, DVDs, audio books, puzzles and magazines. Most of these items are purchased thanks to the generous support of Friends of the Library (FOL). FOL started with about 400 members in 2016 and has almost doubled in size since then. To join FOL and keep our Library growing, pick up a form in the Library. Membership is \$15/sgl or \$20/family. Becoming a Friend will not only help purchase items, but will allow you to attend exclusive FOL events and be the first to be able to buy tickets to the popular annual Home Tour.

Featured artists this month are Ken Rosburg and Charlotte Landis.

Settling in SCOV in 2018, Ken found his second home in the Wood Shop. After discovering a six-point-star design on paper, he figured out how to cut twelve triangles of exotic and domestic woods and fashion them into a star. The result was a beautiful tissue box cover. His works include clocks, coasters, wine glass covers and charcuterie boards, incorporating his star and rosette designs.

Ken Rosburg

As a young girl, Charlotte Landis spent countless hours with her parents maintaining and nurturing their garden. Her paintings highlight the details she discovers in the earth. Charlotte's paintings come to life as she invites the viewer to take a closer look.

Charlotte has been painting in her studio since 2007. When vacationing in Maine she has shown works at the Ellsworth Library with the "Wednesday Painters," Schooner Art Gallery in Milbridge and Lighthouse Arts Center in Bucksport.

The recent Oro Valley mayoral debate was a great success. In fact, those wishing to attend the forum exceeded facility capacity. SCOV insurance requires that we restrict attendance to the capacity rating for each location.

The allotted time frame did not allow all of the suggested questions to be put to the candidates. The remaining questions were provided to the candidates and their written responses were subsequently returned and are now posted on the SVOC website under Committees/GAC/documents.

The GAC has restarted the "Coffee with a Cop" program, an intimate format to ask our local law enforcement all those questions regarding the safety of our community. The first of these is scheduled for Thursday, September 8, 8 - 9 AM, at The Views Restaurant. Seating is limited to 40. Other future forums in the planning stage include local district race debates and a forum on local and statewide water issues.

The Loan Room is a free service available to all SCOV residents. We have short-term loans for medical equipment, tables and chairs, beds and many children's items. Reservations may be made up to two months in advance of a need, either at the Loan Room or on our website. You need your SCOV card when you receive items. Our hours are 8-9 AM, Tuesdays and Thursdays. We ask that you bring whatever help you need to carry equipment to your car. Please do not leave equipment at the Loan Room outside of our open hours. We appreciate your patience during the summer while the air conditioner was not working, causing problems with some of our computers. Please come and see what we have available during our open hours.

First Wed., 9 AM, Catalina Vista

Congratulations on choosing to live in this glorious community. You may have selected SCOV because of its natural beauty, amenities, or available activities. Equally important is that SCOV is so beautifully maintained. This is a direct result of the efforts of staff, maintenance crews, the residents and the active members of several committees. Neighborhood Pride is one of these committees. Now under the leadership of Bill Bable, there are some big goals. Consistency. Simplicity. Communication. Together, we're up for the task.

The Posse is dedicated to keeping our residents safe. Here are a few safety tips:

- Be sure your garage door is closed at night.
- Check your front door and garage door lights to be sure they are working and replace the bulbs when needed.
- Check the lights on your house numbers sign and replace the light bulbs when they are dim. (This is especially important for emergency personnel to be able to read your address, also so family and friends can find you easier.)
- If you park your vehicles outside of your garage, be sure to lock the doors.

The Posse is looking for board members and volunteers to patrol. For information contact Linda Simón.

Semiannual inspections of SCOV facilities are one of the Properties Committee's primary functions. The purpose of the inspections is to identify the condition and maintenance needs of SCOV facilities and grounds. Committee members together with HOA maintenance staff will conduct a variety of inspections during September and October. Specific inspections will include general facilities, golf course cart paths, the golf course irrigation pump station and the Chalk Creek Wash. The Properties Committee works on a variety of tasks like this during the year. Our recent meetings have been in person and via Zoom. The calendar on the SCOV website has scheduled meeting dates, times and meeting format.

How do we prepare the *Tipster* for publication? The contributors submit articles on the SCOV website by the eighth of the month. Marsha Dean, our SCOV Communications Coordinator and editor, reviews the articles as she enters them into the *Tipster* format, highlighting issues for the editorial committee to consider. She chooses the color theme and cover photo. Next, she divides the copy into sections for teams of *Tipster* editors to review—to ensure the articles meet *Tipster* Article Standards, are clear in meaning and useful to the community. Submitters are consulted if significant changes are needed. After editing teams have met, Marsha uses their edited copy to make the indicated changes. Next, the second draft. The chair and a member of the committee review the entire issue for additional editing. Marsha again revises the copy, arranges the ads and photos, and it's off to the printer. We hope you enjoy your community magazine.

September is the time of the year that we overseed winter ryegrass on the golf course for the upcoming season. During the time we are closed for overseeding, the driving range tee will have limited access but will be accessible to hit balls off the artificial turf tee line.

The golf course will be closed during overseeding starting Monday, September 19, through Sunday, October 9, and will reopen for play on Monday, October 10. We ask the help of all residents to not drive golf carts or walk on the golf course while the new grass seed is being planted and watered.

In September, the Pro Shop will be open regular hours, 6 AM-5 PM, through Sunday, September 18. We will be closed September 19-20 and reopen for limited hours, 8 AM-Noon, September 21-October 9.

When we open for play on Monday, October 10, all golf carts must remain on the cart path at all times for a couple of weeks. The projected date for golf carts to start driving on the grass is Monday, October 24.

Director of Golf Maintenance - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

September is the time of the year that golf course maintenance shifts its priorities. Instead of trying to grow healthy Bermuda grass on the tees and fairways, the focus changes to slowing down the Bermuda grass in preparation for overseeding. Healthy Bermuda grass provides a great seed bed for the germinating ryegrass seed, versus a thin stand of Bermuda grass that exposes the seed to heat and lack of moisture. However, if the Bermuda grass is still rapidly growing while the ryegrass is trying to establish, it will out-compete the new seedlings and cause the ryegrass canopy to thin out.

The Bermuda grass growth is slowed down in several ways. Fertilization was stopped on fairways and tees around August 1. Mowers are vertically mowing to thin the canopy which slows the rapid growth and density. Growth regulators are applied that limit excess growth as well. The week prior to overseeding, another growth regulator is applied that puts the Bermuda grass into a state of dormancy. This allows the mowers to scalp the Bermuda grass down so the ryegrass seed can better enter the canopy. The dormancy ends as the irrigation is started, but it lasts long enough to allow the ryegrass canopy to establish.

This year all the fairways will be overseeded. Of concern is hole #2, and an anticipated poor transition into next summer. The high golf cart traffic is so focused going down the middle of the fairway, it leads to many bare areas. Some kind of traffic control will need to be implemented for the health of the grass.

League play Tue. mornings

From time to time, we have all been told to speed up play or to pick up your ball and move to the next tee. We may have even grumbled under our breath at the reprimand. But not having a player assistant on the course can create a less enjoyable playing experience. The player assistant, along with the tee host are golf's version of a traffic cop. They help prevent bottlenecks and keep the pace of play at a reasonable speed. They help players who are unfamiliar with the course and even remove dangerous wildlife such as rattlesnakes. So when the tee host is reminding you to report to the first tee or the player assistant tells you to catch up to the group ahead of you, give them a smile and a nod, and help everyone to have a pleasant day on the golf course. Thank you to Bob Telban, Brett Sims, Carsten Knight, Gary Letterman, George Peppe, Jaren Keating, JC Castano, Lynn Wildwood, Owen Nutley, Richard Weirsma, TJ Hall, Tom Whitehall and Wilson Wright.

Volunteers play such an important role in making SCOV one of the top retirement communities in the United States. From the HOA Board and associated committees, to *Tipster* collation, to assure accuracy and distribution of the phone books, to leadership of the clubs and organizations and many

others; all help in making everything run so smoothly. Your Foundation is one of these volunteer groups that particularly help support SCOV by financially supporting health, cultural, recreational, educational and charitable needs within the community and the surrounding area.

Your Foundation is governed by nine volunteer residents who evaluate grant requests from clubs and organizations. Grants have been made for as little as \$100 up to \$7,000. If your club has a particular need, the Foundation can help. The protocol for requests is listed on the Foundation webpage, www.foundationscov.org.

One of those volunteers is Ed Enyedy who has taken all of the pictures for the Foundation *Tipster* articles. Ed deserves a big thank you.

Our seasonal members will return soon, eager to start the next big project. Summer months are for dreaming, researching, planning and loving ideas that we can't wait to try. The feel of the clay, our tools gleaming in our tool pouches, the familiar whir of the wheel, our favorite smoothing sponge and our well-worn aprons all beckon us to get started again.

Maybe this is the year for re-decorating. Wall pockets filled with greenery would be just the thing, or maybe a few matching pots to plant fall flowers. It's

never too early to start designing gnomes for holiday gifts. Wherever our thoughts may be going, we are fortunate to have our Clay and Glaze Studios to perform our clay magic.

Japanese flower arranging, *Ikebana*, is the art of arranging flowers, branch materials, grasses and leaves. If you have a knit or crochet project, or would like to learn, come and join us. An ongoing group project is making crocheted mats out of plastic shopping bags. You can participate in this project by cutting the bags into strips, stringing the strips into plastic yarn (plarn) and/or crocheting them into mats.

If you wish to donate bags, please flatten clean Fry's, Safeway or Walmart bags and stack them by color. You can

then fold all the stacks over into one, no need to fasten them together. This effort on your part greatly streamlines the cutting and crochet process. Please do not drop off newspaper bags as they do not work for this project.

Bags can be dropped into a basket on Jane Fairchild's front porch any time at 1750 E. Crown Ridge Way.

The biplane is a model of the Boeing-Stearman PT-17, a World War II trainer for the Navy and Army Air Force. It had to be handled exactly according to the pilot operating manual or the trainee would get a big surprise. In this vignette by Fred Faust, the plane is parked on a runway made of PSP (pierced steel planking), a common construction method for building airstrips quickly and in remote areas during World War II and later. Two trainees in the WASP (Women Airforce Service Pilots) program are checking out their plane. Maybe they are wondering where the leak on the runway came from. Perhaps there was an element of nostalgia in Fred's selection of this scene, since he was once a flight instructor himself. For fellowship and to enjoy more fine model making, join us for our next monthly meeting in Friday, September 9, 8:30 AM, Catalina Vista.

The Sculpture Club meets Mondays at Catalina Vista/Art Studio. If you are interested in becoming a member or learning more about what we do, please stop in Monday mornings or contact Laurie Lichaa. Our club meets all year. If you would like to see some of our work, we have sculptures in the display cases in Catalina Vista and the Welcome Center along with some pieces on display in the Library.

Pictured is a recent sculpture project completed by Dale Foster. Originally, Dale intended to make a "hound dog" as a 3-dimensional sculpture that would rest on top of a cactus spine mounted on a piece of wood. As the sculpture developed it morphed into a "skinny coyote." Dale realized that the cactus spine was too delicate to use as a base, so the piece became a wall hanging.

This project is a good illustration on how initial ideas change over time due to unforeseen reasons.

The Tapestry Hooking and Fiber Arts group meets Tuesday mornings in the Sewing Room throughout the year. If you are interested in our group, stop by the Sewing Room on Tuesdays between 9-11 AM. The group provides materials and instruction for those interested in learning hooking. People involved in other arts using fiber are invited to join our group.

The picture is of two different foundation materials used in hooking. On the left is monk's cloth and the other material is rug warp. Monk's cloth is pliable, soft and has a close strand count. It is a good material to use for punch rug or when hooking a rug with a

random pattern. Rug warp has stronger strands, thus it tends to be stiffer. It is good material for hooking straight lines. Recently one of our members started a project using monks cloth for a design that required straight line hooking. She ended up switching to rug warp because of the difficulty of keeping a straight line when hooking on the monks cloth.

Next member meeting, Mon., Oct. 3, 2 PM, Artisan Center/Lapidary Room

The featured artist for this month is Mark Schmaedeke. Mark moved to SCOV a little over three years ago from Colorado. He is a newer Silversmith Club member, having joined in November of 2021. Bob Peoples, a wonderful silversmith, was Mark's instructor. Mark enjoys cutting stones and creating pieces of silver to give to his wife, children and grandchildren. He recommends the Silversmith Club, Clay Club and Stained and Fused Glass Club to anyone who wants to create cool things they can give away to others.

Stop by our shop and visit with members and monitors. Residents interested in training and becoming members are welcomed.

MaryAnne London displays her exquisite dichroic piece of glass art

MaryAnne has been a glass club member for only three years, yet has skillfully created this dazzling piece of art, worthy of any art gallery. MaryAnne is a modest ingenious creator. Every piece created is a pleasant experience for her. She loves to decorate and to collect art. She stays busy in SCOV as the social

chair of the Pickleball Club, and just recently joined the Neighborhood Pride Committee. She loves swimming and spending time with local family. She genuinely appreciates the graciousness of our club members, who are always there when needed. MaryAnne is also willing to share her talent and lend her expertise to others. We say thanks for her loyal encouragement. For MaryAnne, life continues to be a real adventure. You are always welcome to visit our studio. We aspire to promote imagination.

The importance of SCOV Board support for our community is well reflected in our Wood Shop. The entire Woodworking Club membership is grateful for the new state-of-the-art shop equipment now being installed to replace decades-old equipment.

Already installed are two new commercial SawStop table saws and a new 20-inch planer. Soon to be received are a new 12-inch jointer and a smaller SawStop table saw for segments and detail work. A new lathe, table router and spindle sander are expected soon, and the dust collection system is scheduled for a professional cleaning. This commitment of both the SCOV and Woodworking Club boards has created one of the finest community wood shops in Arizona.

A new member orientation is held at the Wood Shop the first Wednesday of each month at 4 PM. Call Bill Norton at 480-980-5493 for further instructions. For questions or more information, please visit the website or call an officer.

The eight-week fall term of adult learning classes begins the first week in October. How wonderful to have our own educational campus right here in SCOV. No need to drive to the university, hunt for parking or pay a pricey tuition. ILR's courses are either in Catalina Vista, the Welcome Center or in the Native American rooms (when the Activity Center reopens in 2023). There is a modest fee to cover minimal costs (purchasing equipment, etc.). All instructors are volunteers, and most are residents of SCOV with an array of impressive backgrounds and experiences. There are descriptions of the fall courses on our website and video previews with the instructors. You can register and pay the appropriate fees online.

Poets Corner

Sharyn Rafieyan 520-331-1092 srafieyan@comcast.net
Mon., 10 AM-Noon, WC1, Zoom meetings first Mon. of the month

The onset of fall brings back the childish excitement of briefly brilliant leaves burning in flaming colors and then callously crushed to bits beneath one's feet as grim reminders of the seasonal cycle of life. Famed poet John Keats captures other aspects of the season in the first stanza of his well-loved ode, "To Autumn," a magical, musical celebration

in words.

"Season of mists and mellow fruitfulness,
Close bosom-friend of the maturing sun;
Conspiring with him how to load and bless
With fruit the vines that round the thatch-eaves run;
To bend with apples the moss'd cottage-trees,
And fill all fruit with ripeness to the core;
To swell the gourd, and plump the hazel shells
With a sweet kernel; to set budding more,
And still more, later flowers for the bees,
Until they think warm days will never cease,
For summer has o'er-brimm'd their clammy cells."

Writing and sharing our poetry is not confined to seasons.
Zoom with us any time.

The months are passing and soon the seasonal residents will return to SCOV. When they return, activity in the Technology Club starts to brew. The seasonal residents frequently have issues getting their Internet working, their printer working or their cell phone emails available to contact all those they left behind.

Well, we are here to help. Join the Technology Club and we can be of assistance, not only with your computers and printers, but we can also provide help on both Apple and Android devices, setting up your modem or router and evaluating or fixing issues with your smart home devices.

In keeping with our increasing activity, we will offer a number of new classes such as "How the Internet Works," "How Your Cell Phone Works" and "What's a QR Code and How Can I Read It?" In addition to our normal Windows 10 help sessions and Apple help sessions, we will offer continued iPhone classes and new Android (tablet and phone) help sessions.

Looking forward to seeing you in our classes. Check out Peg Bushong's iPhone specialty classes, see Workshops and Classes on page 11.

Next meeting Sat., Sep. 17, 1 PM, Zoom

Come join us to hear our special guest, Kathy Hoffman, running now for her second term as Arizona's State Superintendent of Public Instruction. Much of her work is oversight of the wide-ranging schools in Arizona. Equally important is the State Superintendent's leadership role where she serves on all statewide public education boards which give her a unique opportunity to develop best practices and strategies that take into account the needs of our children at every stage from birth to college to the workforce. A lifetime educator, Hoffman is passionate about preparing children for success in schools across the state. For this she is focused on growing Arizona's educator workforce through targeted recruitment and retention efforts.

As election day draws nearer, we have invited all three Democratic LD17 candidates for the Arizona Legislature so you will have a chance to meet them again. We'll have an update on all our 2022 election projects as well.

One of the three new shade structures

Project updates: This has been an exciting and productive summer for our club. In July, the old entrance sign to the dog park was updated to conform to the SCOV signage standards and we now look like a true amenity of the neighborhood. In August, we erected three much-needed shade pavilions to the delight of the members and their dogs. This will provide shade as well as some protection from the rains. Because of our increased membership, the next big project we will undertake is to line the parking lot for more efficient use and ease of access to allow more vehicles. A big thank you for all of the donations received and people who are making this happen.

It's still summer and a great time to commit to a core strengthening exercise routine. Why not try Pilates? Classes are still small, making it a good time to learn. The benefits that come from performing specific strengthening and stretching exercises strengthen the body's core muscles (your abdomen and back). These exercises increase spine mobility and build flexibility. More benefits include better balance and muscle tone plus increased stamina. Our instructors will modify the exercises for you as necessary. The cost is \$8/class and annual club dues are \$20 pp. Please join us or just come by and watch. Call Mary.

The game of Scrabble is often used to help brain injury patients regain cognitive abilities and hand/eye coordination. While luck plays a role in how well you play Scrabble, computer analysis shows that playing still requires a certain amount of skill. The SCOV Scrabble Club plays every week for the love of the game and socializing that playing affords. Drop by any Friday afternoon at 1 PM, and see if you want to play.

Now, if we can keep the birds off the courts, we should have clean courts.

Cleaned pickleball courts

A new task force was created, Hard Courts Task Force, to explore other options for location for the racket sports in SCOV. So far, they have determined eight locations in the community where construction could be possible. Further investigation is necessary to decide if any of the locations are feasible to construct courts. The decision should be available in late September.

Some of our partner organizations include Refugee Focus, Boys and Girls Club of Tucson, Children's Advocacy Center, Casa de los Niños, Ronald McDonald House and Youth On Their Own. Wheels for Kids is an all-volunteer effort, and we are always happy to welcome new people to our team. If you are interested in learning more, please visit our website or call Tom Terfehr.
