Association News

From The Board of Directors

Our MISSION as the SCOV Board is to lead in maintaining and enhancing the quality of life in Sun City Oro Valley as an active adult community.

All Board minutes, agendas and reports are available online and in the SCOV Library. Board meetings are open to residents.

March Madness

by Jon Olson

Most of us are familiar with the term March Madness. Basketball tournaments, wrestling meets, the Final Four, you name it. March also is a busy month here in Sun City Oro Valley as well. Most of our residents are here enjoying the weather, crafts, a workout in the Aquatics & Fitness Center, visiting the library, golfing, enjoying Pickleball and Bocce Ball on our new courts, etc. It is also time for our annual election of new Board members and, this year, two additional items of importance to the community.

First is a vote to restate our current Articles of Incorporation to change our official name to Sun City Oro Valley Community Association, Inc. from the current name, Sun City Vistoso Community Association, Inc. This is in keeping with the change we made three years ago using Sun City Oro Valley as our doing-business-as name.

It will also establish the minimum number of Board members to be five, keeping us in line with the current Master Declaration and Bylaw language.

Secondly, the Board is asking the membership to give us permission to negotiate with and potentially enter into an agreement over the next 20 years with a solar energy company to install, maintain and bring solar energy to our common area buildings, providing up to 85% of our power requirements annually at a to-be-determined fixed rate. Specific language regarding these two proposals will appear on the ballot, and we encourage your support of these changes and approvals.

As you know we also will be electing two new Board members to serve three-year terms this year. I would encourage each of you to read the position statements each candidate put forward and hope that last month you were able to attend several of the many coffees that were held by each candidate. An informed electorate is the best electorate we can have. There are 2,488 votes to be cast this year. Let's make 2015 a year of 100% participation.

Volunteer For A Committee

Every year about this time a very important process begins. That process is seeking new members for the many Association committees. As I did last year, I am once again asking the very talented pool of SCOV residents to please consider serving on one or more of your very valuable and productive committees.

If you haven't served on a committee or even if you have, it might be difficult for you to realize how much the committee structure means to SCOV. The Board and staff work hard and perform many tasks to help keep the community operating as well as possible. However, the investigations, evaluations and projects that the committees undertake equate to a significant portion of the Association's work. Simply put, without the committees there would be a need for a much larger staff (more expense to the homeowners), or the community would not be able to accomplish the volume of work that is presently undertaken.

So, please consider being part of the solution and volunteer for one or more of our vital committees. In addition to ad hoc committees that the Board may appoint from time to time, the committees you are urged to consider joining are: Ambassadors, Active Health, Architectural Control, Chalk Creek Commission, Community Assistance, Community Directory, Consumer Referral, Election, Finance/Budget, Food and Beverage (Café), Gift Shop, Golf Advisory, Government Affairs, Long Range Planning, Marketing, Neighborhood Pride, Nominating Posse, Properties, and Tipster Editorial.

Now is your opportunity to get involved in shaping the future of your community. We urge members to complete and return the committee application form that will be found in the March Tipster or go to the Association website at www.suncityorovalley.com to complete the form.

Depending on the number of responses, we may not be able to place each interested resident on a committee. Our goal, however, is to build a database of interested volunteers who can step into a committee assignment, not only now, but also in the future.

Those Darn Roots...

Over the past few months several walkers have fallen on uneven sidewalks in our community. No serious injuries have put our people in the hospital, but it is just

a matter of time if we are not more diligent about the condition of our pedestrian walkways. In most cases the roots of our maturing trees are causing the cement to rise or fall, creating a potential tripping hazard. We each own the sidewalk adjacent to our home, so it is the responsibility of the homeowner to have it repaired.

It's More Than Living... It's A Lifestyle... in Sun City Oro Valley

Discover, Explore SCOV Secret Gardens Or Create Your Own With Garden Club Help

by Barbara Marshall

Every home in our community has a secret... the backyard! It might be the garden you inherited when you bought your home, or one you carefully designed and planted to create a hideaway that touches your heart. It might be a yard with bountiful citrus trees, or a garden with fragrant roses. It might be a garden that showcases the simple beauty of native plants and cacti. Or it could be a garden featuring the gentle sound of trickling water to sooth you on a desert evening. Whatever your garden looks like, it is a refuge and an acknowledgement of your home's most private area.

SCOV Garden Club members are as diverse as their backyards. Nothing exemplifies this diversity more than the two women who have shared the presidency of the club for the last two years, Joyce Patten and Zona Boss. Joyce, a former docent at Tohono Chul Park, has been an avid gardener for many years, and her knowledge of plants is incredible. She loves growing roses even though they require much more water and care than the native desert plants she also features in her gorgeous yard. Zona, on the other hand, only grows plants in pots and displays them in the backyard of the rental home she's lived in for several years. She is the first to tell you that all she knows about plants is they are green when they are alive and brown when they aren't.

This year the Club is planning a Garden Tour on Saturday, April 11, 8:30 AM-1 PM. The self-guided tour offers an opportunity for participants to peek behind 12 specially-chosen homes and discover surprises they would never expect to find in the desert. Ticket holders will be given a map to garden locations they can visit at their own pace. The map will be their key to discovering hidden treasures including water features, succulents, flowering perennials and shrubs, garden art and even a Koi pond. A limited number of tickets for the SCOV Garden Tour will go on sale Monday and Tuesday, March 23-24 and April 6-7, 9 AM-Noon, Activity Center, \$10 pp.

Many volunteers are necessary to present a garden tour of this magnitude, but members of the Garden Club are quick to offer their time and talents. Artists have stepped forward to design posters, and members with garden knowledge have offered to assist homeowners on the tour with answering visitors' questions.

Learning about growing and maintaining plants in our desert environment is a key reason people join the Garden Club. Wendy Hughes was an avid gardener in her native Portland, Oregon. "I joined the Garden Club to find out what I can grow in my yard other than cactus," she said. Kaaren Drent, a member for many years said, "I'm a compulsive gardener,

but I really don't know how to garden here in Arizona." "I don't know much about gardening at all, but I appreciate discovering all kinds of gardens," said Joan Montgomery, a Canadian seasonal residents who recently joined.

Meetings feature interesting and knowledgeable speakers on a variety of topics, from xeriscapes (use of plants with minimal water requirements) to learning how to create beautiful arrangements from dried plants and flowers. Following a recent severe winter, the monthly speaker educated members on selecting plants which can survive below freezing temperatures. Future meeting topics include a pro-

gram on the flowers that grow on Mt. Lemmon and another on how to plant and care for citrus trees.

In addition to informative meetings, the club conducts popular tours to a wide variety of gardens and area attractions. Mary Krutz beamed, "I really love the outings and the lunches." A recent visit to the garden of a Greek monastery near Florence, followed by lunch at a Greek restaurant in Catalina, is typical of the tours a Garden Club member can enjoy. A popular trip to Mesquite Valley Growers with a special program presented by one of their expert gardeners is always well-attended.

Membership in the SCOV Garden Club is an absolute must for those who love the splendor of our Sonoran Desert and want to enhance their knowledge about how to create beauty in their own yards. Meetings are held on the second Wednesday of the month at 1 PM in Catalina Vista.

AFC Advisory Committee

Chair Sharon Hertle 818-2558
First Wednesday, WCI, 11:30 AM
www.afc@suncityorovalley.com

The AFC Committee understands that there are often multiple residents and guests waiting to utilize the most popular cardiovascular, weight and resistance equipment in the gym. This is particularly true during the winter months and early-morning peak hours when the gym is most crowded. You can help us make the gym experience for everyone more productive and pleasant by following a few simple etiquette tips. First, it is helpful if all of us keep our cardio usage on any one piece of equipment to 30 minutes when others are waiting. Also, don't just sit on equipment while you are resting or relaxing. Second, if someone is using a piece of equipment that you need, wait patiently and utilize the sign-up sheets where provided. Do another exercise or different part of your workout until they're done. Third, be prepared to share weight-lifting equipment, benches and resistance machines. If you're resting between a set, it's common courtesy to share the equipment with another member. By following these simple guidelines, all users of the gym and equipment can share in a great exercise experience.

Architectural Review

Chair Sandy Lawyer 847-826-2640 selawyer@gmail.com
Second and Fourth Tuesday, 1 PM, WCI

In the previous months I have written about lights, the color of wrought iron, satellite dishes and our proposed paint colors. This month I would like to take the opportunity to say "thank

you." Without the conscientiousness and attention to detail of one person, the job of this committee would be far more difficult. Our Community Services Coordinator, Katy Mosier, is our face to the community. She does her job with a smile and has put forth significant effort to become extremely knowledgeable about the Development Standards, so she is able to quickly answer or find the answer to the questions asked of her throughout the day. In addition, Katy has been instrumental in making process changes that minimize redundancies and simplify tasks.

Katy, on behalf of the ARC Committee, we would like to thank you for all of your hard work.

Election Committee

SCOV Voter Validation & Ballot Counting

March is the month when the Election Committee meets weekly to validate ballots. In the February Election Committee's *Tipster* article it was explained how the validation process is conducted. This month the process for counting the ballots is explained.

On Tuesday, March 24, 8 AM, the Election Committee will gather in the Welcome Center 1 to count the ballots submitted by eligible homeowners. The validated ballots have been placed in bundles of 25. The Election Committee is divided into counting teams of two. There are also two statisticians. The Election Committee knows how many votes they must account for in the election for the directors and each question. They also know the margins that are required for an initiative to pass. The counting teams begin by opening the bundles of 25 white BALLOT envelopes and making tallies on a tally sheet. They account for all 25 envelopes (votes). Their tallies are then submitted to the statisticians who enter the votes into a master spreadsheet. Randomly, a vote batch is recounted to test for accuracy. There are new and veteran members on the committee. The veteran members usually are able to answer any questions.

Once all the ballots have been tallied and accounted for, the statisticians prepare the report to the management who reports to the Board and community on the vote. If this report is prepared before the Board meeting is over, the results will be announced during the Board meeting. If not, they will be posted on the doors, bulletin board and sent out on *In the Know*.

Residents are welcome to observe the validation process and count of the vote.

March featured artists are jewelry creator and clay artist, Lori Nalewicki (shown on left below), and crafter and potter, Marie Gagnon (shown on right below).

Lori's jewelry consists mostly of semi-precious stones, Swarovski crystals and rattlesnake vertebra. Her newest clay pieces are sculptures, finished to look like bronze. She enjoys wildlife and always has a critter included. She likes to add a touch of whimsy to each piece she makes.

The joy of finding our artisan complex years ago led Marie back to oil painting, water color, drawing and on to our clay studio. Most of the clayware she produces is functional. After deciding what she will make, forms are constructed and designs hand engraved onto the clay. Glaze is applied by pouring, dipping or painting.

Sign up for the October 24, Arts and Crafts Festival will be Tuesday, March 17, 8-9 AM and Thursday, March 19, 1-2 PM, Activity Center/ Navajo. Applications are in the Gift Shop.

The Loan Room is operated by the Community Assistance Committee and is a free service to SCOV residents. The Loan Room provides rollaways beds, cots for children,

tables and chairs, car seats and some children's toys. We also loan medical equipment such as walkers, wheelchairs, toilet risers, shower seats, etc. Note: You must be able to transport your borrowed items from the Loan Room to your vehicle. If you need additional help, you should make arrangements for that help. We are funded by recycling of aluminum cans throughout our community and the annual pancake breakfast held in January.

Aluminum can donations: deposit empty, rinsed aluminum cans in the box outside the Activity Center kitchen. For safety reasons, do not deposit unrinsed cans which can attract bees.

Second and Fourth Monday, 2 PM, WC3

The LRPC has completed its Pro Shop proposal which the Board of Directors has given to a task force for implementation. In January, we began working on a proposal for The Café and Lounge. Our goal is to refresh The Café and establish a lounge in the area the existing Pro Shop will vacate. This is intended as an amenity for all residents. It will be a place where we can gather to socialize and hold special events, as well as increasing our catering opportunities. We are very interested in your thoughtful comments and suggestions. Please email Leslie Platt at bplatt38@comcast.net or Debra Arrett at debra@myfastmail.com. We also invite you to attend our meetings.

It Always Arrives

Spring always arrives, and the following are spring cleaning reminders concerning personal yards:

- Trees must be trimmed up at least seven feet over sidewalks.
- Plants should not extend out over sidewalks, and frost damaged parts of shrubs and trees should be cut off and removed.
- Wildflowers are allowed until after they have bloomed, at which time they need to be removed.
- Cracks in driveways, sidewalks, and where the cement meets the asphalt in the street are the responsibility of homeowners to keep weed-free.
- Hedges, anywhere in the yard, are not to be over six feet tall. Note: A hedge is a fence or barrier formed by a line of closely-spaced plants, performing a similar function to a screen wall or fence.
- Make sure your house number is visible from the street and that all lights in the fixture are lit, so it may be seen at night.
- Outside light bulbs are not to exceed 250 lumens per Oro Valley regulations.

Thank you in advance for heeding the above and for continuing to take pride in your property.

The Grand Tour

Sun City Oro Valley offers a community tour of all of our amenities and facilities. This tour is special for many reasons. One of which is that it is not a high pressured sales pitch. The tour is facilitated by a group of residents called Ambassadors. The Ambassadors don't sell anything; they share information about Sun City Oro Valley and their enthusiasm for living in this diverse community. The tour begins at the Welcome Center and off they go in our fantastic six-seater Ambassador golf car. They visit the Pro Shop and even pop out for a look at the views from the golf course. They wow 'em in the AFC and get their creative juices flowing at the Artisan Center. They visit all our amenities all the while sharing useful information about life in SCOV. It's a fabulous tool for learning about our community.

This tour is especially worthwhile for our renters. If you are new to the community and didn't take the tour before you purchased, you're in for a treat! If you own a rental home, please encourage your renters to take the tour. Today's renters make tomorrow's owners. Tour reservations may be made by calling Kat at 917-8068.

Programs/Facilities Director - Pam Sarpalius

Monitors and Cleaning

I would like to remind the community that we are the only adult community in southern Arizona that has monitors in facilities. In other communities, all clubs set up their own tables and chairs, make coffee and clean up when they are done. Also clubs do not have storage. Clubs bring all items needed from their homes. SCOV is unique. Other communities have many full-time employees in housekeeping and maintenance departments for cleaning and maintenance or to help with only a large Association event. These people work eight hours a day. This results in high payrolls in maintenance and housekeeping, since benefits must be offered along with payroll. This cost is passed on to residents in those communities with higher annual dues than SCOV. Our monitors do a great job helping clubs and saving the Association money. We have a cleaning company that works at night for major cleaning. So if you see something dirty, early in the day, it may not be cleaned completely until 11 PM that night. Please tell the monitor when you see something that needs immediate attention. I stand behind our monitor team who do a great job for the community.

It's springtime at The Café and we are looking forward to some great weather and some great food. Don't forget to call and reserve a spot at one of our special dinners or Happy Hours.

March is also the month all NCAA tournament fans wait for. We will be showing the tournament whenever it's aired. If we are open and the Cats are playing, we'll be offering Happy Hour prices on all beer, liquor and wine.

We may even break out the large projection screen for a Cats game if the opportunity arises. Stay tuned.

Hope to see you at The Café soon.

The Café is offering you a chance to win a free breakfast or lunch if you turn in a comment card. Monthly comment cards are randomly drawn for the free meal. The January winners are Terri Alverdes, Ann Fall, Jean Whitaker, Doug Kimble, and Evelyn Thomson. Congratulations and bon appétit.

Recreation and Fitness - Lonnie Davis

Weight Loss

Being active is an important part of any weight-loss or weight-maintenance program. When you're active, your body uses more energy (calories). And when you burn more calories than you consume, you lose weight. Because 3,500 calories equal about one pound of fat, you need to burn 3,500 calories more than you taken in to lose one pound. So if you cut 500 calories from your diet each day, you'd lose about one pound a week. Because of the changes that occur in the body over time, calories may need to be decreased further to continue weight loss.

Association-Sponsored Fitness Classes

Purchase a fitness punch card at the Welcome Center/Administration Office, \$20/10 classes or purchase an Annual Fitness Class Pass on sale now for \$300. March is a busy month. The 18-Hole Ladies will be hosting their Member/Guest on Tuesday, March 24. The 9-Hole Ladies will be hosting their Invitational on Thursday, March 19. March 11, 14 and 18 will be our 18-Hole Men's Club Championship. The 9-Hole Men will begin their Club Championship on Thursday, March 26. March is preparation month for the upcoming Men's Member/Guest. It is also the time when warmer weather arrives bringing out even more walkers and riders. Please remember that we will move the times back half an hour starting in March, meaning you will need to be off the golf course half an hour earlier.

If you are a renter or a new home owner in Sun City Oro Valley, please stop by to play our magnificent Greg Nash-designed 18-hole Championship Golf Course. Check out our fully stocked Pro Shop and ask our staff about potential annual pass opportunities for golf or just try out our driving range to get started. Remember, we do not allow denim, t-shirts, athletic shorts or halter tops on the golf course or our driving range. A small basket of balls cost \$5 and a large basket is \$7. Lessons are \$45 for a half hour and \$55 for 45 minutes. Call Rick Sample or me as we are both PGA-certified to teach.

Please remember that GolfNow.com is not only available to outside guests, it is also available to residents of Sun City Oro Valley. It is internet-based and a chance for you to book a tee time on line. Times are limited, but you may find a time suitable for you.

Superintendent - Michael Kropf

March is normally the time of the year the non-overseeded roughs and green surrounds start turning green as the Bermuda grass starts to come out of dormancy. Since this is when the Bermuda grass begins to grow, it would be a good time to start talking about the transition between eliminating the overseeded rye grass and growing the underlying Bermuda grass on the greens, tees and fairways.

The roughs are a good indicator of when the temperatures are getting warm enough and the moisture levels are high enough to encourage the Bermuda grass to start greening up. This greening up is also occurring under the overseeded rye grass, so priorities in the management of the turf start to change to favor the Bermuda grass and not the rye grass. The Bermuda grass needs sunlight, water and nutrients to start re-establishing for the summer months.

The first change is that the rye grass mowing heights are reduced to allow better penetration of sunlight. The rye grass doesn't like being mowed shorter because that makes it weaker in hotter temperatures, but the Bermuda grass really likes the shorter heights for the extra sunlight. Also, the rye grass is verticut which is running vertical blades through the grass and opening grooves in the canopy to increase sunlight penetration.

The overseeded areas are also aerified to increase water and fertilizer penetration to the Bermuda grass roots. This gives the grass a better chance of starting to grow while competing with the overseeded grass. Also, the fertilizers are changed to favor growing Bermuda grass and not maintaining rye grass.

First Wednesday, 2 PM, WC3

Mike Kropf, Golf Superintendent, displayed the new golf bag stands for the golf course range area this past meeting. Mike said Jack Wohner found someone who would make the stands for only \$25 each, which is considerably less than Mike could purchase them for. The weekend golf course maintenance crew has been instructed by Mike to move all tee box markers forward to help with slow play. The new golf course crew have been instructed to put more dirt into old cup replacement holes on the greens because a few dips were noticed on the greens. Remember to keep a good pace of play while playing our course and everyone behind you will enjoy it also.

Feature

Meeting One of Our First Media Heroes

by Paul Mercer

Many of us were children of the 40s and 50s, raised in the golden years of radio, movies and television. We had our favorites, from Roy Rogers, Gene Autry and Hopalong Cassidy on radio and later on television to *Howdy Doody* and the *Mickey Mouse Club*. They all had an other-worldly persona that held us in a mixture of awe, admiration and adulation. We were the first groupies the world had known.

One of us here in Sun City Oro Valley actually got to meet her early hero. Father and daughter traveled to the Brown Palace Hotel in Denver, Colorado and met Roy Rogers. Marsha Neilson Scoles has never forgotten that day, just as you wouldn't. Marsha lived the dream of meeting one of our first media heroes when her father designed and built plastic saddles for some of the stars of the day. For Roy Rogers, he designed and built the first plastic saddle. Until then, saddles were made with leather on a wooden frame. Daddy came up with the idea of a plastic saddle in 1945. In 1950 he moved the family to Lusk, Wyoming, and then Scottsbluff, Nebraska, bought a home for the family and built a factory that produced plastic saddles. Roy loved those saddles and they were incorporated into different parts of the act. Check out some of the early comic books. Marsha gave this writer the opportunity to do that and they are in there. The shine from the plastic undoubtedly contributed to the showman's fascination with them. Do you remember those movies and radio and TV shows? Glitz was part of the allure to all of us.

A sad post script to this story... a tornado swept through Scottsbluff on June 29, 1955, and completely leveled the Neilson's factory. It was never re-built.

The perfect combination: a cup of coffee, a cookie or pastry, and some salty old artists chatting art talk while working on their pieces. You can do this in our studio on Wednesdays. Whether it's some new technique discovered by one of our members in a class they took, new papers or paint colors offered in the industry or just some small talk regarding the attributes of our hobby, we have them all in our place. You too can partake in these magical moments while producing wonderful art works. Our constructive critique at 11 AM helps improve your pieces with suggestions from knowledgeable fellow artists. We work in all media and have members who are experienced in all; come join us for fun and art adventures. We encourage all community members to take advantage of the teaching talent we have in our club and join us by sculpting pieces to display in your homes.

You are welcome to join club play on our beautiful new courts. If you have never played, come a bit early and we will teach you the game. It's easy to learn and a lot of fun.

VP Jeff Amthor 825-4571 scov.great.books@gmail.com

October-May, First and Third Wednesday, 2 PM, Catalina Vista/Mt. Lemmon

All residents are invited to join us as we continue our discussion of *Immigrant Voices: 21st Century Stories*, an anthology of 18 contemporary short stories written by recent immigrants to the United States (ISBN 978-1-939014-65-9).

On March 4, Barbara Gates will lead our discussion of the story *The Science of Flight* by Yiyun Li. The author grew up in Beijing and came to the United States in 1996 to pursue a Ph.D. in immunology, but stopped short to become a writer. She has an M.F.A. in creative non-fiction writing from the University of Iowa. Her debut collection of stories, *A Thousand Years of Good Prayers*, won numerous state, national and international awards. In 2010, Li was named to the list of 20 notable North American fiction writers under the age of 40 by *The New Yorker*, which published *The Science of Flight* that year. Li is currently Professor of English at the University of California-Davis.

Sandra Worthen will then lead discussion of *Hot-Air Balloons*, by Edwidge Danticat on March 18. Danticat was born in Haiti in 1969. Her parents immigrated to New York when she was very young, and she was raised in Haiti by an aunt. At age 12 Danticat joined her parents in the Haitian community in Brooklyn. She received a B.A. (French literature) from Barnard College and an M.F.A. at Brown University. Danticat published her first novel, *Breath, Eyes, Memory* (based on her Brown thesis), at the age of 25. It was selected for Oprah's Book Club four years later, bringing the author to the attention of a wide audience. Danticat lives in Miami and is an active advocate for Haiti and Haitians.

At our March meeting we will discuss *Orphan Train*, by Christina Baker Kline. Penobscot Indian Molly Ayer is close to aging out of the foster care system. A community service position helping an elderly woman clean out her home is the only thing keeping Molly out of juvenile court. As she helps Vivian sort through her possessions and memories, Molly learns that she and Vivian aren't as different as they seem to be. A young Irish immigrant orphaned in New York City, Vivian was put on a train to the Midwest with hundreds of other children whose destinies would be determined by luck and chance.

At our April meeting we will discuss *My Name Is Resolute*, by Nancy Turner. The year is 1729, and Resolute Talbot and her siblings are captured by pirates, taken from their family in Jamaica, and brought to the New World. Resolute and her sister are sold into slavery in colonial New England and taught the trade of spinning and weaving. Resolute's talent at the loom places her at the center of an incredible web of secrecy that helped drive the American Revolution.

The recent survey of our membership has given the board several ideas, many directives and the task to assist those members who need/ask for help. The board wants to expand the mentoring program and is looking for a volunteer as a Mentor Coordinator. Do you want to give back to your club in such a position? Please email the president for more information.

Whenever we input any ancestor information into our trees it is necessary to evaluate the authenticity of that source. Was it family lore, obituary information written by a thrice-removed relative or something written on the back of a photo? Our speaker this month will present some plain rules to guide you before submitting the evidence to your tree. Suzanne Brayer has been active in the genealogy field for more than 25 years and comes to us from the West Valley Genealogical Society.

The Joseph Pilates system of exercises has never been in such high demand. His exercises have been around now for 40 years. Fortunately, SCOV offers the Joseph Pilates classes here twice per week. People ask, "Can the benefits of this Pilates method, which come from the strengthening and stretching exercises we do, really develop the body's core (abdomen and back muscles), increase spine mobility and build flexibility?" The answer is a definite "yes." Additional benefits you'll see from taking our group mat classes will include better balance, more muscle tone and increased stamina. We have two instructors who are both very experienced in the Joseph Pilates system. The cost is only \$8/class and the annual club dues are \$20 pp. Please feel free to stop by and watch one of our classes. Call Mary for information.

Poets Corner

Sharyn Rafieyan 825-6762
Monday, 9:30-11:30 AM, Welcome Center/WCI

This year's workshop featured the prose poem which some of us had never attempted before, but all were up to the challenge. A prose poem isn't written in stanzas, has no real rhythm or rhyme and does not rely on line breaks, though it usually includes punctuation. It's almost like a run-on paragraph in block-print style. It does employ other

poetic devices such as assonance, consonance, repetition, varying sentence style and length and, of course, metaphors. Just to provide the flavor, and even make your mouth water, here are some excerpts from *Healing Pies* by Denise Duhamel: "After my parents' accident, the pies kept coming... blueberry pies, ice cream pies, peach cobblers...pies that were still warm in their tins... prayer pies, pies that kept vigil, pies brimming with novenas...pies made from circles of light, pies with halos."

As of March 9 all resident poets are welcome to join our self-guided weekly workshops.

Open Mixed Doubles Monday, Wednesday, Friday, Saturday, 8-10 AM

Ball struck by racket; ball hits up to six surfaces; ball struck again by racket. The objective is to determine exactly where the ball is going to be in space when it's your turn to strike it next. What a sport! One develops great eye/hand coordination and gets good exercise as well. It's a way to extend our ability to see, think, plan and react as we age. No wonder we love doing this. Come join us and you, too, can benefit from beating the mighty blue ball.

Leslie's Movie Review: "The Hobbit"

I am not a lover of "The Lord of the Rings" films although I have seen them all several times. I will also admit my education is somewhat lacking in that I have never read the Tolkien series. That having been said, I thoroughly enjoyed "The Hobbit" despite being prepared to suffer through it. Perhaps it was the fact that this was the beginning of the stories, rather than working backwards which I always find confusing. In addition most of the actors were reprising their roles, so I actually knew who the son of the father of the grandfather of the king was.

The battle scenes were epic, the creatures truly frightening, the hobbits cute and lastly the elves had the most beautiful hair. I will never be a fanatical fan, but not bad.

I received such wonderful service from Ms. Wilda Sobansky. She helped me find a home I truly love in a few weeks. The amazing portfolio she developed of homes to view was unbelievable. I had what I needed to know about that property before I viewed it. There were several homes that I was interested in at the start. When you go back the second time, it is surprising the different things, you become aware of! Wilda was so very patient with me, I always had so many questions at each review. Wilda is a knowledgeable professional who is dedicated to her clients. She truly listened and returned my calls or E-mails promptly. That is extremely important when you are making a decision this ignoramus. This was a very pleasant experience for me. I highly recommend Ms. Wilda Sobansky as your future REALTOR.
