Board Of Directors - Article

Time and Change

by Jon Olson

Time is a never-ending constant that affects us each moment of each day of each month and year. It was just three years ago this month that I was a candidate for election for a seat on the SCOV Board of Directors. Today, I am only three months away from completing my term, and there are others standing ready to be elected to fill my seat. Much has changed over these three years here at SCOV. Trying to list all of the changes that have taken place would be virtually impossible. To list a few: the dedication and opening of the AFC, the build-out of the new Pro Shop, many changes in our Café (now Restaurant) and food service staff with wonderful plans to enhance this amenity for our residents during 2016. However, there is one change on our horizon that I would like to focus on. It has been underway for almost two years and will have a measurable effect on the future of our community. It is the work being done by the Government Documents Review Committee chaired by Hal Linden. This committee has been meeting weekly for almost two years reviewing our Articles of Incorporation, Master Declaration and Bylaws and will be recommending many changes to these documents regarding how we govern and manage our community in the future. Please read carefully the article in the adjacent column written by our General Manager Bob Mariani. Bob outlines several of these changes that will affect how we do our corporate business. Soon additional articles concerning these changes will appear in the *Tipster* and the SCOV Weekly. Public forums will be held to explain all the changes and why they are being recommended. Please take the time to read and understand them. Change will happen. Please be part of this change. We will all be better for it.

Cast Your Vote

The Board of Directors election and the vote on five governing document amendments, as of the writing of this article, is just around the corner. The most important message of this article is simply a plea to vote. Assuming you'd do that, here are a few thoughts about the issues.

Each year the Membership votes to elect new Board Members. The Board makes numerous decisions every year that mold the direction and character of SCOV. As a result, it is very important for every Association Member to investigate the Board candidates and vote for the person you think will lead the Community in the "right" direction.

One amendment that the membership will vote on is a change in the percentage of votes needed to approve an amendment to the CC&Rs. The proposal is to have the approval percentage for the bylaws and CC&Rs be the same. This percentage is controlled by Arizona state statute for the Bylaws which is a simple majority of the entire membership or 2/3 of the members who vote on a matter. Currently the CC&Rs require a 60% approval of those who vote on a matter.

Restrictions on the Board's expenditure authority contained in the bylaws is another amendment on the ballot. The proposal is to increase the Board's expenditure level from 5% to 10% of the previous year's revenue for new capital improvements/expenditures and also establish a limit on expenditures for renovations of 10% of the previous year's revenue where there is none at this time.

A third item on the ballot concerns party walls/fences (walls on the property line) between residential lots and common area. The section of the CC&Rs that deals with this issue is poorly written and can be interpreted in several ways. The proposed amendment makes it very clear that party walls between residential lots and common area will be treated like all other party walls which is that the owner of the residential lot and the Association will be jointly responsible for party walls.

The last amendment to be considered concerns an increase to the Capital Contribution from an amount equal to the annual dues to an amount equal to 1.5 times the annual dues. In addition, at least 10% of this fee would be allocated to the Asset Reserve Fund, the exact amount to be determined by the Board on an annual basis. If approved, this change will provide more funds for new capital and for replacement of current capital items.

Due to article size restrictions, only basic information is included in this article. Considerably more information will be available in a *Tipster* insert and other communications provided prior to the membership vote.

It's More Than Living... It's A Lifestyle...

To Remodel or Not To Remodel; That Is the Question!

By Barbara Ross

Six years ago my husband and I bought a home here in Sun City Oro Valley. We had rented for two winters before deciding this was where we wanted to be. As we looked at houses for sale, both of us agreed we did not want to have to fix up a house. As seasonal residents we wanted to move in and enjoy the lifestyle right away. We found a house that met our requirements and we became homeowners the end of March 2010.

Couple sitting in their torn out bathroom, surveying the "clean pallet." Photo by Barbara Ross.

Six years later, I want to do some remodeling, but my husband isn't quite so sure. So I started asking friends and neighbors why they had remodeled their SCOV home. I found there were several key reasons:

- Lifestyle
- Planning for the future
- House hasn't had any updates since it was built
- Need for openness or redesign
- Necessity

One couple, also seasonal residents from the Upper Midwest, told me that they began the first stage of their remodeling project three months after becoming homeowners. Their reasons included the first three. White flooring, carpet and Pergo, didn't work with an avid golfer. Their new home had not had any updates since it was built in 1990. In planning for the future, they wanted wide doors and easy access so they can be as independent as possible in their later years. During the first stage all the white flooring was replaced with same tile throughout and carpeting was only used in the two bedrooms. The kitchen was

completely redone and made very functional. The guest bath was completely redone. They waited two years for the second stage which was to completely update the master bath. The soaking tub is gone and they have an easy access, large shower. There were no bad surprises with either project; they were quite pleased with the results.

Another couple, also seasonal residents from the Upper Midwest, are remodeling out of necessity. There was a significant water problem in late June and July which destroyed both bathrooms and the hall closet. The discovery was made when the water bill was 2.5 times greater than usual. It was then that they learned the value of the AquaHawk program of Oro Valley... a little late!

The first step was hiring a mold remediation company who did a thorough job. Bathrooms were torn out and wallboard was removed. They were left with a clean pallet to start fresh.

However, before they began remodeling, they wanted to confirm there were no additional leaks so they hired a leak detection company. With no further problems, the couple could begin remodeling, a process of choosing new toilets, sinks, a bathtub, tile, trim, countertops, faucets, cabinets and colors to create a new guest bathroom, master bath and a hall closet. None of the repairs could happen quickly, and all new fixtures and parts required lead times.

Necessity did create an opportunity to redesign the master bath as the couple could replace the tub with a handicap-accessible shower. Finding a contractor and selecting all the parts to create a "new" room is a process. They had to decide what type and color countertop to install over which new cabinets. Handles and door knobs offer thousands of possibilities. When everything else is complete, the paint in the halls and adjoining rooms has to be touched up after walls were repaired. Necessity creates opportunities and challenges along with unplanned expenses.

I have learned quite a bit by talking with friends about remodeling. I plan to start with relatively small projects spaced over time. Hopefully, my husband will agree with updates and lifestyle adjustments. We want to avoid remodeling caused by necessity.

If you want to join the conversation, please come to the **Remodeling Forum: Helpful Hints from SCOV Homeowners**, Saturday, February 13, 9:30 AM-Noon, Activity Center/Navajo. The Forum is free, but please register so we know how to plan. Login to our website scovaz.com

Project Updates Webpage

One only has to read the *Tipster* or our General Manager's This Week in SCOV to realize there is so much going on in our community.

Not only are there many activities, but the Association is working on projects that are updating and improving our community. Currently, there are three projects in the works and the status of these projects change frequently.

To better inform our residents on the status of projects, a webpage called Projects has been created, and can be found in the Members Services section of the website. This page will be updated weekly, for you to see the progress of the projects. So, the next time you're wondering the status of a project, you will now have a place to go and find out.

Budget

It is budget time for all Department Managers of SCOV. All managers must figure out how much money is needed to run their department. This is an important part of our jobs since in part it determines if an increase in dues is needed. Many decisions must be made to keep certain services or cut them. As you know, in running your own household, sometimes you have to eliminate something to cut your monthly costs. After managers turn in their budget sheets to the General Manager and the Controller, the manager meets with them to once more go over that department's budget. The budget sheets are reviewed again and sent to the Budget and Finance Committee, and they make recommendation to the Board of Directors for approval. Budgeting is a long process.

Thanks to the new computer system, the library can now keep track of usage statistics. In the month of December, our computer software handled 6,132 events. This included 2,776 items checked in, 2,919 items checked out, and the remainder was a combination of items being renewed or reserved. Of the 135 items renewed, 38 of them were renewed online by patrons. That's almost thirty percent. It's exciting to see residents utilizing our new system.

In December \$1,068 was spent on purchasing new books and videos, and \$43 in new books were obtained in trade from Bookmans. One-hundred percent of these purchases were made with donations by generous residents to the library or Friends of the Library.

New this month: *Downton Abbey, Season 6*, and *Bridge of Spies* with Tom Hanks in video; the latest Anne Perry and Stuart Woods novels; *Crimson Shore* by Preston and Child in audiobook and new releases from both Fern Michaels and James Patterson in large print.

Friends of the Library

Here is a fun fact for you if you enjoy statistics. On November 30 there were 186 patron visits to our library, 300 items were checked in, 204 items were checked out. We think you will agree those are fantastic numbers.

Our Friends of the Library Books and Authors Luncheon will be held on Tuesday, March 8, Auditorium.

Ticket sales on Tuesday, Wednesday, and Thursday, February 9, 10, and 11, Activity Center/Lobby, 9 AM-Noon, \$25 pp.

Please remember that the library does not receive money from the Association. Rather, we rely on donations and fundraisers.

The luncheon is one of those fundraisers. We appreciate your support.

Why should I download the LF Connect App?

LF Connect lets you control your own workout experience. For example, you want to do a workout that is not programmed on the machines, simply create, share and personalize your own, manipulating time, speed and intervals. You can use LF Connect (app or computer) to create your workout at home or even on the way to the gym. When you arrive, your workout is ready to go. The LF Connect App log your strength session as well as record any exercises you do outside the gym. Use the app to record your run or bike ride. Each resistance machine will have a QR barcode to scan, then simply record your sets, reps and weight, keeping your workout logs all in one place.

Association-Sponsored Fitness Classes

Purchase a punch card from the Administration Office/Welcome Center, \$20/10 classes. You may use this card for all SCOV-sponsored fitness classes. It can also be used for your guests. There is \$3 drop-in charge if you do not have a punch card.

Board Candidates Answer Questions

Debra Arrett

Why do you want to serve as a Board member and what will you specifically contribute to the Board, if elected?

I was a Board member in 2010-2012 and would like to be re-elected to serve a full three-year term. I can contribute expertise, historical perspective and leadership skills because of that prior Board service, the numerous committees on which I have served and because I have lived in our wonderful community for 14 years.

What do you perceive as the most important issue in SCOV and what is your opinion on the matter?

I do not think SCOV is faced with a major hot button issue, but the 2016-2017 Board of Directors will oversee the completion of the Restaurant/Lounge project and hire a replacement for retiring General Manager, Bob Mariani.

The work of our many committees has and continues to be the backbone of SCOV. Members' willingness to share their life and career expertise is priceless and sets us apart from other active adult communities. However, I think direct communication between the Board and committee members has declined in recent years and too often leads to misunderstandings and misdirection. I believe this can be avoided with committee reports at Board meetings, monthly or on a rotating basis.

What goals would you like to help the Board of Directors achieve during your term?

My goals are to maintain our buildings and excellent amenities while keeping our annual dues competitive and affordable. Proper planning and management of the Capital Fund will insure that future capital improvements can be funded by Capital Contribution Fees and without the need of special assessments.

Meade Davis

Why do you want to serve as a Board member and what will you specifically contribute to the Board, if elected?

My wife Lynne and I love living in SCOV. I want to give back to this great community by contributing to the leadership and management of the Association. I bring to the Board a wide breadth of board and leadership experience and extensive experience working with volunteers. I will bring:

- Integrity
- Willingness to work hard and listen to residents' concerns
- A good understanding of the issues facing SCOV
- Common sense

What do you perceive is the most important issue in SCOV and what is your opinion on the matter?

The selection of the Association's next General Manager is the most important issue for the next Board. A good start has been made by the current Board of Directors with the appointment of a selection committee who will eventually develop a slate of qualified candidates. The new Board will select the new General Manager from this list. I believe the new GM should possess managerial, financial and communication skills, as well as the traits of honesty, integrity and a sense of humor.

What goals would you like to help the BOD achieve during your term?

My goals and priorities as a Board member will be:

1. Vigorously maintain the high standards and quality of the life we enjoy in SCOV.
2. Carefully improve our facilities to remain attractive to new residents. This will protect our home values.
3. Exercise fiscal responsibility and constraints to maintain our financial strength and keep SCOV affordable.

Bob Hefner

Why do you want to serve as a Board member and what will you specifically contribute to the Board, if elected?

I would like to serve on the Board again as I believe my three-years prior service as a Board member will enable me to be an informed and experienced member of the Board.

What do you perceive is the most important issue in SCOV and what is your opinion on the matter?

One of the primary goals of the Board will be the selection of the best qualified successor to Bob Mariani as SCOV General Manager. Another goal will be to maintain the facilities and amenities of SCOV to remain the best active adult communities in Arizona.

What goals would you like to help the BOD achieve during your term?

I believe the most important issue is the future of the golf course. I believe the Board needs to provide the resources for the staff to minimize the financial burden on the residents of SCOV.

Board Candidates Answer Questions

Ted Hood

Why do you want to serve as a Board member and what will you specifically contribute to the Board, if elected?

Serving as a Board member is an opportunity for continuing my belief in community service by using my previous experience and skills gained as a Board member and officer in community organizations, including homeowners' associations.

In my professional life as a Risk Manager, I had to separate fact from fiction, offering a non-judg-

mental approach to problem solving. I would continue this approach as a Board member.

What do you perceive is the most important issue in SCOV and what is your opinion on the matter?

My goal would be a three-to-five year plan that incorporates the highest and best use of our combined financial, physical and human resources.

What goals would you like to help the BOD achieve during your term?

In the very broadest sense, the most important issue will be how to deal with the rapid technical and social change occurring in our society as a whole, and SCOV specifically.

Our greatest resource is the life experience and spirit of volunteerism that our homeowners bring to SCOV. We must continue the tradition of encouraging the use of our talent and skills within our community.

Why do you want to serve as a Board member and what will you specifically contribute to the Board, if elected?

A positive way to support and contribute to SCOV residents is choosing to stand for election to the Board of Directors. It is my honor and pleasure to do so. My experiences in education as a team member/leader and administrator have developed my leadership and organizational and communication skills which will enable me to help the SCOV Board and citizens achieve consensus and closure on important issues.

What do you perceive is the most important issue in SCOV and what is your opinion on the matter?

The coming Board will manage the recruitment, hiring and introduction of a General Manager to replace Mr. Mariani who is leaving at the end of 2016, with our thanks for a job well done. The successful completion of this process is critical for the future of SCOV. This, and continued prudent fiscal management along with long-range planning and management of resource development, maintenance and preservation of facilities will continue to enhance the quality of life of all SCOV residents and preserve our investments in the community.

What goals would you like to help the BOD achieve during your term?

Nate Norris

Again, of primary importance is prudent management of SCOV finances including the Capital Fund, the Asset Reserve Fund and the Contingency Fund, and budgeting for ongoing maintenance, management and personnel expenses. The financial stability of SCOV contributes to the financial stability of all residents by maintaining affordable levies and fees and maintaining and preserving things that contribute to our quality of life in SCOV.

The AFC (Aquatic Fitness Center) usage is up 29% over the previous years.

2015 provided the largest gain by over 127,500 visits to our facility. As a reminder, all residents are to swipe their card or fob upon entering. Example: when both spouses arrive at the same time, each individual is to swipe upon entering. This helps in maintaining an accurate count for usage and safety.

The AFC temperature is set to 68° during the day, and set to 70° from 5-9 PM. Staff is assessing the possibility of the implementation of airflow diffusers to avoid some of the direct downward airflow.

Interested in the proper use of equipment at the AFC? Lonnie Davis, Fitness Director, provides an entry level session every Thursday at 1 PM. Each session size is limited to ten, so advanced sign-up is required.

Architectural Review

Chair Lou Gard 520-825-4773 lougard@q.com
Second and Fourth Tuesday, 2 PM, WC3

If you are planning to make any exterior alterations, additions, painting, landscaping changes or any work that might alter the appearance of your home or property, you must first submit plans and receive written approval from the ARC (Architectural Review Committee.) Homeowners are also cautioned that the Town of Oro Valley requires permits for many major and minor alterations or repairs as well as some mundane items. It is wise to check with both the ARC and the Town before undertaking any work.

The forms necessary for submitting plans and staff assistance may be obtained on our website or through the Administration Office. Hours are Monday-Friday, 9-11 AM. Should there be questions about owner obligations, or for additional information, refer to the CC&Rs, Bylaws, Development Standards and the Tract Declaration you received upon the purchase of your home. Remember that any submittal for any exterior change must be presented to the CSC (Community Services Coordinator) and approved by the ARC.

A portion of the prior two paragraphs came from the *Homeowners Handbook*, page 5, *Community Standards, Architectural Review Compliance*.

Election Committee

Forums, Ballots & Validations

During the month of February the Election Committee will conduct two Board of Director Candidate Forums. These forums will be Thursday, February 4, 6:30 PM; and Friday, February 12, 9 AM, both in the Auditorium. Please attend and be informed about the position these candidates have on issues important to you and the Association.

On Tuesday, February 16, the ballot will be mailed to all homeowners. You will be voting for the Board of Directors. There are three positions for Board of Director each for a three-year term. You may cast three votes.

Also starting in February and continuing through March, the Election Committee will be validating ballots. The ballot validation process is as follows:

- Homeowners receive their ballots, a white BALLOT envelope and a blue envelope. Residents mark their ballots, seal them in the white BALLOT envelope and then seal that envelope in the blue envelope on the outside of which they record their name and unit/lot. This blue envelope is then mailed or placed in the locked ballot box.
- On the ballot validation dates, which are posted on the bulletin boards, the Election Committee checks the unit/lot and name against the membership list of eligible voters. A check is placed beside the eligible voter's name to indicate a ballot has been received. The ballots are then stored by

unit/lot. If a subsequent ballot is received for the same unit/lot, both ballots are void as per the governing documents (Bylaws II, 2.2).

- Before the counting begins, the blue envelope is opened and the sealed BALLOT envelope is removed. The white envelopes are placed in bundles of 25 to be counted. The counting will be done on Tuesday, March 22. This process validates that individuals are eligible to vote (blue envelope with unit/lot and name) and it ensures that the vote is received anonymously (white envelope containing the ballot with no identification). The blue envelopes are kept as per the governing documents for a specified period of time.

All residents are welcome to observe the validation process. See the bulletin board for ballot validation dates.

After careers in education, the Johnsons spent time in the National Parks system managing and setting up retail shops, learning about merchandizing and loving their home in the Rockies. After inheriting the Earth Angel business, they now wholesale to 13 outlets in Colorado and Arizona. The angels are made from precious fossils and mineral crystals, be-decked with golden crowns. Titled with special attributes, the angels sparkle beautifully in any light.

Heidi combines her silversmith talents with specially selected stones and beads to fashion her jewelry. Following a long process, she cuts and polishes slabs and selects the most beautiful areas from large hunks of stones. Look and See

Next time you are out at your mailbox, take a look. Could it use a fresh coat of paint? Now that our weather is cooler, perhaps it's time to paint the pole, box and flag. Check with Consumer Referral for names of people who will do it for you at a nominal cost, if you would rather not do it yourself.

Grass? Yes, we do have grass coming up in some private yards in the community. It needs to be sprayed with highly concentrated weed killer in order to get rid of it. Our rains in January are mainly the cause of all the unwanted growth in our yards this past month.

Another item that needs mentioning, as it is the responsibility of the homeowner, is raised sidewalks. If the cement is raised where a walker could trip and fall, it needs to be repaired. More often than not, the raised area is caused by a large root from a tree in the yard. Please take a look. Is yours OK?

During the January Golf Advisory Committee meeting there was much discussion about prioritizing projects on the golf course. The subject of the sand trap conditions became the center of the discussion and some of the

newer people were unaware of why the traps have a tendency to get hard and wet.

Shortly after the traps were renovated, the brand new sand started holding water and turned into mud. Extensive testing was conducted on both the sand in the bunkers and sand at the shop. The tests showed the sand in the traps had a significantly higher amount of silt as compared to the sand still at the shop. The water was then tested, and the difference between the water coming into the lakes versus the water coming out of the sprinkler heads showed high levels of turbidity. Divers were then sent into the ponds looking for the cause of the high turbidity levels. They discovered between four to five feet of material at the bottom of the ponds that was being drawn directly into the irrigation system and deposited on the golf course.

The immediate solution has been to clean the pond closest to the pump station. The tines on the bunker rake machines were lowered to help stir up the sand to break the silt barriers. Extra sand has been pulled down from the edges to help build up the bottoms. Eventually, the sand will be removed and replaced with fresh, not contaminated sand, as time and budget allow.

Golf Advisory

First Wednesday, 2 PM, WC3

Each year, the Golf Advisory Committee updates a list of *Improvements for Playability/Enjoyment* of the Golfing Experience at The Views. At the committee meeting on January 6 the decision was made to update this list over the next two months so that the recommended improvements could be incorporated into the SCOV budget process.

There are benefits to developing this list and setting priorities. Resource limits, both dollars and human, can be directed to projects that our customers consider the most important.

Developing the list will be more effective if we hear from you, our customers. Provide your suggestions and comments to your women's and men's club representatives or send me your suggestions directly.

Thank you for your suggestions. We all want to improve the experience of playing The Views.

Great Books

Pres. Barbara Gates 825-7645
VP Jeff Amthor 825-4571 scov.great.books@gmail.com
October-May, First and Third Wednesday, 2 PM, Catalina Vista/Mt. Lemmon

All residents are invited to join us as we discuss the book *Imperfect Ideal: Utopian and Dystopian Visions*, a collection of modern and ancient literature by Dostoevsky, Homer, Aristotle, Rachel Carson, Vladimir Lenin, Oscar Wilde, Augustine of Hippo, Thomas More and 15 other noteworthy thinkers (available from Great Books Foundation, 800-222-5870). The collection considers questions about how communities should be structured and governed for the welfare of their citizens, revealing some of the best and worst aspects of utopian and dystopian visions.

On February 3, Mary Marks will lead our discussion of *The Ones Who Walk Away from Omelas* by Ursula Le Guin, as well as a selection from *Utopia* by Thomas More. Then, February 17, Maryfaith Fox will coordinate discussion of the short poem *Utopia* by Wislawa Zymborska, a selection from Homer's *Iliad* and the poem *The Shield of Achilles* by W.H. Auden.

Jane Fairchild 520-909-5069 janemail11@yahoo.com
First Monday, 1:30 PM, Catalina Vista/Pusch Ridge

At our February meeting we will discuss *The Sleepwalker's Guide to Dancing* by Mira Jacob. With depth, heart, and agility, debut novelist Mira Jacob takes us on a deftly plotted journey that ranges from 1970s India to suburban 1980s New Mexico to Seattle during the dotcom boom. *The Sleepwalker's Guide to Dancing* is an epic, irreverent testimony to the bonds of love, the pull of hope, and the power of making peace with life's uncertainties.

At our March meeting we will discuss *The Children Act* by Ian McEwan. Fiona Maye is a leading High Court judge who presides over cases in the family court. She is renowned for her fierce intelligence, exactitude and sensitivity. But her professional success belies private sorrow and domestic strife. There is the lingering regret of her childlessness, and now her marriage of 30 years is in crisis. At the same time, she is called on to try an urgent case: Adam, a beautiful 17-year-old boy, is refusing for religious reasons the medical treatment that could save his life, and his devout parents echo his wishes. Time is running out.

Those seeking membership have been patient while waiting for a space in this important facet of their entry into exploring the endless variety of this earthy medium. We are always working to improve the flow of work and increase the success of our artisans on every level. Opportunities for resident non-member work are by appointment while member work occurs during normal open studio hours of 6 AM to 10 PM. It's time to read them here or check out a few for home study. New books are added frequently.

At the 2015 New Year's Eve event held in the Tucson Mountains, 40 club members, several shown, enjoyed a variety of hikes followed by a potluck style picnic lunch including a culinary surprise dish of Sopapilla Cheesecake.

Appreciation goes to Max Haegele and his committee for a well-executed event resulting in a pleasurable experience for everyone.

What are these people looking at? They are just a few of the nearly 200 people who visited the Modelers Room during the four days of an open house during the Holiday season. Club members operated the model trains on the layout and told guests about the other modeling activities conducted in the room.

The Modelers Room will be open on scheduled days for the operation of trains on the layout. Everyone is welcomed. All SCOV residents are welcome at our monthly meetings and the use of the Modelers Room. The room is open 24/7 to all members. The room provides space to build models and to assist in building and operating the new HO train layout. At our meetings, you will see what we are about, and you may enjoy a cup of coffee and a sweet roll. From time to time, we schedule field trips of interest to modelers.

Pilates

Mary Ayers 638-7916 scov.pilates@gmail.com
Monday, 3 PM, Thursday, 1:30 PM, AFC/Studio

The SCOV Club Fair this year is Friday, February 5, 1-3 PM. Please plan on stopping by the Pilates Club booth to see why, 40 years after his death, the Joseph Pilates system of exercises has never been in such high demand. Fortunately, SCOV offers the Joseph Pilates classes here twice per week. People ask, "Can the benefits of this Pilates method, which comes from the strengthening and stretching exercises we do, really develop the body's core (abdomen and back muscles), increase spine mobility and build flexibility?" The answer is "Yes", and the additional benefits you'll see from taking our group mat classes will also include better balance, more muscle tone and increased stamina. Not only do we have experienced instructors, the cost is only \$8/class and annual club dues are \$20 pp. Please stop by and watch one of our classes. Call Mary 638-7916.

Poets Corner

Sharyn Rafieyan 825-6762 srrafieyan@icloud.com
Monday, 9:30-11:30 AM, WCI

Poetry workshops are all about writers getting together to share what they've written and gain objective as well as constructive criticism from other poets. Knowing that we'll be meeting every Monday provides an incentive to keep producing new work, though we're all allowed to substitute the work of a published poet from time to time. Such offerings provide opportunities to learn successful techniques, adopt different formats, try new stylistic devices, be inspired and, of course, analyze what works as well as what we think the poem means.

A few of our members have been working at producing

poems pared down to their essential essence. The results appear to prove that some of the best poems, like some of the best gifts, arrive in small packages, such as *The Lucky Ones* by Christa Lubatkin:

"Sun sears/the huddled cargo/Wind commands/the rubber boat/The ocean shakes/its human burden/slams into the alien shore/where heads/are not chopped/from shoulders."

What a stunning synthesis of a global happening that is impacting all of us.

Membership Lauren Strassburg 338-2568

scovwoodworkingclub.com

Next meeting March 16, 1:30 PM, Desert Oasis/Saguaro

An organization that keeps records on such things tells us that, nationwide, hospitals and emergency rooms see about 60,000 injuries annually that are the result of woodworking machine accidents. A rather startling statistic. Thankfully, our members haven't been adding to those statistics, but that shouldn't make us too smug. Are we a very safe group or just lucky? We are just lucky if we don't know and use the best and safest ways to operate our equipment. We are just lucky if we don't take advantage of the knowledge and experience of other club members. We are just lucky if we don't pay attention or don't have the capacity to operate the equipment properly. Human flesh and bone are no match for carbide teeth traveling at over 110 mph. Woodworking Club members, please don't trust yourself to be just lucky. See the Shop Safety page in our website for valuable information.

Survivors of a Loved One Who Died By Suicide

Contact Ester Leutenberg 818-0016 ester36@gmail.com

Survivors of a loved one who died by suicide have unique grief issues and struggles. It is extremely helpful to speak with other people who completely get it. This is a safe atmosphere. What's said in this room, stays in this room.

Vistoso Helpful Hands

VHH (Vistoso Helpful Hands) is an all-volunteer organization helping SCOV residents who find themselves temporarily in a crisis or needy situation. We provide caregiver relief, transportation, run errands, animal care, handyman, light housekeeping and yard care. We also have referrals for longer-term paid help.

If you are a temporary shut-in and want to order a meal from The Views Restaurant, we are happy to deliver it to you.

For help call 410-9498. After the tone, touch in your area code and phone number and hang up. We will call you back.

YOTO/Northwest Auxiliary

Kris Cohen 818-2582 krisandearl@msn.com

SCOV residents can positively impact Arizona's future by supporting YOTO (Youth On Their Own), a dropout prevention program celebrating 30 years serving vulnerable homeless youth in Tucson and Pima County, homeless through no fault of their own. YOTO helps them meet basic needs so they can focus less on survival and more on staying in school.

Did you know that only five Tucson-based charities earned the top ranking from a national group that evaluates nonprofits' finances, accountability and transparency? Charity Navigator has awarded four stars to YOTO, which has achieved a four-star rating both times it has been eligible.
