From the Board of Directors

Our mission as the SCOV Board is to lead in maintaining and enhancing the quality of life in Sun City Oro Valley as an active adult community.

All Board minutes, agendas and reports are available online. Board meetings are open to residents.

Board of Directors - Dave Olson

Dave Olson 262-785-9270 daveoscov@gmail.com

Shade Structures are now allowed in backyards

Earlier this year the State passed a law requiring HOA's to allow shade structures in backyards. The Architectural Review Committee (ARC) worked all summer to bring our Development Standards into compliance with the new law. Over the last three months they held seven public sessions, gathering as much community feedback as possible. There have also been two reviews by our attorneys. The revised Development Standard approved by the Board is now on the Governing Documents web page on our SCOV web site. Highlights of the changes are: Setbacks for Shade Structures will follow the Town of Oro Valley requirements. View preservation cannot be the basis for rejecting a plan. Neighbors will be notified but they cannot prevent approval of the plan. We have established minimum material and construction standards and maximum size.

In summary, the recent change in the law does not eliminate the Association's architectural-review authority, but it materially limits how that authority may be exercised with respect to backyard shade structures. The Association may continue requiring reasonable applications, regulating size, placement, and appearance, verifying that structures are commercially produced or professionally manufactured, and enforcing safety and maintenance standards. It may not prohibit a qualifying structure, impose height or setback requirements more restrictive than applicable Town zoning, require neighbor approval, or rely on view preservation or architectural compatibility as a substitute for a prohibited denial.

The ARC would like to thank everyone who took the time to attend the meetings and reach out to us with comments. With your help we have a better product.

This fall the ARC will be going through the Development Standards to make some updates to points that are unclear or in conflict with other parts of our governing documents. We will be holding open meetings to allow for resident comments during that process. Please follow This Week in SCOV for announcements of those meetings.

General Manager - Sandy Seddon

Sandy Seddon sseddon@suncityorovalley.com 520-917-8080

As we move into November, our community is back in full swing. Our committees that take a summer break are back in action, joining our year-round committees in continuing the important work that keeps Sun City Oro Valley moving forward.

It is truly gratifying to work alongside so many of you. I am continually amazed by the time, effort and expertise our residents contribute to making this community the best it can be. There is an incredible amount of work happening behind the scenes, and I want to thank everyone who plays a part.

Our Project Updates page on the website is regularly updated, and I encourage you to check it out to stay informed about current and upcoming projects.

Several projects will be coming before the Board for consideration, including the tee box renovation, Auditorium sound system, cart path repairs, and potentially asphalt work at the Maintenance Yard in late spring or early summer.

I mention these projects because it's important to understand the process behind them. Projects of this size require careful planning and thorough review. We utilize professional experts to help evaluate needs, analyze options and determine the appropriate scope of work. Our committees also play an important role, providing valuable input and recommendations for the Board's consideration.

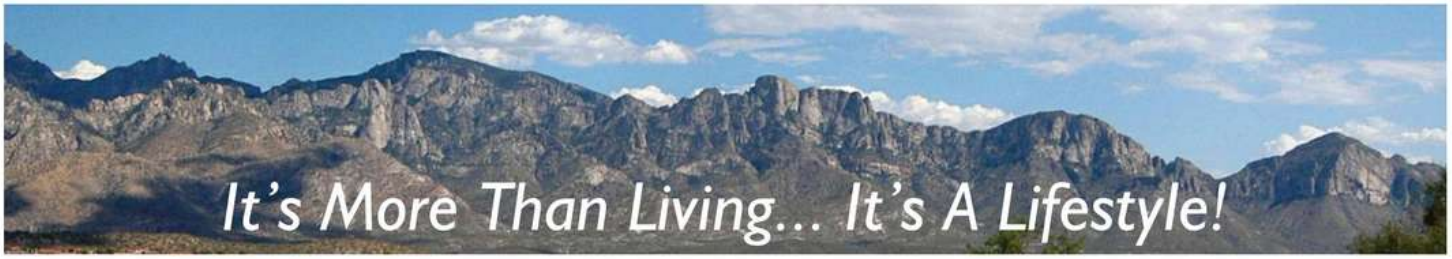

If you've ever wondered how these projects come together, I encourage you to review committee agendas and attend a meeting. It's a great opportunity to see firsthand the thought, collaboration and work that go into making recommendations to the Board.

As we approach the holiday season, I want to take a moment to express my gratitude. I am thankful for our dedicated volunteers, hardworking staff and residents who take an active interest in our community. It is a privilege to work with so many people who care about Sun City Oro Valley.

From my family to yours, I wish you a very happy Thanksgiving filled with good health, happiness and time with those you love.

Copper Center Update

Theda Ellis, 302-388-9798, tellisscov@gmail.com

Support Spending Authority for the Copper Center

The Copper Center was purchased in 2023 to help meet the growing need for space for our artisan and other clubs. It is open for temporary use, but it cannot fully serve our community until the renovation is completed.

The Board is asking members to authorize spending for the Copper Center renovation as funds become available. This is not a request for an assessment, and it will not increase your dues. The Copper Center's operating costs are already covered by current dues. The Board is not asking for a dues increase to cover operating costs or capital expenses.

Why is approval needed?

Our bylaws limit the Board's authority to spend on capital projects to 10% of the prior year's revenue—currently about $1.3 million. Spending beyond that limit requires community approval. Because the Copper Center renovation is estimated to cost $2,778,000, the Board needs members' approval to authorize spending above its current limit.

With that authority, the Board and management can plan and authorize the work as funds become available, rather than having to wait for another community vote.

Delay costs money

Construction costs continue to rise. Based on Phoenix-area construction inflation rates, a project estimated at $2.7 million in 2023 would cost about $3.06 million today. The project team has reduced the estimated cost by $331,000, but inflation is eroding those savings. The current estimate is $2,778,000; if the work waits until funds are fully available, the cost is projected to reach $3,215,900 by 2030. Moving forward sooner could help limit further increases.

How could the work be planned?

Several approaches are being considered. One option is to tackle the more expensive work first, while costs are lower. That could mean relocating the artisan studios so the Artisan Center can be remodeled at a more modest cost. The Artisan Center work would be funded primarily through Asset Reserve funds.

This approach could also prioritize groups with the greatest space needs, including Fused/Stained Glass and Thimbelena's Sewing Club, while helping make room for other groups that need more space, such as the Wood Shop and Clay Club. The final sequence of work will depend on the vote and available funds.

Spending authority is not a blank check

The authority would apply only to the Copper Center project and only up to the amount approved by members. Funds could not be redirected to other projects. The project would use competitive bidding, with at least three bids sought through a request for proposals (RFP). Regular monthly financial updates would help keep members informed.

The bottom line

Approving spending authority would give the Board flexibility to move forward as funds become available, help manage rising construction costs, and complete an investment intended to serve our community for years to come.

Please attend upcoming Board forums and cast your vote in support of this initiative.

UpKeep Helps Strengthen Facilities Maintenance

SCOV's Facilities Maintenance team has begun using UpKeep, an asset management system designed to improve how we maintain, track, and care for our community's facilities and equipment.

The team is actively responding to work orders through the system, helping ensure maintenance requests are documented, prioritized and addressed efficiently. This improved tracking provides greater visibility into outstanding work and helps the team manage requests more effectively.

Beyond responding to immediate needs, UpKeep is helping establish a more proactive approach to maintenance. By developing preventative maintenance programs, the team can schedule routine inspections and servicing to help identify potential issues before they become larger, more costly problems. The system also provides a centralized location for asset information, allowing staff to build accurate equipment records, track maintenance history, and better understand the condition of our facilities and equipment. These efforts support SCOV's long-term goal of protecting community assets, improving operational efficiency, and maintaining our facilities for residents to enjoy for years to come.

Revised Development Standards

On September 24, 2026, the SCOV Board of Directors adopted the current Development Standards. These are available for review on our website under Governing Documents/ Development Standards. You may also pick up a paper copy at the Welcome Center. We encourage you to review this document. Any changes that have been made in this revision are ramifications of the new Arizona law (AZ § 33-1816.01) having to do with shade structures. Please note that this law refers to shade structures being allowed in rear yards.

When contemplating submitting to the ARC for a new shade structure, property owners are encouraged to work with their neighbors to minimize the impact of a shade structure on the neighbor's view; however, view preservation cannot be used to prohibit a qualifying shade structure per the Arizona law. If you have questions, please contact Katy Mosier at 520-917-8058 or kmosier@suncityorovalley.com.

Reasons Why Walking Is a Great Way To Exercise

Walking isn't always thought of as a serious form of exercise. But in fact, taking a walk is a better workout than most people would expect. As a way to get or stay fit, walking has some important things going for it, of which more people should be aware. Here are some of the big advantages of walking as a form of exercise.

It can be enjoyable. Walking is a lot more pleasant than most other exercises, many of which can be downright miserable. This is partly because walking can be done outside, in nature. Experiencing the fresh air and natural sights of the outdoors can be a wonderful experience, and numerous trails and parks are perfect for walking.

It's low-impact. Walking is a relatively gentle workout, especially in comparison to many other popular exercises. Running, for example, applies significant pressure to the joints and spine with every stride, while the movements required by walking place minimal stress on the body. This means that walking will lower the risk of injuries.

Clearly walking as a means of getting regular exercise should get more respect.

Special Note from the AFC:

Orientation on how to use the gym equipment is held Thursday, 1 pm, so stop in and sign up. Classes are limited. Contact Lonnie Davis, AFC Coordinator, to discuss questions or problems with the AFC. AFC and Desert Oasis hours of operation on page 2.

Architectural Inspection Group

Lisa Sandrock 520-917-8072 lsandrock@suncityorovalley.com
Wednesday, November 25, 2 pm, WC2

Arizona summers can be brutal on the exterior of our homes. Intense sun, heat, and monsoons take a toll on paint, causing it to fade, crack and peel over time. Even paint that looked great a few years ago may now be showing signs of deterioration. Properly maintained paint helps protect exterior surfaces from the elements, prevents extensive repairs later and contributes to the overall value of your home.

Take a few minutes to inspect the exterior particularly in areas that receive direct sunlight. Look for areas of fading, peeling, cracking or bubbling. Upkeep of your home's exterior paint is about more than just appearance. As homeowners in Sun City Oro Valley, we all play a part in maintaining the appearance of our community. Taking time to inspect your home's paint and addressing areas that may need attention now goes a long way towards keeping your home beautiful and keeps our neighborhood looking its best.

As our homes age, we find ourselves looking to update or replace items such as windows, HVAC or roofs. While most contractors are of high standing, there are also those working diligently to separate you from your money.

The State has a website designed to help. Here you can check Registrar of Contractors licenses and find steps to help ensure the work you want is the work you get. Here are a few:

- Review the contractor's license at: https://roc.az.gov/contractor-search and check the license allows for the contracted work.
- Ask for written estimates from at least three contractors.
- Ensure a detailed description of every aspect of the project is included in the contract.
- Never pay cash.
- Never make a hurried decision.

You may contact the Arizona Registrar of Contractors at 877-692-9762 or Katy Mosier at 520-917-8058 or any ARC member with questions; we are always happy to help.

FOL is still looking for reader-reviewers for books published in 2026, most especially for the genres of non-fiction and science fiction. What did you think of the newly published book you just read? Write a short review for us. You will not have to read your review at the presentation, and not all reviews will be presented, but we do need your opinion. If you are interested, contact Andrea Houston at 520-825-6919 or scovfol@gmail.com. Please help us to continue to offer this hugely popular event to FOL members.

Your Long-Range Planning Committee is developing questions for the 2028 Resident Survey to better understand our residents' experiences and priorities. Topics range from how long you've lived here and whether you rent or own to how often you use amenities such as the AFC and how you rate them.

Please note our revised meeting dates: November 11 and December 9.

Guests are encouraged to attend. Join committee members Brent Beamer, Rob Campbell, Pam Curren, Mike LaBarbera, Tom Silverio and Nancy Vander Ark, along with Board Liaison Theda Ellis and Staff Liaison Sandy Seddon, for a lively discussion about SCOV's future.

Your ideas can help shape the survey and our community. We welcome your perspective on what makes SCOV special and how we can keep it thriving for years to come.

Neighborhood Pride

Teresa Deuel Covenants Coordinator 520-917-8087 tdeuel@suncityorovalley.com
First Tue, 1 pm, WC3

Now is an ideal moment to extend our heartfelt thanks to the Association and the homeowners who have consistently followed our guidelines, helping to keep the spirit of neighborhood pride alive. The Neighborhood Pride Committee, composed of dedicated volunteers, has worked tirelessly to enhance the beauty of Sun City Oro Valley, making it a truly delightful place to live. As many seasonal residents return, some have observed an unwelcome increase in weeds, particularly the invasive "spurge," which tends to thrive after rainfall. This resilient weed requires careful management; simply pulling it out won't suffice, as it can easily re-seed and spread. Instead, spray it and remove it once it dies to control its growth. We also want to remind everyone about the regulations concerning front yard decorations. Empty pots are considered artifacts and should either be filled with live plants, like cacti, or removed altogether. Additionally, statues are not allowed in front yards. We appreciate your ongoing adherence to our governing documents, which help preserve the visual charm of our community. Wishing everyone a joyful Thanksgiving filled with warmth, gratitude, and cherished moments with loved ones.

The committee performed their semi-annual inspection of the HOA properties October 19 and repairs are underway to resolve all items found that are in need of repairs.

Director of Golf Maintenance - Michael Kropf

mkropf@suncityorovalley.com 520-917-8063

The first part of November is when the golf course has dried up from the water used during overseeding. The ground is firm enough to allow golf carts off the paths and onto the fairways. This would be a good time to refresh everyone on the rules associated with leaving the cart path with a golf cart.

Many golfers seem to prefer driving down the entire length of a hole on the grass. For those golfers that insist on driving the length of the hole, there are "gates" where carts can pass through to both leave and return to the cart path. Once the cart leaves the path through the gate, it should drive straight to the fairway. The cart should remain in the fairway until it reaches the other end, where it should leave through the exit gate. The goal of the gate system is to prevent carts from driving the entire length of the hole in the roughs, creating a worn path parallel to the fairway. This has happened in the past, and must be avoided going forward.

That said, the 90-degree rule is always the preferred option instead of driving down the middle of the fairway. If a drive ends up in the middle of the fairway, then you should stay on the cart path and enter the fairway at a 90-degree angle toward the ball. If the approach shot is near the green, then exit the fairway at 90 degrees back to the cart path and proceed to the green using the cart path.

Mon, 1:30-4:30 pm, AC/Hohokam

Whether you have a knitting or crochet project in progress, need a little help or just want some friendly company while you work, come join us!

One of our ongoing service projects is creating crocheted sleeping mats from recycled plastic shopping bags. These mats are donated to the Sister José Women's Center for women in Tucson experiencing homelessness.

There are several ways you can help at the weekly meetings or at home:

- Cut plastic bags into strips
- String the strips into plarn (plastic yarn)
- Crochet the plarn into 3x6 foot sleeping mats

We are always in need of clean, flattened grocery bags from stores such as Fry's, Safeway, Walgreens, Bashas', Walmart, Dollar Tree and others. To donate bags, please bring them to a meeting or leave them anytime in the porch basket at Jane Fairchild's home, 1750 E. Crown Ridge Way.

Daemons of Tzeentch Screamers

Steering clear of the usual planes, trains, tanks, ships and automobiles this month and diving straight into the Warp with Don Holbrook's Daemons of Tzeentch Screamers is pure Twilight Zone energy. Those sky-sharks aren't here for polite telepathic greetings or "Take us to your leader." They're here for the taking (and the screaming).

The classic little-green-men image just got upgraded to multi-colored, soul-hungry ray beasts leaving iridescent trails of change-magic. Perfect fodder for a modelers' table.

Looking forward to seeing Don's work up-close, grabbing a doughnut, some hot coffee (served with a smile), and diving into the kind of conversation that would definitely raise eyebrows at a normal breakfast table.

Count me in for the meeting, the more daemonic the better. See you there.

Sculpture

Mon, 9 am-5 pm, CV/Art Studio

The Sculpture Club meets on Mondays in the Catalina Vista/Art Studio. Anyone interested in becoming a member, or learning more about our club, please stop by on Monday mornings or contact Dale Foster. Our sculpture pieces are currently displayed in the windows and showcases in both Catalina Vista and the Library for your viewing pleasure.

Laurie Lichaa created the two sculptures in the picture, which can be viewed in the display case in Catalina Vista. Laurie Lichaa and Aleda Haug are the two members in our club that create the most figure sculptures; Aleda is the "go-to person" for assistance in creating figures, and not only is Laurie talented in her figure sculpture, but she is also very skilled at using shading and color blending when painting her creations. Most of our members agree that sculpting figures is difficult, because it requires mastering the three-dimensional form, accurately replicating the human body, and maintaining spatial proportions from all angles.

Mon and Thu, 9 am-Noon, ART/Sewing

November brings memories of family gatherings. Time to reflect on all that is good in our lives.

Those warm feelings are part of what we find during our mornings at Casa. Often, we learn a new technique that one member will share to make a project move along efficiently. Someone will find some small scraps of fabric in one of the bins and make magic happen. While here, we work with people who have amazing creativity.

Collectively we are appreciative for the tools and room provided by the generosity of the SCOV Association. We are grateful for the opportunity to support others in need to share what we create.

Last but not least, we enjoy spending time in the good company of people who greet us warmly and welcome what we have to offer.

Cheer Bears

Pat Norton 480-993-8762 panpan9803@yahoo.com
Wed, 1-3 pm, ART/Sewing

Happy Thanksgiving from the Cheer Bears Club. We have been very busy all summer adding bears to our closet, and now they are ready to go to waiting children around the world. We have so much to be thankful for.

Cheer Bears is a happy group that spends much of their time working and sharing with each other. They enjoy each others company, and sharing their favorite recipes and restaurants. Sometimes we even take a day off and go to those restaurants for lunch. Come and join with us to create our little bears.

If you are interested in learning to run the new embroidery machine, Cheer Bears is a good place to practice your skills, after being trained by Karen Frolich.

If in your sorting and cleaning out you find you have some polyester fiberfill, we are in need of it to plump up the tummies of the bears. Flannel is our cloth of choice also. Donations are always accepted.

The Tapestry Hooking and Fiber Arts group meets on Tuesday mornings in the Sewing Room. If you are interested in our group, please stop by the Sewing Room on Tuesday mornings, 9-11 am.

If you are interested in learning rug hooking, we provide materials and instructions to those interested in learning the art.

Jane Honeywell has recently completed an impressive rug hooking project, shown in the picture, transforming her original butterfly design into a beautiful throw pillow. Hooked with size 5 wool strips, the project took about a year and a half to complete, with Jane working on it primarily during our group meetings and when she attends Show and Share. Jane prefers hooking in a free-form style rather than the traditional method. She has a wonderful eye for color blending and contrast, resulting in a truly unique and interesting piece.

Wood Carving

Dick Minch 262-844-7444 Minch11864@msn.com
Sat, 9 am-Noon, ART/Lapidary
Open carving Tue, 1-4 pm; Thu, 9 am-Noon, Sat, 9 am-Noon

On many of the carvings that we produce, a paint job is necessary to enhance and bring out the carvings character. To obtain a beautiful finish product, a paint brush is necessary. There are two basic materials used to make brushes, natural hair and synthetic hair. I have 95% natural and 5% synthetic in my collection acquired over the years.

When you have selected the basic material for the brush you plan to use, your next decision is on the shape or design of the bristles. There are six different designs/shapes of bristles available in seven natural materials ready for your selection. The area to be painted dictates to a larger degree the materials and shape of the brush for a given application.

Tres. John McCoy

Wood and Acrylic Pen

October is now upon us and and the woodshop hours will soon change back to our normal hours: Monday-Friday, 9 am-4 pm.

For October, we will highlight more wood art. In the picture, you can see how wood is cut into angled segments and drilled to accept inserted round pieces and then glued together to form circles with dividers that add more color. The top and bottom look alike while the center layers, in a colorful manner, separate them. The "doughnut" shape is formed using a lathe. When finished, this will be mounted vertically on a wooden base. Once again, we thank Bill Norton for sharing his work with us.

Mon, 10 am-Noon, Zoom

While warm sun seems comforting, hot sun is not. Cold rain calls for a warming fire or the comfort of a welcome companion. Poets Corner member Christa Lubatkin beautifully sets the rainy scene and the perfect remedy in the aptly titled "Rain".

drizzles from rooftops
the hemlock
at the thirsty corner

and then the deluge
that doesn't stop for days
pounds through nights

frigid air chills my spine
and I need you near
especially in the dark

sing to me
those poetic songs
with your angelic voice

tug me into your arms
shower me
with your sunshine

Resident poets are always welcome to join our friendly group on Zoom every other Monday. We critique poems that we share via email in advance and receive appreciation as well as suggestions for possible improvement.

Current Book Study Selection

Conscious aging is about the inner work of reorienting ourselves as we turn inward from our roles we assumed while managing careers and raising families to cultivating a deeper awareness of who we are now. Our goal is to discover how to face the known and unknown challenges of aging. With the help of our community, we are pondering the questions: Who am I now? What are my values? What do I believe? What matters most to me?

This inner work is supported by mindful movement such as QiGong, guided meditation and book study that draws from psychology, sociology, metaphysics, philosophy and meditation. Conscious Aging is about accepting who we are now. Meetings include some mindful movement and breath work, followed by guided meditation and book discussion.

Please contact Phyllis for information or email the club.

- Block Party with SCOV band Pound Foolish running the audio for a DJ Dance Party on Windshade Drive, Saturday, November 21, 3-5 pm.

The SCOV Mindfulness Meditation Club welcomes new and seasoned meditators alike. We are non-sectarian, and all wisdom traditions are welcome and encouraged to participate. Our club collects no dues.

On Tuesday, November 3, we transition to our fall/winter weekly format of 15 minutes of shared mindfulness readings and reflections, 25 minutes of silent sitting meditation, 10 minutes for group or individual walking meditation and another 25 minutes of silent sitting meditation. You may enter and leave quietly at any time. An introduction to sitting meditation for newcomers is offered during the first 25-minute meditation session upon request.

Our book study group meets on Wednesdays, and this season's book choice is *The Joy of Living* by Yongey Mingyur Rinpoche. The first meeting is Wednesday, November 4, and it will continue weekly through April 2027 (excluding November 25). A volunteer discussion leader will facilitate weekly, and the first week will include participant introductions, a brief introduction to the book and the discussion format and process. Other occasional club activities include half-day mindfulness meditation retreats, a monthly poetry group and social gatherings. "Meditation practice is neither holding on or avoiding. Arthritis Water

Pres. Norma Waters normawaters1@hotmail.com
VP. Andrea Houston ahoust2@lsu.edu
Fall Meeting Time Mon, Wed, Fri, 1 pm AFC/Pool

Come enjoy the weather while getting healthy exercise. Our meeting time is 1 pm. Join us Mondays, Wednesdays and Fridays. The Arthritis Foundation recommends meeting when the air temperature is 77 degrees or warmer.

Our club performs gentle exercises which target all muscles. They are used by several health organizations to increase strength and balance, mobility and flexibility.

Exercise is helpful in managing arthritis, fibromyalgia, replaced joints, etc. Some new members have expressed surprise at how quickly the first sessions had already increased their abilities to move. Others comment on improved stamina.

New members are always welcome. Our members are fun, accepting and welcoming. We frequently hear "I came for the exercises and love all the friends I have made."

Your first class is free. Yearly dues are $5. There is no fee per class. Hope to see you there.

Energetic Exercise

Pres. Peggy Smith 520-400-8659 pdsaz@aol.com
Mon, Wed, Fri, 8-9 am, Auditorium

We're happy to welcome so many friends back to class. In addition to the engaging, ever-changing workouts led by our wonderful instructor, Sally, EE participants especially value the friendships they've built along the way.

After class each Wednesday, we gather for coffee in The Bistro Coffee & Wine Bar and get to know one another better. If you're looking for a great workout and an opportunity to meet new people, join us. Some participants have attended for more than 17 years - a testament to the friendships, variety and continually refreshed classes that keep the experience interesting.

Wear sturdy shoes designed for continuous movement on a wooden floor. Many participants reserve a pair exclusively for class. Avoid wearing your exercise shoes on rocky hiking trails, as outdoor use can reduce their support and durability for indoor workouts.

Membership and Pricing

Annual membership is $5. A 12-class punch card costs $30. Please pay in cash.

The Pilates exercises result in benefits that can't be beat: better balance (fewer falls), more flexibility (joints move again), increased muscle tone (you're stronger) and more energy and well-being. There are about 1000 bird species that have been recorded in the "Lower 48". Of these, almost half have been recorded in Arizona. Arizona is certainly a USA birding hot spot because of its variety due in part to its nearness to the southern border where we often get to see birds that don't get much further north. Here in SCOV, members of the birding group have recorded over 130 species. That may not seem like very much, but Arizona offers many different geographic "life zones." These have different elevations and climates where other species reside and SCOV sits in just one small piece of the Sonoran Desert. Yet, many of the species we have here have never been seen by new residents or visitors from other states. We are fortunate as Mount Lemmon alone has 4-5 life zones! Questions: Contact Peggy above.

"The Right of self-defense never ceases."
-James Monroe

In the words of Samuel Adams, "The Constitution be never construed to authorize Congress to infringe the just liberty of the press, or the rights of conscience; or to prevent the people of the United States, who are peaceable citizens, from keeping their own arms."

Adams was instrumental in the formation of the Sons of Liberty, which had followers in many of the colonies. The Boston branch of this clandestine group was responsible for the Boston Tea Party of 1773, where 92,000 pounds of tea were dumped into Boston harbor.

That rebellious act began a journey that culminated in the creation of the United States of America, a country where freedoms for every citizen are guaranteed by the Constitution and the Bill of Rights. A country with unlimited opportunities, where the impossible is often achieved.

Gun Club meetings resume on Sunday, November 11, 2 pm, CV/Mt. Lemmon.

Sun, 2-5 pm, Club Play. All play is at the Copper Center

We are often asked, "When can non-club members play Table Tennis aka Ping Pong?" Now that the tables are set up permanently in the Copper Center, there are lots of times available and non-members can play outside normal club hours, but will likely need to bring a partner. See above as to when club members play or contact Peggy or John. Also, several of the club timeslots are not that busy, so if there are tables available, non-members can use them. Further, if non-members would like to be coached with or without bringing a partner, come over about 10 am on Saturdays or Thursdays, our busiest days, as there will likely be some members still playing that can show you the ropes. We are a friendly bunch and have paddles and balls available for all.
