## From the Board of Directors

Our mission as the SCOV Board is to lead in maintaining and enhancing the quality of life in Sun City Oro Valley as an active adult community.

All Board minutes, agendas and reports are available online. Board meetings are open to residents.

## Board of Directors - Larry Webster

lwebsterscov@gmail.com

Sitting behind my desk on another picture-perfect sunny day in Oro Valley, I have to give thanks to the kindness of many folks who live here full or part time. Everyone's journey is different. SCOV is a unique place to live, the location chosen is perfect with the backdrop of the Santa Catalina Mountains and high desert. The wildlife is abundant and diverse.

The following are my thoughts on Governing Documents and what they mean to the average homeowner. The Governing Documents are a contract between you the homeowner and the Homeowners Association (HOA). These establish the authority of the association and outline the rights and responsibilities of the HOA, the Board of Directors and individual homeowners, ensuring a cohesive and well-managed community. Here is a generalized summary of these documents:

- Articles of Incorporation: Establish the HOA as a legal entity, including its name, purpose, and registered agent.
- Master Declaration: Foundational legal document that establishes the HOA and outlines its governing principles and rules.
- Bylaws: Define the rights and responsibilities of the HOA, including how to elect Directors, voting processes and term limits.
- Development Standards: Provide an overall framework and comprehensive set of guidelines to allow the community to develop and progress in an orderly and cohesive manner. They establish criteria for architectural style and design, landscaping, site improvements, colors and materials.

Please take a few moments to familiarize yourself with our governing documents so you have unbiased facts. These documents can be found online under the members and document tabs of the Association Website.

## General Manager - Sandy Seddon

sseddon@suncityorovalley.com 520-917-8080

Have you ever wondered what happens when you contact us about something you consider an eyesore in the neighborhood? We get calls for assorted reasons, such as property maintenance, parking, noisy pets, etc. Do you wonder why it takes so long for anything to happen? It can be frustrating for you and the SCOV staff.

While addressing these issues, homeowners need to understand that there is a process that the HOA must follow. First, if the Association determines that a violation of the Association's Governing Documents exists the Association will provide the Owner with a written Courtesy Notice informing the Owner of the violation(s) and requesting the violation(s) be corrected by a specific date.

At this point, we hope the courtesy notices get the attention of the Owner, and I can say that most often it does, and the violation is addressed.

If the Owner fails to correct the violation(s) by the date outlined in the Courtesy Notice, the Association will provide the Owner with a Violation Notice which shall set forth the violation with authority to assess said violation, inform the Owner that fines or other sanctions may be imposed for the violation, and offer the Owner the opportunity to request an appeal hearing, within 21 calendar days from the violation notice, before any fine or other sanction is imposed.

Fines can escalate if the violation(s) continue to be ignored. Unfortunately ignoring the violation can be frustrating for those in the neighborhood. Please know we take violations of the Governing Documents seriously and follow the Fine Policy and Enforcement Procedure which is policy ADM-007.

A special thank you to our Neighborhood Pride Committee, which helps us make SCOV a beautiful community to live in.

## Quilting in Sun City Oro Valley

### By Linda Hamson and Mary Lee Fitzgerald

The Sun City Quilters, one of the many clubs available to SCOV residents, have been meeting for more than 24 years. Carol Guibert, our first president, gathered the first members circa 2000 and presided over the club until this past year. Please congratulate her on all she has done for our club and her continuing enthusiasm for all things quilted.

On Sunday, March 2, from 9 am to 4 pm, the Sun City Quilters Club will present the 23rd annual quilt show in the Activity Center, Native American and Kiva rooms. There is no fee to attend the show. Opportunity prize tickets can be purchased at the door. Prizes include a bed quilt, a wall hanging and a basket of quilting supplies. Proceeds are given to the Tri-Community Food Bank.

Our many talented members will be displaying quilted items ranging from large bed-size quilts to small wall hangings with a wide variety of colors and patterns. Special exhibits include a collection of Art Quilts, several 2024 Challenge Quilts portraying something to do with trees, and a collection of Antique Quilts. There will be demonstrations beginning at 10 am presented by the Quilt Central Studio from Green Valley, AZ, and at 1 pm member Janet Pugh will demonstrate making an Art Quilt. Enjoy the Member's Boutique where items made by members are for sale, including quilts and a Treasure Table with fabric, gently used patterns and quilting tools for sale as well.

The club meets twice a month during fall, winter and spring. Classes are offered in the Sewing Room once a month. Meetings are held informally during the summer. If you are already a quilter or would like to learn about quilting, join the Sun City Quilters Club.

### Tom Ryans Way Neighborhood Quilt

During a quilt show in March of 2024, several women from the Tom Ryans Way (TRW) neighborhood marveled at the awe-inspiring creativity of the quilts on display. Many thought how satisfying it must be to turn random pieces of fabric into beautiful art.

Several weeks after the quilt show, the idea was broached to one of the two quilt makers on the street to create a neighborhood quilt, something to reflect the over 25 years of nurturing friendships and the colorful, fanciful cactus of the Arizona desert surrounding us.

There were of course challenges with older sewing machines, most of the group had never quilted before and few had minimal sewing supplies. The group didn't know where to begin. Diane Gross (TRW Queen Bee) managed a challenging time producing 25 individually designed quilt blocks. She scheduled fall tutorials on selecting fabric backgrounds and borders, getting a committee to trace templet shapes onto fusible paper, having two color coordinators to oversee color balance, making pots to hold the cactus and organizing and assembling kits of fusible paper shapes to be placed in bags. Later, a snake block was added to the lower right corner created by Cathy Harvey; a large saguaro, the quilt's centerpiece, was designed by Lori Nalewicki; and the TRW logo was added by Peggy Hoeft.

With all those challenges and with the help of the talented quilt friend Penny Burroughs, a longarm machine was used to stitch the beautifully made blocks together. This quilt will be exhibited at the 23rd Annual Sun City Quilt Show on Sunday, March 2.

**TRW's Quiltmakers:** Peggy Hoeft, Lyn Ray, Mary Kaczarski, Debbie Brown, Judy Treichel, Diane Gross, Amy Briggs, Pam Mathwig, Mary Lee Fitzgerald, Louise Hageman, Addie Ford, Patsy Pulley, Patty Becerril, Cathy Harvey, Eva Gatterman, Kris Sigford, Lori Nalewicki, Katie Cederstrom, Renee Grill, Anne Munoz, Marise Johnston, Jane Krabbeler and Kitty Thompson. **Quilting Advisors:** Stephanie Consalvo, Cheryl Langer and Lesley Monroe. **Quilter:** Penny Burroughs.

## Board Candidates Answer Questions

See Election Committee article on page 8 for voting information. Information about Candidate Forums on March 3 and Ballot Initiative Forums on March 4 can be found in Coming Events on page 13.

Kurt Egertson

### Why do you want to serve on the Board?

My wife and I love it here in Oro Valley! We followed my parents, who were long-time residents. We have met many great people and have listened to them talk about life here at SCOV. What they love and what concerns them. Separately, I undertook a deep-dive into our community

financials and found that we have an aggressive approach to spending with an overly-simple approach to funding. I became compelled, duty-bound, wanting to make a difference. I believe I will be additive to our Board's existing leadership, keeping SCOV fundamentally sound for all residents.

### Is there something specific that you want to change or accomplish?

I hope to bring greater transparency and disclosure to residents about upcoming projects and the related spending. Our financials can be made easier to understand. That is about improved communication, which was cited as important to both Jim Cherry and Tod Milton in their campaigns last year. I would gladly work with existing board members on communication. Among my recommendations would be to normalize how decisions are made by reducing the use of Unanimous Consent votes, Special Board Meetings, and Executive Session Board Meetings. These approaches sometimes give the impression of secrecy and back-room dealing. As a Board, we could improve our appearance by having fewer secretive meetings and taking less aggressive lines in how we do or don't comply with applicable laws. In financial terms we should review our operating businesses. I think there is room for some belt tightening. I also think we should focus on creative ways to meet our funding needs. I don't think substantial and continued increases to HOA Fees should be our primary approach.

### What knowledge, skills and experiences do you bring?

I spent 37 years in financial services analyzing and understanding corporate financial statements. The point was to understand how the corporation operated in order to make solid financial recommendations. I regularly met with the leaders of corporate America and learned how they addressed competitive and regulatory pressures in their businesses; how they served their constituencies. I have no doubt that SCOV can be a fundamentally strong, vibrant community well into the future.

Theda Ellis

### Why do you want to serve on the Board?

SCOV, with its many opportunities for everything – to learn, to be creative, to play sports, to exercise, to volunteer, or just to have fun, has greatly enriched my life. What we have is due to the efforts of those folks – volunteers and staff – who have led SCOV until now. They looked ahead, listened to what residents wanted, and created a foundation that supports a thriving community. I have benefited, so it's my turn to step up and participate in the effort. I would like to use my experience leading a non-profit agency to serve this community.

### Is there something specific that you want to change or accomplish?

Since deciding to become a candidate, I see things differently. We are a community that will always be competing for residents with other over 55 communities. Many are newer, some are larger with more amenities, some have developers' underwriting costs, and most look impressive. Our advantages are the location with views, good access to a hospital and shopping, and a rich variety of amenities and clubs. Our disadvantage is our age. We need to continue to invest in our infrastructure to maintain our competitive advantage as a community. That costs money, but it also supports our individual investment in our homes. We need to make informed financial decisions based on data—a plan with estimated costs, proposed timelines, and alternatives. We are fortunate to have our plan. We just need to flesh it out to present to the community.

### What knowledge, skills and experiences do you bring?

The board has good representation from the military and corporate sectors. I bring public service and non-profit experience to the table as well as an MBA. Non-profits, and especially those with members, require community input and consensus. Top-down approaches don't work. It's critical to listen carefully, understand the issues and how they impact various groups, and then make decisions based on the needs of the entire community. When we all understand the community's needs, we are better prepared to make appropriate decisions.

David Olson

### Why do you want to serve on the Board?

I feel service on the Board would be a natural extension of my committee work. I am currently on the Architectural Review Committee, Property Committee, Chair of the Emergency Response Committee and the Fountain Task Force. Besides my skills in managing construction projects, properties and budgets, I have the vision that SCOV can be a retirement community of choice in Tucson.

### Is there something specific that you want to change or accomplish?

I would like to return to open community forums and comments. As a member of the Architectural Review Committee,

I encouraged a public comment period for all the changes in the Development Standards. Most changes received little comment. However, the change in side yard setbacks received significant resident attention. Ultimately the Standards will be better with public discussion. We need to be more transparent in the way the board and committees operate.

#### **What knowledge, skills and experiences do you bring?**

As a former General Manager of a lifestyle center, I bring the ability to bring together all the pieces that make a vibrant community of housing, food service, entertainment and activities. I have vast experience that would help build a stronger SCOV community with low dues, a healthy asset reserve and beautiful facilities.

**Dan Reagin**

#### **Why do you want to serve on the Board?**

Many things have changed in SCOV over the past five years since my Beautiful Bride (Vickie) and I bought our home here in 2020. It doesn't feel quite like the same happy and healthy, harmonious community that attracted us to buy our home here just five short years ago. The

HOA's finances are certainly not the same as they were five years on. I would like to serve on the Board of Directors to help ensure the SCOV Administration is truly working for the greater good of our community. I am a principled man of conviction. That is how I have always lived my life. I have always conducted myself with integrity in an open, honest, transparent and forthcoming manner. These core values have served me well through out my life and facilitated my four decades long, distinguished, career as a public servant. These same core values would undoubtedly promote the greater good of our community at large coming from a sitting member on the Board of Directors.

#### **Is there something specific that you want to change or accomplish?**

Yes, I absolutely want to accomplish a cultural change in SCOV. I want to lead the Administration in a new direction. A direction that would unite our community and would truly serve the greater good of "ALL the Member Residents". I am an honorably discharged Air Force Veteran and a Constitutional Patriot. I am a firm believer in the founding principal: "OF THE PEOPLE, BY THE PEOPLE, FOR THE PEOPLE"....."ALL THE PEOPLE"!! In the case of SCOV: Member Residents. "ALL the Member Residents". I want to help restore SCOV back to the happy and healthy community that Vickie and I bought into five years ago. One in which "ALL" MEMBER RESIDENTS feel safe, welcome, valued and supported.

#### **What knowledge, skills and experiences do you bring?**

I am a strong, self-reliant, critical thinker and a highly experienced problem solver. In my professional life I operated in a highly complex, three dimensional environment. I regularly made high stakes procedural, operational and policy decisions which effected and BENEFITED ALL STAKEHOLDERS. I spent almost four decades in the Aviation and Air Traffic Control industry where failure was not an option. The goal was always geared towards "THE GREATER GOOD" of the community. The Aviation community.

**Larry Webster**

#### **Why do you want to serve on the Board?**

Moving here in 2020 was challenging with the pandemic and its restrictions, which delayed our experiencing all the wonderful things this community has to offer. We have embraced SCOV's mantra, "More than a living, It's a lifestyle." I enjoy being a part of

this community having served on various committees including the Properties and the Architectural Review Committees which report to the Board. I believe that community involvement by serving on committees allows one to actively contribute to the well-being of the Association. I am running for the Board of Directors to continue serving our community. Engagement on issues and concerns of the members is paramount for any HOA to operate effectively.

#### **Is there something specific that you want to change or accomplish?**

I have a couple of ideas to address: 1. Build upon the success and vision of those who have served this community. 2. Enhance the Community by addressing any maintenance shortfalls. 3. Bottoms-up review of the Governing Documents and Policies; the Board should take an in depth look into these documents and address outdated guidance. As I have stated to numerous folks, is this policy necessary, is it legal, and does it conflict with other policies? If the answer is no, then it's time to reevaluate them.

#### **What knowledge, skills and experiences do you bring**

Previously, I served as the President of a Board of Directors for a 426 home HOA in Washington State. Although that experience was an early chapter in my life, it formed a basis of experiences to better manage our community. After spending over a year as a Director for SCOV, I have embraced the effort to conduct research on all issues that arise. Listening to others' opinions and effectively communicating that I understand their concerns are very important. My past experience working in the other HOA has taught me that it takes collaboration to successfully manage a community to achieve its goals.

**Earl Vittitoe**

#### **Why do you want to serve on the Board?**

Since being selected to fill a Board vacancy in February 2024, my reasons for serving our membership have not changed. The SCOV community consists of varying points of view. I feel that the best way to be sure all residents' viewpoints are heard is engagement based upon transparency,

clear communication, facts and data. In addition, we need to establish a consensus on how to move forward as a community, improving and maintaining the amenities that allow us the quality of life we moved here for while improving home values.

#### **Is there something specific that you want to change or accomplish?**

Establish clear directions as to where we will go with our long term plans and the funding to complete the capital proj-

ects our residents want. We have discussed long term planning and it is time to make decisions as to what to do, when to do it and how to pay for it.

Improve the utilization of revenue generating amenities, improving member satisfaction, and reducing subsidies. Maximize the utilization of technology to improve efficiency and the member experience when interacting with our systems. Address the inconsistencies in our governing documents, charters, and standards.

#### What knowledge, skills and experiences do you bring?

My formal education is in computer science and business management with an MBA from the University of Illinois.

My knowledge, leadership, and experience came from many different environments ranging from the military, teaching (both technical and finance), and consulting with companies and government agencies. Many of these required building a consensus on directions to take, financing, and problem solving.

As an Enterprise Architect, to be successful, I had to be experienced in business process analysis, problem identification, and developing solutions for those problems including costs and return on investment.

#### Community Services by Oro Valley Police Department and Golder Ranch Fire Department

The Oro Valley Police Department (OVPD) and the Golder Ranch Fire District

(GRFD) provide vital programs to enhance community safety and emergency preparedness, benefiting residents of all ages. Key initiatives include the following:

**File of Life** - The File of Life is a lifesaving tool that offers first responders immediate access to medical information during emergencies. A magnetic pouch, placed on the refrigerator, contains details such as medical conditions, medications, allergies and emergency contacts. Residents can obtain the packet from the GRFD or during OVPD outreach events.

**Key House Lockbox Program** - This program ensures first responders can access homes during emergencies without causing property damage. Participants install a secure lockbox with a house key, accessible only to emergency personnel. The GRFD assists with installation after residents complete an application.

**CodeRED Emergency Notification System** - CodeRED alerts residents to emergencies like severe weather or public safety threats via phone calls, texts or emails. Registration is available on the OVPD website or at local community centers. Keeping contact information updated ensures timely notifications.

**Dark House Program** - This program provides peace of mind to residents away from home for extended periods. The OVPD conducts regular checks on registered properties to deter criminal activity. Participants supply travel details and emergency contacts via an online or in-person application.

**Community Assistance Program (CAP)** - The OVPD's CAP offers support to individuals in crises, such as domestic violence or traumatic events. Trained volunteers provide emotional support, resources and referrals. Assistance is available through the OVPD's emergency or non-emergency lines.

**Senior Safety Checks** - The Senior Safety Check program promotes the well-being of elderly residents by conducting wellness checks. Officers or volunteers assess liv-

ing conditions, identify needs, and connect seniors with resources. This program reduces isolation and fosters community trust. Seniors or their families can request regular or one-time checks from the OVPD.

The OVPD and GRFD's proactive efforts create a safer and more connected Oro Valley community.

As you can see, we have decided to change the format of the monthly financial summary. Above is a financial snapshot for first 7 months of the 2024-25 fiscal year. We thought it would be helpful to show a breakdown of our Assets & Liabilities as well as an overview of our Operational and Restricted Funds. If you prefer the prior format, or wish to see the report in greater detail, go to Members/Financials/Monthly Financial Statements on our website, [suncityorovalley.com](http://suncityorovalley.com).

The next Finance - Budget meeting will be on Monday, March 24 at 1:30 pm in the Welcome Center Conference Room 3 and by Zoom. Please note the time change from 1-1:30 pm. ## Recreation and Fitness - Lonnie Davis

[ldavis@suncityorovalley.com](mailto:ldavis@suncityorovalley.com) 520-917-8073

### So how much exercise do you need to help your heart thrive? Not much.

The American Heart Association recommends that adults get about 150 minutes per week of moderate-intensity aerobic activity. Some examples of moderate-intensity workouts include fast-paced walking, water aerobics, dancing, gardening (it can make you happier, too), tennis (doubles) or biking. High-intensity aerobics, such as running, swimming laps and hiking, are also beneficial, but be sure to consult with your physician before incorporating these exercises into your physical activity routine.

Another important point to remember is that you don't have to be exercising to stay active. Small adjustments to your day-to-day life, like sitting less or taking a few extra laps around the house, can contribute positively to your heart health. A great way to do this is to incorporate extra movement into your normal routine. While waiting for the coffee to brew do a quick set of squats or push up at the kitchen counter or get in a quick stretch.

Special Note from the AFC:

Orientation on how to use the gym equipment is held Thursday, 1 pm, so stop-in and sign-up; classes are limited. Contact Lonnie Davis, AFC Coordinator, to discuss questions or problems with the AFC. AFC and Desert Oasis: See Hours of Operation on page 2.

Tue., Mar., 11, the AFC pool and spa will be closed for cleaning and shock treatment. It will reopen the following morning at the regular time.

Tue., Mar., 25, AFC Spa closed for cleaning; it will reopen at 1 pm.

Wed., Mar., 12, the Desert Oasis Pool will be closed for cleaning and shock treatment; it reopens the following morning at the regular time.

## Emergency Response Committee

Chair Dave Olson [daveobuilds@gmail.com](mailto:daveobuilds@gmail.com)

### SCOV Emergency Preparedness

When a disaster strikes, our community's safety is paramount. A well-crafted Emergency Preparedness Plan is the community's best defense against the unexpected. It serves as a road map guiding management and residents through the necessary steps to mitigate risks, respond effectively and recover swiftly. The SCOV Emergency Response Committee was formed in September of 2024 and our mission was to prepare a community response plan for the risks appropriate for our area. Our objectives were to:

- Develop a SCOV community emergency response plan.
- Develop residents' emergency plan recommendations.
- Develop a list of community resources.
- Develop a training plan for staff.
- Provide residents with sufficient information to develop their plan.

The committee is made up of individuals with experience in this area and we are happy to announce the draft of the plan is complete. The plan includes emergency procedures, emergency contact information, communication, resources and focuses on training for staff. Sandy and her team will go over the plan, make changes and meet with our committee to finalize the document.

We will follow up with presentations to the community and the plan will be available on the website.

Bill Norton and Patt Bloom

### Bill Norton

For 26 years woodworking has been a passion of mine. Starting with a piece of exotic wood, it's placed where it can begin to inspire what it needs to be. Often from the time work begins until it's finished the design can dramatically change. Working with wood doesn't seem like a job but a hobby that I thoroughly enjoy.

The goal is to never have two projects look the same.

### Patt Bloom

One of my hobbies is transforming gourds and bringing them to life. When choosing a gourd, it's fun to imagine what it can become based on its original shape. It's that shape of the gourd that inspires the final design. Gourds have become animals, butterflies, flowers, small candy dishes, vases and kinetics, in addition to many painted and cut out designs. The Gift Shop is a great way for me to share my pieces with others.

### Take Time to Look

As spring draws near, it's time to tackle crucial yard cleaning tasks. Trim trees to a height of at least seven feet above sidewalks, ensuring they don't block stop signs. Make sure plants don't overhang pathways, and prune any frost-damaged areas from shrubs and trees. Homeowners must keep driveway and sidewalk cracks weed-free, while hedges must remain under six feet tall. Shrubs adjacent to driveways must be kept below 42 inches for clear visibility. Ensure your house number is easily seen from the street, and that all outdoor lights are operational for safety at night, adhering to Oro Valley's regulation of a maximum of 250 lumens for exterior bulbs. Your attention to these details reflects pride in your property. If you cherish our lovely community and can spare three to four hours a month to serve on the committee, your involvement will be greatly valued. For those interested or with questions, call 520-917-8087.

### Director of Golf Maintenance - Michael Kropf

mkropf@suncityorovalley.com 520-917-8063

March is the beginning of the golf course maintenance busy season. The temperatures start to warm up, and the chance of rain decreases. These changes in weather conditions lead to many new challenges on the golf course, including a surge of growth in the overseeded grasses, *Poa annua* seed production in overseeded areas and weed growth around desert edges.

The warmer weather causes the soil temperatures to rise, which releases more nutrients to the grass. The problem is the grass begins to grow faster than it can be mowed. This leads to higher fuel and labor costs for increased mowing and more grass clippings that lead to messy fairways. The warmer weather also starts the *Poa annua* bloom on the fairways. One way to slow the grass growth and control *Poa annua* is by applying a growth regulator.

However, higher soil temperatures also start greening up the bermudagrass that wasn't overseeded this past winter. The dormant grass on the greens will begin to grow. This growth will help regulate green speeds by adjusting mowing height and frequency, as well as start healing up the old plugs from cutting cups. When these plugs start to recover, the second cup on the green will be removed and the cups will again be moved daily. Unfortunately, in March the roughs begin to show green again, but it greens up in patches that aren't very uniform and are not very appealing until the soil temperatures warm up more.

February was a busy month for the league with the Cure for Cancer efforts, Saddlebrook exchange, and the league meeting February 13. We reviewed the league's local rules and added the "Chip In" pot that will expand the fun. I guess we have decided that it is rather difficult to get a hole-in-one. March will also be busy with Club Championship April 13, 20, and 27, as we all

chase the coveted "Bag Tag" marking the two champions. Remember, practice your putting from two or three feet. Championship rules dictate that all putts must be into the cup; no gimmes. Half the Time, Twice the Fun.

Mermaid relief by  
Gayle Franklin

The Sculpture Club meets on Mondays in Catalina Vista/Art Studio. Anyone interested in becoming a member or learning more about our club, stop in on Monday morning or contact Dale (above). Our sculpture pieces are in the glass case and art room window inside Catalina Vista, showcase outside the library and inside the library.

Most of our club members sculpt pieces that are three dimensional. However, our club had the opportunity in October to display our art at the Activity Center. Most of the art pieces that were displayed are relief pieces. When creating a relief piece, the armature or what you put the sculpture on makes a difference. Several members have found that sculpting on a large piece of wood is not a good idea due to wood expansion and contraction when heated. Smaller pieces of wood have worked well. Cardboard and glass have also been used successfully.

Good job, woodworkers.

Car making days: Saturday, March 15 and April 5, 9 am-noon, Woodshop.

The progressive steps to produce an Senior for Kids (SFK) wooden race car are:

- 1) Use a template to transfer the body outline to scrap wood; use the bandsaw to saw out the car body.
- 2) Take the car body to the edge and reciprocating sanders to smooth the outer perimeter.
- 3) Sanding done, the car body is taken to the drill press for the holes for the axles and a forstner bit to drill the window.
- 4) The router is used to round all the sharp corners.
- 5) Paint wheels and axles (available in SFK supplies) and the body. Decorate with markers or brush.
- 6) Final assembly is the last step.

We are always looking for hands to help us make more cars. There is high demand come holiday time. Don't forget the Courtyard Sale Saturday, March 29, 7 am-noon, Artisan Center courtyard and parking lot.

The winter seamstresses who have returned to the Sewing Room, are working at a record pace. The team at the cutting table can hardly keep up with the demand for pieces to create sleep pants, sleep sacks, and skirts to be sewn. The leftover fleece is used for headbands and quilts.

The cutting team works carefully so that only scraps of material remain from the bolt being cut. Donations to the sewing room are appreciated and used for a variety of projects. Bring them in and we'll give you a tour.

He joined the group after Robert Taylor founded the group in 1992. He noted that there were several men in the group in the beginning, but now he is the only male member. Our group evolved as a stand-alone club located in the ceramics room which is now the clay glazing room. Eventually, our group became part of the Thimblelenas where we now meet in the Sewing Room.

Brother Guy Consolmagno is our guest speaker for the March meeting with "A Jesuit's Guide to the Stars." He is an American research astronomer, physicist, religious brother, director of the Vatican Observatory, and President of the Vatican Observatory Foundation. Br. Consolmagno's research explores the connections between meteor-

ites and asteroids, and the origin and evolution of small bodies in the solar system.

Jesuit spirituality is centered on "finding God in all things." What better represents "all things" than the universe itself? Jesuits have figured prominently in the history of astronomy, engaging both the mind and the heart...the mathematical and scientific study of the phenomena, its history and philosophy and its reflections in art, photography and poetry. This program will examine how we find God in the joy we experience observing the sky.

### Poets Corner

Sharyn Rafieyan 520-825-6762 [srafieyan@comcast.net](mailto:srafieyan@comcast.net)

Mon., 10 am-Noon, call for location or invitation to Zoom

If you've given up your New Year's resolutions, perhaps it's time to think about what matters most in your life—what you treasure, what gives you pleasure. There must be many. Club member Alice Hutchison provides several lyrical examples in her poem entitled "What I Want."

I Want

To hold a cloud in my hands  
to feel it slither into different shapes  
to dance with billowy shadows  
cast by swaying tree branches

I want to see the hummingbird  
return to it's carefully built nest  
and to keep the sunbaked air  
in my lungs forever

and

I want for this walk  
to never end

Think about some of the best things in your life that, like these examples, are all free. Newcomers are always welcome to zoom with us - just request an invitation.

## Conscious Aging

Pres. Phyllis Burks 520-245-2785  
SCOVConsciousAging@gmail.com  
Wed., 9-10:30 am, AC/Navajo

Conscious aging is about the inner work of reorienting ourselves as we turn from our roles we assumed while managing careers and tending families, to turning inward and cultivating a deeper awareness of who we are now. Our goal is to discover how to face the known and unknown challenges of aging. With the help of our community, we are pondering the questions: Who am I? What are my values? What do I believe? What matters most to me? This inner work is supported

by mindful movement such as qigong, guided meditation and book study, which draws from psychology, sociology, metaphysics, philosophy and meditation. Conscious aging is about accepting who we are now. Our meetings consist of a short period of easy mindful movement, followed by guided meditation and discussion. Please contact Phyllis for information or email the club.

Tue., Thu., Sat., 9 am, AFC/Pool

Aquatone is a toning water workout that incorporates a variety of rhythmic body movements. This aquatic exercise class enhances cardiovascular fitness and muscular endurance.

There is no fee to join this club or the class. The teachers are club member volunteers. Participants should be able to do a basic swim stroke. Items used in the class are buoys, boards, noodles and a fitness band. Most of these items are available at the pool. We assign an experienced member to a newcomer to help learn the various movements. We enjoy a great workout in a fun class.

### Arthritis Water

Pres. Norma Waters normawaters1@hotmail.com  
Vice Pres. Andrea Houston ahoust2@lsu.edu  
Fall and Winter Hours - Mon., Wed., Fri., 1 pm AFC/Pool

Our club meets Monday, Wednesday and Friday, 1 pm, AFC/pool when it's warm enough. The Arthritis Foundation recommends meeting when the air temperature is 77 degrees or warmer.

Our club performs gentle exercises that target all muscles. They are used by several health organizations to increase strength and balance, mobility and flexibility.

Exercise helps manage arthritis, fibromyalgia, replaced joints, etc. Some new members have expressed surprise at how quickly the first sessions had already increased their ability to move. Others comment on improved stamina.

New members are always welcome. Our members are fun, accepting and welcoming. We frequently hear "I came for the exercises and love all the friends I have made."

Your first class is free. Annual dues are \$5. There is no fee per class. Hope to see you there.

Mary Ayers 520-638-7916 scov.pilates@gmail.com  
Mon., 3 pm, Thu., 1:30 pm, AFC Studio 1/2

Understanding the Pilates principles takes a little time and patience, because some of the exercises are different than others we're familiar with. They are all fun and challenging. It has been said that Pilates can become addictive. It teaches proper balance, breathing, focus on your core (abdomen and back muscles) and movement control. Results include the development of more strength and stamina. Even posture is improved and joint flexibility and mobility increased. Two experienced instructors conduct the mat Pilates classes and will modify any of the moves for you, if necessary. The cost is \$8/class and annual club dues are \$20 pp. Please stop by and watch a class or join us. Call Mary (above) with questions.

The Spring Tai Chi session begins March 20. This is a 10-week course that meets weekly on Thursday mornings. It is led by Sensei Donna Drazonovich, 2nd degree black belt in karate and Assistant Instructor

Kyt-Tee Kohout. Each 90-minute class begins with 30 minutes of Qigong followed by 60 minutes of Tai Chi instruction. Instruction for beginners is given separately from those students more experienced. You may observe the first class before committing to the full course.

Tai Chi is an internal martial art. After you learn the basic Yang Tai Chi form, you may want to learn Tai Chi Fan or Tai Chi Saber. The Tai Chi Fan form appears to be a graceful dance; actually, it is one of the most beautiful self-defense forms.

Practice sessions are offered year-round to support our club members. For more information, email SCOVTaiChi@gmail.com or contact Gail.

Almost 60 members, having recently been fueled at our annual potluck, are ready for the upcoming spring birding trips. Spring is the best time to go birding as the birds are active and vocal, and our picnic lunches are enjoyable under the warm sunny skies. The bird shown is the Cactus Wren, our State bird. It is monomorphic, meaning males and females look alike.

We are a 140+ member, activity-oriented group and all SCOV residents are invited to join us on our field trips to learn more about the birds here in Arizona. Below is a list of upcoming field trips. If you are interested in knowing more, contact Peggy (above). Also, ask to be added to our mailing list.

Hikers at Organ Pipe Cactus National Monument, January 2025

March is such an excellent month for hiking. Spring flowers are out and the weather is warm. Our hiking leaders have been busy planning hikes for everyone. Each of our hikes is led by an experienced guide and groups are usually small so everyone can get to know each other. Although most of the hikes are in and around SCOV, the Catalinas and Tortolitas, we have had hikes ranging from Saguaro National Parks, the Superstitions, Sabino Canyon and Mt. Lemmon.

To join in the fun, sign up for an orientation hike and officially join the club (\$10 dues). Orientation hike dates and signups are located at [www.scovhiking.org](http://www.scovhiking.org). Also listed are the hikes for the current month and the following month. Hike descriptions covering the distance, elevation gain/loss, difficulty rating, date and starting times are also available.

Leslie with her silver medal

Congratulations to Leslie Esparza for winning a silver medal for singles-play at the Tucson-based Senior Olympics. Leslie is one of our best players, but our members range from beginners to more experienced. We typically play two games with each player who shows up, no matter what skill level. You may have played ping-pong as a youth and feel your skills are too rusty to play, but be assured that you will be treated well, and club members will help you get back into

the swing of things. Membership is only \$5 per year and there are nice paddles and balls available. Club member or not, if you would prefer to up your skills with your own partner, plan to come over to Catalina Vista after the first hour of the time slots above. It is a great year-round sport that offers lots of exercise and camaraderie.
