Golf Greens Reconstruction Committee (GGRC)

by Debra Arrett

Previous Long Range Planning Committees identified problems with the health and longevity of the greens at The Views Golf Club. Their poor condition was confirmed by golf course consultants beginning in 2014. After Oro Valley mandated the use of reclaimed water for irrigation, golf course Superintendent Michael Kropf has skillfully dealt with the build-up of salts and compacted subsoil with increased maintenance, chemicals and water. However, they are becoming less and less effective.

The golf courses built by Del Webb were done on the cheap. The greens were built with pushed up dirt and without proper drainage or a base to support root development and growth. Four other golf courses in Arizona Sun Cities have already reconstructed their greens with proper drainage and engineered subsoils. There has been a great deal of communication between maintenance personnel at those golf courses and members of the GGRC. See article on page 9.

The committee has met multiple times each month for almost a year. This hard-working group consists of Chair Howard Schulz and committee members Patty Horning, Debbie Huffman, Doug Kimble, Diane Malchow, Barbara Ross and John Rowe. Non-voting staff liaisons include Michael Kropf, Director of Golf Rick Price and General Manager Mark Wade.

In addition to the committee's vast research that included core samples and a trip to a Sun City golf course in Phoenix, they have also interviewed four golf course architects. On April 24, the BOD approved \$15,000 to hire architect, Mike Gogel, for a conceptual design and an additional \$3,000 for an agronomist. Their work will be completed in September.

In the fall the committee will compare bids for the project. In October and November, the GGRC will be conducting smaller focus groups to gather input from residents. Larger forums will held as early as November and will run as needed through February 2019. Because of the scope of this project, it does require approval by the homeowners, and the goal is to have it on the March 2019 ballot. There will be no special assessment. All costs will be covered by the

asset reserve and capital funds. If approved by the homeowners, the work will be scheduled to begin in late spring of 2020.

Lazy Days of Summer or Not

The sayings of the more mature generation have never been more true in some instances. I remember hearing "The times they be a-changing." Back when I first started managing HOAs, the off-season was generally a little slower and there was time for staff to back off the accelerator. Those times are over for the most part.

In today's world, demand for staff's time has increased. Summer is the time when we put the accelerator down. Often, we don't have as many appointments which allows us to stay focused on our work for longer periods of time without interruption. Large and small construction projects move forward at a blistering pace. Maintenance projects are now in full swing as staff attempts to get them completed while fewer residents are present and the work has a lower impact. The vegetation grows more quickly and staff is working hard to make sure everything is trimmed and maintenance practices are employed to assure the community looks good. Administration is busy reviewing policies and other governing documents and getting all things in order for the fall when our busy season comes back into play.

Long story shorter is work around SCOV doesn't slow down in the summer. Your staff loves working for this amazing community. We love the spirit of the residents. We are appreciative of those of you who drop off goodies from your garden and your stove. We recognize that as staff, we are truly blessed. Thank you.

Bocce Ball Once Banned by Kings, However, You Can Play It Today in Sun City Oro Valley

By Elaine Scop

Did you know the game of Bocce was banned in 1319 by the Holy Roman Emperor Charles IV so that his subjects could concentrate on war? Many were playing at "Boules" and not practicing their archery. In 1511, King Henry VIII banned the lower classes from the sport and levied a fee, so only the wealthy could play.

Throwing balls toward a target is the oldest game known to mankind. According to primitive graphite drawings, the Egyptians played a form of bocce as early as 5000 B.C. While bocce today looks very different from its early predecessors, the unbroken thread of bocce's lineage is the consistently common objective of trying to come as close to a fixed target as possible.

Thankfully, bocce is not banned in our community. As a matter of fact, the current Bocce Club has 118 members and is growing in popularity. The SCOV Bocce Club was one of the first sports clubs chartered in our Association in October 1989. It started with 50 members and grew to 225. For awhile its popularity dipped, however, it is currently experiencing an exciting renewal. Joyce Shaw, one of the newer members, remarked, "Bocce is a new experience for us. Not only is it fun, but meeting great people is the biggest plus. Keeps us going."

According to member, Mike Hulett, "I look forward to playing bocce ball three days a week, not only for the great opportunity to meet friends and socialize, but also to exercise my competitive nature in a sport that requires practice and concentration. It is also a great way to exercise during the week."

Bocce Senior Olympics medal winners. Nicole Anderson photos.

Someone puts a bocce ball in your hand and says "give it a roll" and then you're hooked. Judy Oliver and Ben Adamo state that, "One of the reasons we enjoy bocce so much is that it enables us to meet new people and pro-

vides opportunities to socialize both during our games and afterward."

There are no set teams in bocce. Members play with and against different people most every week. A few members became even closer than friends and are now "going steady." Roberta Davila feels bocce is a great activity. "It is competitive,

but not as hazardous as other sports for seniors can be. However, most of all it is a means to socialize and sometimes even meet that special someone, which has happened. Our motto is, 'Bocce On' and so we do. Some members are still playing in their 90s."

Should you come by the Bocce Courts, you will hear screams of delight and moans of despair. Bocce is safe, fun and competitive. It is a perfect balance of sport and social. Jill Wallar would agree. She says, "I love playing bocce ball be-

cause it's fun, casual, social and laid back. The club is welcoming to newcomers, making it super easy to make new friends. And when your throw doesn't go quite as planned, you can always tell your teammate to, 'Fix it.' It's a game that can be played as we seniors gracefully age. All that's required is a desire to have fun with friends and enjoy being outdoors."

Member, John Bechard, uses words like "relaxing" and "requires focus" to describe the game, while Vickie Snook stresses how friendly members are. She states, "Everyone is serious about the game, but

still jokes and razzes each other when a throw goes astray."

Stop by the Bocce Courts and give it a try. Members will be happy to get you started. The club plays every Monday, Wednesday and Friday. Winter hours are 1:45 to 6:15 PM. Summer evenings, 7 to 9 PM. The club website is <https://scovbocce.weebly.com>.

As they say about bocce, "It takes five minutes to learn and a lifetime to master."

High Season and Low Season...Both Busy

Often, as residents are leaving for summer destinations, comments are made such as, "Won't you be glad for things to slow down?"

It's a well-meant comment, but not what actually happens here during the summer months. We have two distinct focuses in our work here in SCOV. There's high season where our focus is mainly on servicing our residents, going to committee meetings and planning projects. Then there's the low season, the summer months, where our focus is still on residents, but also on executing all those projects that are best done with fewer people around. Examples of this are the renovation projects such as Desert Oasis last summer and the restaurant kitchen this summer. They also include the annual homeowner mailing which involves the collection and processing of dues, distribution of the new year's membership card stickers and golf cart stickers. Our new fiscal year starts in July, so the accounting department transitions to the new year setting up the new files. The Pro Shop sells golf passes. Department managers order items approved in the new budget. By the end of the summer, staff is all projected out and ready for our seasonal residents to join those who stayed and start the high season.

Don't forget to attend our annual Association 4th of July show in the Auditorium at 1 PM. This year's show will be a variety of entertainment. Be safe this holiday and remember that later in the day the Town of Oro Valley is planning some great things for you to enjoy.

July will bring us many speakers from local area great locations. Please take the time to enjoy some of these presentations along with an informative presentation from the Golder Ranch Fire District, "When to Call 911." See Coming Events on page 11 of this *Tipster* for more information.

Name Changes in Our Association Files

It goes without saying that when a new resident closes on a home, we change ownership information in our resident files by removing the previous owners' names when the title company sends us a copy of the new owners' deed.

Several people in our community have notified us of a spouse's death and have asked us to remove the decedent's name from our files. Some are surprised that a verbal instruction to remove a name is insufficient. Our HOA has a deed-based relationship with owners, so changes in ownership must show a change in the deed. In the case of a spousal passing, a copy of the death certificate will provide the legal documentation to make a change in our records. If you are a surviving spouse, please provide us with a copy of one of these legal documents in order to remove a name from the resident file. We are aware that this is a sensitive issue and hope that this article clarifies the process.

Another step you might want to consider is updating the information in our community telephone directory. You can do this on our website by going to www.scovaz.com > members > services > directory.

Complete the online form "To change your directory listing..." or fill out an orange SCOV Community Directory form available at the Welcome Center.

Magazines, jigsaw puzzles, comfortable seating, WiFi and a chance of meeting up with friends, or making new ones, all of this is available in the SCOV Library Lobby on the east end of the Welcome Center. The magazine collection contains an ever-changing assortment of monthly magazines no older than three months, and weekly magazines not more than one month past publication. We ask that you return magazines to the library desk or our outside book drop, so we can check the dates before putting them out. Puzzles ranging from 300 to 2,000 pieces fill our shelves. We ask that you seal all puzzle pieces back in the ziplock bag inside the puzzle box before returning it and let us know if any pieces are missing. Please do not put puzzles in the book drop as this often jams the chute. Magazines and puzzles, nearly all donated, are available on the honor system to SCOV residents.

Tips for Staying Active for Life

The more you exercise, the more you will reap the benefits, so it's important to stay motivated when life's challenges get in the way.

- Keep a log. Writing down your activities in an exercise journal not only holds you accountable, but also is a reminder of your accomplishments.
- Stay inspired. Reading health magazines or watching sports shows can help remind you how great it feels to take care of your body.
- Get support. It's easier to keep going with support. Consider taking a class or exercising with your spouse or a buddy.
- Exercise safely. Nothing derails an exercise plan like an injury. Use common sense and don't exercise if you are ill. Wear brightly colored clothing to be visible on the roads. When the weather brings slippery conditions, walk in the Aerobic rooms indoors to prevent falling.

Special Note From the Aquatic and Fitness Center (AFC)

Orientation on how to use the gym equipment is held every Thursday, 1 PM, so stop in and sign up. Contact Lonnie Davis, AFC Coordinator, to discuss questions or problems with the AFC.

Home Safety: Smoke Alarms-Golder Ranch Fire District

Smoke detector

Whether smoke/fire or carbon monoxide (CO) alarms go off during the day or at 2 AM, the Golder Ranch Fire District (GRFD) is ready to help district residents. Call 911. State that the smoke alarm is sounding and GRFD will respond—there may be a fire. If there is not a fire, the fire detector will be silenced and batteries will be changed. The home smoke/fire and

carbon monoxide (CO) alarms are mounted high in homes near the ceiling. Smoke, heat and gas gather near the ceiling and the alarms are there to alert residents rapidly. The alarms are usually hard-wired into the house electrical system, but the alarms still have backup batteries. When GRFD is contacted for an appointment to change smoke detector batteries, try to have the nine-volt replacement batteries available.

At a normal smoke/fire detector battery appointment, if ceiling light bulbs need changing also, have the bulbs available and the bulbs can be changed at the same time.

The Golder Ranch Fire District information phone is 520-818-1017.

Activity Center Renovation Committee

Chair Ed Zwerling ACRC@suncityorovalley.com

Third Tue., 10 AM, AC/Hohokam Room

The Activity Center Renovation Committee (ACRC) is completing the first phase of investigating what will be required for the remodeled Activity Center. Members of the ACRC have met with SCOV staff and club members to better understand how events and meetings are scheduled and what the capacity limitations are. We will use this information to help determine if we have to reallocate space within the AC.

We will soon start interviewing staff and residents to help determine what features and amenities have to be changed to make the AC functionally compatible with our current and future needs. ACRC members will also be visiting other HOAs to see how we compare and what changes need to be made to maintain our competitive advantage for the foreseeable future.

If you have any questions or comments, please attend our next meeting (see SCOV calendar for time and place) or contact us at ACRC@suncityorovalley.com.

Architectural Review

Lorie Puffett 415-902-1133 lpuffett@gmail.com

Second and Fourth Tue., 2 PM, WC3

SCOV must comply with the Town of Oro Valley outdoor lighting code. The purpose of the code is to minimize light pollution and protect access to the dark night sky. What does this mean for you?

Property owners should minimize the brightness of outdoor lighting and ensure that light bulbs that cause unreasonable glare to neighboring properties are not installed.

Some things to consider when planning changes to your outdoor lighting scheme: use shielded lights, aim flood lights that are attached to the side of the house no higher than 45 degrees and turn off unshielded lights between 11 PM and sunrise. The maximum allowable outdoor light output (measured in lumens) will vary depending on the size of your lot. For example, a 7,000 square foot lot is limited to 5,600 total lumens and 640 lumens from unshielded lighting. Refer to Appendix F in the Development Standards.

The paper directory will go to press soon. Check both the online directory and the paper directory to ensure your listing is correct.

All changes for the book must be submitted no later than Friday, August 3. To update your information, complete the online form "To change your directory listing..." or fill out an orange card at the Welcome Center.

Is your deceased partner still listed? A lot of people like to keep their loved one's name in the directory, for safety or for sentiment. So, deceased spouses are removed only when the surviving spouse requests it. Only you can decide if it's time to update your listing.

Please contact Sharon Miller for more information.

Food and Beverage Advisory

Chair Barb McNeill bjmac68@gmail.com

Oct.-May, First Fri., 2-3 PM, The Views Terrace

The second menu survey provided some great ideas. Some of them will appear on the summer and following sea-

sonal menus. Many include ingredients which already exist on the current menu, so here is a suggestion: If you don't see the specific item you are hungry for, ask your wait staff for a special order. If not available, your request will give Chef Paul ideas for future specials to test out what others may want, too.

Another consideration: If you have gluten-free or other dietary needs, just ask for special preparation. Chef Paul is very experienced in gluten-free meals and says most everything can be prepared for dietary needs, as the kitchen utilizes fresh ingredients whenever possible. It may take a little more time, but if the ingredients are available, every effort will be made to meet your request. With the kitchen remodel, additional refrigeration/freezer space will allow for more products that can be utilized for more than one menu item.

June, reported as the hottest month of the year on average, has come and gone. July is still hot, but the Library is a cool place (in more ways than one) to get away from the intense sun. Friends of the Library are cooling it for the summer month, with no big plans, waiting for fall when activities, such as Author Talks, begin again. Books, audio books and movies await you in the Library for summer afternoons in air conditioning. Come in and enjoy.

The Gift Shop provides a cool atmosphere to find just the right gift or item for your home.

This month's featured artists are Bill and Pat Norton. Bill's works usually start with a piece of raw material, be it oak, red heart juniper, aspen or a kiln dried exotic wood. "I place the piece where I can live with it and look at it every day until it begins to speak to me. I enjoy working the equipment until my mind, heart and hands are happy with what my eyes see."

Pat uses her talents on the looming machine to make baby cocoons, hats and booty sets and ruffle scarves. "It is a new experience for me to be selling my items because I have always been a donator. For this reason, I promised myself that for every cocoon set I sell, I will donate one set to the Seniors for Kids."

Greens Reconstruction

Chair Howard Schulz schulz2008@outlook.com
See meeting calendar for dates/times

Members of our committee recently traveled to Willowcreek Golf Course in Sun City (Phoenix) to view their greens being reconstructed (which means excavating about 2 feet of dirt and replacing with gravel, sand, dirt and drainage lines). It was interesting to see what happens during construction. This is the fourth 18-hole golf course to be reconstructed, and more are planned.

Why is Willowcreek doing this?

- 1) Greens were built from pushed up dirt and constructed by Del Webb.
- 2) Greens are at the end of their life cycle (experts forecast 15-30 year life from greens).
- 3) The subsoil base below the surface does not support grass root development and growth.
- 4) They want healthy greens going forward.

These are exactly the same considerations we have at The Views, with the one exception being we irrigate with reclaimed water, while they have fresh water wells.

The SCOV BOD chartered the investigation of the greens reconstruction project to include the following:

- 1) There will be no assessment if the project is approved. Monies are earmarked in asset reserve.
- 2) Informational reviews will be held with the community (early in 2019).
- 3) Voting on the project will be part of the normal March ballot process.
- 4) Development of detailed costs to understand total scope of project is underway. An architect has been contracted to complete this work.

When would the greens be reconstructed? With project approval, it is currently anticipated that construction would occur in 2020.

Meeting Third Thu., 3 PM, WC1; Loan Room hours: Tue., Thu., 8-9 AM

Summer in the Loan Room is a quieter time with many of our residents gone to cooler locations. During this time, we take inventory of our items, looking at their condition and the number. We try to meet the major needs of all our residents but with limited space, some items may be passed on to other groups. We try to keep the chaos to a minimum during our open hours. Please come to the Loan Room or visit the website for items you may need (or just to look around).

Neighborhood Pride

Chair Tempe Johnson 520-825-6994
Third Tue., 2 PM, WC3

Oh My, It's July

If it hasn't already, our monsoon season will soon arrive in full force. Add some much-needed rain to our summer heat, and the growth of our foliage takes off. This is a surprise to residents new to this part of the country and an annual reminder to the rest of us that things really do grow here in the desert. Weeds will pop up in the cracks of concrete and where the sidewalk meets the street. It is the homeowner's responsibility to get rid of those weeds and help keep our community looking nice, even in the middle of summer.

Strong winds come with the monsoon and can cause damage. Be a good neighbor and let others know if you see roof damage or branches down from trees. With so many of our residents away, let's keep an eye out for each other. Please take pride not only in your property, but also those of your neighbors and friends.

Properties

Chair Rich Oaks richoaks114@gmail.com
Third Thu., 9 AM, WC1

The solar systems installed at various SCOV buildings continue to produce electricity, thereby reducing the Association's utility costs and helping reduce our community's carbon footprint. The solar systems were installed in 2016 at no cost to the Association. A big advantage is the covered parking spaces the solar arrays provide in our parking lots during these hot, sunny summer days. The Properties Committee works on a variety of tasks like the solar systems. If you are interested in the activities of the Properties Committee, please plan to attend our next meeting on Thursday, July 19, 9 AM, WC1.

Director of Golf - Rick Price

rprice@theviewsgolfclub.com 520-917-8086

As many of you know, the course at The Golf Club at Vistoso closed the first week of June. It's unfortunate for the community, homeowners and their staff. After years of struggling to balance expenses and revenues, and the golf course being for sale for years with no buyer, it was just a matter of time.

However, the state of the golf business is not all doom and gloom for all facilities. The Views Golf Club has had a successful year with increased revenues, more golf rounds and memberships, and we are trending for positive results for next season as well. Because of its proximity to The Views, we expect the closure of Vistoso to be an opportunity for us to pick up more golf pass sales as well as increase rounds. We are actively marketing to that area now.

The Views Golf Club, community-owned by SCOV and self-operating, is financially stable. As a semi-private course, we offer seasonal and annual passes to our residents and nonresidents along with daily fee rates which gives us the opportunity to generate multiple sources of income.

Our success is built on our relationships created within our community and our ultimate promise: "Golfing experience that provides professional and friendly service, mountain views and excellent conditions."

Superintendent - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

July is the traditional beginning of the monsoon season in Southern Arizona. With regard to golf course maintenance, the start of monsoons is bittersweet. The good news is the golf course will start to green up after the harsh dry weather of June due to the increased humidity combined with hot temperatures. However, the monsoons also bring the chance of heavy rain that has the potential of causing serious damage to holes located near washes.

Several years ago a thunderstorm generated a large amount of water north of SCOV, but no rain actually fell on the community. The golf course was crowded with many golfers who were unaware of the water running down the washes. Several groups were playing holes number 4 and 5 when the wash began to fill. Two golf carts then tried to cross the wash and got stuck. Luckily nobody was hurt, but it took a couple hours for the water to recede and get the carts off the golf course safely.

Please remember, when these washes are running they are as powerful as raging rivers. Don't drive around the course and attempt to cross these washes when the cart path is either covered with water or sand. At a minimum the golf cart will be stranded until staff is able to rescue the cart. Be aware that during the monsoons the washes can flow whether it is raining nearby or in the distance since we are at the bottom of the hill.

If you moved west because you would rather be hot in the summer than cold in the winter, your wish has been granted. Fortunately, the men's group plays early enough in the morning so we're off the golf course before noon and a number of the scheduled games can go quickly if deliberate play is discouraged.

Here are the games: July 4, Better Ball; July 11, 2-Man Scramble; July 18, 2-Man Stableford; and July 25, Stableford.

Remember to stay well hydrated during the heat of the day and spread that sun screen where the sun does shine. See you on the links.

Greetings from The Views Restaurant. At this point we should be coming to a close on our kitchen project and looking forward to opening with a brand new kitchen. The good news is we will have sweet potato fries again. We will also have a modified menu with some of your recommendations on it. Chef and the management team spent a lot of time reading the thousands of recommendations we received from both surveys that were sent out. That being said, if we took everyone's advice, we would have a menu as big as a Steven King novel. As a management team, we took your suggestions and looked for common themes that work within the constructs of the vision of the restaurant. We want to remain a scratch kitchen, offering fresh home-made ingredients first and foremost. The second thing we look at is cross utilization. It makes no sense to serve an ingredient on only one menu item. This increases the amount of inventory on hand and makes for too many ingredients to be stocked on the line. From there we picked suggestions that we have seen some success with on specials. Over the next few months we will be trying out some new specials on our monthly calendar. The success of these specials will help us in determining what will go on future menus. I hope you all enjoy the new food and revitalized service we have worked so hard for over the last month and a half.

Club member Dave Scoles made an illustrated presentation about Aviation Day which is celebrated each year on August 19. This day is in honor of the Wright Brothers first controlled flight at Kitty Hawk, NC, in 1903. That day highlights the history that developed quickly from the first 12-second flight of 120 feet to 24 miles in 39 minutes just three years later. Dave's

remarks covered the development of navigation aids from beacons to radio to radar to GPS; aircraft design from biplanes, to the 1927 tri-motor, to the DC-3s, Stratocruiser and the newest 787 Dreamliner. World War II brought many developments including radar and jet engines. He concluded with an interesting account of his experiences flying C-130s in Vietnam.

All SCOV residents are welcome at our monthly meetings and the use of the Modelers Room. On any day, if the lights are on and someone is in the Modelers Room, stop in. At our meetings, you will see what we are about and you may enjoy a cup of coffee and a sweet roll. From time to time we schedule field trips of interest to modelers.

Pam Maddern has been a club member for three years, VP for two years, and this fall is taking on the position of Competition Chair. Originally from Ohio, Pam got interested in photography through her mom who was always taking pictures and bought Pam her first 35mm camera. To Pam, photos are treasures of everything happening in her life. Once she started travelling, the photos became a travelogue of her experiences. Mostly self-taught, she's happy to be able to share her photos with like-minded people.

At awards night, Pam was presented with the Sal Ficalora Award for Excellence in Photography. This award is given annually to a member with "significant participation and placing in club competitions, involvement in programs and activities, and a willingness to work for the betterment and growth of the Vistoso Photo Club." Way to go, Pam.

Even though it's summer and hot, hot, hot outside, we are still sewing and quilting in the nice, cool sewing room. It's also quieter. Those of us still here are working on finishing up cooler girls capri pants and cutting out fleece vests and flannel sleep pants for winter. The summer quilters are finishing current projects and planning new ones. Soon it will be time to plan for the fall when others return.

We mourn the passing of original member of Casa Amigas, Mary Jane Budreck.

Look up...there's a lot to see in the summer skies of Tucson. The highlight this month is July 27 when Mars is closest to earth and very brilliant. Mars will be at its brightest since 2003, even brighter than Jupiter. Saturn was on the opposite side of the earth from the sun on June 27 but will still be illuminating its rings and moons as its face will be fully illuminated by the sun early this month.

The club received thank you notes from the 5th graders at Coronado School in Catalina. The Astronomy Club gives every fifth grade student a Meade telescope which they fund from Arizona tax credits. Club members teach them not only how to use the telescopes but lessons in astronomy and science. This program has been going for nearly ten years.

No meetings in July and August

Although Poets Corner meetings have been cancelled for July and August, no one need take a vacation from writing. Member Jim Pavlakis revels in testing the limits of creative expression. His efforts often provide not only enjoyment but inspiration. Here are some exciting lines from "A Well Spent Dollar and Ten Cents" including the introductory explanation:

"I went beyond the pale / to an imagery yard sale / and bought all these / metaphors and similes:

a political chameleon / more lies than a Trump minute /
sadder than a barren rabbit / danced like a hooked fish /
busier than a beaver's dentist / transparent as a red carpet
dress / snatched like a hawk's lunch / scarier than a bedroom
cobra / sillier than a chocolate lamb chop"

Everyone is encouraged to come up with some clever comparisons such as these wonderful examples or fill those sometimes scary blank pages with whatever might enter your mind. Summer times should be happy times—enjoy.

Your Ukulele Club is a diverse group of musicians that play a variety of ukuleles. The baritone uke in the photo is tuned to the first four strings of a guitar (D - G - B - E). The other principal instruments are tuned on the chromatic scale to G - C - E - A.

'Ukulele Sizes

The types of ukes we play.

Some musicians tune to a low G while others use a high G tuning – both are a personal preference for the sound they wish to project. These differential tunings allow us to have dynamic and rich sound as no tuning dominates. It's difficult to differentiate these chromatic tones when we play as an ensemble but they are what make us a cohesive group and eager to please both ourselves and the entire SCOV community. Come support us in our concerts as they are not designed for us but for you.

Garage Doors

If you have a new garage door, remember it must be painted either the main body color or one of the trim colors of your house.

Happy Independence Day from the Kactus Kickers. For those of you spending the summer in SCOV, enjoy the monsoons. Please take pictures for those of us not lucky enough to be spending the summer with you. We hope our seasonal residents are enjoying time at their other home with friends and family.

Last month we shared a couple of articles about how dancing can help your brain. This month we're suggesting you ask Google, Siri, or Alexa to find information on "how dancing makes you happy" to explain how more endorphins (those magical chemicals released into your blood during exercise that supposedly make you think it is fun) are released with dancing than other forms of exercise.

Keep dancing to stay happy and healthy until we meet again in the fall.

We meet Tuesday, Thursday and Saturday, 9 AM in the winter, 8 AM in the summer at the AFC pool. There is no fee to join the club or the class. The teachers are club member volunteers. Being able to do a basic swim stroke is very helpful. Items used in the class are buoys, board, noodle, ball and fitness band. Most are available at the pool. A band can be purchased from Marcia for \$5. We assign an experienced member to a newcomer to help with learning the various movements. You will get a good workout in a fun class.

Pilates

Mary Ayers 520-638-7916 scov.pilates@gmail.com

Mon., 3 PM, Thu., 1:30 PM, AFC/Studio

Summer is a great time to commit to a core strengthening exercise routine. Why not try Pilates? Small summer classes offer you a great opportunity to learn. Forty years after his death, the Joseph Pilates exercise system is still in high demand. Fortunately, SCOV offers these mat classes twice per week on Mondays and Thursdays. People ask, "Can the benefits, which come from the strengthening and stretching exercises we do, really develop the body's core (abdomen and back muscles), increase spine mobility and build flexibility?" The answer is a firm, "Yes." Additional benefits you will notice when taking the group classes are better balance, more muscle tone and increased stamina. Classes are specifically designed for seniors and are taught by two experienced instructors. The cost is only \$8/class with annual club dues of \$20 pp. Please join us or just come by and watch. Call Mary.

Pickleball

Pres. Jeff Rusch jffrusch@yahoo.com
VP Membership Dave Burnham dburnhampton@gmail.com
scovpickleballclub.wildapricot.org

Pickleball? Where did that name come from?

In 1965, on Bainbridge Island, WA, a bored congressman and his businessman friend looked to an abandoned badminton court, grabbed a couple of ping-pong paddles and an old wiffle ball and invented what has become the fastest growing sport in America. Pickles, the family dog, enjoyed chasing the ball, so they had a name for their new sport. Now that you know the story, come participate in the action. Pickleball is a sport for all ages (one of our players just celebrated his 90th birthday), easy to learn and really fun to play. The games begin at 6:30 AM before the summer heat descends, and in the cool of the evening under the lights. More information: visit our website or contact Dave Burnham.

End of a game.

POP Tennis

Pres. Barbara Satterly 520-825-8965 craftylady838@aol.com
Treas./Membership Janell Raty 530-401-2477 janello66@yahoo.com
Tue., Thu., Sat., 7-11 AM, Desert Oasis Courts

In the late 50s, Brighton Beach Baths in Brooklyn, NY, converted hand-tennis courts into 20 smaller Paddle Tennis courts. It soon became a hub for Paddle Tennis and remained so for decades. In 1961 the official Paddle Tennis court was lengthened in order to make it the Classic POP Tennis court size. A decompressed tennis ball replaced the sponge-rubber ball and the overhand serve was eliminated. These changes were accepted by both the East and West

Coast Paddle Tennis Associations and are still in effect today for Classic POP. The 70s, 80s and 90s saw great growth in California at Venice Beach as well as private clubs. Look for the last history installment in next month's *Tipster*.

Our club has been officially recognized and welcomed by the International POP Tennis Association.

The Sundowners RV Club held our final meeting before the summer break on May 7. The Catalina Vista meeting room was packed with members as well as new faces swapping stories about plans for the upcoming summer and reminiscing about fun club events from this past season.

Amongst all the conversation and munchies we were treated to tech presentations from two of our website advertisers, learned about our RV Club budget for the upcoming year, briefed on several upcoming trips for the 2018-2019 season, and Prez Bill handed out awards to several well deserving members who have contributed to the success of our club.

Sounds organized? Sounds like fun? Sounds like something you're interested in? Well, it's all that and much more. If you own an RV or are just contemplating owning one, join us this fall and test drive the club. You'll be happy you did.

If you already belong to the Sundowners RV Club, check out the members-only portion of our website for new trip reports with pictures of recent outings.

Nonmembers: check out the public view portion of our website at the above URL for a taste of just some of what we have to offer. Then, call Bill or Brad at the above number(s) for an invitation to our next meeting on October 8.
