Long-Range Planning Helps Build Our Future

by Meade Davis

We enjoy the location, attractiveness and the many amenities SCOV has to offer. However, we must continually look at new or improved features for our community in order to maintain our satisfaction with SCOV. This will help keep our community attractive to new buyers and, in turn, protect our home values. The Long Range Planning Committee (LRPC) is tasked with identifying these features and establishing their priorities. These ideas become recommendations for consideration by the Board of Directors.

The LRPC works hard at these goals by obtaining present and prospective residents' input. The LRPC is now completing an analysis of the recent residents' survey. It closely monitors the Ambassador Tour surveys and those from the Future Housing Committee.

In addition, the LRPC has an ongoing benchmarking process in which it studies other comparable communities for new ideas and trends. Individual ideas from current residents and other available sources are carefully considered as well.

This is now an ongoing process. In the past long-range planning have been singular events. The present LRPC is a permanent and dynamic committee. As our community evolves, current amenities need to be updated and new features considered.

The vibrancy and attractiveness of SCOV today is a result of effective long-range planning. We applaud the continuing efforts of this hard working committee. Thank you.

Spring and Summer Bring Bees

As summer approaches, I am reminded about how important it is to avoid bees.

For most people, a bee sting is an uncomfortable experience but not a life-threatening event. For approximately 3 percent of adults and 0.5 percent of children, however, a sting by a bee, wasp, hornet or yellow jacket can result in a whole-body allergic reaction (anaphylaxis), a true medical emergency.

The best way to prevent an allergic reaction is to avoid being stung. Generally, insects such as bees and wasps aren't aggressive and only sting in self-defense. If a few bees are flying around you, calmly and slowly walk away from the area. Swatting at an insect may cause it to sting. When a bee stings, it releases a chemical that attracts other bees, so if a bee or wasp stings you, or if many insects start to fly around you, cover your mouth and nose and quickly leave the area. Try to get into a building or closed vehicle.

The following are some additional measures you can take to stay sting-free:

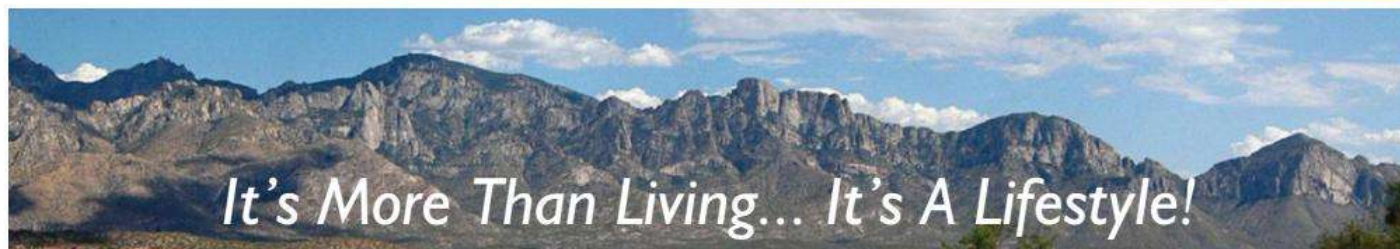

- Have hives and nests near your home removed by a professional.
- Use caution when working around bushes, shrubs, trees and trash cans.
- Always wear shoes when walking outside, particularly on grass.
- Wear pants, long-sleeved shirts, gloves, close-toed shoes and socks when working outdoors.
- Avoid very loose-fitting clothing that can trap insects.
- Don't wear brightly colored clothing or flowery prints because it could attract insects. Avoid using perfumes or other scented products for this reason as well.
- Always check food and drinks (especially open cans of soda or drinks with straws) before consuming, especially at pools and picnics.
- Serve beverages in wide, open cups, since they easily allow you to see what's inside.
- Avoid eating sweet foods outside.
- Cover food containers and trash cans tightly.
- Clear away garbage, fallen fruit and animal feces (flies can attract wasps).
- Keep the windows rolled up when driving or riding in a car.

Annual bills and budget
were mailed on June 1.

Annual homeowner fee is due July 1.

The "Greening" of Sun City Oro Valley

By Randy Moody

The many solar panels in association parking lots and other locations is dramatic evidence that SCOV is very intent on going and staying green, i.e., reducing our carbon footprint. So, to me, it seemed likely that there would be many other, less obvious but important greening efforts happening in the community. I thought it would be worth my effort to learn about them.

I began the office of Robin Coulter, SCOV Assistant General Manager, who gave me names of key players in this environmental effort and pointed out that, over the past few years, the administrative staff has made great progress in reducing the number of reams of paper used for things such as homeowner files, board packets and corporate records by scanning and digitizing them. "We really are committed to the effort of setting a good example for environmental awareness," she said.

This led me to Ken Sandrock, SCOV Facilities Manager, who pointed out the large recycling dumpster located on the north side of the Administration Building. Material from recycling containers located in all nine of the SCOV buildings is collected and deposited there for pickup by Waste Management.

Resident Horace Shearman has been a strong advocate for conversion to LED lighting. An electrician by trade, and then he was a plant engineer in Jamestown NY and Phoenix before he retired in 1996. He noted that the Properties Committee has been particularly aware of the environmental needs of SCOV. Over the past years, the committee has developed the planning to retrofit all the fluorescent lighting and has replaced the incandescent lighting with LEDs. A current project under consideration is the retrofit of the parking lot lights. "A \$19,000 investment will take only 1.4 years to pay back in energy savings cost," he said.

Properties Committee member and resident Dale Foster has been one of the guiding lights behind the installation of the solar panels. His whole working career involved electric technology, and his move here in 2013 coincided with the discussion of the use of solar energy to provide electricity to SCOV facilities.

He explained that Technology Credit Corporation receives payments from SCOV based on the energy generated that is about 13 percent less than the amount paid to Tucson Electric Power (TEP). TEP will continue to provide electricity to SCOV above and beyond that provided by solar. Technicians for Sustainability, the largest Tucson-based solar company, designed and installed the systems at no cost to SCOV. A bonus is the parking lot shade provided by the panels.

"Savings to SCOV for the first year of operation of the solar system was about \$10,000," Dale said. "And savings over 20 years could reach almost a million dollars."

The Views Golf Club began using reclaimed Oro Valley city water in 2005, according to Mike Kropf, Golf Course Superintendent. His computer controls the amount of that water sprayed by more than 2,000 heads throughout the 6,715 yard layout.

Up to a million gallons of water, depending on the weather or time of year, are pumped each night through a station located on East Silverton Avenue near the miniature golf course, and into one of the ponds near the 10th tee. The water then is transferred to the other pond for distribution on the course.

Resident Dave Johnson has a passion for recycling those beer and pop cans. In more than a decade, the aluminum can recycling effort has brought in more than \$40,000 to benefit the SCOV Loan Room and other programs here. "It's free money," he said. Approximately 20 volunteers make this happen. Daily, one volunteer checks the collection bins for foreign material while bagging the cans into transfer bags. Every six to eight weeks a crew of four delivers the cans to the scrap yard. Making aluminum cans from recycled materials requires only five percent of the energy required to make the same amount of cans from raw ore.

Mary Kaye Cunningham, Common Area Maintenance Supervisor, has been at work at SCOV for nearly 32 years. During that time she has been busy removing sprinkler heads from medians and pocket parks throughout SCOV. "Del Webb watered everything," she said. "We are replacing plants that need water with those that don't, and with decorative rocks." She likes trees, though. "One tree provides oxygen for four people."

Golf Cart Registration

You will be required to register your golf cart this year. After this initial registration, annual stickers will need to be applied. We didn't do this last year and found out that it was still something the community wanted, so it's being reinstated. Please stop by the Administration Office to register your cart and pick up your sticker.

Is It Really an Association Emergency?

Only call the Association emergency number listed in the *Tipster* if there is a problem with a facility or facility area. This number is not to be called for a personal problem or something you see at a neighbor's house. If you feel there is any potential danger, please call 911. Don't ever say, "Well, I don't want to bother the police." Once again, this number is to be called only for an Association property emergency. Thank you.

Neighbors Notified of House Expansions

At the Board Meeting on April 24, a change to the Development Standards concerning permanent improvements on residential property was approved. Permanent Improvement, as defined in the Development Standards (DS) Article, 1, Section 1.28, shall mean an addition, alteration or modification that alters the original (or any prior ARC approved) footprint of the dwelling and/or garage if residential; or any new building if intended for commercial or institutional use; or any addition, alteration or modification to the exterior of an existing building if not a single-family use structure. The change requires a notice be sent to each neighbor owning a lot within 100' of the perimeter of the platted lot in the submittal (DS 4.3.f). This communication will advise those neighbors that a submittal has been made for a room addition or other change to the house footprint.

The submittal form and drawings will be made available at the Administrative Office, Monday through Friday, 9-11 AM, for review by those who receive the notice. No pictures of the plans may be taken because, in most cases, the owner has paid an architect to produce the plans. All inquiries and comments about the project must be addressed to the owner of the property. Currently the governing documents do not allow neighbors to prevent a permanent improvement project that meets all governing document requirements. With Board support, the Task Force to Preserve and Enhance Lifestyle and Property Values recommended this initial step in establishing reasonable, respectful guidelines for community members to learn of developments within their neighborhoods. The next steps, anticipated in the fall of 2018, will include specificity to balance individual and community property rights.

Resistance Train to Prevent Muscle Loss

When it comes to muscle, use it, lose it or build it. Muscle plays a crucial role in human health; it allows us to stand, walk, balance, lift and breathe. Building and maintaining muscle is important for both men and women, because strong muscles help reduce back pain, prevent falls and more. Registered dietitian nutritionists, personal trainers and physicians agree muscle mass is important for optimal calorie burning, dense bones and increased energy. Although resistance training strengthens and maintains the major muscle groups, it does not always equate to bulking up. Resistance training does not need to happen at the gym; in fact, it is easy to do anywhere. For best outcomes, the American College of Sports Medicine recommends strength training two to three times a week for at least 20 minutes. When using weight machines, free weights or resistance bands, selecting the proper weight is crucial to improving strength and preventing injury. Set a target of 8 to 12 repetitions and work up gradually to two to three sets. If you prefer exercises that do not require weights, exercises that use your own body weight also are a good option. Push-ups, squats, planks, hip lifts and dips are just some of the numerous equipment-free resistance training options. Incorporating resistance training into a regular exercise routine is crucial for maintaining healthy muscles and bones while increased muscle mass can boost energy and metabolism.

Special Note From the Aquatic and Fitness Center (AFC)

Home safety: The Golder Ranch Fire District has many home and yard safety services for district residents. One service that is often used when folks move to SCOV is the Snake Removal Program. When a snake, often a rattlesnake, is on your property a call to Golder Ranch Fire will get the Fire District to respond to remove the snake. Call 911. Tell the operator that the call is not an emergency, unless a person is hurt, and Golder Ranch Fire will respond. The snake is placed in a special transport bucket and relocated to a desert location away from people according to Arizona Game and Fish regulations.

Chair Ed Zwerling ACRC@suncityorovalley.com

Third Tue., 10 AM, AC/Hohokam Room

The Activity Center Renovation Committee (ACRC) has started to create a design that, when implemented, would bring the Activity Center (AC) up to Sun City quality standards and will best serve the current and future needs of our residents.

Since 1988 when the AC was opened, there have been many changes. The administration offices have been moved to the Welcome Center. The lighting, audio and video systems in the Auditorium have been maintained and upgraded by a group of dedicated monitors and volunteers, but they are primarily based on 1980's technology. The kitchens may no longer be adequate to serve our needs. There have been piecemeal refreshes done over the years, but this will be the first comprehensive renovation of the entire facility.

The ACRC will be listening to the residents to determine our current and future needs. Professional experts will be engaged to help create a design for approval by the community.

Fourth Mon., 1 PM, WC3

The committee is not scheduled to meet from May through September. Starting in October, the committee will meet on the fourth Monday of the month rather than the third Monday. Please contact Sharon Miller for more information.

Food and Beverage Advisory

Chair Barb McNeill bjmac68@gmail.com
Oct.-May, First Fri., 2-3 PM, The Views Terrace

On April 24, chairpersons of SCOV committees were treated to a wonderful meal, held at The Views Restaurant, as a thank you for another year of volunteer responsibilities. The

four course meal was five-star quality, both food and service. This was followed on April 30 by the Farewell Wine Dinner, featuring a five course meal, paired with wonderful wines. Aalt, Chef Paul, Errick and our tremendous wait staff went all-out to show us what another five star experience is like. One customer said it all: "Best meal I've had in 20 years."

Starting May 29 through July 8 (subject to change), the kitchen/dining room will be closed for breakfast. Grilled offerings will be available in the Lounge/Terrace (subject to availability), from 11 AM-7 PM, with Friday evening entertainment at happy hour and Sunday karaoke.

Do you need temporary help with meals? Call Vistoso Helpful Hands (520-447-0077) to share a volunteer-prepared meal or get take-out from The Views Restaurant.

The summer heat is turned on, and it is time to read in the coolness of the house, in the shade or even in the pool. I am currently reading a book about members of a book group (Ann Hood's *The Book that Matters Most: A Novel*, and it is a perfect beach read). Having a book club of members with whom you can share your thoughts on what you read is a wonderful addition to this "hobby." Maybe you, too, could join one in the fall at SCOV. Until then, have a great summer.

Summer is here and it is time to visit the Gift Shop to browse and keep cool. With the season comes a new signor to the shop.

Linda Wilkes began jewelry making many years ago, but life generally got in the way until the spring of 2017. "I purchased a bag of jewelry at an estate sale and among the treasures was a beautiful necklace that was handmade. That particular necklace became the impetus to retrieve my jewelry tools, dust them off, and revisit a personal joy that I had long ago abandoned." She now has a new perspective regarding her craft and loves creating a new piece of jewelry from looking at the color palette of pretty material. She also likes to create with different themes in mind, including one she created that she calls Dimensionz.

Greens Reconstruction

Chair Howard Schulz schulz2008@outlook.com
See meeting calendar for dates/times

Welcome to *Tipster* articles on the activities of The Greens Reconstruction Committee. Our committee organized last fall based on the charter established by the BOD. Past visits from golf course consultants (Borders Report and United States Golf Association agronomist) had identified serious concerns with the health and longevity of the greens at The Views.

The primary concerns identified were the build-up of salts in the root zone and the compacted subsoil under the

greens. We have seen a build-up of salts ever since Oro Valley mandated the use of reclaimed water for our golf course. In addition, the compacted subsoil severely impacts our ability to grow healthy grass root systems.

The Views Golf Course was built in the 1980's without a subsoil drainage system under the greens, which is a 12-20 inch engineered layer of soil, sand, and gravel that allows water/constituents to drain and roots to grow to acceptable depths. Sixteen other golf courses in the Tucson/Oro Valley area were investigated, and all have subsoil drainage systems. The Views does not.

Del Webb built golf courses at Sun City in Phoenix similar to The Views. To improve their greens, three of those courses have already reconstructed greens and installed engineered subsoils, with a fourth course being completed this summer.

Recent core samples taken at The Views Greens in February, 2018 showed the following results:

Infiltration/Depth	The Views Greens	Well-Drained Greens
Water Infiltration Rate (inches/hour)	0.4 to 0.9	6 to 10
Feeder Roots (4" to 12" depth)	None	Medium Density

Loan Room - Community Assistance

Chair Gay Russell 520-825-5763
Meeting Third Thu., 3 PM, WC1; Loan Room hours: Tue., Thu., 8-9 AM
suncityorovalley.com/members/services/loan-room/

Summer in the Loan Room is a quieter time with many of our residents gone to cooler locations. During this time, we take inventory of our items, looking at their condition and the number. We try to meet the major needs of all our residents but do have limited space, so there are likely to be items we pass on to other groups. We try to keep the chaos to a minimum during our open hours. Please come to the Loan Room or visit the web site for items you may need (or just to look around).

Marketing

Chair Pete Coy 360-739-4100 petecoy@gmail.com
Fourth Mon., 3 PM, WC1

The Marketing Committee and staff are moving forward to develop and implement various ways to enhance name awareness for our premier active adult community. These activities will include a new video which promotes our beautiful community and its many recreational and social activities where the focus is on fun. Residents will have an opportunity in the future to purchase apparel and business cards with the SCOV logo. We also updated information in SCOV's Relocation Packets which are sent out to prospective homebuyers.

The Committee is on summer hiatus until October 22. Those interested in helping to promote and market SCOV, please submit a Committee Member Application form which can be found under Members > Committees on the SCOV website.

Neighborhood Pride

Chair Tempe Johnson 520-825-6994
Third Tue., 2 PM, WC3

Summertime Reminders

Whether you are here or away for the summer, please remember:

- Weeds in cracks of driveways, sidewalks, and where the cement meets the asphalt of the street are the responsibility of the homeowner to remove.
- Cactus and/or bushes in your yard should not extend over the sidewalk causing danger to walkers.
- Trees must be kept trimmed up at least 7 feet high over the sidewalk so as not to injure walkers or block visibility of a stop sign.
- Exposed soil, or bare dirt, needs to be covered by rock.
- Artifacts, including empty pots, are not allowed in front yards. Pots should be planted with live plants, as artificial ones are not allowed.
- For safety reasons, trim any vegetation blocking numbers on your house, and be sure the numbers are lit and visible from the street, day and night.
- Shrubs near the entrance to your driveway need to be cut down to a height of less than 42 inches so as not to block visibility of a vehicle exiting the driveway.

Neighborhood Pride thanks you for remembering the above reminders. Have a wonderful summer.

Properties

Chair Rich Oaks richoaks114@gmail.com
Third Thu., 9 AM, WC1

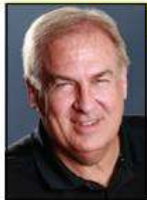

The Properties Committee was pleased with the improvement observed from our previous facilities inspection—especially with regard to safety-related items. This improvement is the result of conscientious effort on the part of Association staff, and the committee is gratified by their good work. We continued our inspection activities in May with a thorough inspection of the Activity Center in support of the Activity Center Renovation effort. Other current committee activities include nighttime lighting and dumpster issues in the Mountain Vista complex. The Properties Committee works on a variety of tasks like this during the year. If you are interested in the activities of the Properties Committee, please plan to attend our next meeting on Thursday, June 21, 9 AM, WC.

Superintendent - Michael Kropf

scvgolf@suncityorovalley.com 520-917-8063

June is historically the hottest and driest month of the year. This is also the ugliest time of the year for overseeded golf courses in the desert southwest because this is the time of year when golf courses transition from the winter Ryegrass to the summer Bermuda grass. Anytime a grass dies there will be a lot of brown areas, and there will also be thin areas until the underlying Bermuda grass makes a full recovery.

Our transition program, developed over many years, has helped minimize these thin areas and drastically decreased the amount of area needed to repair. Mechanical methods of transition include aerification, topdressing, verticutting and fertilizing which are performed during the month of May to provide a good environment for the Bermuda grass to recover in June.

Combined with the mechanic transition methods, the Ryegrass has been chemically treated to start thinning out as far back as March. This process allows the Bermuda grass a less competitive environment to get access to sunlight earlier in the year. The final chemical application is made in

mid-May to completely remove the Ryegrass and poa annua that still remain in the fairways and tees. This is when the big weak areas begin to show up in June.

During the middle of June, each of the nine holes will be closed for a week to allow a much quicker time frame to repair these bare areas in the fairways. This will allow the golf course to heal much faster and be back to great condition by the middle of July.

Golf Advisory

Chair Yvette Schulz 520-825-0797

Sep.-May, First Wed., 2 PM, WC3

Summer is upon us and Mike Kropf and his crew are working hard on bringing our course out of overseed. The Ryegrass is dying out and the Bermuda grass is coming back. Support and respect Mike and his crew.

Now that the gate system of entering and exiting the fairways is not in use, remember to enter and exit the fairways at 90 degrees. This reduces the wear and tear on the fairways. When parking your cart by the greens or tees, please have all four wheels on the cart path. This helps maintain the grass near the cart paths.

The new representatives for the 2018-2019 season are: 18-Hole Men's League, Jack Breslin; 18-Hole Women's League, Ruth Bonfiglio; 9-Hole Men's League, Bob Henderson and Gary Gibson, alternate; 9-Hole Women's League, Louann Convey and Mary Barr, alternate. Doug Kimble is the new chair and Beth Allen will be the vice chair.

Have a great summer.

Thank you to all our friends and neighbors for all the emotional support, cards, calls, food and love that you shared with our daughters and me during Roland's illness and passing. I will never be able to repay you. This just confirms why we chose to live in this wonderful community. Thank you from the bottom of my heart.

SCOV residents and friends, thank you. If it wasn't for your kindness and generosity, I wouldn't be where I am today. Your generous gifts helped me recover with less weight on my shoulders. I felt the love and well wishes. I am alive, most importantly, because of your prayers.

With much love,
Your friendly waitress, Adrienne

A big thank you to all of our Shredding Day participants, donors and volunteers.

Glaze mentoring Third Thu., 1-3 PM; Studio cleaning last Wed., 1 PM

The club continues to gather and support all portions of the activities and process we have come to count on throughout the year. Orientations, however, are on an as needed basis. Those wanting to join and experience the studio are encouraged to sign up in the main pottery room and orientation classes will be offered when there are enough signed up to make a full class. You will be notified individually when this occurs.

As the weather heats up and the population dwindles for the season, it is quieter, but still a productive time. Cleaning sessions still happen with the associated after parties, but meetings are suspended until September. There was even a cookie making party recently, although you would not want to eat these cookies. They are small clay disks which are an important part of keeping our kiln shelves safe during firings. So much to know about clay.

We at the Modelers Club try to assist youngsters in their modeling efforts by presenting them with a snap together model of an aircraft. Currently, we are sharing a model of the A-10 Warthog. These aircraft are stationed right here in Tucson at Davis-Monthan Air Force Base. CJ is the young man in the picture and accordingly did a nice job of putting the model together within hours of receiving the kit from Dave Scoles at a recent Open House.

All SCOV residents are welcome at our monthly meetings and to use the Modelers' Room. On any day, if the lights are on and someone is in the Modelers' Room, stop in. You will see what we are about and you may enjoy a cup of coffee and a sweet roll. From time to time we schedule field trips of interest to modelers.

Steve Perkins with his abstract, "Spheres."

Steve Perkins has been in the photo club for two years and is currently the club treasurer and program director. He was introduced to photography by his dad who sold photographic equipment. Steve remembers, as a young kid, traveling with his dad to different places in the Southwest including many of the old trading posts that sold camera equipment. Many years ago Steve used film photography in his construction business, documenting construction progress. Later

in life, Steve began selling real estate and used his photography skills in the marketing of real estate. Soon after retiring, Steve began taking photography classes at Pima Community College. He entered the digital arts program at Pima and highly recommends their digital programs.

The club's final meeting for the 2017-2018 year was May 9, our awards night. Club meetings will resume in September. We hope everyone has a happy and productive summer.

Casa Amigas

Sigrid Flatness 425-213-6689
Mon. and Thu., 9 AM-Noon, Artisan Center/Sewing

Why the name Casa Amigas? Well, I'm glad you asked. Many years ago, when this group was formed, they began by sewing children's clothes for Casa de los Ninos. Casa de los Ninos is an organization which started over 40 years ago by a Catholic nun. With few resources, she ran a small home where abused children could go after being discharged from the hospital. Obviously, the need was great for clothing and other personal items. Thus, a match was made. The sewing group selected the name Casa Amigas, which means "female friends of the house." The house being Casa de los Ninos or "house of the children." Currently the focus for this group is still sewing for at-risk children.

This is summer.

As the weather heats up, the coolest place to be is in the air conditioned studio. Our kilns have been going night and day to keep up with all the work that the new classes have produced. We are hurrying to get everything done before some leave for the summer.

It is so nice to see that the members who excelled in a certain area of this craft have stepped up to help teach our new members. Making glass

flowers is a time consuming hobby and it takes patience. Thank you, Ann.

If you are here for the duration, our doors will be open all summer and the possibility of some quiet time in the studio ranks high.

Thanks to all the volunteers for all those little jobs that need done. Also a big thanks to our studio manager, Kaaren Drent, for organizing our room to make sense. Stay safe and hydrated this summer.

Activities for the Astronomy Club are suspended for the summer. We look forward to another year of outstanding astronomical speakers this fall. We have some great field trips coming up and may have some summer star parties. Check out our website and think about joining our club.

Turn down your lights and learn about light pollution. This is a problem for our surrounding and important observatories: Kitt Peak, Mt. Graham, Mt. Lemmon and Mt. Hopkins, due to the increasing night lights from Tucson. Light pollution not only effects observatories but devastates wildlife. It may also harm your health and wastes energy. The Astronomy Club of SCOV encourages you to join with them in stopping light pollution here in Sun City. For more information, visit darksky.org.

We will resume meeting in October. In June, our book selection is the novel *The Tea Girl of Hummingbird Lane* by Lisa See. In a remote Yunnan village, Li-Yan has a baby outside of wedlock and abandons her in the nearest city. This is the story of mother and daughter's search for one another years later.

In July, we turn to the one of the great classic books of the 20th century, *Cry the Beloved Country*, by Alan Paton. Set in South Africa in the mid 1940s, the book examines themes of fear, racism, tribalism and equality that continue to resonate across the globe.

Those of us who've experienced a senior moment or two or stopped counting will appreciate the theme of our physicist-poet Adrian Korpel's "Cartesian Plaint."

"I used to know both X and Y / and sometimes even Z. / Oh, how they loved to multiply / and form a jolly three! / Oh, how they squared and added / working to make a perfect ring / where bold X squarely cuddled Y / in a lusty geometric fling. / But now I'm old and weary / dear X has slipped my mind / while Y became a fugitive / impossible to find. How did I get from there to here? / Where are the Ys of yesteryear?"

Knowing the purported benefits of a creative activity like composing a poem, we'd like to keep meeting throughout the summer; however, due to the number of anticipated absences, it will likely make sense to take a break or breaks. Members will be advised via email but all are encouraged to keep writing.

Our formal practice and weekly beginners' sessions tutored by Dave Smith and Pat Bloom have concluded. We now offer members a round-robin format where each member gets to choose a song we typically do not play, thereby deepening our repertoire. We sustain this format until our members return from their summer homes.

Occasional workshops that are intended to improve our strumming, left hand technique, chord structure and musicality are offered by our advanced players throughout the summer. Workshops allow us to improve technically while still having great fun. We continue to entertain patients at the Copper Health facility every second Thursday. Join us for a unique collaboration; a joint 4th of July patriotic concert with the Sun City Singers. The performance will be in the Auditorium, 1 PM, and admission is free.

Neither partner nor prior experience needed. Typical dance session consists of 12-15 mostly easy folk dances always preceded by instructions. Membership Ellen LeVee 509-438-4284
email: kksco@gmail.com

The Kactus Kickers have put away their boots for the summer. This summer we'll focus on how dance provides real health benefits for you. Space doesn't allow us to provide detailed information about the myriad ways dancing can impact your physical as well as mental health, so please ask Google or Alexa to look up "dancing makes you smarter." There are fabulous articles you can read when it's too hot to go outside. Next month I'll find you some articles on dancing and your bones. So keep dancing and don't forget to hydrate.

We meet Tuesday, Thursday and Saturday, 9 AM in the winter, 8 AM in the summer at the AFC pool. There is no fee to join the club or the class. The teachers are club member volunteers. Being able to do a basic swim stroke is very helpful. Items used in the class are buoys, board, noodle, ball and fitness band. Most are available at the pool. A band can be purchased from Marcia for \$5. We assign an experi-

enced member to a newcomer to help with learning the various movements. You will get a good workout in a fun class.

Please ensure you have medical clearance to participate in vigorous physical activity prior to joining.

Pilates

Mary Ayers 520-638-7916 scov.pilates@gmail.com
Mon., 3 PM, Thu., 1:30 PM, AFC/Studio

Forty years after Joseph Pilates' death, his system of exercises is still in high demand. Fortunately, SCOV offers his mat Pilates classes twice per week, Mondays and Thursdays. Summer is here, and classes are smaller and more personal. First, basic stretching exercises are done for warming up, and then the mat routine is performed with modified moves for those of us with limitations. People ask, "Can the benefits of the Pilates method, which come from strengthening and stretching exercises, really develop the body's core (abdomen and back muscles), increase spine mobility and build flexibility?" The answer is a firm, "Yes." The benefits achieved in our classes cannot be beat and don't forget about improved balance, muscle tone, stamina and well-being. The cost is only \$8/class, and annual club dues are \$20 pp. Please join us or just stop by and watch. Call Mary.

POP Tennis Secretary, Joan Morris, enjoying the game. Photograph by Mark Wheeler.

A little POP Tennis history. Paddle Tennis, now called POP Tennis, was created in 1898 by Reverend Frank Beal as an activity for children learn to play tennis. The initial court was 18' by 39', half the size of a tennis court. They used a sponge-rubber ball and a short handled wooden paddle that allowed the children to pick up the game quickly, preparing them for regulation tennis. In 1922 the first Paddle Tennis tournament was held in New York City. The game was quickly picked up

by adults during the late 1920s and 1930s. It spread to other cities like Los Angeles. By the 1950s the game's popularity grew, especially on the west coast, and tennis players such as Althea Gibson and Bobby Riggs were playing Paddle Tennis and competing in tournaments.

RV Club - Sundowners

The Sundowners RV Club held our annual Catalina State Park get together April 10. Everyone had a wonderful time around the campfire listening to songs and swapping stories of the season's adventures. The next day many headed north to Utery State Park in Mesa, AZ. to enjoy the sights and sounds around town. Of particular note (pun intended) was visiting Organ Stop Pizza in Mesa, not only to enjoy great pizza but to experience the world's largest Wurlitzer pipe organ in action. Wow!

The Sundowners also enjoyed a quieter but just as exciting birding trip April 16-20 to Portal and Rodeo, NM. Our 24 travelers were rewarded with 92 species and a total of 105 for those who extended their stay.

If you already belong to the Sundowners RV Club, check out the members only portion of our website for the new section posting trip reports with pictures of recent outings.

For nonmembers, check out the public view portion of our website at the above URL for just a peek at some of what we have to offer. Then, call Bill or Brad at the above number(s) for an invitation to our next meeting October 8.

Wheels for Kids is a 501(c)(3) charity dedicated to providing rehabbed bicycles for kids in need in the Tucson area. To date, we've provided over 2,200 bikes to various other 501(c)(3) charities who then distribute the bikes to their clients. Some of our partner organizations are Youth on Their Own, El Grupo, Refugee Focus and Tucson Boys and Girls Club. Wheels for Kids is a total volunteer effort, and we need mechanics. If you are interested, we'll train you. Visit our website for more information and how to donate bikes or financial support. Help kids experience the same joy you had when you got your first bike.

Aluminum Can Collection Update

On May 15, 580 pounds of aluminum cans were taken to the scrap yard. We received \$0.43 per pound which converts to \$249.40 for the trip. Fiscal year-to-date, we have delivered 3,780 pounds of material and received a total of \$1,578. As you should be aware, this primarily is used for purchases in the Loan Room.

Thanks go to Jim Wisda, driver, and unloading helpers, Dave Flatness, Jeff Lawyer and Dave Johnson.

Thanks again to all volunteer on our recycling program.

Residents: please put only rinsed aluminum cans in the collection bins. Volunteers are finding trash in the bins which has to be sorted out before the cans are delivered to the scrap yard.
